THE warm weather of the week broke up the ice in the Hudson River, and the damage to property at Albany, has been heavy.

A PENNSYLVANIAN COMPLIMENTED.—Gen. Scott regards Lieut. Slemmer as worthy the highest praise for his courage and military talent recently exhibited.

KANSAS' SENATORS.—The Legislature of Kansas has postponed the election of two United States Senators until April next, and in the meantime a new Assembly will be chosen.

ABRAHAM LINCOLN AND HANNIBAL HAMLIN have been declared President and Vice President of the United States, in presence of the assembled Houses of Congress. Thanks to the precaution of Gen. Scott, the inauguration will be quite as peaceful.

THE President has issued a proclamation stating that *objects of interest* require that the Senate should be convened at 12 o'clock on the 4th of March next to receive and act upon such communications as may be made to it on the part of the Executive.

OUR subscribers will note that the date opposite the name on our mailed papers, is the time up to which the subscription is paid.—This affords a good receipt as a person could wish. We allude to this for the information of those who think it necessary to have written receipts for paid subscriptions. The new system in reality, obviates this. It is simple yet efficacious.

95TH AND 96TH SECTIONS.—A petition has been presented from Schuylkill county asking a repeal of these Sections in the Penal Code, by the Legislature. The petition does not represent the wishes of the people of Schuylkill county. A portion of the Sections might be modified to make them less objectionable, but no thinking, honest man desires their repeal, and we hope our Representatives will act accordingly.

THE OUTRAGE AT SAVANNAH.—The outrage upon the British Captain at Savannah has been brought to the notice of the Government in a dispatch from Lord Lyons. The facts are, that a black stevedore was employed to load the British ship, and the Captain invited him to dine during the interval. The chivalry took exception to this hospitality, and manifested their indignation by delicately tarring and feathering him.

THE TARIFF IN THE SOUTHERN CONFEDERACY.—The incorporation of the Tariff principle in the Constitution of the Southern Confederacy will destroy it in the estimation of some of its best friends. Free trade and African slave trade were the doctrines upon which it started out, and when they are ignored, the whole scheme fails. The managers were afraid of direct taxation, and therefore surrendered their vital principles.

WASHINGTON'S BIRTH-DAY.—Friday next will be the anniversary of the birth-day of the Father of his Country. It is gratifying to perceive that throughout our country, wherever the deeds of that purest patriot are cherished as a princeless heritage, the day will be observed with spirit. At our State Capital, at Philadelphia, in Pottsville, and in fact, everywhere in the State, there will be celebrations. In this Borough an American Flag, with thirty-four stars upon it, will be hoisted on a staff placed in front of the Court House, during the firing of a salute. There will be a procession, in which the military, firemen and civic associations will participate. An oration will also be delivered. As this will be a County celebration, we have no doubt it will be an imposing affair. We hope that this will be but the commencement of an appropriate yearly celebration in this County, of the hallowed anniversary.

THE Washington correspondent of the New York *Tribune*, writes as follows:

THE PENNSYLVANIA COMMISSIONERS.—Messrs. McKennan, Loomis, White, Pollock, and Franklin of the Pennsylvania Commissioners, are for compromise. Messrs. Wilmot and Meredith are disinclined to any abandonment of the Territorial principle, but are disposed to adjust all other questions in dispute liberally. Mr. White, who represents the State on the Committee, has declared his readiness to make almost any concession.

Poor Pennsylvania seems to be cursed with "weak kneed" men everywhere. We should have supposed that the shameful imbecility of the O. P. F., would have strengthened the knees of the most arrant coward in Christendom.

THE OBJECT OF SECESSION!
To Frighten Northern Doughfaces!
ADMITTED BY SENATOR GREEN!

Senator Green of Missouri, in his speech, on Tuesday, let the cat out of the bag. He bemoaned the recent action of Virginia and Tennessee, and said if they and the other Border States had gone with the Gulf States in the Secession movement, they could all have got just such terms from the Northern Doughfaces and Commissioners as they chose to dictate. He subsequently admitted that Secession was a mere political scheme to frighten the Free States into submission to the slaveholders' programme. But he feared the plan was frustrated.

THE CONSTITUTION AND THE LAWS.

The following petition drawn up by a Workingman of this Borough, is now in circulation:

To the Honorable the Senate and House of Representatives, in Congress assembled:

The undersigned, citizens of Schuylkill County, Pennsylvania, respectfully represent to your honorable bodies, That the Constitution as made by the Fathers of the Republic, contains all guaranties for the peculiar interests of every State to which they are entitled—That any attempt to amend the Constitution, looking to the express recognition of Slavery in the fundamental law, is a departure from the original spirit of that instrument, and dangerous to the maintenance of liberty. We, therefore, pray your honorable bodies to uphold the Constitution as it is, by enforcing the laws of the land, and to assert the Reality and Existence of the Union, by using her powers to be a protection to the loyal citizens, and a punishment to traitors and their abettors.

Printed copies can be obtained at the office of the MINERS' JOURNAL, for obtaining signatures.

CONGRESSIONAL.

In the Senate on Tuesday, Mr. Sumner spoke against the Crittenden resolutions, and after some discussion between him and Mr. Crittenden, the subject was postponed and the Navy bill was taken up. On this head Mr. Green, of Missouri, delivered a Secession speech of the most approved kind. The bill, however, was passed by 27 yeas to 17 nays.

In the House on Tuesday, Mr. Sherman asked leave to introduce a bill to enable the Secretary of the Treasury to accept from any State the surplus of any stock which may be issued by the United States to the amount of public money deposited with such State under the distribution act. The reason of introducing such a bill, was a letter from the Secretary of the Treasury to Mr. Sherman, setting forth that the Treasury must have $5,000,000 to meet the liabilities due and to fall due before the 4th of March, and that in the present condition of the country it would be advisable to endeavor to borrow the money in the above manner. Mr. Garnett opposed the introduction of the bill, and as an unanimous consent was required, it was not permitted to be introduced. The Report from the Special Committee on the Indian Trust Bond was then read. It is an exhibition of the greatest public robbery on record, and holds Floyd, the late Secretary of War, up to light, which must forever consign his name to infamy. The rest of the time of the House was taken up with the Senate amendments to the Pacific Railroad Bill.

RETIREMENT.—John Parker, Esq., retires from the editorial chair of the St. Clair *Sentinel*, and will in the future, devote his time entirely to the hammer and anvil, with which as he says, he has "always been able to earn an independent living." Mr. Atkinson retains control of the paper. We regret that friend Parker has been compelled to say "good bye" to the chair editorial, for he was always, a pleasant, genial and honest editor; the latter qualification being in our opinion, a special recommendation to the confidence of his patrons.

DONALDSON LITERARY ASSOCIATION.—The exercises of last Tuesday evening were, Reading by Geo. P. Owen, Subject—"Doesticks's Lecture on Cost of Lecturing at Sprogginsville." The question—"Which is the Stronger Passion, Love or Anger?" was warmly debated. Decision in the affirmative.

Exercises for Tuesday evening next, Reading by H. Stong; Question for debate—"Which has caused the greater Misery, Intemperance or War, to the Human Family?" Affirmative, Messrs. Jno. B. Wright, Griffith T. Jones and H. Stong. Negative, Messrs. Geo. P. Owen, W. T. Richards and Johnston.

[In the notice last week of the exercises on Tuesday, 5th inst., an error was made by the compositor. The question debated should have read—"Is an increase of *wealth* (instead of *wrath*) injurious to the morals and manners of a community?"—EDS. JOUR.]

See advertisement of Dr. Sanford's Liver Invigorator and Family Cathartic Pill, in another column.

COUGHS.—The sudden changes of our climate are sources of PULMONARY BRONCHIAL, and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. See advertisement. 49-6m

THE following complimentary notice is taken from the Missouri *Democrat*:

Immense amount of suffering relieved by taking McLean's Strengthening Cordial.—Since the 17th of August, the following cases have been reported cured:

105 persons have been cured of General Debility.
68 persons have been cured of Nervous Debility.
28 persons have been cured of Diseases of the Kidneys.
180 persons who have been afflicted with various complaints, Fever, Chronic Diarrhœa, Dysentery, Liver Complaint, Night Sweats, Dyspepsia, and Weakness of the Digestive Organs, have been cured, besides a large number from whom we have not yet heard.

McLean's Strengthening Cordial and Blood Purifier is a remedy required by every one in the Western and Southern country. It is very pleasant and agreeable to take, and it can be taken by man, woman or child.

As a diuretic, it will cure any disease of the Kidneys or Bladder, and as an alterative, it will purify the blood, and remove all pimples, sores or blotches from the skin.

Try it—one drachm is sufficient to convince the most sceptical of its wonderful strengthening and invigorating properties.

THE COAL TRADE.

Pottsville, February 16, 1861.

The quantity sent by Railroad this week is 18,232 12 tons against 21,772 for the corresponding week last year.

The trade sums up this week as follows compared with last year:

	1860. Week.	1860. Total.	1861. Week.	1861. Total.	Total inc.
P. & R. R. R.	21,772	262,805	18,233	243,819	d18,986
L. Val. R. R.	14,208	135,872	13,968	138,961	3,089
Scranton S'th	12,977	66,055	10,567	65,351	d 704
Do. North	2,367	13,755	3,144	17,483	3,728
Broad Top	3,526	20,549	2,448	14,086	d 6,463
Shamokin	1,459	11,459	3,241	17,140	5,681
Treverton	1,358	5,849	842	5,225	d 624
Sh. Mt. H. T.	492	2,501	463	2,430	122
Lykens Val	413	2,845	521	1,889	954
	58,572	521,990	53,433	506,584	
	53,433	506,584			
	5,139	15,106			

The trade remains without any change for the better. The quantity both for the week and the year is a little behind the corresponding period last year. Of course, all the Coal going forward is to supply immediate wants.

The different Carrying Companies, we presume, will again co-operate in fixing the rates of transportation for the present year. Of course, they will commence low and advance as the season progresses. This is the policy adopted by all the New York Companies. Last Year our Carrying Companies opened at rates higher than the New York Companies did, and deprived the Schuylkill dealers from securing contracts with owners of steamboats and the heavy manufacturers in the early part of the season. This ought to be guarded against this year in fixing the opening prices. This is important.

But little preparation is making for this year's business. All are waiting the action of Congress on the Tariff Bill. If that passes, a re-action will take place, and the work of preparation at the Collieries will be pushed forward with great activity. The Iron Trade, on which the prosperity of the Coal Trade so much depends, is in a very depressed condition, which, together with the difficulties of the South, has tended to make all those engaged in the Coal Trade cautious, and the preparations making for the coming business are more limited than usual.

The Pennsylvania Coal Co. has declared a semi-dividend of 3 ℔ cent.

The Coal Markets remain without change.

FARMERS ATTENTION!
JOURDAN'S
Ammoniated Super-Phosphate of Lime.
ONE of the best fertilizers in the country. The manufacturers claim for it, a permanent manure and the greatest benefit often reaped from the soil the third and fourth year after sowing. It will cover 20 per cent more ground, acre for acre, with the same benefit to the soil, than any other article in market, for the truth of which read the following certificates from good reliable parties known in the county.
No loss of strength sustained from exposure to the air. Call upon the agents, STICHTER & THOMPSON, and get a pamphlet with experience, use and application to crops.
Price, $48 Per Ton.

Washington Township, September 21, 1860.
Messrs. STICHTER & THOMPSON—GENTS:—In answer to your inquiry as to my opinion of Jourdan's Ammoniated Super-Phosphate of Lime, permit me to say that I have been using different phosphates for the past ten years, and I will give Jourdan's so far as I have used it, the preference over all others in market. I put it this year on corn and buckwheat, with good results, and consider it the cheapest I have ever used; the same weight going over one-fifth more land than any other, with the same benefit to the soil. I am now using it for wheat and rye. Some of my neighbors have used it this year with entire satisfaction.
Yours Respectfully, EVAN J. THOMAS.

Washington Township, September 20, 1860.
Messrs. STICHTER & THOMPSON—GENTS:—It affords me much pleasure to say that I have used phosphates of different kinds for 8 years. Have bought and used a good many tons of Allen & Needles, and used a great deal of it. Was induced from the appearance of my neighbors' crops to try Jourdan's Ammoniated Super-Phosphate of Lime, and this spring used it upon garden truck with great satisfaction. From what I have seen of Jourdan's phosphate, I give it the preference over all others, which has prompted me to use 1½ tons this fall on my winter grain. From the nature and composition of Jourdan's phosphate, I find that 200 lbs of it will go as far in sowing as 250 lbs of any other article with equal results, and recommend it to all who want a good article.
Yours Respectfully, JOHN CONNARD.

Wayne Township, September 16, 1860.
Messrs. STICHTER & THOMPSON—GENTS:—We used part of the ton and a half of Jourdan's Ammoniated Super-Phosphate of Lime this spring, to put in with oats, on very poor soil, and the result was astonishing. We can say with confidence that the increase of quantity from the application of your fertilizer will amply pay us for the money paid for it. We have used a great many tons of Allen & Needles', and think yours preferable. It will go much further in sowing than any other we have ever used. This fall we put in our winter grain with Jourdan's phosphate. We also used part of it on garden truck with satisfaction.
Yours, CRESSMAN BROS.

Butler Township, September 8, 1860.
Messrs. STICHTER & THOMPSON—GENTS:—I used Jourdan's Ammoniated Super Phosphate of Lime, purchased of you last year, on my winter grain, red shale ground. This spring the field upon which I put the phosphate the grain was far in advance of my neighbors, with the straw green, strong and healthy. Upon cutting this fall I find the phosphate produced a fine crop of clover with the grain, which was entirely satisfactory. I want more and would recommend it to all who use phosphates, as a good article.
Yours, G. E. WILSON.

The undersigned Auditor discovered a mistake in their Published List of Balances due by the Collectors of Taxes of Schuylkill County. In said List, HENRY RUDY, Collector of the Borough of Cressona for the year 1859, is charged with a balance of $17 48 Militia Tax due the County.

This is to certify that the said HENRY RUDY had paid up his duplicate in full, previous to the publication of the Auditors' Report.

Postscript.

Saturday, February 16, 1861.

The President-Elect.

Mr. Lincoln reached Cleveland yesterday, en route to Washington. He was enthusiastically received at Cincinnati, Columbus and Pittsburg, where he made brief speeches, giving his views of the present agitation, and the proper remedies.

Secession Reacting at the South.

Washington, Thursday, Feb. 14.—Letters received to-day from the South give assurances of a reaction in the secession excitement, and state that hopes of an amicable adjustment of the difficulties are strengthened.—The exertions of the officers of the provisional government are expected to be given in favor of a settlement.

The Tariff.

There is good ground to hope for the ultimate success of the pending Tariff bill. It is said that the New York interest, which has been so clamorous against it, will accept the modification giving ninety days warehousing on all goods, and a year's storage on those withdrawn finally for foreign markets. If so much as this is yielded, the bill will pass.

The Inauguration.

Now, that the votes for President have been counted, there is a decided feeling of relief in many quarters, in which a certain degree of alarm was always entertained. This point being settled without any embarrassment whatever, all sense of apprehension concerning the inauguration is relieved, and the induction of Mr. Lincoln into office will follow naturally and easily.

What Mr. Lincoln is Going to Do.

A Springfield (Ill.) correspondent of the Boston *Advertiser* says:

I wish here to make a prediction—It is this: If any Southern State or mob take any fort, property, mint, guns, money, or what not, Mr. Lincoln will say to Gen. Scott, in sixty days after Lincoln fairly and firmly gets seated in the Presidential chair: "Gen. Scott, take that fort instantly at any and every hazard—at any and every cost of life or money. That is your duty, Sir, and I shall expect you to execute it."

Views of Hon. James H. Campbell.

"Independent" writing from Washington to the *North American*, under date of Feb. 14, says:

Mr. Campbell, of Pennsylvania, has just concluded an able and eloquent speech on the great and exciting question of the day. While he expressed his readiness to sustain all the constitutional rights of the South, he still considered our highest and first duty was due to the Union, the integrity of which he thought should be maintained by the whole power of the government. For this object he was ready to vote men and money. His immediate constituents would stand by the Union, the Constitution and the laws to the last extremity, and so, too, would the State of Pennsylvania. We will publish the speech in our next.

European News.

By the arrival of the steamer New York, at New York, we have received Liverpool dates to the 29th ult. The following is a summary of her news: The Italian Parliamentary elections had resulted favorably to the Ministry. Count Cavour is returned from Tourin, and Garibaldi and Gen. Fanti from Naples. Russia has ordered the formation of three corps d'armes on a war footing, and to be ready by the first of March. One is to be marched to the Pruth, and the second to the frontiers of Poland, and the third to be held in reserve. An important treasonable correspondence with Gaeta has been discovered. The bombardment of Gaeta continued, but the resistance of the garrison is growing feebler. The Paris *Patrie* denies that the Emperor is encouraging Denmark to resist the demands of Germany, or is organizing a fleet for the Baltic. The English news is not important.

The Peace Conference.

At Washington on Thursday night, the Guthrie resolution which provides that all the territory of the United States shall be divided by a line from east to west on the parallel of 36 deg. 30 min. north latitude; and in all territory north of that line involuntary servitude, except as punishment of crime, is prohibited whilst it shall belong to the United States or be under a territorial government; and in all territory south of said line involuntary servitude is recognised as it exists in the southern States of the Union, whilst such territory shall belong to the United States or be under the territorial government; and neither Congress nor the territorial government shall have power to hinder or prevent emigrants to said territory from taking with them persons held to labor or involuntary servitude, according to the laws and usages of the State from which such persons may be taken, nor to impair the right arising out of such relation, and be subject to judicial cognizance, was finally carried, with the proviso that no territory shall be hereafter acquired without the approval of three-fourths of the Senate.

Some of the details are as follows:

Congress not to have power to abolish slavery in any State, or in the District of Columbia without the consent of Maryland and Virginia.

The African slave trade is forever prohibited, and the paragraph of the fourth article of the Constitution is not to be construed to prevent any of the States from the enforcement of Fugitive Slave law.

The States formed from the territory either north or south of the proposed line, 36.30, shall be admitted into the Union on an equal footing with the original States, with or without involuntary servitude or labor, as their constitutions may provide.

Washington Items.

We extract the following from yesterday's New York *Tribune*:

THE TARIFF.

Mr. Hunter spoke at length against the tariff, and received some sharp retorts from Mr. Simmons after he concluded.

MR. CAMPBELL'S SPEECH.

Mr. Campbell made a strong and effective speech for the Union, and against holding any terms with the traitors who had conspired for the overthrow of the Government. It attracted much attention on the floor and in the galleries, and he was generally congratulated.

FORT SUMTER.

Plans have been organized here to re-enforce Fort Sumter whenever it may be deemed necessary, but, under the present phase of Southern affairs, this contingency will probably not arise soon. It is known positively that Jefferson Davis has recently stated that Forts Pickens and Sumter were not worth the loss of life that would be incurred under the most favorable circumstances, even if the attacks succeed. Now that South Carolina has her point of honor relieved by the action of the Montgomery Convention, no demonstration is expected, and Major Anderson feels no apprehension whatever.—He is fully prepared, and is now abundantly supplied with provisions.

FORT TORTUGAS.

Re-enforcements started to day for Tortugas, and others have been ordered from Texas to that and the neighboring forts. In a short time, all the points commanding the Gulf of Mexico will be strongly garrisoned, and beyond the reach of any force the Secessionists can collect.

COMMODORE ARMSTRONG.

The Court Martial on Commodore Armstrong will meet to-morrow. Lieut. Gilman, who was at Fort Pickens, and had several interviews with him before the disgraceful surrender of the Navy Yard, is detained to testify in this case. The disclosures since the return of marine and others from Pensacola, are very unfavorable to Commodore Armstrong, and give an entirely different version from his statement before the Special Committee. He ordered the *Supply* and *Wyandotte* to sail, and it was with great difficulty the latter was detained to aid in the defence of the Fork.

ANOTHER TRAITOR IN THE CABINET.

THE NAVAL RESIGNATIONS.—The Special Committee will report the strongest resolutions condemnatory of Mr. Toucey's conduct in accepting the resignations of naval officers in arms against the United States at Pensacola, and after the Department had received information of the surrender of the Navy Yard. There is a decided disposition to impeach him, and but for the shortness of the time before the 4th of March, that course would probably be pursued. The evidence is conclusive against him, and furnished from the files of the Navy Department. All the developments tend to show that he conspired with Floyd to put the military power of the Government at the control of the disunionists. Nothing but fear has produced the recent change in his policy.

THE BACK-BONE OF SECESSION BROKEN.—The firmness of the President-elect; the steadiness of the masses of the Republican party; the recent elections in the Border Slave States, in which the Unionists have triumphed; and the determination of Mr. Lincoln after the inauguration, to execute the laws, are all having their due effect, and we may safely say that secession is losing rather than gaining ground. It only proves that judicious firmness in the right, cannot be resisted successfully.
