Larger Advertisements as per agreement.
The MINERS' JOURNAL is now one fourth larger than any other paper published in the State, and contains more reading matter than any other paper published in the United States. To give the reader some idea of the amount of matter contained in a single number of the JOURNAL, furnished for six cents, we have carefully estimated, and found that it contains more than be contained in a set of type sewed from the city publishing houses. And yet 52 such numbers will be furnished during a year for $3 75 in advance, or 50 cents per week.
The prosperity of the JOURNAL has been great and gratifying to us. It possesses a circulation of Philadelphia and Pittsburgh the largest circulation of any single published in Pennsylvania, and is steadily on the increase. As an advertising medium in the section of the State, it is now equalled

THE MINERS' JOURNAL, AND POTTSVILLE GENERAL ADVERTISER.

I will teach you to pierce the Bowels of the Earth, and bring out from the Caverns of Mountains Metals which will give strength to our hands and subject all Nature to our use and pleasure.—Dr. JOHNSON.

PATENT IMPROVEMENT OF STEAM USE.—To all whom it may concern:—For and in consideration of $——, to me in hand paid by JAMES WHEN of the Borough of Pottsville, County of Schuylkill, to JOHN ELLMBURY of Philadelphia, the receipt whereof has been acknowledged and satisfied, I do hereby grant and sell unto JAMES WHEN the right to apply it to the County of Schuylkill, State of Pennsylvania, on all Steam Engines now in use, or that may hereafter be used in said County, the Improved Cut-off for Economizing Steam, for which I have received Letters Patent, dated November 19, 1861, have been granted to me by the United States Patent Office. All persons desirous of information regarding the benefit of this Valve can receive the same at my office in Mahanoy street, Pottsville. The Valve to all persons using Steam Engines is from 30 to 40 per cent. on the boiler capacity. It can be applied to all Steam Engines.
Mechanics are requested to take part in this improvement, as it will be a great saving of time in fitting up the building new engines and also for putting the improvement on old engines. Any Mechanic can put the improvement on old engines in half an hour. Shop rights for Schuylkill and Dauphin Counties, $10 each and $20 for the state of Pennsylvania. Call and get a circular, and examine pamphlet containing testimonials from persons using the improvement.

Stephenson Safety Lamps.
As at some Collieries a damp is very prevalent, and the common Davy Lamp is not considered safe, we have procured a lot of the Stephenson Safety Lamps, which gives a much better light than a lot of the wire gauze. This Lamp, from recent experiments made in England is considered the safest lamp in use, and is now extensively used in all the most dangerous collieries in England. We have also on hand a few Davy Lamps.
JAMES T. DANNY, THE DAVY LAMP, and Safety Lamps of all the most approved patterns, made of inspected Government Iron, by the single dozen or half dozen.
These Lamps are all manufactured to our own order, and we can vouch for the quality of the iron and the strength of the gauze.
Gauze constantly on hand to suit lamps in general use, so that we can supply any patterns wishing to repair or get up lamps that have been used. Gauze for sale by the yard or roll, wholesale and retail.
