MEDICINAL.

MRS. WINSLOW, AN EXPERIENCED NURSE AND FEMALE Physician, presents to the attention of mothers her SOOTHING SYRUP FOR CHILDREN TEETHING, which greatly facilitates the process of teething, by softening the gums, reducing all inflammation; will also allay PAIN and spasmodic action, and is SURE TO REGULATE THE BOWELS. Depend upon it, mothers, it will give rest to yourselves and RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold for years, and can say, in confidence and truth, of our own knowledge, that to MILLIONS OF MOTHERS this article has been used for over ten years, and with never failing success, not one instance of dissatisfaction by any one has occurred, nor do we think of such, even in the case of the most delicate child, if the directions be followed, as to the quantity to be given, and the time of its continuance, when the bowels are in a state requiring aperient medicine, or when the child is teething. We do not hesitate, and we do so with the utmost confidence, recommending to every mother who has a sick child suffering from the effects of teething, to give MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor sufferer immediately; it will give REST TO THE MOTHER, and HEALTH TO THE CHILD. This invaluable preparation is the prescription of one of the most skillful female physicians in New England, and has been used with never-failing success in thousands of cases.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve griping in the bowels, and wind colic, even severe cases of cholera-morbus, yield to its influence, when all other remedies have failed. It will also relieve the child from the pain and disease arising from the collection of gum, and will do so within a few hours, if the gums are lanced, and not, as we believe it to be, in many cases, the cause of the disease, it will prevent the convulsions which so many children are subject to during the process of teething, and which so often prove fatal. It will also cure the worst cases of DYSENTERY and DIARRHŒA IN CHILDREN, whether it arises from teething or from any other cause. We would say to those who are prejudiced against using any of the various quieting medicines now offered to the public, that we do not let your prejudices, if you have any, stand between your suffering child and the RELIEF THAT WILL BE SURE—we know it—to follow the use of this medicine. Full directions for using will accompany each bottle. The fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

☞ Sold by Druggists throughout the world. Principal Office, No. 13 CEDAR Street, New York.

Price 25 cents a bottle. 1y29-1y

FROM DE VENOGE & CO., EPERNAY, FRANCE.

Sold by all Respectable Dealers throughout the country.

This fine brand of CHAMPAGNE, which until the past year was confined exclusively to the best tables of the Continent of Europe, has now obtained the most unbounded success and popularity in this country. It is recommended by some of the first physicians of the city of New York, over all other wines, on account of its extreme purity and delicacy, and those who once try it rarely use any other brand. Although only one year has elapsed since its introduction into this country, the demand is enormous and constantly increasing. Our arrangements are such as to insure the quality of the Wine being maintained at its present high standard. The Prince Imperial is imported solely by us, we being the sole Agents of Messrs. The above is what an old farmer says, in the great Revolutionary Story, "The Quaker Partisans." But this is not the only correct sentiment. Said General Greene to Washington: "Your Excellency may depend upon it, there will be hard fighting wherever these Quakers are at work."

America's Footing in Africa.

The Paris correspondent of the *Liverpool Daily Post*, a well-conducted journal of great circulation, draws attention to a Piedmontese paper, called the *Opinione*, published at Turin, and advocating the Liberal cause, with equal ability and judgment.

It would appear then, from the *Opinione*, (which is not on our exchange list, though the *Liverpool Daily Post* is,) that negotiations have been entered into between Spain and the United States, for the ceding of a port on the newly-acquired coast of Africa, which would confer a harbor of refuge on them, and supply to Spain a safeguard at present, and ultimately an important ally. It is significantly added that England opposes this.

The Paris correspondent comments on this, in the following manner:

"There may or may not be truth in this assertion; but if, as it continues, similar proposals were made to Sardinia previous to the African war, it makes an aspect favoring credibility. It appears that an American mark of war is now lying in the bay of Genoa, and that the sailors are committing most outrageous excesses, refusing payments after carousing, even jumping through the casements as a diversion of exit, and using knives in the fray. These exhibitions will draw upon all who speak the Italian or English tongue, and wear a sailor's garb, the retributive indignation of the town's people. It was in Genoa during the month of April last year, on occasion of the landing of the Emperor for the Italian campaign, and witnessed the small amount manifested upon our (English) blue jackets belonging to the Orion. This occasion was interpreted by them, and by the English public, at the time, to have reference to the existing state of politics in our regard. But I was subsequently acquainted with parties to know that it was owing to the obtrusive position taken up by our bulldog representative placing herself right in the residence of the harbor, at that time transports from France had to make a detour and file before her. The bold British bearing by Jack on land was also a provocation. They took the earliest hints conveyed in the *caffè* as well as in the crowded streets, and came ashore; but to this day, probably, they report this personal demonstration as a national outrage."

The inference is, that British as well as American seamen have succeeded in gaining unpopularity in Genoa, (and perhaps in other Italian ports?) and that the United States may desire to possess a harbor in the opposite coast of Africa. But as the project has not yet received the sanction of our
