A GREAT NATIONAL WORK.

Commencing a series of valuable Books by SUBSCRIPTION ONLY!

An Abridgement of the Debates in Congress,

FROM 1789 TO 1856.

From Gales & Seaton's Annals of Congress—from their Register of Debates and from the Official Reported Debates by John C. Rives.

By the Author of "Thirty Years' View."

To be completed in 16 vols. 750 pages each, comprising what is now contained in over One Hundred Volumes.

THE price for each volume, in law binding, will be $1 25 (not much over one half the usual price for law books) or $8 in the per 6 vols., payable as delivered.

The first volume is now ready, and the work will be continued every two or three months till the whole is completed.

The large expense involved in publishing this work has induced me to offer it by SUBSCRIPTION ONLY, and we therefore, specially invite the co-operation of our fellow citizens in all parts of the Union to send at their names early, with directions how the volumes shall be forwarded.

The Debates have been accruing for a period of nearly seventy years, and fill more than one hundred volumes—one third of them, stereotyped—and can only be purchased for less than Five Hundred Dollars, nor read when purchased except as a necessity, for any thing found in them when wanted except upon tedious search. In the mean time, they contain the history of the working of the Government from its foundation—showing what has been done, and how it was done—and shed light upon the study of all impending questions for there is not a question of the day, and will not be while the Government continues, which may not be illustrated by something to be found in these Debates.

The following letters have been received:—

Wheatland, near Lancaster, Nov 17, 1856.

MY DEAR SIR:—I afford me pleasure to become a subscriber to Col. Benton's Abridgment of the Debates in Congress, from 1789 to 1856. From the long experience I have of your ability in such affairs, his commanding ability, and his accurate and extensive knowledge of its political history, we may expect that this work will add to his own fame, and prove highly valuable to his country.

JAMES BUCHANAN.

Lexington, Ky., Jan. 6, 1857.

DEAR SIR:—In answer to your letter of 24 inst., I have to say that I know of no man in the United States more competent than Col. Benton to prepare an Abridgment of the Debates in Congress, and I take pleasure in becoming a subscriber to the work. Very respectfully

JOHN C. BRECKINRIDGE.

Boston, Dec. 20, 1856.

MY DEAR SIR:—I have already subscribed for the Debates of Congress for this city. Col. Benton's eminent talent and reputation as a statesman, his familiar acquaintance with our parliamentary history, and his unwearied industry, are a sufficient guaranty for the faithful execution of the work.

I am, dear sir, respectfully yours,

EDWARD EVERETT.

Of this work Governor Chase, of Ohio, says:

Executive Office, Columbus, Dec. 9, 1856.

DEAR SIR:—The proposed Abridgment of the Debates in Congress, by Colonel Benton, commended itself to the favor of all Americans. The work itself is most important. It will place within the reach of thousands, otherwise inaccessible treasures of historical knowledge. It will make available to the present generation the discussions of the past—deeply interesting alike to the student of history, seeking to exhibit the beclouings of great traces of government, and to the statesman, who is pondering for our own eyes.

And no man is so well fitted for this work as the distinguished statesman who has undertaken it. His large experience in the public councils, and his comprehensive talent and reputation as a statesman, his familiar acquaintance with our parliamentary history, and his unwearied industry, are a sufficient guaranty for the faithful execution of the work.

I am, dear sir, respectfully yours,

S. P. CHASE.

The Hon. Jasper Ware, of the United States District Court of Maine, says:

A faithful and impartial Abridgment of the Debates of Congress, from the organization of the government to the present time, will be a work of very great value to every man who feels an interest in the history of his country. Mr Benton's long experience in public life, his familiarity with all the great questions of national policy which have occupied the attention of the public for the last thirty-five years, and his known industry, eminently fitted him for such a work.
