Sewing Machines.

HARRIS'S BOUDOIR SEWING MACHINE is offered to the public as the most reliable low-priced Sewing Machine in use. It will sew from six to sixty stitches to an inch, on all kinds of goods, from coarsest bagging to the finest cambrics. It is, without exception, the simplest in its mechanical construction ever made, and can be run and kept in order by a child of twelve years of age. The DURABILITY of this machine, and the QUALITY OF ITS WORK, are warranted to be unsurpassed by any other. Its speed ranges from three hundred to fifteen hundred stitches per minute. The thread used is taken directly from the spools, WITHOUT THE TROUBLE OF REWINDING. In fact, it is a machine that is wanted by every family in the land, and the low price of

THIRTY DOLLARS,

at which they are sold, brings them within the reach of almost every one. S. D. BAKER, Agent,

JUST PUBLISHED.

NICARAGUA:

PAST, PRESENT, AND FUTURE:

A DESCRIPTION OF

Its Inhabitants, Customs, Mines, Minerals, Early History, Modern Filibusterism, Proposed Inter-Oceanic Canal, and Manifest Destiny.

By PETER F. STOUT, Esq.,

Late United States Vice-Consul.

As Vice-Consul Mr. Stout had unusual facilities for becoming acquainted with the productions of the country, the character of its people, and the political affairs of this and adjoining States. He saw most of the leaders of the Central American forces, and gives a history of the Filibuster war, in a graphic but truthful and impartial pen. His book will serve to throw much light on the great Central American problem now occupying the attention of statesmen and others in our country.

572 pages, 12mo. Price $1.25.
