FINANCIAL AND COMMERCIAL.

The Money Market.

PHILADELPHIA, April 25, 1860.

Pennsylvania Railroad shares declined ¼ at the stock board to-day, but Reading shares recovered the decline of yesterday, and North Pennsylvania bonds advanced ½; Green and Coates Street Passenger Railway gained ¾ at the first board and lost it again at the second. State loans are a little weaker, but city bonds maintain previous quotations.

CITY ITEMS.

AN AGE OF LIGHT.—It would be strange, indeed, if, with all the accumulation of mental light which marks the present era of the world's history, there were no corresponding accessions to the stock of our light *physical*. So far from such being the fact, we may, indeed, state that, among the proudest indications of our mental progress, are to be found the ingenious inventions within the present century which have given to the world a hundred new contrivances for superseding the gloom of night with the presence of cheering, convenient, and moderate-priced light. We are of opinion that any man or any establishment which contributes to the aggregate of human comfort and happiness in this way has a special claim upon the consideration and appreciation of the public, in view of which we shall take the liberty of devoting a few remarks to the great "Central Light Emporium" of Messrs. Witters & Co., located at No. 35 North Eighth street, northeast corner of Filbert. These gentlemen now present an establishment that is really a credit to our metropolis, and we are, therefore, not surprised to find that they are attracting general attention, not only in this community, but wherever their popular light-giving appliances have been introduced. To enumerate all the articles they manufacture in detail would far transcend the reasonable limits of a newspaper article, and we must therefore confine ourselves to a few of their principal specialities. Of these we mention first their endless variety of lamps for burning Kerosene oil, which from the beauty of their construction, either for permanent or portable purposes, no less than the superior quality of oil of which they have the exclusive control, are being widely introduced. We may say, in passing, that *their* Kerosene possesses the following unquestionable advantages: It emits neither smell nor smoke in burning, is white and clear as amber, and so brilliant perfectly pure and unadulterated. This light, by the way, from its brilliancy and unparalleled cheapness, is rapidly coming into general favor. It is free from all the objections which ordinarily attach to portable lights, and we therefore cheerfully recommend it to the public. The lamps and fixtures which Messrs. Witters & Co. are now manufacturing for burning this oil are really beautiful, serving at once the purposes of light and ornament.

Their Self-Generating Gas-burner and Fixtures, which we have heretofore had occasion to notice, are also finding a large sale. This latter is also a very brilliant and economical light, the cost of it being less, by a considerable per centage, than the ordinary gas. It is introduced into churches, public halls, and private houses, when desired, identically the same as the ordinary *gas* fixtures, including massive and elegant chandeliers, pendants, brackets, table stands, &c., and is in all respects equal, and, if anything, *more absolutely free from danger by explosion* than the common coal-gas light. We ought to state, also, in this connection, that Messrs. Witters & Co. are largely engaged in the manufacture of the ordinary gas fixtures, although their orders from *interior towns* are mainly for their fixtures adapted to the consumption of either *fluid gas*, or Kerosene oil.

Their present establishment is very properly designated "A Great Light Emporium." In addition to their elegantly fitted-up retail rooms on the first floor, they have recently found it necessary to fit up the entire upper part of the building *for wholesale* purposes. In a brief inspection of these improvements yesterday, we were particularly struck with the fact that these gentlemen have really created an important new mercantile branch, and the stock of gas fixtures, chandeliers, coal oil and other lamps which now fills their wholesale rooms is well worthy the attention of country merchants, from the fact that wherever introduced they are at once appreciated, and the extensive scale upon which this firm is now manufacturing enables them to sell at such prices that splendid profits may be realized by the retailers.

We may say in conclusion, that no one can fail of being perfectly suited with *light* at this establishment, no matter how fastidious his taste, how grand his ideas, or how limited his means, inasmuch as the various classes of light above referred to are furnished in every variety of fixtures, from the lowest cost to the most elaborate. We had also the pleasure of examining a splendid chandelier just completed by this firm for the new Episcopal Church at Riverton, New Jersey; also, a beautiful line of their fluid-gas fixtures, manufactured to order for shipment to Ponce, Porto Rico.

AN INVALUABLE ARTICLE FOR FAMILIES.—Mr. Bakes, an ingenious druggist in this city, has succeeded in preparing an article, which he calls "Camphorated Vetivert," for the preservation of furs and all kinds of woollen goods, including carpets, that, we believe, will soon become very popular. Its efficacy has been thoroughly established by satisfactory experiments, and the mode of applying it is so much more simple and agreeable than the usual course adopted that it must soon come into general use. It has this advantage, moreover, that, instead of finding garments filled with an unpleasant odor upon unpacking them, they are agreeably scented. The ingredients used in the preparation are well known to be the most effective remedy for moths and all other insects. It is prepared and sold by Mr. Parrish, Eighth and Arch streets.

THE ATTRACTIONS AT OAKFORDS'.—The choice things embraced in the various departments of Messrs. Oakford & Sons' palatial establishment, under the Continental Hotel are so multitudinous that the ladies of our beautiful city, in their shopping tours on Chestnut street, are beginning to make it a rule to "call at Oakfords' *first*," for no matter what. In more than half the cases the chances are that Oakfords' is, of all other places, just the spot to be suited to a nicety in what they want, and, in any event, the magnificent bazaar of these gentlemen, and the polite manner of their courteous attendants, are sure amply to repay the trouble of a visit. It is a fact, that few points in the Union, or out of it, present greater attractions to buyers, male and female, than Oakfords' under the "Continental."

"BOWER'S MEDICATED FIGS" are exceedingly popular; they have the confidence of physicians, and are spoken of in terms of high commendation by those who have used them. They are of great benefit to all who are troubled with habitual costiveness, constipated bowels, sick and nervous headache, bilious diseases, and in cases where a mild and efficient purgative is required. They are prepared by G. C. Bower, Sixth and Vine streets, at 37½ cents per box.

DOLLIE DUTTON'S LEVEES.—This little girl, who has attracted so much attention at Boston and other Eastern cities, gave her first levees on Tuesday afternoon and evening, to large audiences. She is the smallest specimen of humanity, of her age we have ever seen, and, without any puffing, will attract crowds to her levees, which are to be given at Concert Hall, Chestnut street, above Twelfth, every afternoon and evening this week, at 3 and 8 o'clock.

L. J. LEVY & Co., 809 and 811 Chestnut street, will open, on this morning, one thousand new Organdy flounced Robes, just landed, 83 and 84 each, greatly below cost of importation. Also, another case of Barege Anglais at 18¾ cents, and one case double width at 25 cents per yard.

SOLOMON'S TEMPLE.—This really splendid building, which, for the last six months, in New York drew such crowds, is being put up in this city for exhibition next week. Day of opening and place will be given in daily papers.

TO PARENTS.—Mr. Willis, the principal of a first-class Boarding School for boys, at Freehold, Monmouth county, N. J., will be at the Girard House today, from 10 o'clock in the morning till 1 in the afternoon, to meet parents who may desire to confer with him.

DISSOLUTION OF THE UNION!—We are in the receipt of a telegraphic announcement from Washington, to the effect that the Cabinet has dissolved, and that the members of it have left the seat of Government for parts unknown. We have it in our power to state that the dissolution will not be a permanent arrangement, the Cabinet officials having merely determined to make a temporary separation for the purpose of coming on to Philadelphia, to procure for themselves new, elegant and comfortable garments, at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut street, above Sixth. They will return to Washington and resume their places in the Cabinet as soon as their new outfits are procured.

STEINWAY & SON'S NEW PATENT OVERSTRUNG GRAND PIANOS, SQUARE GRAND, AND SQUARE PIANOS.

BLASIUS, BROTHER, 1005 CHESTNUT Street.

The appended card, copied from the New York Evening Post, demonstrates conclusively the high estimation in which these pianos are held by the first artists of New York, who, though desirous of exhibiting their skill, preferred martyrdom to the alternative of playing on an inferior instrument. [CARD.]

THE GRAND FESTIVAL BENEFIT AT THE ACADEMY OF MUSIC.

At the concert on Saturday evening, Mr. Baker appeared before the curtain, and stated that Mr. Mills had refused to play his solo, because the Chickering piano provided by the management of the Academy, in accordance with a business contract, did not suit him.

The facts of the case are simply these: The undersigned were each to have played a solo. They had selected a Steinway grand piano for the purpose. This instrument was afterwards sent up to the Academy of Music, tuned, placed on the stage, and made ready for use in all respects.

The public should know that in every city of the world it is customary that artists select the instrument which they think best calculated to display their powers. At the Academy, however, a different rule prevails, and they are, it seems, *compelled* to play only on what the managers choose to permit. At the last moment, we were told that we must condescend to this rule, or not play at all. We preferred the latter alternative, not out of disrespect to the public, but because we felt that we could not give the satisfaction we wished to give if we played on a strange instrument. If there had been no other piano at the Academy, the case might have been different; but, with the instrument we ordered before our eyes, the refusal to permit us to play on it was an arbitrary exercise of power, which could only seem to have been a deliberate effort to force us into a disadvantageous light before the public.

A CARD TO THE PUBLIC.

CONGRESS SPRING,

SARATOGA, APRIL 16, 1860.

An attempt has been made to deceive the public, by persons offering what *they call* "CONGRESS WATER" *from Fountains*; and at the price of six (6) cents per glass. The *wholesale* price of the genuine Congress Water, at New York, being about 7½ cents per glass, the imposition of pretending to sell at retail at less than cost, and without allowance for freight, cartage, or breakage, is apparent; but their probable course has been to empty *one* bottle of genuine Congress Water into a Fountain filled with their trash, and thereby christening its *total* contents.

We have NEVER sold Congress Water in Fountains, nor in vessels of any *other description* than ordinary sized GLASS BOTTLES. The cork of every bottle of the genuine is branded "*Congress Water*"—"C. & W.," and any, without those words and letters on the cork, is COUNTERFEIT, whether from Fountains or Bottles.
