

From the Bedford Gazette.

A Few plain Words to Democrats.

Candidates for the various important offices to be voted for next fall, in Bedford county, are multiplying, and will be seen by referring to the appropriate head, which is all right and proper. It is the privilege of every honest Democrat that chooses to offer himself to the consideration of the party; and if "competent," one man's claim is just as strong as another. Officers were not made for the mere support of any body, but were intended to accommodate the public interests; and, when a majority of the party select their candidates, for any office, the man who finds fault with their decision, proves himself unworthy to have been named in connection with a public trust. The candidates already in the field are all honorable, high-minded, working Democrats, and those among them who fail in their aspirations, will, we are quite sure, cast no reflections upon the nominating power. Some will be disappointed—this cannot be avoided—and the candidate has just as good a right to be left off "the ticket" as another—and as good a right to be put on! Frequently, the most deserving men are not to be found in the list of office-seekers, but this is not the fault of those who are. The best way for a man to feel, in announcing himself as a candidate, is, that he stands 99 chances out of 100 to fail in getting the nomination. This will at once quiet all unhappy forebodings, and enable him to laugh out of the right side of his mouth should he prove unsuccessful. Should he win, the effect will be far more palatable than if he had "always thought he would." Delegates should be chosen for their purity of character, and not with the mere view of striving for one or the other of the aspirants. If the people want a particular man they will take him. A friend who wrote to us recently to "leg it" for his nomination for a seat in the Legislature, will please excuse us. The Gazette will "leg" to secure the nomination of no man.

What is Democracy?

Democracy represents the great principles of progress. It is onward and onward in its movements. It has a heart for action and motives for a world. It constitutes the principle of diffusion and is to humanity what the centrifugal force is to a revolving wheel of a universe. What motion is to them, Democracy is to principles. It is the soul of action, it conforms to the providence of God. It has confidence in man and an abiding reliance in his high destiny. It seeks the largest liberty, the greatest good and the surest happiness. It aims to build up the great interests of the many, to the least detriment of the few. It remembers the past, without neglecting the present. It establishes the present, without fearing to provide for the future. It cares for the weak, while it permits no injustice to the strong. It conquers the oppressor, and prepares the subject of tyranny for freedom. It melts the bigot's heart to kindness, and reconciles the mind to knowledge. It dispels the cloud of ignorance and superstition, and prepares the people for instruction and self-respect. It adds wisdom to legislation, and improved judgment to government. It favors enterprise that yields to many, and an industry that is permanent. It is the pioneer of humanity—the conservator of nations. IT FALLS ONLY WHEN IT CEASES TO BE TRUE TO ITSELF.

"Fishy."
The Black Republican State Committee is a curiosity in its way. Simon Cameron stands at the head. Then we pass over a straight string of other opposers of Francis R. Shunk, one of the Governors of whom Pennsylvania will ever feel proud, and finally come to the name of our old friend John Laporte, who was Surveyor General by appointment of Gov. Shunk. In years gone by, the venerable Judge was very fond of cautioning our youthful inexperience against "fishy Democrats," and he has spent almost an entire life in opposing Cameron and warning his friends against every body associated with him: Is he "fishy" now, or has Cameron grown pure in his old age, thus reversing the order of nature?

Then comes John N. Durvian, of Butler, who has been leeching it off the party for years. The more the party led, the more John N. cried woe, until at last it had the grapes to choke him off entirely! The grapes turned sour at once! John cried out lustily for Mr. Buchanan, hoping thus to secure fodder—he wanted a promise but got none. It was hinted he might give up but Fremont, yet old Black was inviolable and wouldn't promise. John was announced week after week for Fremont, with about an equal number of details of the same, and yet no promise! As promise would not and did not come, we believe he finally supported Fremont. Now he has got up to a position on the State Committee on the opposite side, which we suspect is about as high as he will go over there, or anywhere else hereafter.
From our boyhood we have noted the almost utter impossibility of clucking an old office-holder off; and we have for the same period noticed their proclivity to slide off on the other side whenever they were choked off. There is nothing strange, therefore, in the apostasy of which we speak. Yet it is really an odd peccable to see Judge Laporte's name amongst "fishy" politicians.—Clinton Dem.

Abolitionists Answer.

The Clinton Democrat puts a pair of very pertinent questions to the Abolitionists. We should like a reply from them. We quote the interrogatories with the hope that some of the dignitaries of this section will deliver an opinion.
When Thomas Jefferson wrote "all men are born free and equal," &c., did it mean that he and his black slaves had been born on an equality, and that he and they were possessed of certain indelible rights? If that was his meaning, do you denounce him as a demagogue for continuing to hold his blacks in slavery, thus falsifying what you say was his own declaration? When George Washington signed the same declaration, did he believe that the blacks were entitled to the same degree of liberty as himself, and yet continued to hold them in slavery and his death? If so, what is your opinion of the sincerity, religion and patriotism of George Washington?

Major Raymond, of the Hollidaysburg "Whig," although not a member of the "Anti-Slavery Church," nor of any other, we believe, but rather of the "Bible-sellers' nations," against the anti-slavery resolutions of the Baltimore Conference, and wants to know what the Church will gain by such resolutions? which we reply that they will gain the love, respect, and admiration of all Christians, except such as attach their faith to the tenets of the Keys and Mallock strips.—Bedford Gazette.
The notorious Jim Lane is going back to Kansas with the view of getting up a local outbreak. Kansas must be made to "bleed" again or abolition stock must rot. The whole motive of his proceeding is to get an opportunity to operate on northern ears, and the people having had one edition of "Kansas outrages" for electrifying purposes, will not be likely to be influenced by another "pot of the gizzard."

A Medical Revolution!

THE WORLD UNANIMOUS!
Holloway's Ointment.—THE GREAT CURATIVE REMEDY!—The virus of disease often makes its way to the internal organs, thro' the pores of the skin. This penetrating Ointment, melting under the hand as it is rubbed in, is absorbed through the same channels, and reaching the seat of inflammation, promptly and invariably subdues it, whether located in the kidneys, the liver, the lungs, or any other important organ. It penetrates the surface to the interior, through the countless tubes that communicate with the skin as summer rain passes into the fevered earth, diffusing its cool and regenerating influence.

Every species of exterior irritation is quickly reduced by the anti-inflammatory action of this Ointment. Angry eruptions, such as Salt Rheum, Erysipelas, Tetter, Ringworm, Scald Head, Scald Neck, Scald Face, or Itch, &c., out, to return no more, under its application. Hospital experience in all parts of the world proves its infallibility in diseases of the skin, the muscles, the joints and the glands.
Cures, Sores, and Ulcers.
The effect of this unrivaled external remedy upon Scrofula, and other virulent ulcers and sores, is almost miraculous. It discharges the poison which produces suppuration and proud flesh, and thus the cures which its healing properties afford are safe as well as permanent.

Wounds, Bruises, Burns, and Scalds.

In cases of the fracture of bones, injuries caused by steam explosions, Bruises, Burns, Scalds, Rheumatism, Stiffness of Joints, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvelous remedy has been introduced by its inventor in pen-on into all the leading Hospitals of Europe, and no private household should be without it.

Excellent Lotion.

The Medical Staff of the French and English Armies in the Crimea have officially signed their approval of Holloway's Ointment, as the most reliable dressing for sores, cuts, stabs, and gun-wounds. It is also used by the surgeons of the Allied Navies.
