PITTSBURGH GAZETTE.

MUSICAL MICE.—The editor of the Portland State of Maine states that about three weeks ago the night compositors of that office were disturbed by certain musical sounds, which seemed to come from the walls or from behind their cases.—Sometimes it would be heard in a low, murmuring tone on one side of the room; and be responded to in a lively chirrup from the other. The compositors soon began to like the music, which resembled somewhat the softer notes of the canary bird, with a prolonged warble at the close, and learned to walk softly about the room, so that the performance should not be interrupted. One night the Serenaders appeared before them in the shape of two mice. They were kindly greeted, and condescended to partake of the crackers and cheese which was offered them.

They became on each succeeding night more familiar and more musical, and now every night they sit and sing, and cheer the hearts of those who tarry at the cases, or work upon the forms, after the great mass of the city's population are asleep. They seem to delight in watching the foreman as he makes up his form, and become silent only when the lights are put out for the night. The mice are apparently of the common species, their color is an ashy brown, inclining if anything to a lighter shade than ordinary, with short, plump bodies and delicate limbs.

In olden time, when the doctrine of metempsyphosis was in vogue, it would probably have been believed that these little mice had at some previous day existed on earth in the form of a Jenny Lind and Otto Goldschmidt, and that so deep was the love of art implanted in their souls that they retained, even after death and transformation, a portion of that talent which had delighted men in other days.

MEDICAL.

TO THE PUBLIC.

MOST IMPORTANT ANNOUNCEMENT:

RETIREMENT OF PROF. JAMES McCLINTOCK, M. D.

From the Philadelphia Medical College.

A NEW ERA IN THE HISTORY OF MEDICINE

Popular Medicine for the first time sanctioned by the

HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK, M. D., of Philadelphia, known for more than a quarter of a century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of a series of FAMILY MEDICINES therefrom, which will be put up in a *cheap* and *popular form*, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations *ever known* for the cure of disease. They are the fruits of the most profound investigation, the wid est research, and the almost unequaled experience of one of the first physicians of the age. Each remedy is especially adapted to *some particular form of disease*, in accordance with the *highest principles of modern medical science*. Each of these remedies have been tried, improved, and finally perfected, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his great reputation has called him. Their nature and effect are known and approved of by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were under his tuition, in the Colleges of Philadelphia, Castleton, Pittsfield, and elsewhere.

READ THE FOLLOWING CERTIFICATE:

This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., New York, the recipes of my family Medicines, with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to hundreds of regular physicians, who have been my students, and who are many of them now practising with distinguished success in all parts of the country. My inducements for this step are numerous; one of the most urgent is, that the demand for my remedies has become so large, through private report of their success, as to make their preparation too great a draft upon my time; another is, the repeated solicitations of my friends and patients, in the belief that the general introduction of my remedies would be in many respects a public benefit; and finally, in securing the co-operation of Mr. Alexander Cushman, who is a thoroughly educated Chemist and practical Apothecary of many years experience, whereby I am enabled to assure the public that they will be prepared in the best, cleanest and most perfect form, regardless of expense.

JAMES McCLINTOCK, M. D., Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Professor of Midwifery, one of the Consulting Physicians of the Philadelphia Hospital, Blockley, late member of the National Medical Association, member of the Philadelphia Medical Society, member of the Medico-Chirurgical College of Philadelphia, formerly President and Professor of Anatomy and Surgery in Castleton Medical College, Vermont, and also, late Professor of Anatomy and Physiology in Berkshire Medical Institution, Pittsfield, Mass., &c., &c., &c.

We need scarcely remind the intelligent public of the *great secret nostrum* which exists for the introduction of a class of *good and reliable popular medicines*, which may be confidently adopted into family use and *depended on at all times* in the absence of a physician, as being the legitimate productions of *Science, Study and Experience*. No argument is needed to prove the immense superiority of such a class of remedies over the dangerous compounds that are daily puffed into notice by ignorant and reckless men, solely for the purpose of enriching themselves at the expense of the lives and health of their fellow beings. We trust confidently in the good sense of the community to support us in this effort to extirpate the great public evil of *Quackery* by giving a careful perusal to the following list, which embrace the first twelve remedies of the series, and which comprises some of the most valuable specimens of our discovery for the several complaints enumerated. If you or any of your friends are sufferers, one no time in procuring the aid of the *first medical authority of the day*, by obtaining and giving a trial to each of these medicines as are adapted to the case. We call special attention to the price of the list as being most generally demanded, at this season namely, the

I.....PECTORAL SYRUP.

This invaluable Syrup, which is entirely Vegetable in its composition, has been employed with wonderful success for many years in the cure of diseases of the Air Passages and Lungs. The most common diseases of these organs are *Irritation and Inflammation of* the Mucous Membrane which line the air tubes of the throat, windpipe and lungs. For any of these forms of disease, whether showing themselves as *Cough, Tickling of the Throat, Croup or Tightness in the Throat, Spitting of Blood, Difficulty of Breathing, Pleurisy or Loss of Voice*, and Bronchial Tubes, its use will be attended with the happiest results. It is recommended as one of the best and safest medicines for all forms of *Bronchitis and Consumption*.
