## MEDICINAL.

HOOFLAND'S GERMAN BITTERS,
AND
Hoofland's German Tonic,
The Great Remedy for all Diseases
OF THE
LIVER, STOMACH, OR DIGESTIVE ORGANS.

Hoofland's German Bitters
Is composed of the pure juices (or, as they are medically termed, Extracts) of Roots, Herbs, and Berries, all of which are perfectly free from alcohol.
HOW TO MAKE BITTERS.
Extracts of Roots, Herbs, and Berries, making a preparation, which is entirely free from alcohol.
Hoofland's German Tonic
Is a combination of all the ingredients of the Bitters, with the purest quality of Santa Cruz Rum, Orange, &c., making one of the most pleasant and agreeable tonics ever offered to the public.
Those preferring a Medicine free from Alcoholic admixture, will use
Hoofland's German Bitters.
Those who have no objection to the combination of the Bitters, as stated, will use
Hoofland's German Tonic.
They are both equally good, and contain the same medicinal virtues, the difference between them being a mere matter of taste, the Tonic being the most palatable.
The stomach, from a variety of causes, such as Indigestion, Dyspepsia, etc., is very apt to become deranged. The Liver is closely sympathetic with the stomach, the result of which is that the patient suffers from
Nervous Debility, Mental Depression, Loss of Sympathy with the Human Race, Hypochondria, Blues, Palpitation of the Heart, Dizziness, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin, and Eyes, Pain in the Side, Back, Chest, Limbs, etc.; Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and a Great Depression of Spirits.
The sufferer from these diseases should exercise the greatest caution in the selection of a remedy for his case, purchasing one universally known to possess real merit, and one which has established for the cure of these diseases. In this connection we would submit those well-known remedies—
Hoofland's German Bitters,
AND
HOOFLAND'S GERMAN TONIC.
PREPARED BY
Dr. C. M. JACKSON,
PHILADELPHIA, PA.
Twenty-two years since they were first introduced into this country from Germany, during which time they have undoubtedly performed more cures, and benefited more persons than any medicine of any other remedies known to the public.
These remedies will effectually cure Liver Complaint, Dyspepsia or Indigestion, Debility, Chronic Diarrhœa, Disease of the Kidneys, and all Diseases arising from a Disordered Liver, Stomach, or Intestines.
DEBILITY,
Resulting from any Cause whatever.
PROSTRATION OF THE SYSTEM,
Induced by Severe Labor, Hardships, Exposures, Fevers, &c.
There is no medicine extant equal to these remedies in such cases. A tone and vigor is imparted to the whole system, the appetite is strengthened, food is enjoyed, the stomach digests promptly, the blood is purified, the complexion becomes sound and healthy, the yellow tinge is eradicated from the eyes, a bloom is given to the cheeks, and the weak and nervous invalid becomes a strong and healthy being.
PERSONS ADVANCED IN LIFE,
And feeling the hand of time weighing heavily upon them, with all its attendant ills, will find in the use of this BITTERS, or the TONIC, an elixir that will impart new life into their veins, restore to a measure the energy and ardor of more youthful days, build up their shrunken forms, and give health and happiness to their remaining years.
NOTICE.
It is a well-established fact that fully nine-tenths of the population are sick or unwell at this season of the year, and the question is, what shall we do to regain our lost health and strength? Answer—Use Hoofland's German Bitters or Hoofland's German Tonic.
WEAK AND DELICATE CHILDREN
Are made strong by the use of either of these remedies. They will cure every case of MALARIA or ague. The sale keeping of property and persons rests with you, and I crave you to distinctly neither. It is manifest to all that the good order of this city, and I know you will do it. I wish you now to separate be good citizens, and you can remain quite again wherever you wish to do so. I ask you to leave all to me now. I love to see and see that there is no harm done to persons or property, but retire peacefully."
After having instigated the mob his address is consistent. Such an address could not be delivered by any public officer, unless he was the leader and instigator of that mob.
The N. Y. TRIBUNE gives also the following items of the sentiments of the Rebel's friend, Seymour, at the commencement of the war. In an address delivered at Albany, when the Southern States commenced seceding, he declared that it was impossible to subdue the Rebellion and put the following question to the meeting:
"Shall we compromise for war,—or compromise without war?"
After the Confederate Constitution was adopted, Gov. Seymour met Judge Charles H. Ruggles, and said—"Judge, have you read the Confederate (Montgomery) Constitution? * * * I have; and it's better than ours (the Federal). Then why not, "he continued, obviate all difficulty by simply adopting that (Confederate) Constitution?" Had the Southern Rebels a stronger friend among themselves than Horatio Seymour? Can any Union soldier vote for such a man for President of the United States? If there are any such they must be crazed, who in the hour of trial, would desert the cause they professed to serve. It is a base insult to ask any Union soldier, or loyal man, to support a candidate for President with such a record.

Gen. F. P. Blair and Revolution.
Frank Blair, of the Union Army, is a good jovial fellow, (and of late has become quite as jovial as Andy Johnson, his friend) did good service in the Union Army, until it was discovered that the Blair family were determined to rule or ruin the Union cause, and President Lincoln was compelled to remove his brother Montgomery, as Postmaster General. After that he did not care about "hitting" the rebels and his movements, as well as those of his family, were all directed against the Union cause. This renegade, in order to secure the support of the Southern delegates for President, addressed a letter, dated Washington, June 30th, 1868, to Col. Broadhead, which was published in the New York World, July 3, the day before the assembling of the Rebel Convention in New York. From this letter we make the following extract, which is the substance of the whole of it:
"There is but one way to restore the Government and the Constitution, and that is for the President-elect to declare there can be no peace, compel the army to work its exemplars at the South, disperse the carpet-bag State Governments, allow the White people to reorganize their own governments, and elect Senators and Representatives. The House of Representatives will contain a majority of Democrats from the North, and they will admit the Representatives elected by the White people of the South, and with the co-operation of the President, it will not be difficult to compel the States to submit once more to the obligations of the Constitution. It will not be an easy or settled path, I admit. It certainly involved and clearly expressed, on this fundamental issue, and it is the sure way to avoid all future strife to put this issue plainly in the country. * * * It is the one thing that makes old Hell to worth a contest, and we must it there in getting that issue clearly, boldly, or value to the cause." Your friend,
"FRANK P. BLAIR."
Of course this secured the selection of Blair for Vice President, and he was accordingly placed in nomination by a leading Rebel, Preston, of Kentucky.
Now we ask our readers, if stronger candidates could have been selected in favor of another Rebellion in case of their election, by a Convention held in the South and composed exclusively of the most determined Southern Rebels, for the purpose of regaining their lost cause?
We also submit extracts from different papers, which show the manner in which the nominations have been received.
The New York Herald says:
"The die is cast. The Democratic Convention has decided that our next President shall be Gen. Grant; nothing in Seymour, nothing in his record, nothing in his platform that will bring a single recruit to the Democratic party, but everything to rally the whole floating vote of the United States with all the Conservative Republicans around the banner of Grant. * * * Seymour against Grant will drive all the political recruits, which will give New York to Grant by 50,000 majority. * * *
"We can give no consonance to this retrograde movement of the Democratic party. The suggestive movements of the age are progressive, and we must go with them. All the world is going forward, except our Democratic party. It is behind Austria, Turkey and China! See they all recognize the necessity of shaking their pollen to their pressure and giving even a Seymour to behind the age, and Blair as a soldier, planted to the ticket, makes a mockery of the combination. Grant and Colfax against such a ticket will sweep the country from the Atlantic to the Pacific, because the sick heads of the Democratic party will have to that we are still living under the regime of poor Pierce and Buchanan."
The New York TIMES (Raymond's paper) says:
"The one great fact which rises in judgment against Mr. Seymour is, that as Governor, his whole power was exercised against the National Government. Elected on the distinct ground that the old city State should be given to state more vigorous the prosecution of the war, he used the opportunities and influence of his office to aid the enemies, to impede the efficiency of Mr. Lincoln's administration, and so to encourage and prolong the rebellion. His sympathies and plans were in the site of those who would have rejoiced the continuance of the struggle for the Union impossible. He was an active ally of the Copperheads, and exerted his influence to array the State against the Republic. He sowed the seed of sectional quarrels, as between New York and the West on one hand, and New England on the other, and at the same time he was the most formidable enemy of the Government not actually in arms against it. When the crisis came, Union triumphed, it was in spite of the efforts, devotion, and energy of the Democratic governors of Mr. Seymour's State."
Such a ticket, resting on such a platform, is proving an unpalatable one to the Democracy. Seymour, Blair and Pendleton have never served on a national office, and his reputation is not great outside the State. Blair, who commanded a corps in the Western Virginia, has retired in disgust, and will not support the Democratic ticket, and what is far as we know anything of his sentiments, he would have far him only one more deplorable result—that of being successful."
Speaking of Blair, he says:
"The foolish letter of Blair is virtually withdrawn and overruled by the platform. We can still prove our main candidate's record to be beyond reproach, and that we may set the nomination for one of pure confidence and the presence of certain success is useless. We have a hard fight before us, and to win it man put forth every exertion. At least, if we win it, we may be saved from the unmistakable disgrace of Pendleton."
But the platform is Pendleton's, and the platform always rules the candidate, and therefore the Convention took his principles and rejected the man.

THE HISTORY OF THE BIBLE, by Dr. Kitto, a book of uncommon merit, instructive and exceedingly interesting, is now being circulated in this town. It is an invaluable Bible illumination, and richly deserves the liberal patronage it is receiving. It cannot fail to awaken a deeper interest in the facts contained in the Bible, while the notes throw additional light on the sacred text, and the illustrations give the needed information in regard to the customs and habits of the times in which the Bible was written.
The history of the events which occurred between the closing period of the Old Testament and the beginning of the New, as well as at the destruction of Jerusalem, essentially add to its value. The agent for this town and vicinity—N. C. Ripley, is stopping in this place for a few weeks, for the purpose of procuring orders for this great work, and we can very cordially and conscientiously commend it to all who desire to know more of the oldest and best and most original of all books. Orders will also be received at O. C. Boshbahell's Book Store.

THE PENNSYLVANIA SCHOOL JOURNAL for July is at hand, and teems with interesting and useful instruction. We say only sorry it is not in the hands of every teacher in the State. And we feel satisfied that our friend Burrowes would cheerfully mail one copy to each one enclosing a dollar to him. Now friends is just the time to subscribe; it is the beginning of a new volume, and is much improved in its appearance. We will willingly forward any subscriptions left with us.

Below we present the programme of "the State Teachers' Association." Now, fellow teachers of Schuylkill County, let us get up a good delegation to attend this session. We will get free return tickets—the cost is but trifling. It may be a long time before we have it as near to us again. Each one should try and make some sacrifice to assist in getting up a good representation.

MR. EDITORS:—The first commencement exercises of the Keystone State Normal School took place on Thursday, July 9th, at 9 A. M. The exercises were opened by an earnest invocation to the bounteful giver of all good by Rev. J. S. Ermentrout, Principal of the School.
The Salutatorian, Mr. Wm. Achenbach, of Wind Gap, Northampton County, Pa., having been called home to attend the funeral of a near relative, his address was read by another member of the class.
The first oration was delivered by Mr. Lewis F. Sprenger, of Kutztown, Berks County, Pa. Subject—Sympathy. This gentleman recounted the many privations endured by our forefathers in subduing the native elements of their new homes generally, and then passed on to the consideration of his subject. He depicted in a striking manner the horr
