PITTSBURGH GAZETTE.

A Hair Hit from a Friend.—*The Evening Post* thus pays its respects to Mr. J. L. O'Sullivan—a gentleman of the same political faith:

Lisbon is described as a place where all imaginable dirt, and inconceivably repulsive smells are concentrated. It is delicate, therefore, in our minister to Portugal to roll himself over in the gutter before going thither. It shows the attention which our Administration pays to what critics call costume."

We yield to none in our respect and veneration for good and faithful ministers. But it always diminishes that respect, (and in this we know we represent a large class in the community,) when we see them dabbling in politics.—*Journal of Commerce.*

How very particular the *Journal of Commerce* has become, all of a sudden. In 1850, it published all the sermons in favor of the Fugitive Slave Law it could find. *Then* dabbling in politics was right.

NEW YORK.
Its Upper Ten and Lower Million!

BY GEORGE LIPPARD,
Author of "Washington and his Aide-de-Camp," "The Nazarene," "Paul Ardenheim," "Jesuit and the Poor," "Adonai," "The Quaker City," &c.

This is the best work ever written by Lippard: one continued scene of excitement from the commencement to the end. Those who have read Dumas' Count de Monte Christo, or The Wandering Jew, we are under the impression, will be equally pleased with this. Novel readers will find this the most interesting work that has issued from the press for some time.

George Lippard's Great Work—New York: Its Upper Ten and Lower Million. Novel readers will be perfectly delighted with this new work. The incidents delineated in this work are of the most exciting character. We should not be surprised if the demand for it should exceed that of Uncle Tom's Cabin.—*Times.*

From the Louisville Courier.

New York: Its Upper Ten and Lower Million.—George Lippard's last and best work. This novel requires only to be read to be correctly appreciated. As an enchanting work, it is unsurpassed. We believe it will be impossible for any person who commences this work, to leave it off until he has turned over its last page.

Extract from the Cleveland Plaindealer.

New York: Its Upper Ten and Lower Million.—A new work, by that gifted genius of genius, George Lippard. We have read it. It is a novel of most thrilling interest—such as one is having been commenced, you will sit up all night to finish. It is a book we would like every body to read.

MEDICAL.

TO THE PUBLIC.
MOST IMPORTANT ANNOUNCEMENT.
RETIREMENT OF PROF. JAMES McCLINTOCK, M. D.

From the Philadelphia Medical College.

A NEW ERA IN THE HISTORY OF MEDICINE!
Popular Medicine for the first time sanctioned by the HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK, M. D., of Philadelphia, known for more than a quarter of a century past as one of the ablest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of a series of FAMILY MEDICINES therefrom, which will be put up in a *cheap* and *popular* form, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations *ever known* for the cure of disease. They are the fruits of the most profound investigation, the widest research, and the signest unequaled experience of one of the first physicians of the age. Each remedy is especially adapted to *some particular form of disease*, in accordance with the *highest principles of modern medical science.* Each of these remedies have been tried, improved, and finally perfected, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his professional reputation has called him. Their nature and effect are fully tested and approved of by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were in under his tuition, in the Colleges of Philadelphia, Castleton, Pittsfield, and elsewhere.

READ THE FOLLOWING CERTIFICATE:

This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., New York, the recipes of my "Family Medicine," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to my brother regular physicians, who have seen my patients, and who can testify of them now practicing with distinguished success in all parts of the country. My inducements for this step are numerous and of the most urgent nature, that the demand for my remedies has become so large, through private report of their success, as to make their preparation too great a draft upon my time. Another is, the repeated solicitations of my friends and patients, in the belief that the general introduction of my remedies would be in many respects a public benefit, and finally, in securing the co-operation of Mr. Alexander Cushman, who is a thoroughly educated Chemist and practical Apothecary of many years experience, whereby I am enabled to assure the public that they will be prepared in the best, purest and most perfect form, regardless of expense.

JAMES McCLINTOCK, M. D., Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Professor of Midwifery, one of the Consulting Physicians of the Philadelphia Hospital, Member of Regular Medical Society of the Philadelphia County, Member of the National Medical Association; Member of the Philadelphia Medical Society; member of the Medico-Chirurgical College of Philadelphia; formerly President and Professor of Anatomy and Surgery in Castleton Medical College, Vermont; and also, late Professor of Anatomy and Physiology in Berkshire Medical Institution, Pittsfield, Mass., &c., &c.

We need scarcely remind the intelligent public of the *great necessity* which exists for the introduction of a class of *good and reliable popular medicines* which may be confidently adopted into family use and *depended on at all times* in the absence of a physician, as the time-honored preparations of *Science, Study and Experience.* No argument is needed to prove the immense superiority of such a class of remedies over the dangerous compounds that are daily puffed in the public prints, by unprincipled men, solely for the purpose of enriching themselves at the expense of the lives and health of their fellow beings. We trust confidently in the good sense of the community to support us in this attempt to introduce the great public evil of *Quackery* to a merited rebuke, and to place for business houses which deal in the family medicine of the series, and which comprises some of the most valuable specifics ever discovered for the several complaints enumerated. If you or any of your friends are sufferers, or can do us a service in procuring all of the *first medical authority of the day,* by obtaining and giving a trial to each of these medicines as are adapted to the case. We call especial attention to the first *six* in the list, being most generally demanded, at this season, namely, the
