FINANCIAL AND COMMERCIAL.

The Money Market.

PHILADELPHIA, Feb. 8, 1860.

Pennsylvania fives advanced to-day to 93¾; City s'xes old issue, to 100¾; new issue 104¾; Pennsylvania Railroad shares to 37¾, a gain of ¾. Reading gained ¼. West Philadelphia Passenger Railway ¼, and several other stocks and bonds on the list participated in the improvement.

The money market continues in the state of comparative ease which succeeded the tight snap at the beginning of the year, and sales of good paper are made very readily at previous quotations—7 to 9 for first-class names, and up to 15 per cent. for second-rate paper.

W. B. Zieber, Esq., sends us the *Merchants' and Bankers' Register* for 1860—a publication from the office of the *Bankers' Magazine*, New York, which is so favorably known in the bank parlors and large mercantile houses all over the country. The *Register* contains a list of all the banks in the Union, alphabetically arranged in States and cities; a list of private bankers in the United States; a list of banks in Canada; banks and bankers in London, and all over the world; engravings of new banking houses, and a great deal of other information important to have handy in the counting-house or on the desk. The price is fixed low, and the book ought to command a wide sale.

We give place, at the request of some of our friends, to the following statement of the business of the Delaware Division Canal Company for the year 1859:

Total income from *tolls, rents*, and interest	$222,050 76
Ordinary expenses	48,680 21
Net earnings	$173,370 55

Against which has been charged:

Interest on bonds	$60,000 00
Dividends paid	40,344 00
Construction	11,890 72
Land damages	2,929 13
Real estate	1,230 81
Building enlarged lock	2,530 83
	$128,976 62
Leaving a credit balance of	$45,376 63
Add surplus on hand Jan. 1, 1859	16,784 75
Amount received for fractional share of stock	12 50
Balance on hand	$62,172 28

1858—Construction account	$20,317 95		
Land damages	1,230 81		
Real estate	1,676 00		
	$23,275 77		
1859—Construction	11,890 72		
Land damages	2,929 13		
Real estate	1,230 81		
	$39,831 43		

This amount of earnings $62,172 28 of the canal (equal to nearly 3¼ per cent. on the capital), was expended in 1858 and 1859 on new work, towards the enlargement of the canal, and will be distributed to the stockholders at some future period, when deemed advisable to do so by the managers.

The directors of the company have declared a dividend of three per cent. upon the capital stock, payable on the 15th inst.

The Grand Trunk Road has made another contract for 1,000 boxes middles and 150 tierces of lard at 52 cents per 100 lbs from Cincinnati to Liverpool, which includes all former shipping charges, and is certainly a price that shippers cannot complain of.

NEW YORK CATTLE MARKET, Wednesday, Feb. 8—HEAVY DECLINE IN BEEF CATTLE AND SHEEP. The receipts of live stock have been 3,652 Beeves, 83 Cows, 403 Veals, 5,372 Sheep and Lambs, and 7,400 Swine. Showing an inc. also of 1,052 head Beef, and 2,734 Sheep, and a decrease of 35 Cows and 18 Veals. At Jersey, N. J., 1,098 head were sold to New York butchers, being an increase on the sales of last week of 376 head.

The trade at the Washington Market, last week, has been very fair, at *prices fully one half to one cent per lb lower*. The quality was beyond all dispute, the best, on the average, secured at any one time this winter. The selections embraced some very superior heavy ones, also a good assortment of fat medium steers. The highest price was 10@10½ cents, the latter an extreme rate. The other figures were 9 to 9½ cents—sales generally from 8 to 9 cents. Some very prime that would have brought 11 cents quickly last week, only realized 10 cents. The average rate was 8@8½ cents. Speculators were again much disappointed; they purchased freely early in the week expecting coming forward between this city and Buffalo, and have lost very heavily. They look, emphatically, "down in the mouth." The opposite is the case with butchers; they have seldom had a chance to offer such prime beef upon their stalls at such prices. Veals have declined and are dull. Cows are also nominal and neglected. Sheep are 2@2½c lower; sales at 8@8½c. Swine are better; we quote at 5@5½c live, and 7¼@8¼ dressed.

CITY ITEMS.

MISSIONARY MEETING.—A meeting in behalf of the missionary cause of unusual interest, may be expected to take place at the Trinity Methodist Episcopal Church, Eighth street, above Race, to-morrow (Friday) *evening. The Rev. John P. Durbin, D. D.*, one of the most distinguished divines in the M. E. Church, will preach a sermon on the occasion, and as the object of the meeting is one in which the churches are all interested, a *very large gathering* may be expected. There will be no collection taken.

SALESMAN WANTED.—We invite attention to an advertisement in another column, headed, "Clerkship"; as offering a desirable opening for a young man of energy and business tact. We believe the position to be a desirable one.

THE QUEEN OF RUSSIA'S ICE PALACE.

No forest fell
When thou wouldst build; no quarry sent its stores
To enrich thy walls; but thou did'st hew the floods,
And make thy marble of the glassy wave.
In such a palace Poetry might place
The sphery of winter.
So sang the sweet and plaintive poet, Cowper; but we cannot help feeling, after all, that the most comfortable palace is brown stone, like the "Keystone Palace," 524 Chestnut street, and the best *armory of winter*, the magnificent and suitable *clothing sold there*—only one price—the most inexperienced on a level with the most experienced in buying. C. Stokes, proprietor of the "Keystone Palace" Clothing Store, under the "Continental."

DROWNING OUT VESUVIUS.—Some of the German journals announce seriously that a company of English capitalists have made an application to the King of Naples for a concession for the extinction of Vesuvius. The principal seat of fire is situated several thousand feet below the level of the sea. By cutting a canal which would carry the waters into the crater, the fire would be completely extinguished. The idea is about as absurd as to contemplate the eclipsing of the splendor of the garments made at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut street, above Sixth.

FEMALE COSTUME, as a sanitary regulation, is attracting some attention in the Old World, where the health of woman is generally much better than in the United States. In a report read and adopted at a meeting of the Ladies' National Sanitary Association, held in London, in July last, the following language occurs: "Believing that a great part of the weakness and disease which the Association aims to prevent is caused by improperly made clothing, the committee are preparing a complete set of patterns for every part of the dress of women and children, with special reference to health and comfort, with an explanatory tract, which can be cheaply sent to any part of the country." Were similar attention paid to gentlemen's dress in this country, we should expect to read resolutions advising all men to wear the gay and elegant costumes of Granville Stokes, the National Tailor, of 607 Chestnut street.
