MERCANTILE LIBRARY COMPANY, PHILADELPHIA, Feb. 5, 1865.

The Annual Election for Officers for the ensuing year will take place on TUESDAY, 21st inst., at the LIBRARY ROOM. Polls open at 4 P. M., and close at 5 P. M. JNO. A. MCALLISTER,

fe7-13t Recording Secretary.

THE NEXT DRAFT.—CITIZENS' SUBSTITUTE REPRESENTATIVE AND VOLUNTEER AGENCY.—We beg leave to call the attention of those who are drafted, and those who are enrolled and liable to military duty, and also that class of persons who are not liable to draft (ladies, and gentlemen over forty-five years), to our agency for procuring substitutes and volunteer representatives. Persons should attend to this important matter at once, as the draft has been fixed for the 10th of February next.

We are doing a strictly legitimate business; we are furnishing men not liable to the draft as substitutes and representatives, as low, if not at lower prices, than any other agency in Philadelphia. The law allows us to put substitutes in the Navy or Marine Corps, to be credited to any district in the State where the principal resides.

To facilitate business, if persons living in or out of the city, who are enrolled, will furnish us with a certificate of their enrolment from the Provost Marshal of their district, they can have substitutes sworn into either branch of this service, which will fully exempt them from draft.

References can be given to ladies and gentlemen in this city for whom we have done business in this line, and also in the following counties: Chester, Delaware, Montgomery, Berks, Bucks, Schuylkill, and Northampton.

N. B.—Churches and Clubs furnished at the *lowest* possible prices. Liberal arrangements made with Township Committees to fill quotas.

Call or address McNALLY & PAXSON, & CO., 411 CHESTNUT Street or Box 2077 Philadelphia Post Office.

fe6-6t

SIXTH WARD.—THE ATTENTION of the enrolled citizens of our Ward is particularly called to the following preamble and resolutions, passed at the meeting of the Bounty Fund Committee on Saturday evening, the 4th instant:

Whereas, Heretofore the burden of filling the quota of the Sixth ward has fallen upon the few, many enrolled men, liable to draft, having entirely ignored their duty in failing to aid in subscriptions or work whom we know to be liable, but have depended upon those who have given their time and money to save them from conscription; therefore,

Resolved, That it is the sense of the Sixth Ward Bounty Fund Committee—

First, That an assessment of $25 be laid upon every enrolled man liable to draft in the Sixth ward.

Second. That the Secretary be instructed to prepare a list of all who will pay $25 tax, and in the event of our failing to fill the quota of the ward by the time the draft takes place, then that *special amount* shall be divided among those who may be drafted, but in no event shall it be used to procure exemption, or a substitute for those who refuse to pay the above tax.

The Committee will meet on THURSDAY EVENING next, the 9th inst., at 7 o'clock, at the School House, in CROWN Street, when they expect a full attendance of all interested. Those who wish to subscribe will please hand their subscriptions immediately to the Treasurer, WM. H. BARNES, No. 37 NORTH THIRD Street, or the Precinct Committee, who are earnestly requested to continue their labors and report on Thursday evening next

The present and prospective value of the stock of this Company may be inferred from the fact that it owns a fee simple interest in 473 (four hundred and seventy-three) acres of the richest-tested oil territory in Venango county, believed by the most experienced oil men in that region to be capable of producing a new oil well income to the Company of one and a half million dollars, or it has times the entire cost of the stock, which would be equivalent to a twenty five per cent. a month on its subscription price, or *one hundred and fifty per cent. per annum on its par value.*

The following is a description of the Company's property:

One-fourth fee simple interest in the celebrated "Hoover" Farm, situate on the Allegheny river, about two and one-half miles below Franklin, containing 232 (two hundred and ninety-two) acres, with 332 rods (or over one mile) front on the Allegheny river, on which there are now twelve leases, each ten rods square, and from which the owners of the leases get one half the oil, free of all expense. Besides this, there are two wells owned by the owners of the fee, from which they get all the oil.

On this Farm there are now ten wells in operation, producing an average of ten barrels per day, and several others are about being tubed. There are also on it (87 (eighty-seven) more lots surveyed, and more than fifty applications are now standing to lease the latter for one-half the oil to the owners.

Out of the twelve wells on this Farm *eleven* are now paying handsomely: a fact sufficiently demonstrates the great richness and reliability of the territory.

No. 2

Is the *entire fee simple* interest in 161 (one hundred and eighty-one) acres, situate on the Allegheny river, nearly opposite the "Hoover" Farm, and a little nearer Franklin, at the mouth of Mill Run, have 40 rods front of 96 rods on the Allegheny river, and one mile on both sides of Mill Run, with ample boring surface for *one hundred wells*, or Lots of ten rods square. This tract is known as the "Stewart Farm," and is clear of all leases or incumbrances of any kind.

There is now in operation a fifty-barrel well (beside several smaller ones) on the Cochran Farm, which adjoins this on the south. In fact, the "Stewart" Farm is *surrounded* with good-paying wells, and within a short time a single lease of 80 rods front, on the immediate opposite side of the river, sold for $165,000 (one hundred and sixty-five thousand dollars). On this lease a good well has been struck within a few days.

In addition to the territory of the "Stewart" Farm, which is believed to be equally as good as the "Hoover," there are on it a three-story Flour Mill, with fine water-power, a good farm-house, and other buildings, but will be of use to the company.

The *durability* of this immediate oil section is illustrated by the fact that some of the wells on the "Hoover" Farm have been pumping for over four years, without any material diminution in their yield, while the oil here produced is of the very best commercial quality, transportation and superior gravity, always commands from one to two dollars per barrel more than the oil of Oil Creek.

The officers of the Company feel justified in presenting the following estimate of what, with vigorous management, the above lands can be made to yield for the benefit of the stockholders in a comparatively short time:

THE "STEWART FARM."

There is room on this for one hundred lots of ten rods square, all of which can be leased immediately for one-half the oil, *free of all expense to the Company.*

Estimating one well to each lot (one hundred wells, although there have been as many as four at the very moderate average of *ten barrels* each, would make a Daily product of..... 1,000 bbls.

Out of this the Company's share would be..... 500 bbls.

Value of daily yield to the Company, at ten dollars per bbl (it is now selling at $13.50)..... $5,000 00

Allowing three hundred working days to the year, this would make the Company's annual net receipts, from the Stewart Farm alone..... 1,500,000 00

Allowing the same estimates for the "Hoover" Farm, in which the Company owns one-fourth in fee of the land interest, the annual net receipts from the latter would be..... 375,000 00

Making the annual receipts from both Farms..... 1,875,000 00

Deducting from this amount the sum of $75,000 for contingencies, would leave the

Net Annual Income of the Company..... $1,800,000 00

ALL THESE LOTS CAN BE IMMEDIATELY LEASED, if it is deemed expedient, at a royalty of one-half the Oil, with covenants binding lessees to sink wells, with all possible diligence, to the depth of 500 or more feet.

A FEW PLAIN WORDS TO SUBSCRIBERS.

You are not asked to subscribe to this Stock with the expectation of *immediately* receiving large *dividends*, but the basis on which the Company rests, it is believed, will make your investment not only *safe*, but, prospectively, of *enormous value.*

Notwithstanding, at the present prices of oil, the Company's annual receipts (without any further development) would be forty thousand dollars, or eight per cent. on the cost of the stock.

The President, Mr. Stewart, is one of the most practical and experienced oil operators in the State, and his residence near the Company's property and general oversight of its management is the best guarantee that no efforts will be spared to make the investment profitable.

Applications for a large proportion of the stock have already been made, but none will be received until the books of the Company are regularly opened for that purpose.

Only a limited amount of the stock will be sold at subscription price.

The stock will be issued full paid, without further assessments.

BOOKS OF SUBSCRIPTION will be open for a few days, on and after January 18, 1865, at the office of
