FINANCIAL AND COMMERCIAL.

The Money Market.

PHILADELPHIA, July 26, 1859.

The stock market shows none of the buoyancy and excitement which might naturally be expected to follow the declaration of peace. "On the contrary," as Mr. Weller would say, "quite the reverse." Reading fell off to day to 22, a decline of ¼; Schuylkill Navigation preferred to 17¼, a loss of 1; West Philadelphia Passenger Railway to 49½, ½ loss. City sixes sold largely at 102½ the previous quotation. Pennsylvania Central Railroad stock sold at 33¾, about the same as on Monday, and Pennsylvania fives were steady at 91.

The money market is unchanged. Trade of all kinds is very dull, excepting a light movement in the brandy and wine trade, fostered by unfavorable reports from France. Cotton is held at higher figures, but we hear of only small operations. Breadstuffs have fallen low enough to warrant venturesome operators in thinking there is a margin on shipments to Europe, and there is some inquiry for this purpose; but take the trade in all departments, as a whole, and the sum of all that is doing is not sufficiently great to produce the smallest effect upon the money market.

The New York *Times* says: The weekly averages of the banks of the city of New York, on Saturday, July 23, 1859, present in the aggregate the following changes from the previous exhibit of July 16:

Decrease in loans	$471,498
Decrease of specie	2,026,767
Decrease of circulation	30,049
Decrease in undrawn deposits	2,833,963

"The specie line on the present statement results almost precisely as the run of the averages in the large banks down town indicated, and as estimated in our weekly review this morning. The decrease conforms to the export demand of the week, while the receipts from the country replace the sums paid into the sub-treasury. This week the California remittances will more than cover the probable export demand, while the sub-treasury will make no further gain from present appearances. The loan column, as anticipated, falls something below $120 000 000. The distant bank balances, particularly from the South and Southwest, where exchange on New York is in demand and growing scarce, are being rapidly drawn down. And it is not improbable that before the turn of the season, New Orleans will have to send forward several millions of specie. The general deposit line is down to about seventy-five millions; so that the present *percentage* of specie is a strong one, equal to *twenty-eight per cent*, or 8 per cent. above the standard deemed satisfactory by the Associated Bankers."

The Franklin Saving Fund Society announce a semi-annual dividend of three per cent.

The Mechanics' Bank of Newark has declared a semi-annual dividend of five per cent., payable on demand.

The *Herald* announces that the coupons of the Michigan Southern Railroad Company due on the first of August will be paid.

A correspondent writes us, concerning the connection of the Tyrone and Look Haven Railroad Company with the Central Bank of Hollidaysburg, the following letter. Hollidaysburg, as the nearest important point by railroad west of Tyrone, has been given out as a point that would be greatly benefited by the railroad from Look Haven to Tyrone, and in a fair sense may be said to be connected by it with the Sunbury and Erie Railroad. As to the interest of the people of Blair county, in the railroad or the bank, our correspondent, who is at home there, is better fitted to speak than we are, and we give his letter without further comment:

ATLANTIC CITY, July 25.

DEAR SIR: Your minority article in describing the Lock Haven and Tyrone Railroad as intended to connect Hollidaysburg with the Sunbury and Erie Railroad. Hollidaysburg is not within twenty miles of the L. H. and T. R., and has no interest whatever in the road or the Central Bank, which is located there. This bank was purchased from its former owners, Campion & Co., for the express purpose of building the L. H. and T. R., and not one dollar of its stock is owned in Blair county; nor are the people of Hollidaysburg represented in its board.

It is within the knowledge of the writer that its entire capital consisted of stock notes of some seventeen persons residing in Centre and Clinton counties; and that the bank commenced operations without any cash, or any prospects of means except such as they hoped to derive from the sale of the bonds. Yours, &c.,

In New York, the sub-treasurer, Mr. Olco, is making a few sales of 5s per cent. United States treasury notes at par. It is said that the Secretary of the Treasury has yet about two millions which he can reissue, and that Messrs. Thompson Brothers have made a bid for the whole amount at six per cent.

Thompson's *Bank Note Reporter* says:

"The stockholders of the Warren County Bank, Pa., have obtained permission from the court, as is customary in that State, to reorganize under another name, but on condition that their old notes be redeemed. Their dilatory movement, or weakness, is depriving them of all the charms of a new name.

"Not one of the Rhode Island banks that failed in 1857 has made a dividend. This can be accounted for only on the ground that the stockholders are individually liable. It is a sign of bad luck to see stockholders individually liable on bank notes. The receivers are pretty sure to befriend the stockholders, and to set the creditors of the bank off defrauded. This is emphatically the case with the R. I. Broken Bank Receivers."

At a recent election for directors in the Indianapolis and Bellefontaine Railroad, the old board was re-elected with one or two exceptions. Thos. A. Morris, Esq., of New York, was elected president. Mr. John Brough remaining president of the Bellefontaine and Indiana road. Thos. H. Sharpe was re-elected treasurer.

A new spurious note is now in circulation, purporting to be a five-dollar bill on the Central Bank of Virginia, at Staunton. It has been altered from some other bank plate. The vignette is a view of the battle of New Orleans; on the left end is a view of the Goddess of Liberty, and on the right a landscape with a drove of cattle. Letter B; date July 10th, 1858. Other spurious notes of a different denomination on the same bank are said to be afloat, and we advise our readers to be very careful in taking its notes.

The following is the amount of coal transported over the Lehigh Valley Railroad for the week ending July 23, 1859:

	Week. Tons.	Previously. Tons.	Total. Tons.
Total	10,366 12	522 013 19	532,379 11
Corresponding week last year			511,652 03
Increase	4,820 03	267,302 01	271,652 03
Decrease	5,585 10	54,771 18	60,707 03

The Lehigh Coal and Navigation Company's tonnage is 27,945 tons for the week. For the season, 453,243 tons.

Amount of coal shipped by the Wyoming Company for the week ending July 23, 1859, was ..... 11,511 tons.
Amount previously reported ..... 178,457 "

Total since opening of navigation ..... 189,968 "

The Springfield (Ill.) *Journal* says:

"Messrs. Hasbrouck, Davis, and George T. M. Davis, solicitors of the first, second, and third mortgage bondholders of the Chicago, Alton, and St. Louis road, have arrived in Springfield. It is understood that the committees representing the above three branches of the creditors of the road, have succeeded in reconciling their conflicting interests, and the bondholders now appear, by their solicitors, as a united body, prepared to receive the road according to the terms lately agreed upon by correspondence with ex-Governor Matteson. If good faith has been observed, (which there seems to be no reason to doubt,) the solicitors will be followed by the different committees representing the three classes of bondholders, and a contract for the delivery of the road into the hands of the latter will at once be executed. It is understood that, by the terms of this contract, ample provision will be made for the payment of the wages now due to the operatives, (one-fourth of said sum to be advanced on taking possession,) as well as for making the much-needed repairs upon the road. A few days will probably suffice to develop the result of this scheme."

Philadelphia Markets.

JULY 26—Evening.

There is some little export inquiry for Flour, but holders are free sellers at former quoted rates; sales include about 1,200 bbls standard superfine, made from new wheat, at $5.50, and 500 bbls city mills do at $5.12½ for extra, and $6 62½ for extra family; 200 bbls good old stock extra sold at $5 25 per bbl. The trade are buying moderately within the above range of quotations for superfine and extra, and $6.75@7 50 for fancy lots, as in quality. Rye Flour is dull at $4 per bbl. Corn Meal continues steady at $3 75 per bbl for Penna, but we hear of no sales. Wheat—There is very little doing on account of the firmness of holders, who are generally demanding an advance on yesterday's quotations, and about 5,000 bushels have been disposed of at $1.18@1 22 for fair to prime Southern and Pennsylvania reds, and $1.24@1 28 cents for white, mostly afloat. Rye is steady, with further sales of old Penn at 81c. Corn is not so plenty, and 3,000 bus yellow sold at 79c for inferior, and 81c for prime lots afloat. Oats continue dull and drooping, and 1700 bus Penn sold at 38c. Bark—Quercitron is scarce and wanted, at $27½ for 1st No 1, but most holders are asking more. Cotton—The market is firm, without much doing in the way of sales at equal to 12½c for good middling, and 13c cash, for middling fair uplands. Groceries and Provisions—There is not much doing, and no changes to note. Whiskey is dull, and about 150 drudge bbls sold at 25c; we quote Easton bbls nominally at 27c, and Ohio at 28c per gallon.

THE MARKETS.

ASHES—The demand is light for Pearls at $5.75, and 60 bbls Pots at $5 12½.

COFFEE remains quiet, pending an auction sale of 6,000 bags Rio ex "Spitfire" and "E Ruthers," announced for Thursday. We only learn of sales of 50 bags of Rio at 10½c, 50 do Tringa at 8c and 200 Laguayra port at 11¾. The trade have reduced the price of Rio ¼ in accordance with sales of 5 003 bags ex "Fame," which sold at 10¾. The stock on hand comprises 44 000 bags (of which 33,000 is composed of Rio) and 56,500 mats of Java.

COTTON—The market has improved ⅛@¼ lb, with sales of 3,000 bales, yesterday and to-day, on a basis of 12¼ and 12½ for middling Uplands and Gulf qualities.

FLOUR, &c.—The demand for Western Canal flour is more active, but at lower rates for the low grades. There is more doing in unsound for export. The better grades are firmly held, and are in fair demand.

The sales are 11,450 bbls at $4.15@4 70 for superfine State; $4 75@5 for extra do; $4@4 25 for superfine Western; $4.40@5 for low grades of extra do; $4 75@5 for old extra Ohio; $5.15@5 40 for fresh ground do; $5 05@7 for trade brands do; $5 25@7 50 for extra Genesee; and $4.50@8 for fancy do.

Southern flour is again lower, and is very irregular—the arrivals are light. We notice the first arrival of new Georgetown, from the Congress Mills, the quality very handsome, held at $7; the sales to-day are 300 bbls at $5@5 75 for superfine Baltimore, &c., and $5 75@7.42½ for the better grades.

Rye flour and corn meal are in fair demand, and are steady.

GRAIN.—The demand for wheat is more active, and the market closes firm for new red Southern, but old is neglected.

Sales of 8,000 bus at $1 25 for prime white North Carolina, $1.30@1 35 for white Kentucky, 72½c for small lot of standard Chicago spring, and $1 10@1 24 for red Southern, the latter for choice.

Barley is nominal at 55@60 cents. Oats are in fair demand, but few really choice in the market; sales of State at 40@43 cents, and Canadian at 40@44c.

Rye is in fair supply, and in lower—sales of 3,500 bus at 80 cents. Corn is quiet and is heavy, with, however, less offering.

Sales of 18 000 bus at 78c for old mixed Western in store, 80@82c for new do afloat, and 83c for choice Southern yellow.

MOLASSES remains very quiet. We have only to note sales of 25 bbls New Orleans at 40c.

Oils generally are marked by extreme dullness. In Crude Whale we only know of 400 bbls being sold this week, and the terms have been withheld, indicating a depressed market. Crude Sperm the week's transactions include 1,650 bbls choice at $1 27, cash, but this is an extreme price, as small sales have been made at much lower figures. Linseed sells slowly at 60@62c, cash.

PROVISIONS.—The Pork market is very quiet and is unsettled; the sales are 300 bbls at $15 50 for new mess; $14 50 for this mess; $18 for clear, and $13.75@13 87½ for prime.

Beef is dull at former rates; sales of 120 bbls at $6@6.62½ for prime; $8@8 62½ for country mess; $9@12 50 for repacked mess, and $14.75@14 50 for extra.

Beef Hams are steady at $25@25.

Cut Meats are dull and heavy; sales of 81 hhds at 6c for shoulders, and 8c for hams.

Lard is dull and heavy and the supply fair; sales of 126 bbls and tcs at 10¾@11c. Butter and Cheese are steady.

Rice is dull and somewhat heavy at 3¼@3½c for common to prime.

SUGARS—Raw are quiet yet steady in price: sales of 500 hhds Cuba at 5¾@6⅛, as to quality, and 50 do Porto Rico at 7¼@8c. Refined are in better request. We now quote crushed, ground and granulated at 9¾c; white coffee grades at 8¾@9¼c, and yellow do at 8@8¾c.

WHALEBONE is held with increased firmness under the news from Europe, and some transactions have taken place here and at the East on a basis of 70 @75c for South Sea; 75c@80c for short Northwest; 80@85c for handsome Northwest, and 88c@90 for Arctic.

WHISKEY—The market is lower, the demand is fair; sales of 400 bbls at 25c.

Markets by Telegraph.

BALTIMORE, July 26.—Flour has declined 25c; all descriptions are quoted at $5. Wheat is firm, but unchanged. Corn sold at 82@84c for white and yellow. Provisions dull. Bacon, sides 9¾c. Pork, Mess $15 75@16. Whiskey firm at 27c.

New Orleans, July 26.—Cotton—Sales of 1,000 bales to-day at 11¾c for middlings. Sales of three days 10 000 bales; receipts do, 120 bales, against 1,900 bales, the receipts of the same period of last year. Cotton freights to Liverpool ¾d.

CINCINNATI, July 26.—Flour steady at $5. Whiskey unchanged. Provisions generally quiet and unchanged.

ALBANY CATTLE MARKET, July 25.—The receipts this week have fallen of about 400 head, but the numbers are still too large to cause a rise in the price. The quality of most of the droves here is decidedly poorer than the general average, and holders find it hard to get the offer which they would be willing to accept. There is the usual number of buyers here, both from the Eastern markets and New York city. The New Yorkers take very few lots on their own account; the Eastern buyers will take about 1 000. We quote the market as opening rather languid at the following prices: Superior, $3@3½; first quality, $4@4¼; second do, $4@4 25; third do, $3@3¾; inferior, 2¼@3. Sheep and lambs—The supply is fair and the demand good; prices about the same as last week, ranging from $2.25 to $3.87, as to quality. Hogs—No sales to notice.

A CLOCK is on exhibition in New York which not only does duty as a time-piece, but boils the coffee for its owner, and awakens him in time to drink it. Attached to the clock on the right side is a brass plate lying parallel with the table or shelf on which the clock is placed, and at the further end is a coffee pot, fixed upon a frame, with a spirit lamp underneath. Between the clock and the coffee pot is an alarm bell. The apparatus is thus used: Suppose a person wishes to rise and travel at 4 o'clock in the morning; all he has to do is to set an inner dial to that hour, while the outer or clock dial indicates the true time. He also makes certain disposition of the lighting apparatus. Precisely at 4 o'clock a lever is moved, which causes a drum to revolve against a friction match, the flame from which ignites the wick of the spirit lamp. An half an hour, the coffee is ready, when another drum revolves, ignites another match, and lights a candle, and at the same time the figure of a monk pulls a rope and rings an alarm bell, effectually arousing the sleeper.

On Sunday last, Dr. Andrew Porter, of Harrisburg, died at the Columbia House, Cape Island. Dr. Porter was a son of ex-Governor David R. Porter, and was an invalid for some time previous to his death. His body was taken to Harrisburg, Pa., for interment.

FRANCIS P. BLAIR, from St. Louis, arrived in Boston on Saturday evening. He has taken a summer cottage for his family at Gloucester, Mass.

CITY ITEMS.

A ROMANTIC ADVENTURE—HOW WOMEN TRAVEL TO PIKE'S PEAK.—One of the return coaches which we met a day or two since, contained a young woman from Indiana, dressed in male habiliments, who had been spending two or three months at the mines, and was now returning home. She attempted to pass for a boy, but her gait and voice betraying her, she finally confessed that she had run away from her parents, who were in good circumstances, merely from a girlish longness for adventure. She was intelligent and well educated; and in reply to a question, said she had purchased her clothing at the palatial store of Granville Stokes, No. 607 Chestnut street.

THE SCHOOLMASTER ABROAD.—The last Legislature of Texas, it is said, contained thirteen "men of mark." Not one of them could write his name. This is much to be regretted, for their inability to make their sing manul deprived them of the opportunity of sending their orders on to Philadelphia for garments made at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut street, above Sixth.

"SOLAR ECLIPSE.—On Friday next a partial eclipse of the sun will occur, visible here between 5 and 6 o'clock P. M., should the day be a clear one; the exhibition will be entirely *free*; many persons will avail themselves of the opportunity to view it. While the exhibition is in progress, the man in the moon will be clearly described arrayed in a gorgeous new suit of the latest summer style of E. H. Eldridge, the fashionable clothier, and proprietor of the "Old Franklin Hall Clothing Emporium," No. 521 Chestnut street.

TREATMENT OF THE FEET.—Dr. W. W. Livingston, Chiropodist, has returned home after an absence of ten days on professional business, and will now attend to the many who called while he was away. Consulting rooms, 823 Arch street. Office hours from 8 A. M. to 5 P. M.
