FINANCIAL AND COMMERCIAL.

The Money Market.

PHILADELPHIA, August 27, 1859.

The stock market to-day was quiet. There was but a single sale of any importance transpired. Reading Railroad bonds of '70 advanced to 81, which was the only notable improvement on the list. The demand created for State stocks by the Treasurer's advertisement seems to have subsided. The loan, which was freely taken a few days ago at 92½, was offered this morning at 92, without bidders. City sixes were steady, but not quite up to yesterday's mark. Catawissa chattel bonds sold at 20½.

Reading stock was dull, though pretty firm at 22½ bid. There was nothing done in it, however, and all the other fancies were equally inactive.

The money market continues in the same easy state that has characterized it all the week. The best paper sells very freely, nearly the whole of it being absorbed by the banks as fast as the limited amount of business transactions produces it. Second-rate paper sells more readily than for some time past—the rates in the market ranging from 10 @15 per cent. for ordinary signatures, and from 7 to 9 for favorite names.

Saturday's *Post* says: "The money market during the week has ruled very uniform, and the supply of capital seeking temporary employment has been on the increase, and the call rate is 5@6 per cent., chiefly at the outside figure; but discounts have not undergone a similar change, the best 60 and 90-days paper not being negotiable under 7 per cent. The assortment of long paper in the market has been much improved during the week. Unmistakable evidence of increased activity in commercial circles appears on all sides, and the tone of the produce markets has sensibly improved. The news from Europe by the City of Washington, off Cape Race, is awaited with much interest. The exchange on London closed dull and easier, leading drawers accepting 109¾. The principal business for this mail has been in francs, at 5.12½ at sight for round sums."

The following is the comparative statement of the banks of New Orleans, for the two weeks ending August 13:

	August 20.	August 13.	Difference.
Specie	$13,124,146	$13,124,146	$ 0 00
Deposits	17,885,501	17,885,742	Dec. 71,241
Circulation	2,823,023	2,821,984	Inc. 128,885
Short Loans	19,650,488	19,632,888	Inc. 317,231
Exchanges	2,421,931	2,855,383	Dec. 184,40
Dist. Balances	1,822,345	1,822,776	Dec. 49,765

Speaking of this statement, the *Picayune* says:

"The movement this week, as we predicted on Tuesday, shows an increase in the specie column. The changes in all other items are in accordance with the policy that has been for some time past pursued by the banks. On the whole, the returns are favorable, and give evidence of continued strength."

We learn by the *Express* that the stockholders of the "American Atlantic and Pacific Ship Canal Co. have ratified the contract which was made between Gen. Jerez on the part of Nicaragua, and J. E. Body, Esq. The ratification was by a unanimous vote. Upward of three-fourths of the proprietors were present, in person or by proxy. It was agreed to accept stock under the new charter at the rate of $50 new stock for $100 old, and the directors were empowered to raise $300,000 to finish the line in Nicaragua, and to give the Company's stock as security, the present shareholders having the option to take the new stock at the rate of 20 per cent., said new stock to be issued out of the one and a half million of stock in the hands of the directors.

As a curious fact in regard to railroads, we may mention that the Virginia and Tennessee Railroad, is 204 miles in length, and it cost about $7,000,000. In 1850, the taxable value of the land in the counties through which it passes, as taken from the census, was $26,942,647; and in 1856 the State assessment makes it $53,917,229; or an increase in six years, of $25,365,658. This sudden increase is alone the result of an internal improvement which has cost only $7,000,000.

Philadelphia Markets.

August 27—Evening.

The demand for Flour continues limited and the market dull, but without any alterations to note in prices, and holders of superfine generally are free sellers at $5@5.25 for late unimpacted and fresh ground, made from new wheat. The only sales we hear of are 250 bbls old stock at $4; 200 bbls late inspected Miami Mills, extra, at $5 per bbl; 100 bbls Brandywine at $5.50; and 200 bbls choice extra at $6 per bbl. The retailers and bakers are buying moderately at from the above figures up to $5.50@5.50 per bbl for superfine, extra, and fancy lots, as to brand and quality. Rye Flour is scarce and firm at $3.75, and Pennsylvania Corn Meal at $3.62½ per bbl, without much doing in either. 100 bbls Brandywine sold at a price kept secret. Wheat—The receipts are fair, and fully equal to the demand, as the millers are not disposed to operate to any extent at the present asking rates. Sales include about 4500 bushels in lots, at 118a120c for fair to prime red, and 122@123c for white, as in quality, the latter for choice Kentucky. Rye is wanted, and all offered sold at 70@72c for new Delaware, and 76@80c for for Pennsylvania. Corn continues in good request, and about 4500 bushels prime Yellow have been in store, sold at 82c. The offerings are slight, and meet with a steady demand; and about 5000 bushels sold at 34@35c for new Southern, as in quality, including 1000 bushels prime old Penn, at a price kept private. In Quarter Grain there is nothing doing, and the quality Oats is weighed at 28@29c per bush. Cotton—There is no change in the market, and a moderate business doing, at previous quotations. The demand for Groceries and Provisions is moderate, and holders firm in their views; a sale of fair Rio Coffee was made at 10c on time. In Seeds we are only advised of a sale of 100 bags Timothy, at $2.75 per bushel. Whiskey—The market is bare, and some holders are getting 27@28c for Pennsylvania and Ohio bbls, and 26c for bbls. Western were sold at 27½c. Drudge is firm, at 26c and hds. 26½c per gallon.

CITY ITEMS.

HOW THE LONDON TIMES DOES BUSINESS.—The London *Times* is a wonderful establishment. Eighteen reporters are the force employed for the Houses of Parliamentalone, when they are in session. Their work is altogether by night. Four cabs, owned by the *Times*, are employed solely in carrying reporters and reports to and fro, between the Printing-House Square and the Palace at Westminster. In Philadelphia, several of the leading newspapers keep a corps of writers for the express purpose of spreading before the public a knowledge of the superior elegance of the garments made and sold at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut street, above Sixth.

A BEAUTIFUL ESTABLISHMENT.—In passing along Chestnut and Eighth streets, everybody has doubtless noticed the elegant improvement of E. H. Eldridge, at the northeast corner. This gentleman, formerly of the "Old Franklin Hall Clothing Emporium," has taken and fitted up, in superb style, this eligible location for the sale of gentlemen's clothing and furnishing goods. The upper story has been magnificently furnished, decorated, and adapted particularly for the *customer department*, and will always be under the supervision of the most skilful cutters in the world. A large stock of choice goods for the Fall and Winter sales, selected with great care, from the best European and American houses, await the inspection of the public, who are respectfully invited to call at the "Continental Clothing House," E. H. Eldridge, northeast corner of Chestnut and Eighth streets.

SOUND is always propagated outwards in straight lines, but recoils like a ball when driven against an obstacle which, by its dimensions, is sufficient to intercept the undulation. It will pass with great velocity through glass, and timber, and massive buildings, but is beaten back by mountains and caverns. This reflection of sound produces the beautiful effect of echoes, repeating, with almost human distinctness the out-told admonition, "Buy your clothing of Granville Stokes, the fashionable clothier, No. 607 Chestnut-street."

The experience of thousands daily proves that no preparation of iron can, for a moment, be compared with it. Innoxious in all maladies in which it has hitherto been tried, it has proved absolutely curative in numerous cases of each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Scurvy, Mismenstruation, Whites, Chlorosis, Jaundice, Liver Complaints, Mercurial Consequences, Chronic Headaches, Rheumatism, Intermittent Fevers, &c., &c., &c.
