ELK LODGE, A. Y. M.

The stated meetings of Elk Lodge, No. 379, are held at their hall, corner of Main and Depot streets, on the second and fourth Tuesdays of each month.

W. C. HEALY, Sec'y.

Rates of Advertising.

One column, one year.....$75 00
½ " " " 40 00
¼ " " " 25 00
⅛ " " " 15 00

Transient advertisements per square of eight lines, one insertion $1, two insertions, $1.50, three insertions $2.

Business cards, ten lines or less, per year $5.

Advertisements payable quarterly.

THE frame for the M.E. Church building has been erected.

BLACKBERRIES are selling here at from five to ten cents a quart.

FRED. SCHOENING'S new house is fast approaching completion.

THE supervisors have done a good job in fixing the approaches to Depot street bridge, and in grading East street.

OSTERHOUT'S heights are being plowed over; the horses are sharp shod, and the man is tied to a tree to prevent him falling off.

DOCTOR EARLEY has the tallest corn in Elk County, on his farm back of South street, being about ten feet in height. Who can beat it?

BEWARE of eating green apples, the doctors say they will give you epulchadiancorpulence, and that certainly is not very desirable.

THE Northwestern Pennsylvania, Fair association holds its first annual meeting at Erie on Sept. 15th, 16th, 17th and 18th.

THE Printers' base ball club, of Clarion, claim to be the champion base ball club of Armstrong, Jefferson, Forest, Elk, and Clarion counties What say our boys to that?

DOCTOR EARLEY is having a new stone house built over the "big spring" on his South street premises and intends having the water carried direct to his residence on Center street.

BLUNDER.—In the court proceedings, published in the last issue, we inserted Joseph Wilhelm in place of Phillip Willhelm in the rape case. Such things are annoying to us, and yet they will occur.

NEW BANK.—A new banking-house has been started in this place by Jerome Powell, C. R. Earley, Chas. R. Kline, and Jno. G. Hall, with Chas. R. Kline as Cashier. The bank is styled Elk County Bank and is located in Hall's new brick building.

WE are pained to learn that Geo. Overholtzer had his wrist broken while on his way to St. Mary's, last Saturday evening. He had reached his hand out of the window to knock some ashes off his cigar, when his wrist came in contact with a bridge, which he did not know the train was approaching, causing a fracture as above stated.

BASE BALL.—Last Saturday, at St Mary's, the Sabbath Breakers of that place and the Ridgway Scrubs of this place, had an exciting game of ball ball, resulting in the complete victory of the "Scrubs," score, Sabbath Breakers, 21; Scrubs, 47. We think the choice of names in the case of these clubs, is suggestive of the early days of the western gold seekers, and bids fair to rank with "devils holler" "hell gulch," etc.

MAKE YOUR OWN RETURNS.—An order has recently been issued by the commissioner of Internal Revenue that may be of interest to some of our business men. It forbids all revenue officers to assist or make out reports for distillers, brewers, cigar makers and tobacco manufacturers, under penalty of dismissal. The order says: "If there be in your division a distiller, cigar-maker, tobacco manufacturer or brewer, who is not competent to keep the records and prepare the reports required by law and regulations, he or she must either employ some one (not an officer) who is competent or quit the business."

GOOD SHOOTING.—Prof. D. F. Brown, of Brooklyn, N. Y., who has been spending a few weeks in this section for the improvement of his health, is the acknowledged champion of the world in penmanship, and at the same time is an elocutionist of great promise, as all who have had the pleasure of hearing him read, can bear witness; besides all this he is a good marksman as the following will show; last Tuesday Mr. Brown made the following string of ten shots, with Mr. Warner's rifle, at rest, at a distance of forty rods, and the target is sworn to before Esquire Cummings, by those who witnessed the feat; general average 12 inches; average distance from centre of each ball to centre of mark 1 1-5 inches. This is second to no one, excepting Mr. Warner, for accurate shooting.

DROWNED.—We are informed, that Mr. David Leach, was drowned in the pond at the shingle mill (Wingart's saw mill), Brady township, on Monday, August 3d. Mr. Leach was engaged in shoving logs for making shingles. The first intimation as to his probable drowning, was the discovery of his hat floating upon the water. How the accident occurred is not known, but it is supposed he slipped and fell in between some logs and being unable to extricate himself, was drowned before his situation was discovered. The water was let out of the pond, and the body found. The deceased was between 30 and 40 years of age, and leaves a wife and one child to mourn his sudden and unexpected death.—*Raftsmans Journal*

HAIL STORM. — The Titusville *Courier* of Tuesday, 11th inst., says a hail storm passed over that place last Monday evening, at about six o'clock, the most furious and destructive ever witnessed there. Windows were broken in all parts of the city, and in some instances every window on the south side of houses was entirely destroyed. All vegetation was destroyed. The ice came down in pieces from an inch and a half to two inches through. The storm lasted about fifteen minutes.

A dispatch from Spartansburg says a hail storm passed over that place at about 5 p. m., lasting about thirty minutes, which swept over a tract of country about two miles wide, destroying everything in the shape of vegetation on its path. Some farmers estimate their loss as high as one thousand dollars. Cattle were running wildly in all directions. Hail stones were picked up weighing from one-half to two ounces.

THE SEPTEMBER number of "Peterson's Magazine," is received, and is more beautiful than ever. The steel engravings, the colored fashion plates, the illustrative wood-engravings for fashions and for patterns in embroidery, crochet, &., are worth more than twice the price of the number. The stories, too, are first-rate. "Pretty Polly Pemberton," by Mrs Fannie Hodgson Burnett, is the best novelet we have read for years; we await with interest its concluding chapters; but then "Peterson" leads all others in the power and originality of his stories. Another thing! The publisher, always ahead, has met the new post-office law, requiring postage to be paid in advance, at once, and has not waited till next January, when the law will become compulsory. He offers to send his magazine to subscribers at the full price of two dollars, postage free, and to clubs, at rates, which, considering that he pays the postage, *are cheaper than ever*. Write for a specimen, which will be forwarded gratis, and either subscribe your two dollars, or get upa club! Address, CHALES J. PETERSON, 306 Chestnut Street, Philadelphia, Pa.

TERRIBLE ACCIDENT.—On Saturday evening last, Mrs. Fagley, wife of Geo. Fagley of Pain township, undertook the task so many have undertaking before and met with the same terrible fate. This task was that of filling a lamp while burning. The oil caught fire and followed the stream into the can which exploded, throwing the burning flames all over Mrs. Fagley and her little daughter aged five years who was with her. The screams of the little child and her mother attracted the attention of Mr. Fagley who was near the house and run to their assistance. When he reached them their clothes were all in flames and it was almost impossible for him to do anything, but he went to work at the risk of his life and by burning his hands considerably he succeeded in putting out the flames; but the little girl had inhaled the fire from which effects she died before daylight. Had Mr. Fagley not been about, at the time, the house and all its contents would have been burned. At the time of the accident there were children playing near the house and a little babe in bed in the house. Up to the time of writing, (Monday,) Mrs. Fagley is in a very critical condition and it is feared that she will not recover. Let this terrible accident be another warning to the people not to risk oil too far.—*Clarion Republican.*

THE BEST DISINFECTANT.—The season has fairly set in when disinfectants are necessary, and suggestions of a sanitary nature are in order. Roasted coffee, says the *Homeopathic World*, is one of the most powerful means not only of rendering animal and vegetable matter innocuous, but of actually destroying them. In proof of this the statement is made, that a room in which milt, in an advanced degree of decomposition, had been kept for some time, was instantly deprived of all smell on an open coffee roaster being carried through it, containing one pound of newly-roasted coffee; and in another room the effluvium occasioned by the cleaning of a cesspool, so that the sulphurated hydrogen and ammonia could be clearley detected, was entirley removed on the employment of three ounces of freshly-burnt coffee. Refrigerators sometimes get musty from flesh fowls or fish kept too long in them. No remedy for purifying such receptacles, so simple as coffee, can be employed.

Six men recently caught 1,000 pounds of trout one day from a Montana stream.

Times Go by Turns.

[An English Jesuit, Robert Southwell, wrote the following lines of much merit, two centuries and a half ago. The Philosophic strain of the piece is worthy of admiration.]

The lopped tree in time may grow again,
Most naked plants renew both fruit and flower;
The sorries wight may find relief from pain,
The driest soil suck in some moistening shower.
Times go by turns, and chances change by course,
From foul to fair, from better hap to worse.

No sea of fortune doth for ever flow,
She draws her favors to the lowest ebb;
Her tides have equal times to come and go,
Her loom doth weave the fine and coarsest web.
No joy so great but runneth to an end,
No hap so hard but may in time amend.

Not always fall of leaf, nor even spring;
No endless night, nor yet eternal day;
The saddest birds a season find to sing,
The roughest storm a calm may soon allay.
Thus with succeeding terms God tempereth all,
That man may hope to rise, yet fear to fall.

A chance may win that by mischance was lost;
That net that holds no great takes little fish;
In some things all, in all things none are crossed;
Few all they need, but none have all they wish.
Unmingled joys here to no man befall:
Who least, hath some; who most, hath never all.

DANGER OF USING SHOT IN CLEANSING BOTTLES —When shot are placed in a glass with water carbonate of lead is at once formed, a portion of it being noticed as a precipitate in the water, while another portion attaches itself as a thin flim to the sides of the vessel. This film adheres so firmly to the glass that it cannot be removed by rinsing with water alone, an acid being required to remove it. When shot are used for cleaning bottles which are afterward well rinsed out, the carbonate of lead suspended in the water will be removed, but that portion which is attached to the side of the bottle remains, and is afterward dissolved by the liquor placed in the bottle, if it possesses a sufficient solvent power. If the shot are only shaken up with the water for a short time, it is scarcely possible for the carbonate of lead to become attached to the sides of the bottles, but oftimes the shot are left in the bottle with the water for some time. Besides the rinsing is not always done as carefully as it should be, and the carbonate of lead suspended in the water is not all removed. Another danger might also arise from shot getting lodged in the narrow creases at the bottom of certain bottles, when the action of an acid upon it would dissolve not only the lead, but also the arsenic, which is always present in shot in sufficient quantity to render the liquid poisonous.

JURY LIST.

List of Jurors drawn for September term 1874, commencing Monday, September 21:

GRAND JURORS.

Benzinger—Henry Fledermann, Frank Schluttenhoffer, Christ Kraikie.
Fox—N. G. Bundy, John B. Cuneo, Robert Wilson, Franklin E. Hewitt, Silas Moyer.
Horton—Geo. W. Clinton, Daniel Phalen.
Jay—John B. Miller.
Jones — Fulsam Beckwith, William Weidert.
Millstone—F. G. Clyde.
Ridgway—E. C. Barrett, Geo. D. Messenger, Elisha DeGroat, N. T. Cummings, C. H. Rhines, Will Dickinson, Joseph Wildfire.
St. Mary's Borough — Joseph Dietz, James Rogan, Henry Gausman.

TRAVERSE JURORS.

Benezette—S. A. English, B. E. Morey, A. M. Parr
Benzinger—George Nissel, John Nissel, Nicholas Kronenwetter, John Kaul, Jr., Frank Gier.
Fox — Jacob M'Cauley, Ralph Bell, Orlando Meyers, Thomas Malone.
Horton—Thomas Burchfield, James Bennett, Jr., Wm. Cheatle, Jerome Farario, Reuben Keller.
Jay—J. A. Spangler, R. I. Spangler, Wm. Robinson, Anson B. Robinson.
Jones—Judson Schultz, Enos Retzer, John C. Johnson, Ferdinand Pistner.
Ridgway—Horace Decker, George Dickinson, Eli Etter.
St. Mary's Borough—John Fox, Fred. Rudolph, Anthony Fochtman, Frank Eckl, Joseph Hanhauser, Alois Schauer, Jeremiah Paulus;
Spring Creek—Mathew Shanley.

THE BALANCE OF TRADE.—The latest returns of the Bureau of Statistics, says the Philadelphia *Ledger*, enables us to compare our foreign trade since the panic with the period immediately preceding. The imports of foreign merchandise for the ten months ending April 30, 1874, are $68,237, 222 less than for corresponding time last year, while the imports of specie are $6,974,189 larger, making a net reduction in the imports of goods and specie combined of $61,263,033. This however, does not correctly represent the comparative consumption of foreign goods during the period, for there has been a reduction in the amount of goods in warehouse from $77,646,579 on April 30, 1873, to $58,475,974 on April 30, 1874. There has been a reduction in the consumption of imported goods of about $100,000,000 during the ten months, compared with the same period of the preceding fiscal year. It is worthy of note, however, that the amount of goods in warehouse has been reduced to an exceptionally low point, which illustrates the low condition of importers stocks to which we have repeatedly made reference as an element to be considered in estimating the present condition of trade. The export movement for the ten months shows that while we have exported $29,194,859 less specie than during the ten months of the previous year, yet we have shipped $59,285,471 more of produce and merchandise, making a net increase in the exports of specie and goods combined of $30,000,612. This is a very satisfactory showing. The fact that we have been able to reduce our consumption of imported goods within the ten months by $100,000,000, and yet increase our exports of home products by $30,000,000, shows that there has been no lack of economy to square our condition with the effects of the panic, and affords strong presumptive evidence that we are working rapidly toward a healthier state of business.

TRANSACTIONS IN BEEF. — The latest swindling dodge that has been revealed hereabouts is one of selling dried beef. A week or two ago two men, calling their names Charleston and Hamot, came to this city from some point unknown, as dealers in dried meats. It seems that one of the operators went ahead with some good samples of dried beef and took orders, which operator number two supplied. As the packages of meats were put up in nice canvass sacks, no one suspected that he was being duped and received his purchases supposing them to be all right. The field of operations for these fellows was west Eighteenth street, where several grocers were duped. The meat it seems was bad, having become spoiled in curing. The operations of these men were speedy, the plan being to go into a locality solicit orders and then supply them with all possible expedition.

When the swindled parties inquired for the fellows it was discovered that they had folded their tents and quietly stole away to parts unknown, probably Corry or Meadville, where they will doubtless enter into business, in the same manner that they did here.—*Erie Dispatch.*

NONE but a physician knows how much a reliable *alterative* is needed by the people. On all sides of us, in all communities everywhere, there are multitudes who suffer from complaints that nothing but an *alterative* cures. Hence a great many of them have been made and put abroad with the assurance of being effectual. But they fail to accomplish the cures they promise, because they have not the intrinsic virtues they claim. In this state of the case, Dr. J. C. Ayer & Co., of Lowell, have supplied a Compound Extract of Sarsaparilla, which proves to be the long-desired remedy. Its peculiar difference from other kindred preparations in the market is that it *cures* the diseases for which it is recommended, while they do not. We are assured of this fact by more than one intelligent physician in this neighborhood, and have the further evidence of our own experience of its truth.—*Nashville, Tenn., Farmer.*

FISH CULTUE.—The culture of fish is extending. Not only do we send our aquarium cars to California, but we trust our tender denizens of the water to a sea voyage new and strange, Germany sends us and we return her our shad. We read:

The classic waters of the "mighty Rhine" are to be denizened with emigrants from the new World. The castle of the Lurliberg is to be filled with visitors from the Bay State. On Tuesday one hundred thousand newly hatched shad, from the works in the charge of the Massachusetts Fish Commissioners, started on a voyage to the Old World. On their arrival in Germany they are to be placed in the Rhine. These tiny products of Massachusetts waters and Massachusetts ingenuity are a present to the German Government; the latter bearing the expense of transportation. Should the experiment of stocking the Rhine prove successful, our transatlantic friends will have cause to thank the Massachusetts Fish Commissioners; and as in future years the finny children of the New World disport themselves at the base of Rhinefals, around the Mouse Tower Island, or in the foaming waters of Schaffhausen, we trust that the bonds of international friendship will be strengthened as the gourmand of Fatherland refreshes himself with Yankee shad and Rhine wine.

A RIOT IN ARKANSAS.—A COLORED MOB IN POSSESSION OF AUSTIN.

The town of Austin, in Arkansas, has for two days (says a dispatch, dated Tuesday, August 11th), been besieged by a colored mob about one thousand strong. On Monday evening and Tuesday morning there was sharp fighting, the colored men being on both occasions repulsed with the loss of several killed and wounded. Reinforcements have been sent from Helena and other places to the whites, while the colored men have received accessions from the surrounding country. A very serious state of things existed at last accounts. The trouble is stated to have originated three weeks since, when Dr. Smith was attacked in the streets by a colored man. He fired at the latter but missed him, and killed a little colored girl standing by. A colored mob would have lynched Smith but for the entreaties of the Mayor and Smith's wife. To avoid danger, Smith voluntarily remained in jail until Friday last when some friends took him to Hernando. The colored people hearing of his departure notified the Mayor that if he was not brought back to jail they would burn the town; hence the rioting.

Application has been made to the Board of Pardons in behalf of Udderzook and Ambrose E. Lynch, of Alleghany county, for a commutation of the death sentences in their respective cases to imprisonment for life or for a term of years. The board determined that they had no power to recommend the Governor to commute a sentence until the other members of the board, provided for by the new constitution, shall be installed into the office, viz., the Lieutenant Governor and the Secretary of Internal Affairs, but consented to hear the parties, in conjunction with the Governor, on October 8, in an argument to show cause why death warrants should not issue in both these cases. As the final decision in Udderzook's case was only rendered in July, more time was asked to prepare their petittion, and October 8, was fixed. The cases of O'Mara and Irvin, of Susquehana county, will be heard at the same time.

STATE NOTES.

The strike at the Vulcan Iron Works, Wilkesbarre, in this State, has ended by the men returning to work at ten per cent. reduction.

At No. 8 shaft of the Pennsylvania Coal Company's mines, near Pittston, in the Wyoming region, Friday, Rudolpe Schmaltz, a miner, and Nicolas Owens, a laborer, were instantly killed by a mass of top coal falling upon them.

The latest demonstration by the authorities at Philadelphia, to obtain information about the missing boy Ross, was an order issued by the Mayor, week befor last, instructing the police to search every house in the city. The search began on Thursday and ended on Friday; bnt was without results as to the boy; but it showed up some things which people little think exist in Philadelphia. In one house in which forty families make their ill-provided homes, a woman was found apparently at the point of death. She had barely strength to move the fan she held in her hand, and there was not a soul to minister to her wants. A miserable bed and scanty furniture made up her all of earthly comforts. Of course her wants were attended to.

Pittsburgh, August 12.—The Standard Oil Works and National Refinery, on the Allegheny River, were burned to-night. At 3 o'clock the lightning struck an oil tank containing 3,000 barrels of oil, setting it on fire. About two hours after the tank overflowed and the burning oil communicated with the buildings and tanks in the vicinity, the fire at once covering a space of an acre and a half. Amount of oil destroyed, 950 barrels; all the buildings on the premises, valued at $12,000; also 12,000 empty barrels. The men on the premises escaped with difficulty. The total loss will be about $40,000 to 55,000 upon which there is an insurance of about $20,000. At 11 o'clock the fire was under control and the other refineries adjoining are considered out of danger. A tank at the Fairview Oil Works, on the opposite side of the river, was also struck by lightning and 3,000 barrels of oil burned; no insurance.

AN EXCURSION TRAIN COLLIDES WITH A COAL TRAIN—SIX HUNDRED PERSONS ON THE TRAIN—TWO KILLED AND TWENTY WOUNDED.

Philadelphia, August 15—An accident occurred to the excursion train from Norristown Pa., to Long Branch this morning, near Bristol, on the branch of the Philadelphia and Reading Railroad. The train came in collision with a freight train, owing to a misplaced switch. Two persons were killed and seven injured, one dangerously.

SECOND DISPATCH.

Philadelphia, August 15.—The excursion party to which the accident occurred this morning near Bristol, was the American Mechanics' Society, of Norristown, bound for New York Bay. A misplaced switch caused a collision between the excursion and a coal train. Two cars of the excursion train were telescoped. Killed—Alexandria Schall, Norristown; Sidney J. Nagle, Plymouth. The wounded were Jeffrey Blight, John Neal, Mr. Cox, Morris Rief, Harry Godschalk, Alfred Meyer, and about fifteen others. The engineer and fireman were slightly hurt. Abundant medical attendance was promptly obtained from Bristol and elsewhere. There were nearly six hundred passengers on ten cars.

FRANCE has been so beaten and wounded since the fall of the Empire that it is an agreeable novelty to record something on the other side. Her wheat harvest this year has proven so unusally abundant that instead of having, as in 1868, to import wheat and flour to the value of $60,000,000, France will be able to export from fifteen to twenty million dollars' worth of grain. This means not only a good thing for the French farmers, but also for bread consumers in England. The Mark Lane *Express*, the best authority on European crops, thinks the wheat yield this year will be above the average, but not so great as to depress prices.

New Advertisements.

MARRIE GRENOLS by her next friend JAMES GARDNER vs. RICHMOND S. GRENOLS.—No 56 April Term; 1874.

Divorce a vinculo matromonie.

To RICHMOND S. GRINOLS; you are hereby notified that MARIE GRINOLS your wife by her next friend James Gardner, has applied to the Court of Common Pleas of Elk Co. for a divorce from the bonds of matrimony, and the said Court has fixed Monday the 21th day of September next, as the time for hearing the said application in the premises, at which time you can appear if you think proper.

D. C. OYSTER Sheriff.

Aug., 12th 1874.—n24t4.

LIST OF CAUSES

SET DOWN FOR TRIAL on the third Monday of September, being the 21st day. 1874:

1 Jonathan Boynton et al. vs A. C. Finney et al., 1 January term, 1871.
2 George Decker vs George Schneider, 9 April term, 1872.
3 Martin Sorg vs Nicholas Kronenwetter, et al., 47 April term, 1872.
4 Martin Sorg vs Nicholas Kronenwetter, et al., 48 April term, 1872.
5 The School District of Fox vs John Myers et al, 31 January term, 1873
6 N. M. Brockway vs Harvey Parsons, 37 April term, 1873.
7 St. Mary's Coal Co. vs George Retger, 40 April term, 1873.
8 Anthony Weis vs J. A. Haak, 44 Aug. term, 1873.
9 The Clarion River Navigation Co. vs Hiram Carman, 69 August term, 1873.
10 Henry Sproul vs C. R. Earley, 8 November term, 1873.
11 Ralph Johnson et al. vs Miles Dent, 40 January term, 1874.
12 Com. of Penn'a for use of J. A. Haak vs Andrew Kaul, 59 January term 1874.
13 P. W. Hays vs Elias Moyer, 13 April term, 1874.
14 Tanning & Lumber Co. vs Joseph Burger, 31 April term, 1874.
15 Elias Mackey vs H. W. May, 51 April term, 1874.
16 George Emigh vs David Pontius, 13 August term, 1874.
17 Alderfer & Preston vs Buffalo New York and Phila. R. R., 43 August term, 1874.
18 Charley and Mary Weller vs B. N. Y. & P. R. R., 44 August term, 1874.

FRED. SCHOENING, Prothonotary.

n25tc.

THE best thing to brighten tin, is whiting and kerosene. Wet a bit of flannel in the kerosene, then dip into the powder and rub with a will, and your tin will shine like a mirror.

DROWNED.—On Monday, the 3d inst., a man named David Leech, formerly a resident of Westmoreland county, was drowned at Wingard's mill, near Luthersburg, Clearfield county. He was engaged at putting up a shingle machine, and having completed his work, went out into the dam to select a log on which to try the machine, and from some cause fell between the logs, and being unable to recover his foothold, was drowned, no person being near to assist him. His body was recovered shortly afward. He was about 27 years of age, and leaves a wife and two children.—*Clearfield Republican.*

A gang of young thieves and kidnappers, fifty in number, have been discovered and broken up by the poliece. Their operations consisted of petty robberies, burglaries and stealing boys and liberating them after taking their money, clothes, and valuables.

ORDER FIXING THE TERMS OF COURTS.

THE following order is made in accordance with the provisions of the 11th section of the act of 9th April, 1874, entitled "An act designating the judicial districts of the Commonwealth and providing for the appointment and election of judges therein, for issuing to additional judges learned in the law commissions as president judges and manner of fixing the terms of courts therein."

Now, to wit: August 5th, 1874. An order is hereby made by the judges of the several courts in and for the county of Elk, fixing the time for holding the regular terms of said Court, as follows:

SEPTEMBER TERM—On the third Monday of September.

NOVEMBER TERM—On the third Monday of November.

JANUARY TERM—On the fourth Monday of January.

MAY TERM—On the fourth Monday of May.

In testimony whereof the undersigned, judges of said court, have hereunto set their hands and caused the seal of said county to be affixed.

L. D. WETMORE,
President Judge.
CHAS. LUHR,
Associate Judge.

Filed August 5, 1874.
FRED SCHOENING,
n24—5t Prothonotary.

IF YOU WANT TO BUY

GOODS CHEAP

UTICA STEAM ENGINE CO.

(FORMERLY WOOD & MANN.)

STATIONARY & PORTABLE

Steam Engines.

The Best & Most Complete Assortment in the Market.

These Engines have always maintained the very highest standard of excellence. We make the manufacture of Engines, Boilers and Saw Mills a specialty. We have the largest and most complete works of the kind in the country, with machinery specially adapted to the work.

We keep constantly in process large numbers of Engines, which we furnish at the very lowest prices and on the shortest notice. We build Engines specially adapted to Mines, Saw Mills, Grist Mills, Tanneries, Cotton Gins, Threshers and all classes of manufacturing.

We are now building the celebrated Lane Circular Saw Mill, the best and most complete saw mill ever invented.

We make the manufacture of Saw Mill outfits a special feature of our business, and can furnish complete on the shortest notice.

Our aim in all cases is to furnish the best machinery in the market, and work absolutely unequaled for beauty of design, economy and strength. Send for Circular and Price List.
