Mr. Nasby Witnesses a Procession of the Sons of Erin in Honor of St. Patrick—He Breaks out Account of the Festivities in the Evening, and Dreams Thereupon.

POST OFFIS, CONTRABAND X ROADS, (Wich is in the State uv Kentucky.) March 20, 1869.

I happened to be in Albany, wich is in the State uv Noo York, on St. Patrick's Day, and wuz a gratified and pleased observer uv the percession in honor uv the patron saint uv the Green Isle. It wuz a gorgeous site, and one wich warmed my heart.—Thar wuz men in cocked hats on horseback, with green sashes onto em; thar wuz officers uv the various sociticks in carriages with green sashes onto em; thar wez the sturdy sons uv Erin on foot with sashes onto em, all walkin or ridin, serene in the knowledge uv the fact that no matter wat cursid mashecens mite be invented for diggin on railroads or clearin brick and mortar up into hope uv buildins, none uv them feel mashecens could ever vote. Thar the enthusiasm uv the Democratic citizens uv Albany exceeded anything I ever witnest. The Democratic members uv the Legislature, and the State and county officials wuz all in conspicuous positions, the high ones lowin uriasely, and the low ones cheerin vociferously. I wuz at a winder uv the Delavan House, at wich, as I hedn't no baggage, I had taken the precaution to pay in advance for fear I mite, absent-mindedly, leave without paysin my board, wich I did at the urgent gortion uv the gentlemanly and urbane clerk—when I wuz roodly pushed aside by an impetuous gentleman. Notisin that he wuz a small man I seized him and demanded wat in blazes he meant by pushin me. "My dear sir," kod he in agony, "please give me your place—do give me your place! I am a beaudifuller boy of Alderman next spring!" Pityin himself yielded, and in a minit he wuz a wavin a green flag from the winder and shoutin "Hurah!" with all the venom that wuz in him. Er I look at him and the other expectants, I cood not help thinkin wat a happiness it must be to be an Irishman in Ameriky.

The next morning I opened the paper and read the account uv the bankquet the previous evenin. My respeck for the Celtic race increased largely er I read. I learned from the speeches made at that banquet by invited Democratic guests who wuz present, and the letters from distinguishd Democrats who had bin invitid but who wuz not present, that the Irish are only disinterested Amerikans, but that they won the independence uv the Colonies, beat the British in 1812, carried on the Mexikin war, and finally, alone and unaided, put down the late confederacy. One speaker, who expected to be Mayor uv Albany, expressed it as his belief that the magnetic needle, gunpowder and the telegraff wuz the inventions uv Irishmen.

The letters written by the leadin Democrats uv the State, to be read at the banquet, latched on Governor Hoffman paid a tribute to St. Patrick, and remark that it wuz the first time for years that he had omitted to take some part in the celebration uv St. Patrick's Day, and that he thought cut him to the quick. Chaplain, the Attorney General uv Noo York, remark that ev Irishmen had borne so honorable a part in every thing that ter tended to increase the moral intellectual and physikle strength uv the country, his sympathy twines closer and closer around em, and that he consekently shuddered at the prospeck uv any obstrukshn being placed in the way uv their bein made citizens er fast er possible.

The other letters from distinguishd Noo Yorkers wuz mostly uv the same tenor.

Er I wuz readin this, and thinkin to myself how the leadin Democrats uv Noo York never forget that there's an election ahead, I fell asleep, and in that sleep I had a most curious dream.

Mothawl I wuz set ahead twenty years.—The fifteenth Amendment had bin passed and the niggers wuz all voters. I wuz a sittin at a winder in the Delavan House when the sound uv brass music broke on the fearful stillnis that yoosually pervades the streets uv that city. A percession hove in site, and to my horror they wuz niggers. There wuz niggers in cockt hats on horseback, niggers in carriages with banners, and niggers on foot.

"Wat is this?" asks I in indignasheh.

"Why, its a celebration uv the birthday uv St. Gumbo, the patron saint uv Afriky!" yoomptil a Democratic Alderman, who stood beside me, "Hurrah! Hurrah!" shrieked he, pushin me aside and bendin his head out uv the winder so er to be seen, wavin voociferously a black flag, wich I learned hed bin adopted er the nashnal color uv the Afrikins in Ameriky. The enthusiastic Alderman wuz rewarded for his eggertions with a grashus smile from a pekooliarly distrustin black nigger with a sash onto him, who wuz seated in a baroosh.

"Bah! Bah!" shouted the Democracy from all the winders er the percession filed by. Er they wound their way up to the capitol, I notist the entire buildin wuz decorated with black flags, in honor uv the day, and to my disgust I wuz informed that the State officers wuz all Democrats.

In my dream I picked up the Democratic papers the next mornin, and read therein an account uv the banquet that took place that evening. I notist some familiar names appended to rather familiar-looking letters.

Hoffman, who had got to be a Senator, addressed the Chairman uv the Committee on Invitations as "Geezer Squash, Esq.—My dear sir," and remarks that it wuz the first time for years that he'd not taken some part in the celebration uv St. Gumbo's Day," but bizniz prevented. He regretted deeply that he could not be present at the festivities. "Convey to the noble sons uv Afriky present," he went on to say, "my sense uv the honor conferred upon me, and my assurance that so long er my heart beats, it shel beat in poonison with them. I recognize the valjoo uv the Afrikin population to our common country, and yield to no one in admiration uv their noble qualities:

"I am, sir, your most obedient servant."

Smothlein uv disgust at this performance, I read on.

Champlain, who wuz by this time Governor of New York, hadn't received all the bigger votes, and wuz a candidate for re-sleckshun, remarks in his letter that ciltural duties prevented him from attendin. "Ridiculous natural," he remarks, "for Amerikins to sympathize with Afrikins everywhere, and he felt it the more er he thought uv the honorable part the Afrikins had borne in all that tended to increase the moral, intellectual and physikle strength uv our growin country."

The other letters and toasts were er much like these ed two jaws. The speeches all expressed the highest devotion for the Afrikin race, and the most ardent admiration for the Afrikin character. One enthusiastic Democrat, who wuz a candidate for Prison Inspector or sumthin, going so far er to remark that he had a right to be present, er he wuz proud to say his grandmother, on his father's side, had Afrikin blood in her veins, and our ancestors for her he had named his two darlin children respectively Pompey and Phillis.

He loved the Afrikin race, and wuz proud that he cood lay his hand on his heart and say, "I too am an Afrikin!"

Another lamented that he cood not say he had Afrikin blood in his veins, and Fernando Wood, who still wanted to be mayor uv Noo York, proposed the health uv the late Fred Douglass, to which Jim Brooks responded. John Morrissey proposed the memory uv Fred Douglass, and Ben Wood the health uv Wm. Wells Brown.

In fact so ardent wuz the admiration uv the great lities uv the Dimocracy for the Afrikin, that in my dream I regretted that I had not bin born in Afrikey.

At this pint I awoke, pleased to findin that wat I had seen and read wuz all a dream, that the paper I held in my hand contained no account uv an Irish and not a nigger celebrasion, and that the names uv Hoffman and Champlain wuz appended to letters addressed to Irishmen only. But I wuz sad after all. When that cursed Amendment is a part uv the supreme law uv the land and the niggers hev votes, will not these men court em and fondle em the same er they do other men with ballots? I thought X. Will there not be the same reason for slobberin Pompey that there is now for slobberin Patrick?—Will not the ardent Democrat in pursuit uv votes forgit that he is no the proud Caucasian race, and stoop to caress an inferior? I fear me!

A GOOD WASHING MACHINE
Has always been considered a most desirable thing, and so many fruitless efforts have been made to get up such a one, that very many people have come to look upon it as an impossibility, and become prejudiced against everything of the kind. The inventors of the CHALLENGE WASHING MACHINE, having taken hold of the matter with a new mind and studied the subject thoroughly and practically, have produced a machine which is the simple and durable machine, and one that has been so earnestly sought and desired. It has but few parts, and is so simple in construction and operation, and so easily worked, that a child 10 or 12 years of age can operate it with ease and facility. It is so constructed that it can be worked on the washboard the same length of time. It occupies but the same space as a wash tub.
IT WILL WASH
Six Shirts in Seven Minutes! or,
Four Sheets in Four Minutes! or,
A Bedquilt or Spread in Five Minutes! or,
Sixteen Pillow-Cases in Five Minutes!
and other articles in proportion, and will do the work in perfect manner. No subsequent rubbing by hand required.
It washes QUICKER, EASIER, CLEANER, and WEARS THE CLOTHES less than any other machine or method.
ITS LOW PRICE BRINGS IT WITHIN THE REACH OF ALL.
The undersigned is the owner of territory, for the counties of Schuylkill, Berks, Lebanon, Dauphin, Carbon, Lehigh, Northampton, Northumberland, Columbia, and offers for sale such counties (excepting Schuylkill), in which County he wishes to get a good Agent in every town, to sell the Challenge Washing Machine and Challenge Wringer.

SAFETY BOILERS
ROOTS IMPROVED TRIPLE ENGINES,
Stationary, Portable and Marine.
Double Piston Square Hoisting Engine, Hoisting Machinery for Coal Shafts, Sinking, Grist Mills, Stores, &c.
One of these Boilers can be seen running daily Hill & Sharpe Colliery, Mahanoy City, Pa.
Particular attention is invited to the Hoiser which has no equal. No dead points—having two pistons in one cylinder, and one valve which is taking full steam when the other is passing centre. It requires no friction stops, chocks or brakes of any kind. Started, reversed or stopped instantly, and at any point of revolution by the simple movement of a single lever. Having no keys, pins, set screws, or other affectable parts, tends to make hoisters require the knowledge of a competent and experienced engineer, can be put in the hands of the most careless and ignorant.
