The mystery is soon solved, the heroes rush upon the foe and find that the ladies are intimate friends of some of the party, and the very ladies to whom the scared cavalier of a few evenings previous related his thrilling adventure. Practical jokes of this kind should not be indulged in to such length. Disastrous consequences have often been the result. The leader of the panther gang is a lady of the highest respectability in Roxborough.

OFFICE OF THE PHILADELPHIA GAS WORKS, August 12, 1864.—At a meeting of the Board of Trustees of the Philadelphia Gas Works, held on the 8th instant, the following preamble and resolution were adopted:

Whereas, The great advance in the cost of living imposed an imperative duty on the Trustees to advance the wages of their employees; and whereas, the cost of coal and all other materials consumed in the manufacture of Gas have advanced to a price that compels the Trustees, in order to protect the important trust committed to their charge from serious loss, and to make the annual addition to the Sinking Fund required by law, to advance the price of Gas fifty cents per thousand cubic feet.

The Trustees are aware that the increased price will prove a burden to many consumers, and they greatly regret the necessity that compels them to impose it; but they feel that the consumer reflects that nearly every article we purchase has advanced from 50 to 100 per cent., and we propose but an advance of 16⅔ per cent. on the main article, upon which we rely for revenue, its necessity must be apparent, particularly when the operations of the past year are known to have resulted in a large loss to the Trust, notwithstanding our then existing contracts enabled us to purchase coal and materials at very moderate prices; be it therefore

Resolved, That the Chief Engineer be directed to give public notice that on and after the first day of September next the price of gas to private consumers shall be fifty cents per thousand cubic feet, less a discount of three dollars per thousand cubic feet, and subject to the 5 per cent. for prompt payment, and subject to the United States tax.
THOMAS S. STEWART,
Chief Engineer.
