The Republican County Convention.

SKETCH OF THE TICKET FORMED.

The Republican County Convention which met in this Borough on Monday last, was one of the most respectable and influential that ever assembled in this County. They came in a spirit of devotion to the principles of the Republican party, and with a united resolution to form a strong ticket in the interest of reform in the affairs of the county. Their proceedings will be found at length elsewhere in to-day's Journal. It will be observed that a resolution was adopted, leaving one of the legislative nominations open, and empowering the County Committee to fill the vacancy in the manner which in its judgment may seem best. The object in leaving one nomination for Legislature open, was the probability that not only the entire strength of the Republican party could be concentrated on some good candidate, but of the part of the Democracy who are dissatisfied with part of their County ticket.

The ticket formed on Monday is strong. The soldiers are represented on it by three brave men who fought for years in the front during the war to preserve the Union, and whose patriotic record should receive recognition at the hands of the people of Schuylkill county on the second Tuesday of October next.

ASSEMBLY.

The nominees are Mr. JOHN PARKER, of Mahanoy City, and Capt. WM. WINLACK, of Pottsville. Mr. PARKER is a man of honesty and ability. Having been a workingman himself from his earliest manhood, working at his trade of blacksmith for a long time at Buckville, near Tamaqua, and more recently at Mahanoy City. His prominent identification with the Workingmen's Union, led to his selection to editorially conduct the "Anthracite Monitor," the organ of the workingmen, recently established in Tamaqua. Mr. PARKER, if elected, will represent the true interests of this county to its great advantage, and with credit to himself.

Capt. WINLACK entered the service in April, 1861, as Captain of a company in the Sixteenth Pennsylvania Regiment. At the expiration of the three months' service, he organized a company and entered the Forty-eighth Regiment as Captain of Company E. He served with his Regiment, participating in all the engagements in which that Regiment so highly distinguished itself, until he was mustered out, October 1, 1864. Captain Winlack would prove a competent representative.

PROTHONOTARY.

Mr. WM. GARRETT, of Tremont, the nominee, is an old citizen of this County,—honest, capable and highly respected. He is Cashier of the First National Bank of Tremont, a position which he has occupied for several years with marked ability. For several years he was clerk in the Prothonotary's office, and was recently Teller of the Farmers' Bank, in this Borough. Mr. GARRETT is perfectly familiar with the duties of the office of Prothonotary, and if elected will make a most courteous and capable officer.

TREASURER.

JOHN T. WERNER, Esq., of Pottsville, who received the nomination for Treasurer, is a citizen so widely known, so generally esteemed, so generally respected, that it seems almost superfluous to do more than merely announce his nomination. But still we feel like saying a few words in connection with his public career merely premising that the nomination in this instance was unsought by him. Mr. WERNER has been a resident of Schuylkill County for thirty-five years. His earliest connections have been with the Sheriff's office. In 1846 he was elected Sheriff, and subsequently he occupied, for ten years, the position of Deputy-Sheriff, under Sheriffs NAGLE, MATZ and HUBERT. He is at present Deputy Sheriff under Sheriff WYNKOOP. His notable capacity in that position, combined with his courtesy to all who have business to transact in the Sheriff's office, is too well known to need comment. Should Mr. WERNER be chosen in October to succeed Mr. SHIPPEN—who has so faithfully and fearlessly guarded the interests of the tax-payers of Schuylkill county—the people may rest assured that he will prove no less vigilant in the strict discharge of the duties of the position. No property-holder, no tax-payer, interested in economy, should regard party lines when such a man is nominated for a position so important as that of Treasurer. The common interests demand his election.

RECORDER.

The nominee for this position is Mr. B. F. CRAWSHAW, of East Norwegian township, a young man who was born in this Borough, and who has resided during his entire life in this County. His father, Mr. JOSHUA L. CRAWSHAW, was one of the pioneer settlers of this County, coming here in 1829, and was one of the first shippers who carried on that business here. Seven years since Mr. CRAWSHAW, the nominee for Recorder, lost one of his arms by an accident. Subsequently, for about five years, he taught school, but more recently he has engaged in the insurance business, which he now follows. Mr. CRAWSHAW is well known throughout the County, is a young man of capacity and strictly temperate habits, and from our personal knowledge of him we believe that if he should be elected, he will be a courteous, attentive and obliging officer.

REGISTER.

Lieut. CHAS. E. BECK, of Pottsville, is the nominee for Register. He entered the service in April, 1861, as a private of Company H, Twenty-fifth Pennsylvania Regiment, one of the first companies to reach Washington for its defence. He served this term of enlistment, and in August, 1862, re-enlisted as a private in the Fifteenth Pennsylvania Cavalry, Col. Wm. J. Palmer. The Regiment served with distinction in the West. In 1863 he was promoted to 1st Sergeant of his company, and the same year commissioned 1st Lieutenant. Lieut. BECK participated in the battles of Stone River, Stevenson, Ala., Chickamauga, Chattanooga; was in the cavalry fights at Dandridge, East Tennessee and Moss Creek; was at the capture of Hood's pontoon and wagon train; in Stoneman's raid, and at the capture of Salisbury, N. C., in which place the rebel prison stores, etc., were destroyed, and in other minor engagements. Lieut. BECK served with distinction until the close of the war. The people of Schuylkill County will honor themselves and the noble cause in which this brave soldier fought by electing him to the position for which he has been nominated. He would be a competent, obliging and popular officer.

CLERK OF THE SESSIONS.

For his position Lieut. S. A. LOSCH, of Schuylkill Haven, was nominated. Lieut. LOSCH is also a brave man and good soldier. In August, 1861, he enlisted as a private in Company C, Fiftieth P. V., and step by step was promoted to the position of 1st Lieutenant of that Company. He served until the close of the war, and was mustered out a veteran. Lieut. LOSCH is a good scholar, and fully competent to fill the position for which he is nominated. Where he resides he is popular, and he is well known throughout the County.

COMMISSIONER.

Mr. JOHN R. DAVIS, of Cass township, who was nominated for this position, is a farmer, and a good man in every respect. His popularity is such that even in the strong Democratic district of Cass, where he lives, he has been frequently elected Supervisor and Assessor. Mr. DAVIS is a native of Wales. Should he be elected, the interests of the County will have in him a faithful custodian.

DIRECTOR OF THE POOR.

Mr. WM. SHOENER, of South Schuylkill township, the nominee for Director, is a farmer, an honest, intelligent man, and one who will, if elected, look sharply after the little leakages at the Almshouse. We feel peculiarly interested in the success of Mr. SHOENER, at the coming election, for with him we hope to obtain an answer to the question we have so earnestly and almost hopelessly asked, in the interest of the tax-payer,—"Where are those ten thousand dollars?"

AUDITOR.

For this really important position, Mr. F. W. REBER, of Washington township, was nominated. He is a farmer, an honest and highly intelligent citizen, and would be a competent officer.

—This, voters of Schuylkill county, is the ticket. It is a good one. It merits your support in the interest of reform in County affairs, independent of the worth of the men who have been placed upon it. If you want economy, rigid expenditures, strict management of the Almshouse, law and order, elect the Republican County ticket from top to bottom. Neglect to do this, and you will be called upon to plunge your hands yet deeper into your purses to pay increased taxes caused by mismanagement and dishonesty in the administration by the Copperhead party of the affairs of the County. Think of this when you vote in October.

HE SPEAKS.

After a long silence, Asa has spoken. His words fall on the ears of his retainers in greenback showers, and they are jubilant. The Philadelphia correspondent of the *Beaver Radical* says that at the Merchant's Hotel, in that city, recently, he disbursed $100,000 for political purposes.

The Alderman is in his glory, and the Fourth ward is boiling over with enthusiasm. We remember a few years ago in this borough, on the occasion of an important election, a Democratic candidate called one of his party friends—supposed to be a little fishy—aside, at the polls, and without saying a word, slipped a $10 bill in his hand, and departed. The recipient, who had been a Democrat of many years standing, went immediately and bought a pig, and then came back and voted against the party who had thus tried to influence his vote. From what we have learned lately, there will be many "pig men" during this campaign, and Friend Asa will find out to his cost, that American Freemen are not to be bought and sold like sheep in the shambles.

A little personal advice. Keep your money, Asa, you can use it to a better purpose—for instance, you can endow another college, and further enrich yourself by the rise of property in its vicinity, or build another railroad in the interest of New York. The politicians are only fooling you. Your money, and not you, are in their eyes. If it had not been for it, you would never have been heard of in this campaign.

Let us tell you a little story. It may profit you. You may have heard it before, but it will bear repeating. Not many years ago there lived in the city of Philadelphia a very rich man, who, like yourself, had accumulated much property and money, through his own exertions, in the drug and patent medicine business. Like you, he had a *penchant* for political honors. Some of your present Democratic friends and admirers, having an eye to his cash, puffed him up with the belief that he could be made United States Senator. Finally, convinced of the feasibility of the project, he scattered of his abundance with a lavish hand. All Harrisburg was agog and the "Roosters" were in ecstacies—For the balance of the story we refer you to the journals of the day, the report of the investigating committee, and the Records of the House. A wink is as good as a nod to a blind horse.

A BOMBSHELL.

Gen. Rosecran's letter declining the Copperhead nomination for Governor of Ohio has been published. While he declares that he is a Democrat, he rebukes the Copperhead party in the most scathing manner as the following extracts will show.—Speaking of the public debt he says:

"No local declarations inviting a popular prejudice of any local questions about the terms of payment of the national bonds should impair the present value of the public credit at a time when it is all important to create the speediest means of ridding the country of these enormous oppressions, but every [illegible] platform should tend to raise higher the public credit, and to satisfy the people of Europe that the Democratic is the last party in the United States that proposes to [illegible] the public debt, even though present holders should have brought it below its par value."

This is hard on the Copperhead leaders of the Pendleton and Brick Pomeroy, Packer and Hughes stripe, who desire to destroy the credit of the country, and whose whole course if successful, would lead to repudiation. On the subject of race, color and suffrage he speaks even more decidedly:

"Leaving to its opponents, of all shades and grades, all narrow and sectional grounds, all antipodes and exclusion based on class, creed, race, color, or national origin, the Democratic party of the United States [illegible] to hold high the banner of universal freedom, impartial justice, 'equality before the law' of all who live beneath the flag of our country."

This knocks all the planks out of the Democratic Platform in this State, Ohio, and many others. He also declares that

"The Democratic party ought to be the party of principle; a party of life, of action and of progress," and "all its faults and fault-finders ought to go on the retired list."

These are the principles of the Republican party, and we are rejoiced to state that Gen. Rosecrans has not only repudiated his Democratic War principles, but refuses to be the candidate of those who hold such sentiments.

The Cincinnati Enquirer, the Copperhead Repudiation Pendleton Organ, congratulates itself now that the Copperheads of Ohio have Pendleton instead of Gen. Rosecrans as their candidate. Of course such principles suit them—and the people will carry out the recommendation of Gen. Rosecrans by placing Judge Packer, Hughes, and all such old Bourbons who cannot learn anything on the "retired list" on the second Tuesday in October next.

WHAT IT COSTS.

The people of the United States are plundered of *twenty millions of dollars a year* by the tariff on coal, and of *twenty-three millions of dollars a year* by the tariff on iron. *Forty-three millions of dollars a year* thus goes straight from the pockets of hard-working people into the pockets of only these two classes of monopolists and their Congressmen who conspire to pass the laws which authorize the plundering.—*N. Y. World, Copperhead.*

Bituminous coal, the only kind of coal imported, is selling cheaper now than when it was duty free, and iron is also cheaper now than when it came in with a mere revenue duty—but if the duty was taken off it would fall—but both would absolutely advance in price in a very short time, by destroying home competition. The statistics of the country show that the balance of trade was against us upwards of $118,000,000 last year, gold values. This sum would have been left at home if our industry had been properly protected and gone into the hands of labor and the producers of the country, to be distributed among all classes. For the want of adequate protection since 1850, the country has lost all the coin produced since, amounting to about $800,000,000, and also lost bonds to the amount of about $800,000,000 more to pay for foreign goods, which could have been produced at home, and for which the country is annually drained of not less than $50,000,000 in gold to pay the interest on. For the want of Protection our country has lost in wealth, since 1850, an amount almost equal to our present National indebtedness.

WAGES OF MINERS FOR SEPTEMBER.

At the preliminary meetings which have been held by representatives of the operators and miners, to fix the rate of wages for September, there was much discussion and difficulty, and finally it was determined to leave the decision to several dealers below, to base it on the average price of coal, and report at a future meeting.

Unless both the operators and miners appoint men on the committees in whom they have entire confidence, and whose action they will endorse, nothing but trouble and difficulty must be the result. These remarks apply more particularly to the Workingmen's Association. If the Association does not apply this rule, it may prove an entering wedge to its dissolution. We hope that both sides may see the necessity of such a course in the future, to keep the trade more steady and prosperous.

BRICK POMEROY is down on the "Bloated Aristocrats" and new "Money Bags." He calls them "golden calves." *This is hard on Packer.*

The "red hot" Copperheads in New York are denouncing Augustus Belmont, and demand his resignation as Chairman of the National Copperhead Committee. They say he sold the party to England, and the "Bloated Bondholders," the Rothschilds, whose Agent he is, and the Irish voters in New York will stand it no longer. They declare they will not permit this "Bloated Aristocrat," and the Rothschilds, to control the party in the future.

Now that the lecture season is approaching, it were well if such citizens who are lecturally inclined, would meet together and devise ways and means to secure a set of prominent lecturers to deliver a series of literary and scientific lectures during the coming Winter. Other localities are moving in the matter, and now that it has almost become a mental necessity, it is expedient that the selection and securing of the best talent be secured at an early day. Who will move in the matter?

Mr. George P. Hoffman is having laid in front of his new building, Centre street, slate slabs for pavement. It makes an excellent pavement to walk on.

The street from Mr. John Morris's store to Norwegian street, on the east side, needs regrading badly. Council should resolve to have it done as an accommodation to the public. In front of Capt. Sheetz's, it is positively dangerous in consequence of the steepness of the street near the curb, for a carriage to drive up to enable persons to alight. It is to be hoped that Council will see the necessity of attending to this matter.

Ladies do not miss the grand closing out sale of J. Galland & Co., 210 Centre street; this is no humbug; we intend to clear out our whole present stock in order to enter our new establishment with an entire fresh stock. Please favor us with a call.

Girls should make it a rule to cultivate their brains. Some pretty girls "finish their education" too soon—entirely too soon—and in all developments beauty is all their stock in trade. Liberal education can be made to tell in the face, and improves natural beauty. It is an outrage on nature, in a pretty girl (and *a fortiori* so in a beautiful one) to neglect her brains. If she does this, her beauty is rather an object of pity than of either admiration or wonder—made more pitiable by the adoption of charms that are bought at the store. It is in the power of most young ladies to make themselves literally but a "step lower than the angels." Their *will* determines the whole matter.

Sunday School Pic nic.—The Sabbath School attached to the First Methodist Episcopal Church, held its usual annual pic nic at the grounds of the Agricultural Park Association yesterday. The occasion was one long to be remembered by the happy participants, passing off in an unusually pleasant manner. Nothing was left undone by the "old folks" which would tend to promote the happiness of the young; and the sparkles of pleasure which flashed from the laughing eyes of the children, and the roses of happiness which bloomed on their velvety cheeks told how dearly they appreciated the endeavors of maturity in their behalf, and the sparkling joys of the occasion.

Schuylkill Haven.—A man by the name of McBride, a resident of Minersville, while passing Schuylkill Haven, on a coal train, on Saturday evening last, had his left leg crushed between the bumpers of two cars. He then fell under the wheels and had his left arm shockingly mangled to the shoulder joint. Under the care of Dr. B. F. Shannon, he was removed to the County Hospital, where the doctor amputated both the mangled limbs; but McBride's injuries being of such a serious nature, notwithstanding he received every attention at the hands of Dr. Shannon and his medical assistants, twenty-four hours after the accident, he expired. His remains were taken to his home in Minersville on Monday last. He leaves a wife and six children.

Mining Accidents.—On the 23d ult., Thomas Fruan, employed in a colliery at Nesquehoning, had his jaw broken by a collision in slope No. 3, while he was driving. On the 24th ult., Thomas Moore was injured while working in Fowler & Hahn's mine at Grantville near Mahanoy City by an explosion of powder while a cartridge was being made. Another miner injured at the same time, is not expected to survive. On the 23d ult., John Coleman and John Engelburgher, working in Messrs Schall & Donohue's mine at Tuscarora, were badly burnt by an explosion of fire damp. Mr. Coleman was also severely injured by being dashed down the breast by the force of the explosion.

On Monday Mrs. James Brady of Fishbach, had one of her ankle joints severely wrenched by falling on the railroad. On Friday of last week a miner named James Forris was injured in the gangway of Star's colliery at Silver Creek, by a fall of rock. On Saturday last his right leg was amputated above the knee. His also, sustained other injuries about the head and arms. He is 25 years old, lives with his mother in New Philadelphia, and is an industrious, exemplary young man. The last we heard received of his condition, was that it was critical.

Attempt to Commit Suicide.—On Monday evening a stranger calling himself John McElrain stopped at the public house of Wm. Edwards, Mahanoy Plane. He washed and shaved himself and took his supper, giving no evidence of anything being wrong with him mentally. About 4 o'clock yesterday morning he was discovered by Mr. Edwards in a bleeding condition, having cut a gash with a razor in his abdomen. Yesterday afternoon he was brought to this Borough in a wagon by Mr. Edwards, who obtained an order from Squire Conrad for his admission to the Poor House. The man had lost much blood and Mr. Edwards was apprehensive that he would bleed to death before reaching the House. It is supposed that he was deranged when he committed the act. He is a young man, and states that he belongs to Minersville.

Fatal Accident at a Camp Meeting.—Last week the congregation of the Church of God held a camp meeting in a grove on the property of Jonathan Dinger, in Hegins Township, about three miles from Donaldson, this County. It was in progress on Saturday evening last when a violent thunder storm visited this County. For protection from the rain the people crowded on and around a temporary pulpit which had been erected. Their weight broke it down, and when the debris was removed, the dead body of a son of Mr. Dinger, aged 12 years, was found. He had been crushed to death, and must have been killed almost instantly, as he was not heard to utter a single cry. The supposition is, that unperceived he crept under the pulpit for protection from the rain. The occurrence is peculiarly sad, and we deeply sympathize with Mr. Dinger in his affliction.

School Again.—On Monday all punctual boys and girls will be seen wending their way through our streets to school. Children as well as grown persons have their work; and succeed in the proportion that they apply themselves. Parents should not fail to impress this important thought upon the minds of their children, that going to school is the great business that they are to follow at present. Half the battle is fought when children are convinced that this is to be made a *business* and not a side issue. Those who permit their children to stay out of school for every trivial matter, teach them by acts which speak louder than words that going to school is of but little importance. How under these circumstances can such children be expected to learn? During the coming week promotions will be made; hence the necessity of all being prompt.

Runaway.—Yesterday morning, a Rosinante of a horse, attached to the lumbering milk-wagon of a somewhat negligent farmer, instigated by a locomotive whistle, and an insane desire to create an excitement in the town, left his stand in Railroad street in an angry and excited manner and rushed frantically along the way, followed by his heatless owner, and all the men, boys, and canines in the neighborhood, and the aforesaid vehicle, loaded with big bellied baskets and tintinabulating milk cans. Turning the corner below our office, into Church Alley, he rushed for Centre street, like a "right smart" gale of wind; but before he had attained his object, his impetuous career was checked by the strong arm of a courageous person passing by; and, to use a nautical expression, brought to, directly in front of our sanctum. Our first thought upon hearing the clatter was, there's a runaway! and the next—rushing to the door—another local.—Strange to relate, the owner, reaching the animal, with glowing cheeks, exhausted lungs, and disordered hair, instead of maltreating and tickling his ears with a regular fire-eating southerner's vocabulary of the most approved cursing quality patted his neck, arranged the lines, readjusted the baskets and cans, and went leisurely back for his hat. He was either a very weak man or a philosopher.

Fires.—On Saturday night last about 7 o'clock, flames were discovered issuing from the tip of the breaker at Coal Hill Colliery, Mr. Henry Gulterman, proprietor, near Middleport. It was completely destroyed with the machinery and about 300 tons of coal which were in the schutes. The office attached to the colliery was also destroyed, with the books, papers, etc., which it contained. The loss is about $15,000, on which there is an insurance of $3000. The colliery was nearly worked out, and the breaker was an old one, although the machinery was good. The cause of the fire is unknown. The light of the fire was distinctly seen in this Borough and the impression at first was that it was in Port Carbon.

A store house belonging to Mr. William Dombaugh occupied by Messrs. Fisher & Yohe, at Ringtown Station, Union Township, was, on last Sunday night totally destroyed by fire. Loss about $1200, which is partially covered by an $800 insurance in the York Mutual. The dwelling house of Mr. Wm. Dombaugh, standing near by was slightly damaged, and only saved from total destruction through the strenuous exertions of the neighbors. The loss of Fisher & Yohe is estimated at $2500 which is covered by insurance.

An old coal breaker known as Milford, near Middleport, was destroyed by fire on Friday last. It is supposed to have been set on fire by the sparks of a passing locomotive. The breaker had not been used for several years.

Police Intelligence.—On Sunday last John Callihan of St. Clair was committed by Squire Conrad in default of $200 bail, to answer charge of disturbing the peace. It appears that John went up about 4 o'clock on Sunday morning on Guinea Hill, and after inquiring at a respectable house for a woman of ill fame, assaulted the premises by throwing stones at the house. He was arrested by officer Schumacher.

On Monday evening last Thos. McGlone, a boatman, aged 30 years and who claims New York as his residence, was committed to prison, in default of $500, charged with assault and battery on and attempt to kill Amos Foreman. The assault took place at night some weeks since, at Mill Creek Junction; and was of the most deadly character, the assailants leaving their victim for dead.

On Monday last, Sovie Keiter, of Ashland, aged 16 years, was committed by Squire Hower, in default of $500, charged with larceny of female apparel and a ring, the property of Bridget Carey.

On Thursday, John Mullin was held in $500, by Squire Conrad, to answer charge of embezzlement. Michael Carpin alleges that he put $275 into Mullin's hands for safe keeping, and that when asked for its return, Mullin said that he had used it to live on.

On Thursday, Francis Condron, of Palo Alto, was held in $200, by Squire Conrad, to answer charge of deserting his wife.

On Thursday, Charles Tyler, of this Borough, was fined $1 and costs, by Squire Conrad, for disorderly conduct.

Domestic Infelicity.—An Injured Husband's Shoots Himself.—Lately, William Triebley, who lives in Norwegian street below Fifth, the Nesbit livery stable, rear of Pennsylvania Hall, has had considerable difficulty with his wife. He suspected her of infidelity to him, and the matter was the source of much trouble between them. A week or two since, when she went away, he followed her to a house in Railroad street, in the upper part of town, [illegible] which resulted in her being held to answer a charge of assault and battery on her. A few days after, Mr. Triebley left her husband's house and hired rooms at the house of Mrs. Helfer, in Railroad street, north of the weigh scales. These she furnished comfortably, and fixed her residence there with her son Frank, who is about 15 years old. After his wife left, Triebley was [illegible] and tried through the assistance of Mr. [illegible] M. Smith, Chief of Police and other citizens, to induce her to return home. [illegible] Wednesday afternoon about 4 o'clock he went up with officer Smith to where his wife lived, and succeeded after some difficulty, in obtaining an interview with her, she expressing fears that he intended to shoot her. At this interview, Triebley pleaded with her in the most earnest manner, to return home, but she positively refused. He then left the house accompanied by officer Smith, and [illegible] labor under much mental excitement. [illegible] Wednesday evening at 7 o'clock, Triebley went alone to Mrs. Helfer's, and knocking at the door, asked for admission. His wife refused to let him in. He told her that if she did not admit him, he would shoot her. She then left the window from which she had been talking to him, when her son Frank, who took the place she had left, exclaimed—"O, father do not shoot mother!" By the time she returned to the window, her husband had drawn a Colt's revolver, and placing the muzzle to his body, shot himself, the ball entering the upper part of his abdomen and passing obliquely downward. Triebley fell, and dragging himself on the porch in front of the house, his wife ran out and took the pistol from him. He asked her to return it to him, but she refused to do so. The wound inflicted by the passage of the ball was quite large, but there was but little external bleeding.

Triebley was taken into an adjoining house, and surgical assistance called in, after which he was removed to his residence. We saw him about an hour after the occurrence, and found him suffering much pain. It is difficult to predict the result. The wound was probed without finding the ball. He sent for his wife to visit him, but we did not learn whether she acceded to the request.

This occurrence naturally created much excitement in the neighborhood where the parties resided and are well known.

Yesterday, Triebley was in a critical condition. His wife has been induced to return to him, and it is to be presumed that she will attend upon and nurse him, which in his present condition he requires. The impression is that he cannot survive. The ball still remains in his body, his physician not being able to locate it.

THE AUTUMNAL FEAST.

The feasts of the month of Tishri begin with its first day, the day known as the civil New Year of the ancient Israelites, and is called, therefore, Rosh Hashanah, "the beginning of the year." In the Bible, this first day of the seventh month is called Yom Hashkoron, "a day of memorial," and Yom Theruah, "a day of blowing the trumpet." It is the day when man should remember the past, with all its joy and sorrow, happiness and affection; the past, this great text-book of instruction should lay open before his searching eye, and man should find himself therein, with his thousand wishes and desires, his hopes, schemes, thoughts, his virtues and his faults. Therefore, the alarm of the trumpet should be given this day, to remind every man that this is the day of memorial, of self investigation, and a retrospect of the past. Therefore, it is a Yom Hadin, "a day of judgment," when man appears before the tribunal of his conscience, the scrutinizing eye of his God, to become conscious of the good or the evil he has done during the past year. Man, in reviewing the past, should ask himself: How many widows and orphans have I protected? What relief have I afforded to the poor and needy? Did I always listen to the demands of charity, the voice of benevolence, the call of my conscience, the laws of my God? Did I not wrong my neighbor, nor violate the laws of justice, nor trespass upon the rights of my fellow man? What amount of good have I done to the community with whom I live, and who protect me in my rights, or to my fellow men, who are entitled to my services? How much better and wiser am I myself than I was last year? Is my heart improved, my intellect enlarged, and enriched, my hopes and my confidence in God strengthened? Can I show before the omniscient God of Justice that I have not lived in vain since last year? With these and similar questions man should step before the tribunal of his conscience; therefore, it is a day of memorial; therefore, the trumpets sound; so, it is the day of judgment.

The retrospect of the past should also teach us the Providence of God, the dependency of man on the will of the Most High, the grace and mercy of God revealed to us in our every-day walk of life. How he shields and guards us with his love, and leads us in his wisdom. Thousands of wishes rise in the heart of man, nine hundred and ninety nine of which are never fulfilled; yet, man would be the most miserable creature if all his wishes were realized. But who prevents the realization of those numerous wishes? God—Providence. Thousands of evil plans are conceived, and thousands of dangers lurk on every step we go, but who watches over us? God—Providence. Thousands of things are lost to us during the year, each of which we consider a misfortune; yet we soon perceive that the very loss tended to our happiness. Who directs all this? God—Providence. In reviewing one year of our life, we find ample reason to acknowledge His kindness, wisdom and justice. Therefore, the day of memorial is also the day of Providence, i. e., to confirm us in our confidence in the divine Providence; to convince us that God reigns supreme over the universe and its innumerable creatures. Therefore, we call God in our prayers, Melech, King.

But, while placing ourselves before the tribunal of our conscience, before the all-seeing eye of our God, we become aware of the truthfulness of the divine words, "For there is no man so righteous on earth that he should always do only what is good and never commit sin." Verily, man is a frail and foolish being, erring frequently, and discovering his errors only after they are committed, and he inspects his actions with a calm mind. The day of memorial is therefore also the first of the ten penitential days, Asereth Yme Teshubah, a time set apart to become fully aware of the errors, faults, sins or iniquities we have committed, the wrongs we have done, the time of our own improvement we have lost, the good we have left undone during the past year; to repent of our evil course, and improve it as far as in our power, by appeasing the offended neighbor, restoring the property acquired unjustly, by prayer and acts of charity, and by strengthening our will to walk henceforth in the ways of the Lord. This is the duty of every Israelite during the ten penitential days. To the consciousness of this duty, and its performance, he should be awakened by the day of memorial and the blowing of the trumpet.

Service commences to-morrow (Sunday) evening at six o'clock. E. OPPENHEIM.

SECRETARIES—F. B. Wallace, B. F. Crawshaw, Wallace Guss and F. S. Haeseler.

On motion of W. K. Jones, Esq., a committee of 11 on resolutions was appointed.

The Committee on Resolutions is as follows: W. R. Jones, Tamaqua. C. M. Brumm, Minersville. Jos. C. Stroub, Hubley. Edward Paxon, Wayne. C. J. Christian, Schuylkill Haven. R. H. Coryell, St. Clair. J. A. Huntzinger, Pottsville. Ephraim Phillips, New Castle. Wm. Ramsey, Mahanoy City. T. H. Zulick, Orwigsburg. E. T. Filbert, Pinegrove.

A motion that all of the nominations be made before adjourning for dinner, was lost.

Pending the absence of the committee on resolutions, Hon. Lin Bartholomew addressed the Convention, in compliance with an invitation. He called upon every Republican to do his duty. The Democratic party asks us to forget the past, but we cannot. Like Banquo's ghost it will rise; and tell us of past murdered friends. We must reap the fruits of victory achieved through a long and bloody struggle. To-day you are called upon to nominate a good ticket that will be supported by the Republican party, and by many of the dissatisfied of the opposition. An exercise of good judgment to-day we can be successful at the October election, notwithstanding that we are in a minority in this County. Earnest, true men are before the Convention as candidates, but there are times when the devotees of party must be sacrificed for the general good of the party. Let us take advantage of the dissensions among our political enemies. In regard to the candidates for State positions and their principles, we are familiar with them. One is a soldier whose acts speak for him. He has helped to save the country. We stand like a wall of fire around John W. Geary, and will elect him. The Democratic party has fallen from the situation which it once occupied, as the party of the people, and opposed to monopolies and capitalists. There is no doubt of the future, but the result in Ohio and Pennsylvania will show, will be to a glorious victory. I ask you to act for the best interests of the County, and all will be well.

Mr. Bartholomew closed amid warm applause.

The following resolution, offered by W. B. Kurtz, was adopted:

Resolved, That we deem it inexpedient to nominate more than two candidates for the State Legislature; provided, however, that the County Standing Committee are hereby empowered to select a third candidate if in their judgment it should become necessary.

The Committee on Resolutions then reported the following, which were adopted unanimously:

Whereas, The delegates of the Republican party of Schuylkill County, here in Convention assembled, rejoicing [illegible] and thankful that the Divine Providence has smiled upon our efforts [illegible]

Resolved, That we believe with Thomas Jefferson and our revolutionary forefathers, that all men were created free and equal, and that so long as we profess to be attached to our free institutions, it would be [illegible] any class of our citizens of, or prevent them obtaining that freedom and equality to which they are entitled by the Constitution, [illegible] we are in favor of the proposed XVth Amendment to the Constitution of the United States.

Resolved, That we have unlimited confidence in the valor, military ability, and patriotism of Gen. Grant when leading the armies of the Union against the combined efforts of treason, so we have unlimited confidence in his ability, integrity, clear judgment, and sound republicanism, with which he presides over the destinies of our beloved country. We thank God that the era of corruption in high places is well nigh over and that the plunderers and thieves are being driven from the temples; that honesty is again recognized as a credential [illegible] "Whisky Ring," the "Indian Ring," the "Counterfeiting Ring," the "Pardon Ring," and all the other rings by which the Government was defrauded and officials corrupted, are things of the past, that went out with Andrew Johnson's Administration.

Resolved, That we congratulate the country upon the gratifying decrease of the public debt, since the incoming of the new administration, showing clearly as it does that when the affairs of the Government are honestly and economically administered, when its officers are above the reach of temptation, and when its operations are not manipulated in the interest of speculators and gold cliques, the time is not far distant when the burden of taxation will be removed, and our debt be paid off in full.

Resolved, That we believe that the labor of the country should be protected by such discriminations in our tariff as will raise it from the unequal ruinous competition with the low priced labor of foreign countries—that above all, after the industry and capital of the land have regulated themselves upon a certain basis of duties levied upon foreign manufactures, we deprecate any violent or needless changes in that basis because they would be certain to entail wide spread disaster and ruin to the industrial interests of the country, without bringing any corresponding benefits.

Resolved, That we sympathize with the patriots of Cuba now struggling for independence, and that we hope their efforts to throw off the yoke of Spain will be crowned with success before the close of the present year.

Resolved, That the administration of the affairs of the State under Gov. Geary has been marked by prudence, by honesty and by ability. Free from the domination of cliques, attentive to the interest of the Commonwealth, his course has been such that we hail with pleasure his renomination and pledge to him our undivided support at the coming election. The law-abiding people of this County have reason to feel particularly grateful to him for the faithfulness with which he has watched over their interests, and should give him an undivided support.

Resolved, That in the Hon. Henry W. Williams our candidate for Supreme Judge, we recognize the able jurist as well as eminent citizen, and that his election to the Supreme bench will reflect honor upon the State.

Resolved, That the course of the Hon. H. L. Cake, as member of Congress from this district, meets with our heartiest approval. His attention to the duties of his position and his care of the interests of his constituents merit our warmest thanks.

Resolved, That to the valor of our soldiers under God in the late War for the Union, this country is indebted for its preservation from the assault of armed treason, and that the heroic defenders of the Republic shall ever have a foremost place in our regard.

COUNTY.

ST. CLAIR.

MEETING OF THE WORKINGMEN'S BENEVOLENT ASSOCIATION.—At a special meeting of the Workingmen's Benevolent Association held on Thursday night at St. Clair, for the purpose of taking action in regard to the present unsettled state of wages for September, it was *Resolved*, That the matter be left to the decision of the Executive Committee, which meets the coming Saturday; provided that in the meanwhile there is no advantage taken by the operators to reduce the present rates of wages.

MAHANOY CITY.

An accident occurred yesterday, Aug. 31st, on the Lehigh Valley Road, at Quakake Junction, by the breaking of an axle on a coal train. From 60 to 70 coal cars went over the embankment. One of the brakemen had his leg broken, but no loss of life occurred, which was very miraculous, as there were persons on the train at the time.

MIDDLEPORT.

Business in this place is very dull owing to the burning of Mr. H. Gutterman's Breaker on Saturday evening, thereby throwing many of the citizens unexpectedly out of employment. The Miners working for Mr. P. D. Luther have turned out. The difficulty is on the question who has the right to hire or discharge the men, the operator, or the union, and we have two stores and four taverns and neither of them have either enterprise enough or don't feel able to support a daily paper of their own County.

ASHLAND.

The schools of Ashland reopened on Wednesday. A correspondent of *The Mahanoy Gazette* furnishes to that paper a list of the teachers of Ashland, with the amount of their salaries. It is as follows:

Samuel Davis, Superintendent, salary, $1000; Wm. J. Burke, High School, salary, $900; Thos. A. Burke, Male Grammar, salary, $700; Lizzie Hardy, Female Grammar, salary, $450; Belle Beach, Secondary No. 1, salary, $325; Clara J. Horne, Secondary No. 2, salary, $325; Eshter Leam, Secondary No. 3, salary, $325; Emma Jones, Secondary No. 4, salary, $325; Jennie Thomas, Secondary No. 5, salary, $325; Maggie Reilly, Secondary No. 6, salary, $325; Samuel Clarkson, Mixed School, salary, $700; Mary Davis, Primary No. 1, salary, $300; Callie Mears, Primary No. 2, salary, $300; Eliza Mears, Primary No. 3, salary, $300; Maggie Brennan, Primary No. 4, salary, $300; Thesie Igo, Assistant, salary, $250; Mary Golden, Assistant, salary, $250.

LEBANON COUNTY.

The Courier says: Dr. Grumbein, of Annville, being about to locate in South Carolina, offers for sale his fine property in Annville.

A number of our young men are about organizing a company of Cadets in Lebanon. Captain Snowwhite is to have the command.

Mr. G. D. Coleman is erecting a barn on his farm, north of this borough, which, when finished, will be the most complete structure of the kind in the State.

A little son of Mr. Price, ticket agent at the Hummelstown station, on the Lebanon Valley Railroad, about 6 years of age, was drowned in the Union Canal, on Sunday evening last.

FROM HAZLETON.

HAZLETON, Aug. 31, 1869.

MESSRS. EDITORS JOURNAL:—Since my last, the German Democrats met in Wilkesbarre to nominate another ticket. They held a conference with the Republican County Committee for the purpose of voting three officers on the ticket, which the County Committee refused to entertain. The Germans put their heads together, and came to the conclusion that they would not form another ticket but go home. This is the culmination of a third ticket, but there is great dissatisfaction in the Democratic ranks, and it may lose them many votes.

An attempt was made last week to set fire to the [illegible] stable of Mr. Conrad Lehr, by piling shavings and kindling wood against the door and then setting fire to it. Happily it was discovered in time to prevent any damage. Had the fire succeeded in getting headway, much damage would have been done.

I find that [illegible] the miners had stopped the pumps at the mines, when Sheriff Rhoads was telegraphed to for protection. The Sheriff arrived accompanied with [illegible] and firemen from the Wyoming Region, who started the pumps again. The Sheriff was assisted by the Coal and Iron Police, who are now protecting them. The suspension seems more likely to continue indefinitely than at any previous time. There is no prospect that we can discover of any arrangement whatever. Our business men who had laid in a large stock of goods when work was resumed, have suffered in consequence of this stoppage, and there is a bad situation.—The working classes will not buy only what they actually need.

The Assessor has placed the registered list at the place of voting. There are 564 persons registered. This is far from complete, and when all are registered it will be found to reach 700.

On Friday afternoon last a servant girl of Mrs. Berger, of Hazleton, was milking the cow. An infuriated man, named Boyle, from Milnesville, came past and attempted to drive the girl off so as to milk the cow himself. She started to go into the house when he followed her. Mrs. Berger interfered when she was attacked by the man who knocked her down and attempted to stab her, when her son came to the rescue. [illegible] He was shortly afterwards arrested by the Coal and Iron Police and lodged in prison.

On Tuesday evening a clothing pedlar, from Pottsville, while stopping over night at Jeansville, in this county, had his wagon broken open and robbed of about fifty dollars worth of clothing. B. C. B.

THE GREAT MEDICAL MISTAKE

Of former days was an utter neglect of sanitary precautions. No ancient means were adopted for the prevention of sickness. Sewerage was unknown in cities; drainage was rarely attempted in the country. Heaps of offal were left to rot in the public streets, and domestic cleanliness, the great antidote to febrile diseases, was sadly neglected. It is not so now.—Wise laws, philanthropic institutions, and a vigilant sanitary police, have, to a great extent, remedied the evil. Nor is this all. Preventive medication has helped materially to lessen the rates of mortality. It is not too much to say that tens of thousands escape sickness in unhealthy seasons in consequence of having invigorated their systems in advance by a course of HOSTETTER'S STOMACH BITTERS. This pure and powerful vegetable tonic and alterative comprises the extracts and essences of a variety of roots and herbs, renowned for their strengthening, soothing, vitalizing and purifying properties. These medicinal agents are incorporated with a spirit absolutely free from the acrid poison which defiles more or less, all the liquors of commerce, and their effect is diffused through the whole frame by this active, yet harmless stimulant. The result is such a condition of the system as renders it almost impervious to the exterior causes of disease, such as damp, fog, sudden alternations of temperature, &c. Strength, and the perfect regularity of all the functions of the body, are the best safe-guards against atmospheric poison and the effects of unwholesome water, and HOSTETTER'S BITTERS are the best strengthening and regulating medicine at present known. For dyspepsia and biliousness they are a specific absolute. 33-4t

AYER'S HAIR VIGOR,

FOR THE RENOVATION OF THE HAIR.

The Great Desideratum of the Age.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., PRACTICAL & ANALYTICAL CHEMISTS, LOWELL, MASS.

Price, $1 00.—Sold at Harber Drug Store, Pottsville, and all druggists and dealers everywhere. J. Keller Burns, Minersville. Sept. 5, '68 36-1y

A PACIFIC RAILWAY GOLD LOAN.

$6,500,000.

We beg leave to announce that we have accepted the agency of the Kansas Pacific Railway Company for the sale of its New Seven per cent. Thirty Year Gold Loan, Free from Tax. This Loan amounts to $6,500,000. First Mortgage Land-Grant and Sinking Fund Bonds, secured upon the extension of the Railway from Sheridan, in Kansas to Denver, Colorado, a distance of 237 miles, of which 12 miles are completed, and the rest is under construction. It is also a Mortgage on the Road, the Rolling Stock and Franchises of a first class Railway, besides now running through the State of Kansas, And in successful operation for 437 miles west of the Missouri River, and earning already enough to meet all of its expenses and existing obligations, besides More than the Interest upon this new Loan.

In addition to this the Bonds are also secured by a mortgage of the GOVERNMENT LAND GRANT OF THREE MILLION ACRES, extending in alternate sections on either side of the track, from the 394th mile post in Kansas to Denver. The proceeds of the sale of these lands are to be vested by the Trustees in the 7 per cent. Bonds [illegible] serves up to 120 or in U. S. Bonds, as [illegible]

A Sinking Fund for the Redemption of the Bonds.

The lands embrace some of the finest portions of the magnificent Territory of Colorado, including coal field and pinery. The Company also holds as an asset another tract of Three Millions of Acres in the State of Kansas. And although not pledged as a security for this Loan, their possession adds largely to the Company's wealth and credit. We estimate the VALUE OF THE COMPANY'S PROPERTY, COVERED BY THIS MORTGAGE AT $23,000,000 WHILE THE LOAN IS MERELY $6,500,000.

The Bonds have THIRTY YEARS TO RUN, from May 1, 1869, and will pay SEVEN PER CENT. INTEREST IN GOLD, semi-annually, on May 1 and Nov. 1, and are Free from Government Taxation. The Company paying the tax. The PRINCIPAL of the Loan is made PAYABLE IN GOLD, in the City of New York, but each coupon will be PAYABLE IN FRANKFORT, LONDON OR NEW YORK, at option of the holder, without notice, at the following rates: On $1,000 Bond in New York, $35 (gold) each half year; London, £7 [illegible]; Frankfort, 87 fl. 30 kreuzers.

The Agents of the Loan, before accepting the trust, had the condition of the Road, and the country through which it runs, carefully examined. They are therefore able to give the Loan an emphatic endorsement as a FIRST CLASS INVESTMENT, in every respect perfectly safe, and in some essential even Better than Government Securities.

The Bonds will be sold for the present at 96, AND ACCRUED INTEREST, BOTH IN CURRENCY. The Agents reserving the right to advance the rate.

The attention of investors is invited to these well secured bonds, which we recommend as one of the most profitable investments in the market. Gold and Government Securities taken in payment at their market value, without commission. Pamphlets, with maps giving full information, sent on application.
