MEDICAL.

TO THE PUBLIC.
MOST IMPORTANT ANNOUNCEMENT;
RETIREMENT OF PROF. JAMES McCLINTOCK, M. D.
From the Philadelphia Medical College.
A NEW ERA IN THE HISTORY OF MEDICINE!
Popular Medicine for the first time sanctioned by the
HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK M. D., of Philadelphia, known for more than a quarter of century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of series of FAMILY MEDICINES therefrom, which will be put up in a *cheap* and *popular* form, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations *ever known* for the cure of disease. They are the fruits of the most profound investigation, the wide est research, and the almost unequaled experience of one of the first physicians of the age. Each remedy is especially adapted to *some particular form of disease*, in accordance with the *highest principles of modern medical science*. Each of these remedies have been tried, improved, and finally perfected, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his great reputation has called him. Their nature and effect are known and approved of by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were un der his tuition, in the Colleges of Philadelphia, Castleton, Pittsfield, and elsewhere.

READ THE FOLLOWING CERTIFICATE:

This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., New York, the recipes of my "family medicines," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to hundreds of regular physicians, who have been my students, and who are many of them now practising with distinguished success in all parts of the country. My indicements for this step are numerous one of the most urgent is, that the demand for my remedies has become so great, that the private report of their success, as to make their preparation too great a drain on my time, and I find I am daily in receipt solicitations of my friends and patients, in the belief that the general introduction of my remedies would be in many cases, a benefit to the sick. Finally, I have found the building up of Dr. Alexander Cushman, who is thoroughly versed in Chemistry and Practical Apothecary of long time experience, whereby I am enabled to assure the public that they will receive at his hands the same, PURE and perfect form, regardless of expense.

JAMES McCLINTOCK, M. D., Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Lecturer on Medical Jurisprudence, and Practising Physicians of the Philadelphia Hospital, Blockley; late member of the National Medical Association, member of the Philadelphia Medical Society, member of the Medico-Chirurgical College of Philadelphia; formerly President and Professor of Anatomy and Surgery in the Castleton Medical College, Vermont; and also, late Professor of Anatomy and Hydrotherapy in Berkshire Medical Institution, Pittsfield, Mass., &c., &c., &c.

We need scarcely remind the intelligent public of the *great anxiety* which exists for the production of a class of *good and reliable popular medicines* which may be confidently adopted into family use and *depended on at all times* in the absence of a physician, as both safe and efficacious productions of *Science, Study and Experience*. No argument is needed to prove the immense superiority of such a class of remedies over the dangerous compounds that are daily puffed into notice by unknown and reckless quacks, solely for the purpose of enriching themselves at the expense of the lives and health of their fellow beings. We trust confidently in the good sense of the community to succeed in this effort to entirely do the great public evil of *Quackery* by giving a careful perusal to the following list, which embrace the first twelve remedies of the series, and which comprise some of the most valuable specifics ever discovered for the several complaints enumerated. If you or any of your friends are suffering, one trial in procuring the aid of the *first medical authority of the day*, by obtaining and giving a trial to the medicines set forth, will be found to the case. We call especial attention to the first of the list as being most generally demanded, at this season namely, the

The undersigned, in accepting the proprietorship of Dr. James McClintock's family Medicines, would respectfully state to the public, that in his profession as Dispensing Chemist, for nearly fifteen years past, during which time he has been actively connected with the best and most extensive establishments in this country, he has had constant occasion to see and prepare the prescriptions of the most eminent physicians, among whom he would name Dr. Mott Dr. Parker, Dr. Francis, Dr. Cheesman, Dr. Rogers, Dr. Whittaker, Dr. Schmidt, Dr. Hosack, Dr. Kissam, Drs. Pratt and Young, Dr. Beals, Dr. Green, and many others of the city of New York.

The experience thus acquired enables him to discriminate with confidence between *legitimate medicines, combined scientifically*, so as to secure a harmonious chemical action in unison with their respective therapeutical effects, as the inaccurate mixtures of quackery are incorrect and unfit in, for want of proper knowledge in combining them, the best ingredients may neutralize and destroy each other, or result in a substance highly injurious, and contrary to its intended design. It is with pleasure, therefore, that he settles that the prescriptions of Dr. James McClintock are or only composed of the most valuable medical agents known to, and habitually employed by, our best practitioners in the treatment of the several diseases for which they are intended, but they are combined in such accurate proportions, in relation to their chemical and medicinal effects, as to secure the attainment of the utmost increase of their power and efficiency.

In conclusion, he will only add for himself, that he can refer with confidence to his past career, as his guarantee to the public that these *great remedies* in his hands will be *faithfully prepared* in strict accordance with the prescriptions of their distinguished originator.
