Miners' Journal.

POTTSVILLE, PA.

SATURDAY, SEPTEMBER 4, 1858.

☞ The circulation of the MINERS' JOURNAL is equal to the aggregate circulation of any THREE other English papers published in the County—and as it circulates among the best portion of the population, an advertisement inserted in its columns is, of course, worth as much to the advertiser as if published in any three other papers. In our cities the rates of advertising are always graded in price according to the circulation of the paper.

New York.—O. H. PROTT, Room No. 2, 110 Broadway, New York, is authorized to receive subscriptions and collect bills for the MINERS' JOURNAL, in New York and vicinity.

SINGLE COPIES of the MINERS' JOURNAL can be obtained every SATURDAY, at
MRS. THURWELL'S Bookstore, Minersville.
MRS. HOLMES'S Bookstore, St. Clair.
E. R. BRECKENS'S Bookstore, St. Clair.
MRS. HOLMES'S Bookstore, Ashland.
☞ The MINERS' JOURNAL is furnished to carriers and others who desire to sell again, at 3 cents per copy for 10 copies and upwards.

Campaign Subscribers.

WE will furnish the MINERS' JOURNAL from to-day until the election, at the following rates, payable in advance:

1 copy,	40 cents.

People's Ratification Meeting!

The People of Schuylkill County favorable to the People's Ticket formed in Schuylkill Haven, on Monday last, are requested to meet in County Meeting, at the Court House, in Pottsville, on TUESDAY, September 7, at 1 o'clock, P. M., for the purpose of expressing their sentiments and ratifying said nominations.

☞ The meeting will be addressed by BENJAMIN HAYWOOD, JOHN BANNAN, LEN. BARTHOLOMEW and JACOB A. HAZEN, Esqs., and by the Hon. JAMES H. CAMPBELL, ROBERT M. PALMER, Esq., and others.

CHAS. FRALEY, *Chairman.*
L. BARTHOLOMEW, } *Secretaries.*
J. W. HAAS.

THE papers of New York and Philadelphia have during the past two days, been filled with accounts of the great telegraphic celebrations in their respective localities on Wednesday. There were, in brief, grand military displays, magnificent illuminations, blazes of fireworks, flashes of lightning, eloquent orations, impressive prayers, and so on *ad infinitum*. Everything passed off in a satisfactory manner, to the infinite delight of "everybody and his wife." The jam in New York may be imagined from the following spasmodic description by a visiting reporter:—

New York, Sept. 1.—Arrived this morning—city swarmed—hotels filled—floors covered—not a vot to be had—flags streaming even from church steeples—military assembling—business suspended—ceremonies commencing—Broadway thronged. P. S.—Taken lodgings in telegraph office.

CAMP SUSQUEHANNA.—The following is a list of those volunteer companies that have given official notice that they will be present at Camp Susquehanna:

Allegheny county, Duquesne Grays; Berks county, Rifle Rangers; Blair county, Tyrone Artillery; Centre county, Bellefonte Fencibles; Clinton county, Lock Haven Artillery, Loganville Artillery, Keystone Infantry, Nittany Blues, Waynesburg Brass Band; Franklin county, Wayne Rifles, Chambers' Artillery; Fulton county, National Guards; Lehigh county, Allen Rifles; Lycoming county, Muncy Rifles, Independent Dragoons, Ringgold Artillery, 1st Lycoming Troop, Woodward Guards, Williamsport Brass Band; Montour county, Columbia Guards, Montour Rifle company, 1st Danville Troop; Snyder county, Freeburgh county, Freeburgh Guards, Pollock Guards; Emmett Guards.

LEAD MINES IN NEWFOUNDLAND.—Eighteen miles from the telegraph house on the land of the Atlantic Telegraph Company, is a very productive lead mine, which has been sold by the Company to other parties for $200,000. It is being worked very successfully, the lead being shipped to New York and Liverpool.

THE COAL TRADE.

Pottsville, September 4, 1858.

The quantity sent by Railroad this week is 34,907 05—by Canal 41,488 11—for the week 76,395 16 tons.

The trade from this County shows a falling off of 1,578 tons since last week, and is 3,595 tons less than for the corresponding week last year.

We are sorry that we cannot notice any improvement in the trade. At some points there is a little demand, but generally speaking, the trade is a shade duller than usual, and prices remain very low. The lower rates of cotton, and the cleaning out of the market of the lower priced Cotton Goods, has enabled the Cotton manufacturers to go to work again in this country, but at much reduced wages. In some other branches of trade there is a little better feeling, but extreme dullness seems to characterize both the Coal and Iron Trade in this country and also in Europe.

The trade sums up this week as follows:

Schuylkill—	1857.	1858.	Dec.	Inc
Railroad,	40,992	24,907	5,185	
Canal,	39,402	41,489		2,087
Lehigh—Railroad,	10,180	8,704	1,476	
Canal,	22,572	20,996	1,286	
Del. & Hudson Co.,	20,493	14,576	5,917	
Penna. Coal Co.,	30,061	no report.		
Scranton, South,	7,731	11,458		3,727
	150,268	142,120	12,962	5,814
	142,120		5,814	
Decrease, tons,	8,148		8,148	

Loss for the week 8,148 tons, independent of the Pennsylvania Coal Company, no returns having been received.

At some points we learn that consumers are delaying their purchases expecting still lower prices. We hardly think it possible that prices can fall below the present rates—and as only about two and a half months of the season can be relied on for supplies by the Canals, a demand may be caused towards the close of the season, that will run up both prices and freights.

Messrs. Johnson & Thompson, formerly from Tamaqua, have leased the Mines of the Short Mountain Coal Company. Nearly all the Incorporated Coal Companies find it to their interest to cease mining as companies, and lease their works to Individual Operators.

The rates of toll and transportation on Coal from the different points on the Northern Central Railroad, as published in the JOURNAL, are correct. They were furnished to us by an officer of the Company.

The Nova Scotia papers complain of the dullness of the Coal Trade of that Region—the shipments having fallen off largely compared with last year. This appears to be a general complaint from all quarters. The Cleveland *Commercial Gazette* says, that the Coal Trade continues dull. Our railroads continue to bring it in, and most of it is shipped for different points on the Lakes. A large reduction in price has taken place here, and also in the markets in Pennsylvania.

PHILADELPHIA COAL MARKET, Sept. 3, 1858.—The following are the cash prices for Coal by the cargo:

Schuylkill W. Ash L.,	$3 20 @	$3 30
" Broken and Egg,	3 20 @	3 30
" Red Ash Lump,	3 45 @	3 60
" Broken and Egg,	3 45 @	3 60
" Stove,	3 30 @	
Lehigh, Lump,	3 50 @	
" Broken and Egg,	3 50 @	
" Stove,	3 62½ @	

By retail from yard, Chestnut $3 00 @ $3 25, Nut $3 25 @ $3 50, prepared $4 00 @ $4 50.

NEW YORK COAL MARKET, September 4, 1858.—The demand for Domestic continues active; the local trade are busy supplying their customers with their Winter's stock; prices favor the buyer. The arrivals have been large, the weather mild, and the condition of the railways and canals proving every way favorable. The Eastern demand has continued active; sales by the cargo at $3 50 @ $4 15 from yard, and $4 00 @ $4 75. In Foreign we have little change to make and few sales to record.—*Tribune.*

NEW PATENT WATER-WHEEL.

THE undersigned are manufacturing a new kind of Water-Wheel, patented May 11th, 1858, by J. H. Fairchild, of Vermont. It involves an entirely new principle of calculating power, and of controlling the water by which we obtain a greater maximum power than is afforded by any other advantages of this Wheel now in use. Some of the advantages of this Wheel are:

1st. We obtain the *entire weight* of the water, and have the advantage of the full head and fall, from water to tailrace.

2d. There is less dead weight to move, the wheel and shaft weighing less than 150 lbs.

3d. It surpasses all other wheels in motion, velocity and power.

4th. It is perfectly under the control of the workmen—either when used to drive a large or small amount of machinery—as the strength of the wheel is not diminished by reducing its motion, since it depends upon the weight of the column of water before the wheel, which always remains about the same.

5th. It occupies less space than any other wheel. It is placed inside the flume, and rests on the surface of the water and is never affected by frost.

6th. The wheel is very durable, being made of iron, and can be put in any place and attached to saw Mills, Grist Mills and machinery of all kinds with less expense than any other wheel, the velocity of the wheel is such that the expense of gearing up is avoided for nearly all purposes.

Together with the advantage above stated, we by rent to interested parties the Wheel to possess power equal to the following figures, for each foot fall of water:

9 inch wheel	" "	66.100 horse power.
10½ "	" "	1
12 "	" "	1.24.100 "
13½ "	" "	1.66.100 "
15 "	" "	2
16½ "	" "	2.48.100 "
18 "	" "	2.96.100 "
19 "	" "	3.36.100 "
21 "	" "	3.70.100 "
22 "	" "	4.44.100 "
24 "	" "	5.40.100 "
26 "	" "	6.24.100 "
28 "	" "	7.56.100 "
30 "	" "	8.64.100 "

Wheels of the above sizes can be constructed so as to perform 3,000 revolutions per minute. When sold, are complete with gate, pully and shaft, so that the purchaser need only fix to the flume, which can be done by one man in two or three days.

The lenders guard will put them in any place at their expense, and if they do not perform as above, will take them out and make the flume as good as before the wheel was put in. The Wheels can be altered at a less price, than any other wheels now in use. Troy, August 25th, 1858.
