MATTERS AND THINGS IN NEW YORK.

[Correspondence of The Press.]

NEW YORK, Aug. 31, 5 20 o'clock, P. M.

On Friday morning a destructive storm raged along the coast, which was attended with many disasters and the loss of several lives. The storm commenced about midnight, and continued to blow with great violence for several hours.

Among the vessels lost were the Carlo Alberto, an Italian barque, the ship Clara Brockman, from Liverpool; the ship Roswell Sprague, from Cardiff, and several smaller vessels.

A dispatch was received yesterday from New Orleans by the agent of the California mail steamers, stating that the Illinois, with five hundred passengers, $1,600,000 in treasure, and the semi-monthly mails, went ashore, while on the voyage from Aspinwall for New York, on Colorado Reef, seventy miles west of Havana. After discharging two hundred tons of coal, the steamer Empire City and a Spanish war steamer succeeded in getting her off, and she proceeded to Havana. She would leave Havana on the 30th instant, and will be due here on Wednesday next.

Yesterday morning the Fifth Ward police were notified of an alleged tragical occurrence at a house in Worth street, several persons having given information that a man had bitten off his wife's nose. Officer Truax repaired to the building described, in the rear of No. 41 Worth street, on the second floor, and there found an intoxicated woman named Mary Egan sitting upon some straw. She presented a perfect picture of squalid poverty. Upon her person was but little clothing, and that little was filthy and disgusting. The cartilaginous portion of her nose had been taken off by some noisome, but how she knew not, although she believed her husband had done it while she was asleep. In the apartment there was scarcely an article of domestic comfort; the furniture consisting of two or three rickety chairs and a rickety table.

The Germans have commenced the celebration of the seventh annual festival of the Turnverein—a society which has been suppressed in Germany for political reasons, but which flourishes in this country, and is well represented by hundreds of members in all the leading cities. Last year the celebration was in Pittsburgh; the previous year it was in Philadelphia; this year it is in New York. Yesterday at the meeting in the *Turnhalle* there was a little disposition to divide on "the ninger in the fence," but the cloud passed from the horizon, and everything went on peaceably. To-day about 3,000 Turners, and members of the Sangerbund and other German Societies, will assemble at Conrad's Garden, Yorkville, foot of Eighty-sixth street. A tournament will also take place in the river, off that point. It will be one of the grandest exhibitions witnessed in our vicinity for a long time.

An interesting slander suit has been commenced in the Superior Court. The parties are both French, and one formerly belonged to the Masonic fraternity. The plaintiff alleges that, in consequence of the slanderous charges made against him by the defendant, he was expelled from the French Lodge of Masons in this city. Judge Duer granted an order of arrest against the defendant, holding him to bail in the sum of $1,000.

The case of John Thompson, in which additional affidavits were to have been put in evidence, was postponed till Tuesday next, at 11 o'clock A. M., to give opportunity to counsel who had recently come into the case to examine the papers.

Charles W. Holly, aged eighteen years, lost his life accidentally, on Saturday night, at the shooting gallery, No. 42 Bowery. He had fired several shots with a pistol. On taking hold of the weapon the last time, the hair-trigger lost its balance or slipt in some way, thereby causing a premature discharge. The bullet entered Holly's right eye, lodged in the head, and produced instant death.

An intoxicated Irishman, named Michael Caney, was ejected from a Second avenue railroad car on Saturday evening. In attempting to get on again his foot slipped under the forward wheel, and his left leg was so badly crushed that it was amputated soon afterwards at the New York Hospital, and death followed the operation.

Gen. Jackson's gold snuff-box has not yet been awarded to the bravest man, though the special committee of the Common Council has drafted a appropriation to Garret Dykman. The committee started off to Nashville on Saturday to get the box—apparently afraid to await the action of the Common Council.

The funeral of Rev. Dr. Rufus Wilmot Griswold took place yesterday from Rev. Dr. Gillette's Church, Twenty-third street. The services were interesting, and were attended by several literary celebrities. The Doctor's remains were taken to the receiving tomb at Greenwood.

Bernard McKenna, an Irishman, aged 40 years, made a wager with a friend on Saturday that he could climb to the top mast of the schooner *Helen*, lying at the foot of Wall street, and return in safety. He reached the top, but when about to lower himself he became dizzy and fell headforemost to the deck. He died instantly.

This morning Mrs. Cunningham's counsel applied to Judge Peabody for a writ of *habeas corpus* to bring her before him. Mrs. Cunningham's petition sets forth, in brief, that she is illegally restrained of her liberty at the Tombs. Judge Peabody granted the writ, which is made returnable to-morrow (Tuesday) morning, at 11 o'clock.

A modest-looking, pale-faced young man, giving his name as John Robinson, was brought before the Court of Special Sessions, on Saturday, on the charge of larceny, and dismissed. He had not been from the court half an hour before he attempted to rob the money-drawer of a cigar store, in Grand street. He was caught in the act and taken back again to the Special Sessions, and sentenced to the penitentiary for six months.

LETTER FROM NEW YORK.

[Correspondence of The Press.]

NEW YORK, Aug. 31, 5 20 o'clock, P. M.

Although money is still tight and scarce, there was an easier feeling in the street to-day, and first-class paper sold freely at high rates of interest; what is called "gilt-edged" selling at 12 per cent., and less superfine, but still first rate, at 15 per cent. The distrust of last week is abating, and outsiders, who have cash at their disposal, are coming forward and willing to lend, tempted by the high rates. Securities, however, are very closely scrutinized before they are negotiated, and wherever there is the shadow of a doubt the paper is refused. The confident hope is that a favorable bank statement to-day, which I hope to get in time for post, (it is not yet made out,) the proximate arrival of $1,600,000 from California, and the present low rate of exchange, rendering the export of gold unprofitable, will make a great improvement during the present week.

Notwithstanding the gloomy predictions of the New York *Herald*, in its issue of this morning, as to the state of our money market, the position of our city banks, and, as it comprehensively expresses itself, of "all the elements of financial affairs," I believe that, with the exception of a few mismanaged railroads, whose heads have been kept above water for some time by improper means, and, whose inability to continue their ruinous system produced a panic, a general distrust in railroad securities, and a consequent depression for the time in all securities, good and bad. There is not the slightest cause for alarm or anxiety with regard to the state of our banks and commercial houses, and that in a very short time the storm will have passed away, leaving the atmosphere serener than before. A few speculators have fallen, who have been playing a desperate game, and trying to carry more than they could lift; but beyond this I cannot see what disasters are to be apprehended. The bona fide, steady trade of the country has scarcely, if at all, felt the pressure.

The stock market opened this morning rather buoyantly, languishing towards the close. Pennsylvania Coal Company rose 3½ per cent. from Saturday's closing price; New York Central was firmer at 74½, 1 better than Saturday, and between the boards sales were made at 77. Reading rose 2½, Galena and Chicago ½, and Erie 1½. At the second board, however, there was a considerable depression in some stocks. Reading fell back to 50, (2 per cent.,) Pennsylvania Coal Company to 68½ ⅝, and Erie to 21½. Illinois Central have gone down 4 per cent. since Saturday, a total fall of 6½ since the 20th of last May, when they were in demand at 138½.

Should the Erie Company pay their interest to-morrow, as is confidently expected, it will have a good effect in settling the market somewhat, but, if such should not prove to be the case—and up to this moment it is not officially announced and therefore not certain,—we may expect a squally time. W. A. Booth, President of the American Exchange Bank, and E. R. Lane, have been appointed receivers of the Ohio Life and Trust Co. The Cashier of this Company has been arrested, but discharged on his own recognizance, on complaint of the Mechanics' Bank of Wheeling, and of the Manufacturers' and Farmers' Bank of Virginia, in the one case for the recovery of a sum of money received in due course of business and deposited with checks; and in the other, for $25,000 of Virginia bonds, hypothecated to the O. L. & T. Co., for a loan to the Manufacturers' and Farmers' Bank. It is supposed that the Cashier will not answer to "his bail" in these complaints. A sale of $100,000 Ohio 6's is announced to take place to-morrow, for cash, by E. H. Ludlow, auctioneer. The notes of the Hollister Bank of Buffalo are thrown out to-day by the American Exchange Bank; and of the Bergen County Bank, of New Jersey, have shared a similar fate. I am told that the statement in a Newark paper, that W. B. Ogden, of Chicago, has made an assignment, is untrue; that his only obligations are endorsements for the Fond du Lac Railroad, and that the creditors have granted an extension, and that all will be made right within the time given.

ASHES are quiet at $8. for Pots and $7.31½ for Pearls.

BREADSTUFFS.—The market for State and Western flour is 5a10c lower for the low grades. The sales were 3,700 bbls. at $5.80a$5.95 for common to good State; $6.25a$6.45 for extra do; $5.80a$6 for common to good Michigan, Iowa, Indiana, &c.; $6.25a$7 for extra do; $6.35a$6.60 for extra round hoop Ohio; $6.70a $8 for extra Genesee; and $7a $9 for extra Ohio, St. Louis. Southern flour is easier, with sales of 12,000 bbls. at $6.25a$5.65 for mixed to good Alexandria, Baltimore, &c.; $6.85a$7.75 for extra do; $8 for Brandywine, and $7.25a$8.25 for Richmond. Canadian flour is 10c easier, and dull, with sales of 400 bbls. at $5.80a$6.10 for superfine and $6.50a$8 for extra. Rye Flour is firm, with sales of 1,000 bbls. at $4a$5.25, from fine to extra. Corn Meal is steady at former prices.

COFFEE is dull, at 10½ for Rio, and 16½ for Java. An auction of 4,000 bags Rio is announced for to-morrow.

COTTON is a trifle firmer. A few lots of middling were sold as low as 18½, for ready money, on Saturday. All classes may be said to be a shade higher than Saturday's quotations. The following are the rates:

NEW-YORK CLASSIFICATION.	Upland.	Florida.	Mobile.	N. O. & Tex.
Ordinary	18¾	19¼	19¾	19¾
Middling	19¾	19¾	20	20¼
Middling Fair	20¼	20¼	21	21
Fair	20¾	20¾	—	—

GRAIN.—Wheat is buoyant, with sales of 35,000 bushels at $1.40a$1.52 for Southern red, and $1.62a$1.72 for white do.; and $1.62 for good white Kentucky. Rye is heavy at former prices. Oats are heavy at 57c.a63c. for State and Western, and 40c.a50c. for Jersey. Corn is lower, with sales of 20,000 bushels at 84c.a84½c. for Western mixed, and 89c. for Southern yellow. Barley is dull at $1.05.

HAY.—There is a better supply. Shipping lots are selling at 65a75c., and retail do. at 80a85c.

HOPS.—The market is dull, owing to the disinclination of holders to make any concession to buyers. Prices are almost nominal at former quotations. Mr. Hull, in his weekly circular, says:

"As the season is fast approaching when the tanners commence working in their fall stock, we may soon expect a more active demand. The firmness manifested by importers has retarded any heavy operations, and a slight concession on their part would be likely to induce the trade to come forward more freely. The views of importers are strengthened by the late advices from Europe, where hides were gradually advancing, and there appears to be no chance for a decline in the hide producing countries. Upper Leather is quite brisk, with a good inquiry from Eastern manufacturers."

IRON is steady, with moderate sales at $29 50a$30 for Scotch Pig, and bars are nominal at $54 for common, and $64a$65 for refined.

LEATHER.—The market for Hemlock sole is steady at former prices, but there is little business doing, as holders are pursuing the same course as the holders of hides.

NAVAL STORES.—Spirits of Turpentine are dull at 47c., with a downward tendency. Nothing doing in Crude Turpentine. Common Rosin very scarce at $1.95 per 310 lbs., and Tar is in fair demand at $2a$2.37½.

OILS.—The market is quiet, with no change in English or Crude Whale. American is sold at 80c.a81c.

PROVISIONS.—Pork is rather dull at $26 for mess, and $21.75 for prime, with sales of 300 bbls. There is no change in Beef. Moderate sales (120 bbls) were made at $17a$18 for repacked Western, and $18.50a $19 for extra do. Beef hams are quoted at $23.50a$24. Cut Meats are nominal at 12c for hams and 12a12½c for shoulders. Lard is heavy, with sales of 100 bbls and tces at 16a16½. No change in butter or cheese.

SUGARS.—The market for raw sugars is much depressed and unsettled. This is attributable to the decline in England, the tightness of money here, and the promising accounts of the Louisiana crops. Buyers are holding off for a further decline, and holders would gladly sell at the present nominal prices.

SPIRITS AND WINES are in steady demand and previous prices are firmly maintained.

WHISKEY is steady, with sales of 200 bbls. at 27a27½c.

FREIGHTS are a little more active and the market firmer.

THE MONEY MARKET.

PHILADELPHIA, August 31, 1857.

On Thursday last the Common Council passed an ordinance authorising a temporary loan, not to exceed in amount $180,000, or for a longer period than three months. The law requires that such an ordinance must originate in the Common Council—lay over one week before action on it by Select Council, and be adopted by a two-third vote of both chambers.

This measure is considered necessary by the citizens not paying promptly their taxes. The amount of the municipal tax assessed for the year 1857 is $2,900,000. The amount paid up to the 29th of August is a little short of $1,200,000, leaving $1,700,000 yet unpaid, notwithstanding the inducement of a deduction of one per cent. a month for prompt payment. The loan causes no loss to the city; on the contrary, she gains by it, the interest being at the rate of half per cent. a month, while she saves the one per cent a month allowed to the taxpayers. These delinquent tax-payers are of course the sufferers, and as it is entirely at their option to pay their taxes at any time during the year, they, of course, have no right to complain.

The Stock Market to-day was dull, its business small in amount, and the feverish character exhibited for some days lost. Reading Railroad Stock was sold at 29¾a29¾—a comparatively small number of shares (411) only changing hands.

The high rates for good paper bring more purchasers into the market, and it is found far more easy to make sales, though the rates as yet show no material reduction.

We call the attention of the holders of the Allegheny County bonds to an article in another column, relating to the question raised in that vicinity respecting the payment of the interest on these issues. It has become a matter of deep feeling in Pittsburg and Allegheny city, and the course of the discussions there will doubtless be anxiously followed by the holders of these bonds.

The fall of the prices of so many stocks of undoubted value, and the high rates of discount, call upon good business paper under the influence of the late panic, is attracting capital from the interior to New York for investment.

The New York *Post says:*

"The low prices of the stock Board have had the natural tendency to attract capital from other cities. Two thousand shares of New York Central have been bought by a wealthy Boston firm; and one of our leading banking houses has purchased five hundred for Hamburg account.

"This is a decided symptom of relief. In other respects also there is a positive show of improvement. The high rates of interest in the city are attracting capital from the country. It comes in many small streams to buy commercial paper, or undoubted securities.

"We have heard of one bank alone, with not the largest correspondence, receiving an accession of forty thousand dollars of coin during the week in these little rivulets."

The names of the banks that have signified their intention to assist the Erie Railroad Company are as follows: United States Life and Trust Company, Manhattan Company, Bank of the State of New York, Mechanics' Bank, Metropolitan Bank, American Exchange Bank, Bank of the Republic, Bank of New York, Bank of America, Phenix Bank, Union Bank, Continental Bank, $5,000 each.

The Sub-Treasury disbursements exceeded the receipts on Saturday:

Receipts	$160,168 03
Payments	179,170 43
Balance	12,428,536 78

The *Tribune* says:

"The market for foreign exchange is very unsettled, with no disposition to buy. The market will no doubt open next week at a rate which will prevent the shipment of specie by the Arabia on Wednesday. Outside bills are offered at very low figures. The banks are putting on the screws, so as to prevent importers making remittances for the present."

The La Crosse and Milwaukie Railroad Company will pay the September interest coupons on the bonds of the Milwaukie and Watertown Railroad Company, and bonds of the City of Milwaukie on 1st September, at the office of the Company, No. 19 Nassau street. The September interest on the Muscatine, Iowa, Railroad bonds will be paid by Messrs. Duncan, Sherman & Co.

The sales of Illinois Central Railroad lands for the week ending August 24, were 6719 18-100 acres for $93,350.22.

The Illinois Central Railroad Company calls for an instalment of ten dollars a share on its capital stock, payable on the 25th of September. The transfer books are closed from this date, to be re-opened September 1. No transfers will be admitted after that date until the instalment is paid.

The announcement of this assessment carried its stock down to 86¾ ⅌ cent. on Saturday—that is, $10¾ for $30 paid in. London sales by the Atlantic are reported at 84⅝, sterling value, equal to about $50 here, for $30 paid. The assessment in itself is esteemed the very best step for the substantial well-being and credit of the concern that could have been resorted to in the state of the money market.

The semi-monthly supply of gold from California is delayed by an accident to the Illinois. It amounts to $1,600,000, and will be due at New York on Wednesday.

We learn by telegraph that the Hollister Bank, of Buffalo, has failed.

It is reported that $50,000 in unsigned bank notes have been stolen from the New England Bank Note Company. They are on various New England Banks.

PHILADELPHIA MARKETS.

MONDAY EVENING, Aug. 31.—The Breadstuffs in the market more easy. Flour—The supply and receipts are small, but the prices in favor of the buyer. Prime brands, of fresh ground, made from new wheat, are reported at $6.50, but dull. For the trade, sales at $6.50 to $7.25, for superfine; $7.50a$8 for extra, and $8.25a$9 for extra family and fancy lots. 100 bbls. Rye sold at $4.62½. Corn Meal is scarce, and if there is any Pennsylvania in market, would command a price. Wheat is coming fast into market, but the demand is not equal to the offers. Rye—there is not much offering; 800 bus. brought 85c. Corn is wanted, but prices as in our last; about 6,000 of Yellow Southern at 88c. afloat and 86c. in store. Oats are in fair demand, and 3,000 bush. fair and prime Pennsylvania sold at 62½a63c. by the bush., afloat. Groceries and Provisions—nothing doing. Clover Seed is scarce. Coal is dull. Whiskey is firm; sales of 250 bbls. at 28c.a29c. for Eastern and Ohio, and 27c.a28c. for hhds.
