MONDAY MORNING, FEB. 13, 1860.

LIVERPOOL THE PORT OF THE WORLD.—A recent number of Chambers' Journal contained an article embodying some interesting facts regarding Liverpool, the greatest seaport of England and of the world. It appears that in 1857 nearly one half of all the products exported from England were shipped from this port. Out of £122,000,000 of exportation; £55,000,000 were exported from Liverpool, about half that amount from London, £16,000,000 from Hull, and the rest from Glasgow, Southampton, &c. The population within four miles of the Exchange, at the present time, is about 600,000, and the rate of annual increase about 10,000. The property and income tax paid by the inhabitants in 1857 amounted to upward of £7,000,000, or $35,000,000. The amount of tonnage belonging to the port in the same year was 926,022 tons, being greater by 76,872 tons than that of London itself. The amount of shipping which entered and cleared during the same year, was upward of 9,000,000 tons. Of the vessels which arrived from abroad, the United States sent by far the largest and most numerous fleet, viz: 984 ships, of an average burden of more than 1,000 tons. There were from Italy 174 vessels, from Russia 102, from France 317.

One great branch of the shipping business of Liverpool is the shipment of emigrants to foreign and colonial countries. The tide of German emigration, even now, flows through England and escapes through Liverpool, in preference to Hamburg and Bremen. Of the 212,875 British emigrants in 1857, nearly 156,000 sailed from this port. Of the above number the United States attracted 126,905; British America 21,000, and Australia 61,248. The number of emegrants who left the shores of Great Britain from 1815 to 1857 was upwards of 4,500,000.

The pride of Liverpool is her docks, which cover a space of no less than 400 acres of water along the Mersey. They extend on the Liverpool side of the river a distance of five miles, and two miles off the Birkenhead side. The sea wall along the Liverpool side, by which the shipping in the docks is preserved from wind and storm is one of the greatest works of any age. Its length is upwards of five miles, its average thickness eleven feet, and its average height from the foundation forty feet. Great difficulty was experienced in gaining a stable foundation for this great structure, and thousands of piles were driven and many great beams of timber sunk to secure a firm bottom. Upwards of eighty pairs of gigantic gates have been put up within the last thirty years, and some of them reach to the unparalleled width of 100 feet.

THE NEW YORK INEBRIATE ASYLUM.—The annual meeting of the Trustees of the New York Inebriate Asylum was held in New York city on Monday. Up to the present time three thousand one hundred and thirty two applications have been made to enter the asylum, many of which are from the patients themselves. These applications have come from every State in the Union and from the Canadas. Of the number who have applied for admission during the past year, nine have committed suicide while labouring under mania-a-potu. The following resolution was offered and unanimously adopted.

Resolved, That any citizen of the United States who shall donate or leave by legacy the sum of five thousand dollars to the New York State Inebriate Asylum, shall establish forever a free bed in said asylum. Two thousand and five hundred dollars shall provide a free bed in said asylum for six months in each year. Twelve hundred and fifty dollars shall provide a free bed in said asylum for three months in each year. The donor or the legator shall name the patient who shall occupy said free bed. The said patients shall be provided with board and medical treatment free of charge, and said patients shall be subject to the rules and regulations of said asylum.

AMERICAN AND FOREIGN
STEREOSCOPIC EMPORIUM.
B. ANTHONY,
No. 308 BROADWAY, NEW YORK.
Late May 1st, 1860, at 501 BROADWAY, two doors from the St. Nicholas Hotel.

THE STEREOSCOPE is the most INSTRUCTIVE, INTERESTING, ENTERTAINING, AMUSING and EXCITING of modern inventions.

None are *too young*, none *too old*, none *too intelligent*, none *too uneducated*, to acknowledge its worth and beauty.

No home is complete without it, and it must and will pencils everywhere.

It presents to your view every part of the world, in all the *reality, boldness, perspective*, and *sharpness of detail*, as if you were on the spot.

Photographers are everywhere exploring Europe, Asia, Africa, America, in search of the grand and the beautiful, and the results of their skill are constantly enriching our stock.

We have an immense variety of paper Views of Scenes in Paris, London, England, Scotland, Ireland, Wales, France, Belgium, Holland, Switzerland, Spain, The Rhine, Versailles, St. Cloud, Fontainbleau, Vulliette, Italy, Turkey, Egypt, Athens, the Holy Land, China, India, Cuba, Mexico, Public Groups Historical, amusing, marriage scenes, breakfast scenes, models, statuary, &c. &c. *An enviable assortment of Illuminated Interiors* of Palaces, Churches, and Cathedrals of France, Italy, &c. &c. The effect of these Illuminated Views is most *remarkable*.

Every gentleman of wealth and refined taste should have in his drawing room some of our Exquisite Views on Glass, with revolving stereoscope, showing 12, 25, 50 or 100 scenes. Nothing can be more fascinating, and one can offer no pleasanter gift to a friend fond of the picturesque and the beautiful.

Anthony's Instantaneous Stereoscopic Views are the latest photographic wonder. They are taken in the *perfect part* of a second, and everything, no matter *how rapidly* it may be moving, is depicted as sharply and distinctly as if it had been perfectly at rest. This gives an additional value, for to the beauties of inanimate nature it adds the charm of *life and motion*. The process is a discovery of our own, and being unknown in Europe, we receive from London and Paris large orders for Anthony's Instantaneous Views of American life and scenery.

Among other things we have just published Stereoscopic Illustrations of the Scene of the *Fulton Street Prayer Meetings*, in which many hearts feel an interest. The particulars of this will be found in our catalogue.

Our Catalogue of subjects and prices will be forwarded to any address on receipt of a stamp.

Parties at a distance, sending us $3, $5, $10, $15, $20, or $25, can have a good instrument and such pictures as they may request, sent by Express.

Views alone (without instrument) can be sent by mail.

Parties who wish to be advised of everything really valuable in the line that comes out, may send us their names to place on record, and we will keep them posted at our own expense.

Men of leisure will find Photography a most fascinating and delightful amusement. We are prepared to fit out amateurs with everything necessary for their success, together with instructions "How to take Stereoscopic Pictures."

E. ANTHONY,
Importer and Manufacturer of Photographic Materials, Stereoscopes and Stereoscopic Views.

☞ *Merchants* from every section of the country are respectfully invited to make an examination of our stock, as our discount to the trade will be liberal.

TO PHOTOGRAPHERS.—First-class Stereoscopic Negatives wanted.

Send by mail a print unmounted, with price of Negative. jal8:6wd [Cut this out for future reference.]
