HOUSE RENTS.—A very large number of houses in New York and Brooklyn, are said to be with out tenants. The New York Times advises tenants not to be in haste to renew their rents, nor be in a hurry to hunt up new ones, if they desire an abatement in price. It adds:

"Landlords hold their heads very high all through February. This year they will be a little more supple in March, and, if the signs of the times do not greatly deceive us, in April they will be the most accommodating and gentleman-ly people going."

Reduction in Music—Music at half price. JOHN H. MELLOR, No. 81 Wood street, between Diamond alley and Fourth street, has made arrangements with the Music publishing house of Wm. HALL & SON, of New York, for the sale of their valuable Catalogue, and he is enabled to offer all their NON-COPYRIGHT Music, together with that of his entire stock of Vocal and Instrumental works, at an average of ONE-HALF THE FORMER PRICES.

In order to afford this production, it is necessary to adopt the CASH SYSTEM, and it is believed that the public will be better served, than by adhering to a strict adherence to the principle of regulating the price, the National Currency has been adopted and as far as possible fixed thereon. The price will be marked on every piece of Music. The non-copyright thus—"Reduced Price, Cents." The copyright differing thus—"Copyright, Cents." All the non-copyright Music printed previous to this arrangement will be sold at one half the old price. A similar reduction will be made on Instruction Books, etc.

Since the study of Music has become an essential branch of education, a reduction in the price of Sheet Music has been demanded by the public, and it is hoped that the plan adopted will increase the sale sufficiently to enable Messrs. Wm. Hall & Son) in carrying out the publishers in the fullest extent. The Catalogue of Messrs. Wm. Hall & Son already contains the works of the best European authors, and they will continue to reprint such as may hereafter be published—all of which will be sold at the Reduced Prices, on the foreign copies.

MEDICAL.

TO THE PUBLIC.

MOST IMPORTANT ANNOUNCEMENT; RETIREMENT OF PROF. JAMES McCLINTOCK, M. D.

From the Philadelphia Medical College.

A NEW ERA IN THE HISTORY OF MEDICINE

Popular Medicine for the first time sanctioned by the HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK M. D., of Philadelphia, known for more than a quarter of a century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of series of FAMILY MEDICINES therefrom, which will be put up in a form and portion, and adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations *ever known* for the cure of disease. They are the fruits of the most profound investigation, the ripest research, and the most successful experience of one of the first physicians of the age. Each remedy is especially adapted to some *particular form of disease*, in accordance with the *highest principles of modern medical science*. Each of these remedies have been tried, improved, and finally perfected, in the practice of Dr. McClintock, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his great reputation has called him. Their nature and effect are known and approved of by hundreds of regular physicians who have seen their efficacy and seen their beneficial results in Dr. McClintock's own hands, while they were on under his tuition, in the Colleges of Philadelphia, Castleton, Pittsfield, and elsewhere.

I.....GENERAL PURGING CERTIFICATE.

This is to certify that I have placed in the hands of Messrs. A. Chalmers & Co., New York, the recipes of my "Family Medicines," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to hundreds of regular physicians, who have been my students, and who are many of them now practising with distinguished success in all parts of the country. My inducements for this course are numerous; one of the most urgent is, that the demand for my remedies has become so large, through private report of their success, as to make their preparation too great a tax upon my time; another is, the repeated solicitations of my friends and patients, that I would be in many instances the introduction of my remedies would be in many respects a public benefit; and finally, in securing the co-operation of Dr. Alexander Cushman, who is a thoroughly educated Chemist and practical Apothecary of many years experience, whereby I am enabled to secure the public that they will be prepared in the best possible manner, and most perfect form, regardless of expense.

JAMES McCLINTOCK, M. D., Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Professor of Midwifery, one of the Consulting Physicians of the Philadelphia Hospital, Honorary member of the National Medical Association, Member of the Philadelphia Medical Society, member of the Medico-Chirurgical College of Philadelphia; formerly President and Professor of Anatomy and Surgery in Castleton Medical College, Vermont; and also, Late Professor of Anatomy and Physiology in Berkshire Medical Institution, Pittsfield, Mass., &c., &c.

We need scarcely remind the intelligent public of the *great necessity* which exists for the introduction of a class of *good and reliable popular medicines* which may be confidently adopted into family use, and which *depended on at all times*: in the absence of a physician, as being the legitimate productions of *Science, Study and Experience*. No argument is needed to prove the immense superiority of such a class of remedies over the dangerous compounds of the day, puffed into notice by ignorant and unscrupulous men, solely for the purpose of enriching themselves at the expense of the life and health of their fellow beings. We trust confidently in the good sense of the community to support us in our endeavor to introduce the great public series of family medicines, comprising the following list, which we shall give a careful personal attention, and which we trust will prove the most valuable specifics ever discovered for the several complaints enumerated. If you do not find the several remedies enumerated, if you do not find the *first medical authority of the day*, by obtaining and giving a trial to such of these medicines as are adapted to the case.... We call especial attention to the first on the list as being most generally demanded, at this season namely, the
