A WONDER BAROMETER.—Many of our readers have no doubt noticed in this and other papers, a description of a wooden barometer, said to be in use in Brazil and other South American States. At our request Messrs. Herzer & Timerman have made one. It is made of a slip of red cedar, cut according to the grain, about an eighth of an inch thick, one and a half inches wide, and thirty inches long. On the back of this strips of thoroughly seasoned pine, of the same thickness, are glued transversely to the grain of the cedar. This is let in a neat pedestal of black walnut. We received ours Saturday forenoon. It was just finished, and stood as straight as a pike staff. At 3 o'clock in the afternoon it had bent over so that a perpendicular line from the top would fall about four inches from the base. It rained heavily during the afternoon. Yesterday it was a bright day, with a slight pleasant breeze, and throughout the day the standard gradually approached an upright position, until, at 5 P. M., it was not more than three quarters of an inch from the perpendicular line. This morning at 6 o'clock it had bent over to three inches. At 7 it was nearly four inches out of line, and at 8 o'clock it began raining. This statement will show the sensitiveness of the instrument.—*Buff. Advocate.*

A VERY OLD FIRE ENGINE.—The Lehigh *Register* says the first fire engine used in the United States is in the neighboring town of Bethlehem, and still in working order. It was built in London, in 1689, and shipped to Philadelphia, where it was in service many years—until the manufacture of domestic and more modernized "machaenes" was established, when it passed into the hands of the Bethlehemites, who now greatly revere it as a memento of "auld lang syne."

THE Indiana Auditor of the State, J. W. Dodds, spells Jackson, *Jaxon*. The editor of the anti-Bright paper in Jackson county protests against the innovation, while he confesses admiration of the Auditor's talent for brevity. *Jaxon* for Sage of the Hermitage!

THE late celebrated mathematician, Gauss, proposed as a means of settling the question, whether the moon is inhabited, that a large monument should be erected on the steppes of Siberia, as a signal to the inhabitants of the moon, in the hope that they might be induced to erect a similar signal to apprise us of their existence.

RESOLUTION
Proposing Amendments to the Constitution of the Commonwealth.
Resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met,—That the following amendments are proposed to the Constitution of the Commonwealth, in accordance with the provisions of the tenth article thereof.
FIRST AMENDMENT.
There shall be an additional article to said Constitution to be designated as article eleven, as follows:—
ARTICLE XI.
OF PUBLIC DEBTS.
SECTION 1. The State may contract debts, to supply casual deficiencies of revenue, or to meet expenses not otherwise provided for; but the aggregate amount of such debt, direct and contingent, whether contracted by virtue of one or more acts of the general assembly, or at different periods of time, shall never exceed seven hundred and fifty thousand dollars, and the money arising from the creation of such debts, shall be applied to the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whatever.
SECTION 2. In addition to the above limited power the State may contract debts to repel invasion, suppress insurrection, defend the State in war, or to redeem the present outstanding indebtedness of the State; but the money arising from the contracting of such debts, shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.
SECTION 3. Except the debts above specified, in sections one and two of this article, no debt whatever shall be created by, or on behalf of the State.
SECTION 4. To provide for the payment of the present debt, and any additional debt contracted as aforesaid, the Legislature shall, at its first session, after the adoption of this amendment, create a sinking fund, which shall be sufficient to pay the accruing interest on such debt, and annually to reduce the principal thereof by a sum not less than one hundred and fifty thousand dollars; which sinking fund shall consist of the net annual income of the public works, from time to time owned by the State, or the proceeds of the sale of the same, or any part thereof, and of the income or proceeds of sale of stocks owned by the State, together with other funds, or resources, that may be designated by law.—The said sinking fund may be increased, from time to time by assigning to it any part of the taxes, or other revenue of the state, not required for the ordinary and current expenses of government, and unless in case of war, invasion or insurrection, no part of the said sinking fund shall be used or applied otherwise than in extinguishment of the public debt, until the amount of such debt is reduced below the sum of five millions of dollars.
SECTION 5. The credit of the commonwealth shall not in any manner, or event, be pledged, or loaned to, any individual, company, corporation, or association; nor shall the commonwealth hereafter become a joint owner, or stockholder, in any company, association, or corporation.
SECTION 6. The commonwealth shall not assume the debt, or any part thereof, of any county, city, borough or township, or of any corporation, or association; unless such debt shall have been contracted to enable the state to repel invasion, suppress domestic insurrection, defend itself in time of war, or to assist the state in the discharge of any portion of its present indebtedness.
SECTION 7. The legislature shall not authorize any county, city, borough, township, or incorporated district, by virtue of a vote of its citizens, or otherwise, to become a stockholder in any company, association, or corporation; or to obtain money for, or loan its credit to, any corporation, association, institution or party.
SECOND AMENDMENT.
There shall be an additional article to said constitution, to be designated as article XII, as follows:
ARTICLE XII.
OF NEW COUNTIES
No county shall be divided by a line cutting off over one-tenth of its population, (either to form a new county or otherwise,) without the express assent of such county, to be voted for at the elections thereof; nor shall any new county be established, containing less than four hundred square miles.
THIRD AMENDMENT.
From section two of the first article of the Constitution, strike out the words, "*of the city of Philadelphia, and of such county respectively*" from section five, same article, strike out the words, "*of Philadelphia and of the several counties*," from section seven, same article, strike out the words, "*neither the city of Philadelphia nor any*," and insert in lieu thereof the words, "*and no*"; and strike out "*section four, same article*," and in lieu thereof insert the following:
"SECTION 4. In four years after the adoption of this and sixty-four, and in every seventh year thereafter, representatives to the number of one hundred shall be apportioned and distributed among the several counties, by dividing the population of the state, as ascertained by the last preceding census, in proportion to the number of taxable inhabitants in the several parts thereof; except that any county containing at least three thousand five hundred taxables, may be allowed a separate representation; but no more than three counties shall be joined, and no county shall be divided in the formation of a district. Any city containing a sufficient number of taxables to entitle it to at least two representatives, shall have a separate representation assigned thereto; but shall be divided into convenient districts of contiguous territory, of equal taxable population as near as may be, each of which districts shall elect one representative."
At the end of section seven, same article, insert these words, "*the city of Philadelphia shall be divided into twenty senatorial districts, of contiguous territory as nearly equal in taxable population as possible; but no ward shall be divided in the formation thereof.*"
The legislature, at its first session, after the adoption of this amendment, shall divide the city of Philadelphia into senatorial districts, and establish a court in said city, and provide such districts to remain unchanged until the apportionment in the year one thousand eight hundred and sixty-four.
FOURTH AMENDMENT.
There shall be an additional section to the first article of said Constitution, which shall be numbered and read as follows:
SECTION 26. The legislature shall have the power to alter, revoke, or annul, any charter of incorporation hereafter conferred by, or under, any special, or general law, whenever in their opinion it may be injurious to the citizens of the commonwealth; in such manner, however, that no injustice shall be done to the corporators.
IN SENATE, *March 2*, 1857.
Resolved, That this resolution pass. On the first amendment, yeas 31, nays 7; on the second amendment, yeas 26, nays 8; on the third amendment, yeas 24, nays 4; on the fourth amendment, yeas 25, nays 4.

Medical.

Health and Strength Must Inevitably Follow its Use.
Boerhaave's Holland Bitters.
THE CELEBRATED HOLLAND REMedy for Dyspepsia, Disease of the Kidneys, Liver Complaints, Weakness of any kind, Fever and Ague, and the various diseases arising from a disordered Stomach, Bowels, Liver. Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Incapacity, Costiveness, Piles, Bilious Diarrhœa, Bilious Fever, Jaundice, Rheumatism and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others affected a decided cure.
Nature finds no new enemy to combat, with this delightful tonic in the system. Its effects are almost magical, yet the cure permanent. It communicates no violent shock to the system, but by arousing its vital energy, invigorates the entire, enables it to throw off the cause, and thus thoroughly eradicate the disease.
When its medicinal virtues are so universally acknowledged, and particularly here, where it has become so popular as a family medicine, that it is sold by many of the grocers, as well as by all the druggists, it would seem needless to offer further evidence yet as there are doubtless some who have read the advertised remedy, and still suffer from Dyspepsia in one or more of its dreadful forms, we subjoin the following testimonials, the authenticity of which cannot be doubted, coming as they do from persons so well known.
WHAT IT IS DOING FOR THE SICK.
Wm. Schuchman, Esq., the well known Lithographer, says: "I have frequently used Boerhaave's Holland Bitters, and find it invariably relieve indigestion and debility."
Rev. Samuel Babcock says: "I found special relief from its use for a severe headache, with which I had long suffered."
J. W. Woodwell, Esq., says: "I have used Boerhaave's Holland Bitters myself, and recommend it to others, knowing it to be just what it is represented."
Adj. Jonathan Neely, of Lower St. Clair, says: "I have derived great benefit from its use for weakness of the stomach and indigestion."
Jas. M. Murphy, says: "After several physicians had failed Boerhaave's Holland Bitters removed the pain from my heart and side, arising from indigestion."
The editor of the Kittanning Free Press, says: "After one of the best physicians in this place had failed, Boerhaave's Holland Bitters cured me of the worst form of Dyspepsia."
Francis Fitz, proprietor of the celebrated "Fitz Ale and Ale of Coffee," says: "I know that your Holland Bitters is one of the best medicines in the world for a disordered stomach or liver."
Dr. Ludwig, editor of the Packet, Baltimore, pronounces it "a medicine deserving the confidence of all the public."
Dr. Eberhart, the leading German physician of Penna. has prescribed it frequently during the past thirty years, with marked success in debilitated states of the digestive organs, or of the system generally.
The manager of Bailey's Vinegar Factory, says: "I used it myself, and was therefore induced to try its effect upon my wife, (troubled with the great debility common to all of a consumptive habit,) and really it is doing her more good than anything she has ever taken."
NOTICE.—Whoever expects to find in this a beverage will be disappointed, but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular invigorating powers.
CAUTION!—The great popularity of this delightful Arcana, has induced many imitations, which the public should guard against purchasing. Be sure and ask for Boerhaave's Holland Bitters, and take no other. Dose, a wineglass full, three times a day, without pain or sickness, or any unpleasant feelings in the system, but on the contrary, it invigorates the system and gives a healthy appetite. Price 50 cents. Price of the Medical Discovery $1 per bottle.
DIRECTIONS FOR USE.
Adult, one table spoonful per day. Children over eight years, dessert spoonful; children from five to eight years, tea spoonful. As no direction can be made applicable to all constitutions, take enough to operate on the bowels twice a day.
Sold Wholesale and retail at DR. KEYSER'S, 140 Wood street, corner of Virgin Alley, and J. P. FLEMING, Allegheny. ap10 wbr27;1ydawf

AYER'S
CHERRY PECTORAL,
For the Liquid Cure of
Coughs, Colds and Hoarseness.
BRIMFIELD, Mass., 20th Dec., 1855.
DR. J. C. AYER:—I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the constant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints.
EBEN KNIGHT, M. D.
A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your Pectoral myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. Within a hard cold I should sooner pay $50 for a bottle than do without it, or take any other remedy."
CROUP, WHOOPING COUGH, INFLUENZA.

BROTHER AYER:—I will cheerfully certify your Pectoral is the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicines to our people.
HIRAM CONKLIN, M. D.
AMOS LEE, Esq., Montgomery, Ia., writes 3d Jan., '56, "I had a tedious Influenza, which confined me to doors 6 weeks, took many medicines without relief, finally tried your Pectoral by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one-half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."
ASTHMA OR PHTHISIC AND BRONCHITIS.
WEST MACHESTER, Pa., Feb. 4, 1856.
SIR:—Your Cherry Pectoral is performing marvellous cures in this section. It has relieved my daughter of alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last 40 years. A. A. RAMSEY, M. D., Albion, Monroe Co., Iowa, writes, Sept. 6, 1855:—"During my practice of many years I have found that nothing equal to your Cherry Pectoral for giving ease and relief to consumptive patients, or curing such as are curable."
We might add volumes of evidence, but the most convincing proof of the virtue of this remedy is found in its effects upon trial.
CONSUMPTION.
Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach, but even to those the Cherry Pectoral affords relief and comfort.
ASTOR HOUSE, New York City, March 5, 1856.
DOCTOR AYER, Lowell:—I feel it a duty and a pleasure to inform you what your Cherry Pectoral has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her comfort or relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We have the kindness, as we do your skill, for she has recovered from that day. She is not yet so strong as she used to be, but is free from her cough, and calls herself well. Yours with gratitude and regard,
ORLANDO SHELDEY, of Shelbyville.
Consumptives, do not despair till till you have tried Ayer's Cherry Pectoral. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Phil. Ledger.*

Ayer's Cathartic Pills.
THE SCIENCES OF CHEMISTRY AND Medicine have been taxed to their utmost to produce the best, most perfect purgative which is known to man. Innumerable pills are shown that these pills have virtues which surpass in excellence the ordinary medicines, and that they are unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their purgating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow diseases, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the ills they are adapted to, but they protect from other and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time in themselves the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take, and being truly vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position as to render it a duty to give full publicity to them. Many eminent clergymen and physicians have lent their names to certify to the public the reality of cures so remarkable that they have set up the assurance of their conviction that my preparations contribute immensely to the relief of my afflicted fellow-sufferers.
The Agents below named are pleased to furnish gratis my American Almanac, containing directions for their use and showing the cures of all the prevalent complaints.
Costiveness, Bilious Complaints, Rheumatism, Dropsy from Inactivity of the Liver, Dyspepsia, Foul Stomach, Nervous Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases, Worms, Pimples, Pustules, Blotches, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which formerly used to be considered incurable, such as Deafness, Partial Blindness, Scurvy, Rheumatism, and Neuralgic Affections, Nervous Irritability, Depression of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.
Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S Pills, and take nothing else. No other pills can give you compensation for the injury, value or curative powers. The sick want the best and there is for them, and they should get it.

DR. C. M. JACKSON—*Dear Sir*:—I have for the last five years severely afflicted with Chronic Bilious Dysentery, for which I was advised by several of the best physicians in this country, but all of no avail. Certificate of J. C. Crater, Esq., Reporter for the "Evening Chronicle" Pittsburgh, Pa., dated Feb. 21, 1855, says:—"For some years past my wife has been using your German Bitters, with a happy effect. She has been afflicted more or less for several years with Liver Complaint and Dyspepsia, and until she commenced using the Bitters, nothing had given her much relief. Her health is now rapidly improving, her spirits are light and she feels like a new creature. I believe she will be perfectly restored. She says it is the best medicine she has ever used."
Nervous Debility.
J. M. HEISMIER, Doylestown, Pa., June 10, 1853, says: "My wife has been afflicted with a Nervous Debility since September, 1851, since which time she has been unable to find any physician or medicine that would benefit her in the least degree, until one day I called at the store of Dr. Harter, of this town, for some tincture of Iron, and described to him the affections of my wife; he then handed me a lot of papers to read, among which I found your pamphlet on your Bitters. I immediately procured a box bottles from him, and was pleased to see that the use of the Bitters has done her more good than all the medicine she has heretofore taken. I wish you to send me a half dozen bottles.
