STILL ANOTHER CERTIFICATE.—UNSOLICITED testimony in favor of the "LONDON HAIR COLOR RESTORER AND DRESSING:"

I have used the "*London Hair Color Restorer and Dressing*" with such marked and extraordinary effect that I deem it my duty, and take great pleasure in giving a statement of the result. My hair was very gray, and through its use was soon restored to its natural color; and the hair, which was before dry and harsh, now became soft and glossy, ceased falling, the dandruff disappeared, and the scalp became perfectly healthy, and at this time the hair is *fully restored to its original dark color.* It is a beautiful preparation, cleanly and delicately perfumed; just what has long been needed. I cheerfully commend its use to all who are desirous of having a beautiful head of hair.

MRS. MARY KLINE.

CHAMBERSBURG, Pa., Sept. 20, 1864.

This astonishing preparation positively restores gray hair to its original color, health, lustre, softness, and beauty; cures dandruff, itching, all cutaneous eruptions, causes the hair to grow where it has fallen off or become thin. Price 75 cents per bottle; six bottles for $4. Sold by Dr. SWAYNE & SON, 330 North SIXTH Street. 1t

IN MEMORIAM.

Died, on Friday, the 16th inst., after a brief illness, Mrs. Phebe M. Hicks.

A loss that can never be forgotten nor replaced—a bereavement that evokes the sympathies of many hearts, while it leaves one heartstone desolate—but bean sustained in the death of this estimable lady. One whose heart was full of gentleness and love, and living christ-like; whose eye ever beamed with a kindly smile; whose ear ever turned to the voice of want and suffering, and whose hand never wearied of good offices to the needy and the helpless; has gone from us forever. A faithful wife, a devoted mother, a true and constant friend, a tender sympathizer and consoler in the hour of affliction, has joined the innumerable throng who have put aside mortality for immortality.

Such virtues as have graced her life well fit her for translation to a better sphere, and while we mourn, our mourning mingles with its bitterness some touch of consolation. To all who had the privilege to share her friendship, her many charms have called up a suggestion of what true womanhood should be, and her life has come very near to a realization of the poetical ideal:

"A perfect woman, wholly planned
To warm, to comfort, to command;
And yet a spirit still, and bright,
With something of angelic light."

Her holy influence still abides with those she leaves behind to mourn her. Her counsels and exemplary ways have not gone down to the tomb with her, but survive to keep her memory a green and holy inspiration for a deeply sorrowing household. M.

PROSPECTUS OF THE
OLD BURNING SPRINGS OIL COMPANY
OF WEST VIRGINIA.
CAPITAL STOCK, ONE MILLION DOLLARS.
100,000 SHARES OF STOCK.
$25,000 RETAINED IN TREASURY FOR DEVELOPMENT FUND.

DESCRIPTION OF PROPERTY.

NUMBER I.
Four or five acres in fee with celebrated GRACY WELL, producing ten barrels, with engine, &c.

NUMBER II.
Four or five acres in fee with one well on it with oil unworked. Leesees went into rebellion.

NUMBER III.
One-half of fee of *well* leased at one third of oil in iron-bound barrels; a producing well, about three acres; say about eight barrels.

NUMBER IV.
One-third interest in three and a half acres in fee with the old *Rathbone flowing well* on it, belonging to the land.

NUMBER V.
About six acres in fee; no well.

NUMBER VI.
About three acres in fee, no well.

NUMBER VII.
Three acres in fee at UPPER BURNING SPRING, with the McLean well on it; worked in halves; fifteen barrels.

NUMBER VIII.
Five acres in fee; no well.

NUMBER IX.
One-half of three hundred and twenty one lots each, ten rods square, making in all one hundred and five acres, lying on the BURNING SPRING RUN between the tracts of the Rathbone land. Immediately above and below it are the best producing oil territory of BURNING SPRING DISTRICT.

NUMBER X.
Ninety acres, undivided half owned by the New York Company; very promising tract; well containing oil two hundred feet deep, was bored in 1861; party boring then went into rebellion. This tract adjoins the Rathbone Burning Spring Lands.

NUMBER XI.
BIERNAM CENTRE WELL.
Three-quarters interest; lease of about two acres; twenty years; subject to one-third Royalty; one of the best locations for oil; it has twenty-two rods front on River Kanawha—the best wharfage to be found (a very important point), two tanks, one of two thousand barrels in ground, one of twelve hundred barrels on ground, two dwelling-houses, a large stable, a fine fifteen horse-power engine, one well producing about two hundred barrels a month, two wells being bored one hundred and seventy feet each, with rigging attached to engine, tubing, &c.

These lands are situated adjacent to the OLD BURNING SPRINGS, Wirt county, Virginia, and front upon the little Kanawha river, with good wharfage. From this point the oil can be shipped to Parkersburg, on the Ohio river, for fifty cents a barrel, by the river.

These lands are adjacent to the tract recently sold to the "Burning Spring Petroleum Company," of New York, whose capital is five million dollars, and are nearly equal in productive value to the New York Company's land, and in prospective value are believed to be in no way inferior.

Several of these Burning Spring Wells were first bored in 1861, and then continued at a depth of two hundred to three hundred feet as much as *four hundred* barrels per day. They were abandoned on the breaking out of the rebellion. The restoration of order has caused capitalists to look to this section. This is undoubtedly the best oil region in Virginia, as can be ascertained by inquiry of any one familiar with that section of country.

While these wells at from two hundred to three hundred feet deep are now yielding from twenty to thirty barrels per day, it has been demonstrated that by boring them to the depth of five hundred to seven hundred feet the third sand stone will be reached, as was done at Oil City, and a large and constant supply of oil obtained. It is proposed by this company to expend *twenty-five thousand dollars* in sinking wells under the superintendence of a reliable engineer, the present wells deeper, and a number of new ones to a still greater depth.

The projectors of this company court the fullest inquiry and investigation as to the location and character of these lands.

The production of imperfectly developed wells now on these lands, would probably afford an immediate dividend of *one per cent. a month*, on a capital of *million dollars*, but no especial reliance is based upon the present production of badly bored and neglected wells, but upon the future development of what is believed to be the most promising tract next to that owned by the celebrated Columbia Oil Company on Oil Creek.

The lands will be purchased, and $25,000 retained in the treasury as development fund, so that further assessments for developing will not probably be required.

Ten Thousand Shares of this Stock will be offered at Five Dollars per share, at the office of
CLARKSON & CO.,
131 South THIRD Street,
opposite the Girard Bank, on and after WEDNESDAY, September 21, 1864 where a map can be seen and further particulars given. se21-3t*
