SATURDAY, MAY 14, 1864.

Our Coal Statistics.

The edition of the MINERS' JOURNAL containing our annual statistics having been exhausted already, and, owing to the difficulty of obtaining hands, and the impossibility of collecting the necessary information to publish our Statistical Pamphlet complete at the present time, we have re-set a portion of those statistics for the year 1863, and have re-published the same on a half-sheet Chart. Price **10 cents** each. They will be mailed to applicants on the receipt of this amount. These Charts can be obtained of Mr. WARREN LAWRENCE, Coal Merchant, Room 44, Trinity Building, New York.

UNION COUNTY MEETING.

The Union men of Schuylkill County are requested to meet in General County Meeting, in the COURT HOUSE, in the Borough of Pottsville, on

Saturday, May 14, 1864,

at 1½ o'clock, P. M., for the purpose of choosing delegates to represent the District in the National Union Convention, to meet at Baltimore in June next.

DAVID B. GREEN,
Chairman Union Standing Committee.

WANTED.—At this office, immediately, a Journeyman Printer, who understands Jobbing.

Gov. CURTIN who is now in Washington, sent off on Monday night, fifty surgeons and nurses to Fredericksburg.

WE invite attention to the Advertisement of Samuel Thompson's Nephew, Agency for Wire Rope which will be found in our columns.

WE are compelled to omit a number of advertisements, stock table, and other articles, to make room for the list of unscated lands offered for sale, which we publish for the benefit of parties interested, on our third and fourth pages.

THE SPIRIT OF OUR MEN.—A correspondent writing from the battle ground near Spottsylvania on Tuesday last, says:

Our troops sustain their hard marching with wonderful endurance, and in spirits most excellent. Took long time after our Wilderness fight, it was difficult to make many of the men believe that our movement was not another retreat; but when the certainty beyond question that we were advancing, their enthusiasm knew no bounds, and they made the woods ring with huzzahs for Grant, for Meade, for Burnside, for everybody.

UNEMPLOYED GENERALS.—The House of Representatives, on Wednesday, by a vote of 72 in the affirmative to 45 negative, or nearly two to one, adopted the joint resolution to drop from the rolls of the army unemployed general officers. Major General George B. McClellan and John C. Fremont are most prominent among those who will be affected by the act. It will result in an annual saving of something more than $200,000 to the country.

GEN. BURNSIDE'S ADDRESS TO HIS TROOPS.

HEADQUARTERS NINTH ARMY CORPS, WARRENTON JUNCTION, VA., May, 1, 1864.—The General commanding publishes the following instructions to the men just entering the service of their country. He expects that every old soldier, who has learnt all the value by experience of a soldier's life, will join in impressing their importance on those who are now to share with him the honor of a soldier's life:

On the march no soldier should quit the ranks, on any pretence whatever, without the permission of his commanding officer. The army is about to move into the country of an active enemy, with no friendly force behind or near it, and every straggler runs the risk of Libby prison or a bullet.

No soldier should leave camp without his musket, nor, for any consideration, whether on the march or in action, take off his haversack, canteen or cartridge box.

He should sleep with his arms within reach.

Washing the feet at night, keeping the stockings and giving the shoes a little rest are recommended.

Cavalry and artillery should husband their forage. Every soldier should endeavor to make his rations hold out longer than the time for which they were issued. A little saving now may save a day's starving. It is well to make little bags, or use the necessary packages, for coffee, salt and sugar. If mixed in the haversack they become worthless. Blankets and overcoats should never be thrown away, no matter how tired or hot one may be. Cold nights follow hot days. The chief point in health and comfort is to keep warm. At the same time the recruit should not overload his knapsack; by endeavoring to carry many comforts he may be compelled to throw away all.

He should never waste a cartridge or a cap; the time may come when every one will tell.

The soldier should remember that the safety of the whole army may depend upon his vigilance. He should observe and report every unusual sound. If attacked, he must remember that a cool and determined party, acting on the defensive and properly posting themselves, can repeat hay many times their number, and thus give time for their comrades to form and come to their support.

In action he should keep cool, not loading in haste, but tearing the cartridge (and pouring in all the powder before putting in the ball. He should aim deliberately, aim low, and pull the trigger slowly. One shot in five minutes, well aimed, is better than five in a minute without aim.

He should never leave the ranks to carry off the wounded without permission of his officer; the ambulance attendants will take care of them; and he must feel that his first duty is to stand by his comrades in the fight.

Spies and persons in citizen's dress found lurking in our lines with hostile intent should be immediately turned over to the Provost Guard.

Prisoners of war, wounded or not, should be treated with that soldierly kindness and consideration which the Ninth Corps has always honorably shown, and which is due an open enemy.

The General Commanding desires to express to the Ninth Corps that he feels the same confidence in them now that he has ever felt in times past, and that ever feel no just cause for feeling. He believes that they will do their duty thoroughly and heartily on all occasions and under all circumstances. By command of Major Gen. Burnside.

EDWARD M. NEILL, Asst. Adj. Gen.

This interest charge upon the same amount of unfunded debt will be reduced the next fiscal year by the sum of $1,728,524, by the conversion of the 5.20 per cent of 1858, in August and October, into the 6 per cent of 1861, leaving the interest charge upon the same $776,963,000 only $45,037,126; for the next fiscal year, when, under the increased rates of customs duties now immediately contemplated by Congress, the specie in gold to the same volume of gross importation as in 1864, will be raised to $110,000,000 or $115,000,000.

WASHINGTON LITERARY SOCIETY.—The Society met at the usual hour. In the absence of the President, S. C. Kirk Sheatsley, the usual order of business was transacted and much interest appeared to prevail amongst the members. A debate was present during the session. The library is still on the increase. We feel grateful to our friends for their liberal encouragement. This is the first library of the kind in the County, and should be well supported, especially by the citizens of Tremont. Let the friends of science and literature, each, favor us with a volume, and soon we will have a library that will not only be an ornament to Tremont, but a credit to the County. MASON E. PERSHING, Secretary.

THE COAL TRADE.

Pottsville, May 14, 1864.

The quantity sent by Railroad this week is 65,780 17—by Canal 23,799 00—for the week 89,579 17 against 84,792 tons for the corresponding week last year.

The demand for Coal is brisk, prices firm, and stock accumulating at any point for the want of purchasers.

The trade sums up this week as follows compared with last year:

Chains, Sea received no returns from the Lehigh Watchmaker a. ad. this week. The officers will December 12, '63 ending it promptly in future.

There is a loss in the shipping this week compared with the corresponding week last year.

The New York *Tribune* states that the stock of Anthracite is diminishing and that Foreign Bituminous is scarce.

In other respects the trade remains without change.

The Philadelphia and Reading Railroad Company has contributed $10,000 to the Sanitary Fair in Philadelphia—and we learn will transport a day's product from this region, free of charge, if donated by the trade, and we presume the Schuylkill Navigation Company will do the same. Now let the trade go to work at once, and donate a day's product.

Is there a man in this Region or County who is not suffering himself, or has a suffering family or soldier to support, that would refuse to donate at least one day's labor to the relief of the tens of thousands of wounded and dying soldiers who have exposed life and everything they possess to protect our homes and firesides? If there are any such, they are a disgrace to the country, and the sooner they are banished from it the better.—Such *patriots* can be spared even now.

REFUTATION OF A SLANDER.

We have been informed that a certain individual has attempted, in Pottsville and neighborhood, to injure the well-founded reputation of the Pianos of our Manufactory, by asserting to have tuned Pianos of our make in Reading, and finding them to keep in bad tune.
