The Disunion Bluster.

The true way to treat the Disunion bluster now so prevalent at the South, is to leave it alone. The attempt to resist it or put it down by force, would assist instead of repress it, and make that real which is now only a sham.

The Disunion cry has been the bugaboo of the South for thirty years. With it she has always, hitherto, been able to scare the North into submission; and the sole object of resorting to it in the late election was to drive the North into compliance with her wishes. The noisy blusterers of the South had no doubt of their ability to accomplish their end. Failure was never anticipated, not even dreamed of by them.

But they have failed. Had they succeeded, the bolluxes of their threatened disunion would never have been discovered; but having failed, the sole question with them now is how best to escape from their embarrassing position. They must do *something*, to make their people at home believe them in earnest, and yet so manage it as to prevent the consummation of what they threaten.

This is the explanation of the present attitude of the South. The leaders—Toombs, Yancey, Chesnut, Iverson, Wise and the other noisy fellows, who declared without reservation that the election of Lincoln would be followed by a dissolution of the Union, must either attempt to dissolve it or go into utter disgrace. They are therefore pretending to carry their threats into execution in order to put themselves right at home. They have promised; and they must at least *seem* to perform.

It would be the madness of folly, therefore, to treat these men as being in earnest. To do that would soon make them in earnest. Let them alone and play out their play. When they show signs of being in earnest, and put their necks in a halter, it will be time enough to string them up. They will not do that, if left to themselves. They have been, for years, engaged with the zeal of demagogues in inflaming the public mind of the South with artful misrepresentations of Northern sentiment and designs, and extravagant appeals to Southern peculiarities; and now, when the crisis has come which they have provoked, but not anticipated, they find themselves confronted by a people who have taken them at their word and have not only believed, but profess a willingness to follow, them. How shall the poor devils escape? That is a question for *them* to answer. Let us rather sympathize with them in their dilemma than think of dealing severely with them. They must wriggle out of their trouble; and it will be amusing to stand by and witness their manoeuvres in doing so.

In less than a month this farce will be played out. Within that time the true Union sentiment of the South will develop itself. There is patriotism and good sense enough in the South to manage the whole affair. Let us leave it, then, in the hands of the true men of the South. It does not need our interference. Hands off. The time may come when the whole country will have to interfere; but just now all that the North has to do is to leave the Hotspurs alone.

CABINET MAKING.—The New York papers have correspondents at Springfield, who affect to know a great deal, and write home very confidently about the probable construction of the Cabinet. These fellows loaf about the bar-rooms in Springfield and catch up every little item of gossip, and if the little thus retailed in their hearing is not sufficient for a letter, they manufacture whatever may be lacking. Occasionally, also, they are made the victims of practical jokers, a class which abounds in that region, and are thus made to set down as veritable, stories which have been made on purpose to befool them.

It is impossible, in the nature of things, that Mr. Lincoln should have come to any conclusion, whatever, about his Cabinet; and it is in every way improbable that he would communicate to outsiders his conclusions, even if he had formed them. Those who are familiar with him speak of him as being remarkable for his reticence; and they will not only be very few who will know what his mind is, when it is made up, but they will be men who know how to keep their own counsel. In all probability the construction of the Cabinet will not be completed until after Mr. Lincoln arrives at Washington.

All the lists put afloat now, therefore, are pure fabrications. There is no warrant for them whatever. It looks enterprising for the big papers at the east to be getting up such things; but for all practical purposes their correspondents might as well be in New York as in Springfield, for all they are likely to find out at the latter place.

UNIONTOWN, Pa., Nov. 13.

Eds. Gazette: The following is the official vote of Fayette county:

Lincoln	3454
Fusion	3308
Douglas	24
Bell	147

Lincoln maj. over fusion, 146. J. P. R.

CABINET MEETING.—On the arrival of the news of the resignation of Senators Toombs and Chesnut, great consternation fell upon the Administration, and a special meeting of the Cabinet was immediately convened, which remained in session until a late hour last night. Gen. Cass is reported to have stated that he did not think the Government would last beyond the 4th of March, 1861. Intelligence reached here about the same time, that Jefferson Davis, of Mississippi, had written to the effect that he would cease to be a member of the United States Senate at the close of the present term. *Will other Southern Senators resign?* The example of Senators Toombs and Chesnut resigning their seats in the Senate, will probably be followed by Mr. Iverson, of Georgia, Brown of Mississippi, Slidell, of Louisiana, Johnson, of Arkansas, Clay, of Alabama, and Nicholson, of Tennessee. This will give the President elect, upon his inauguration, a clean majority in the Senate to confirm all his appointments, and Douglas will probably be reinstated into the chairmanship of the Committee on Territories.

THE UNION MEN OF THE SOUTH.

The Union men of the South are delighted at the prospect of the resignation of the Disunionist Senators, inasmuch as they will now proceed to organize a great Union party, and sweep the South—filling the vacated seats with firm friends of the Constitution and the laws. I hear John Forsyth of Alabama, James Gardner of Georgia, Col. Perry of South Carolina, Col. Wm. H. Polk of Tennessee, Miles Taylor of Louisiana—all Douglas Democrats—named in connection with the probable election of Union Senators, in the place of those who have resigned or may resign.

SECESSION AT A PREMIUM.

The threatened secession of the Southern fire-eaters from the Senate of the United States is but following the example set by Mr. Yancey and his friends at Charleston and at Baltimore. I am happy to inform you, however, that the greatest seceder of them all (Senator Bayard, of Delaware) will not resign his seat; and it is also given out that the Vice President will cling to his six years, after the 4th of March, with determined tenacity. You will remember that he said, in his great Lexington speech, that he was looking with anxiety and pleasure to the time when he would represent the State of Kentucky in the Senate of the United States.—*Wash. Cor. of the Phil. Press.*

GLORIOUS RICHISTOWN.—The Capital of the United States ought to be moved to Richistown. It's the most glorious place this side of the Elysian fields in our opinion. Just think of a clear 164 vote for Old Abe down there—fifty-two votes more than Douglas got—eighty-three more than Bell got—one hundred and twenty-three more than Breckinridge, and fifty-six more than Fremont got in the county. Talk about your Pennsylvania or Michigan majorities in the face of Richistown's vote. They dont compare. Richistown is the hub of the Universe. If ever we leave the United States, we will go to Richistown. Nine thousand cheers for Richistown.

The Bully Fifth Ward is only next to Richistown in national importance at this time. She gave one hundred and fifty votes for Lincoln, within eighteen of the vote for Bell, fourteen more than Douglas, and one hundred more than Breckinridge. If it hadn't been for the rise in the river or something else, Old Abe would have been ahead of everybody. The Fourth ward did excellent—did wonders—couldn't have done better—but still we must write down the Fifth as the bully ward of the city. The boys call her the "Bully Fifth," and that's very expressive, if not very dictionary. Who says that Wheeling ain't a free city, with such wards as the Fourth and Fifth?—*Wheeling Int.*

THE PRESIDENTIAL ELECTION.

Missouri.

We have returns from sixty-four counties, which foot up as follows:

Lincoln	15,110
Douglas	40,295
Bell	39,904
Breckinridge	18,672

There are fifty counties still to be heard from, which will probably give Douglas a majority. Breckinridge will receive a large vote in the counties to be heard from.—*St. Louis Dem., Monday.*

It is announced that the vote of Missouri is for Bell. The latest returns foot up as follow: Bell, 89,953; Douglas, 89,766; Breckinridge, 17,656; Lincoln, 14,527.

Tennessee is reported sure for Bell, by a plurality of 2000.

Virginia is doubtful, with the chance of Breckinridge's carrying it improving.

Texas, judging by partial returns, has voted for Breckinridge.

Georgia is somewhat doubtful, and if Breckinridge has carried it over Bell, it is by a very small plurality.

NEW YORK.—The *Tribune* makes Lincoln's majority, as far as heard from, 51,766, and thinks the full majority will not vary much from fifty thousand.

NEW JERSEY.—Until the official vote is received from all the counties, it cannot be known to a certainty who of the Electors are elected, and who defeated; but the returns already received here strongly indicate that Mr. Brewer, at least, is defeated, and it may be that the other three Fusionists will also be counted out. In the Northern and Southern counties of the State the Douglas ticket was voted to a large extent, and if the reported Democratic majorities from those counties included the Douglas vote, when the four Electors on them, but not on the Fusion ticket, come to be taken off, it may have the effect of electing four of the Republican Electors. We hope for the honor of the State that such may prove the case, though it would make Mr. Lincoln's election no more certain than it now is.—*Trenton Gaz.*

Official Vote of the Panhandle.

	Bell.	Breck.	Lin.	Doug.	Total.

Marshal	901	871	105	108	2164
	2305	2408	1306	981	7273

This vote shows that Breckinridge has a majority over Bell of 103; that Bell has a majority over Lincoln of 999; and Lincoln a majority of 412 over Douglas.

It is the largest aggregate vote ever polled in the Panhandle—some 850 more than in 1856 and about 2,429 more than in 1859. The combined opposition have a majority of 809 over the combined Democracy. In the same counties, in a poll of 4,844, Goggin had 172 of a majority over Letcher, and Buchanan, in a poll of 6,230 votes, had a majority of 488 votes over Fillmore; so that there is a considerable gain in the increased vote for the opposition.—*Wheeling Intelligencer.*

Majority for Lincoln 4,537.

LINCOLN VOTE IN KENTUCKY.—In some of the River Counties of Kentucky, Lincoln gave Breckinridge a good run, under the circumstances. The official vote of Campbell county, stands Bell 854, Douglas 960, Breckinridge 520, Lincoln 310. Of Kenton county, Bell, 1,887, Douglas 1,812, Breckinridge 650, Lincoln 267. The city of Newport, Ky., gave Lincoln 268 votes.

WHAT THEY HAVE DONE IN TEXAS.—Now, that the Presidential election is over, we shall probably cease to hear of the alleged slave plots and abolition incendiarism with which certain portions of the south have been rife. The purpose evidently was to produce an effect upon the northern mind sufficient to ensure the defeat of Lincoln. In seeking this, great injury has been inflicted upon the south itself, as will be seen by the subjoined extract from a letter written by a gentleman, long resident in Texas, to the Buffalo *Commercial Advertiser*, giving a deplorable account of affairs there. After alluding to the business embarrassments they suffer, he says:

"Wheat is $2 per bushel, and corn brings $1 60; no immigrants arriving to bring money into the country, and on the other hand, a general stampede northward of Illinois settlers, frightened at the ridiculous abolition excitement. We are daily losing hundreds of strong arms and sound men, who take with them capital of which our country stands in need. It will take years for Texas to recover from the shock of the recent excitement which has its parallel only in the annals of Salem witchcraft. I have not from the beginning, believed in any scheme of servile insurrection here, though a few fanatics who figured in the Kansas troubles were busy here engendering discontent, and that incendiary acts have followed their effort is more than likely; but the burning of Dallas and Henderson have been proven to be accidental. Bad as this was, the recent election was involved in it, producing great and wicked exaggerations, for which the material prosperity of the country pays an enormous price."—*Phil. N. Amer.*

NOT SO GREAT A SACRIFICE, AFTER ALL.—That the Federal officers of South Carolina, who have resigned their places, are still not wholly destitute of some prudential considerations, may be inferred from the fact that, on the very day of their forwarding to Mr. Buchanan the documents dismissing Uncle Samuel from his capacity of being their employer, some friends of theirs introduced into the State Legislature a bill providing that the patriotic gentlemen in question should continue to receive out of the State Treasury the same salary which was allowed them by the National Government.

This strikes us as being a very good bargain for the resigned officers. They are now individuals of leisure, with nothing to do save receiving the thanks of a gallant people for their "chivalrous self-sacrifice;" while at the same time they will continue to draw just as many dimes and just as many dollars as Uncle Samuel formerly paid them for the discharge of arduous and responsible duties! On these terms there are very few of us who would not resign the occupations by which we now earn our daily bread. There is a good deal of method in the madness of these people, after all. But what does *the State* gain by the change.—*New York Times.*

The tenor of our advices indicates the existence in South Carolina and two or three other states of intensity of feeling, which threaten great inconvenience to the business interests of those States. The action of the South Carolina legislature, and the excitement of which that is the lever, is already alarming the holders of the bills of South Carolina banks. They are thrown upon the banks in such quantities, that the most urgent measure pressed on legislative attention, after the act calling a State convention, is one for the suspension of specie payments. Thus promptly does that spirited state get a foretaste of the embarrassments which will overtake her business if she perseveres in the ill-advised course on which she has entered. Her finances deranged, her credit crippled, her people staggering under taxation, and perhaps her negroes uneasy and on the point of insurrection, are evils that follow so naturally in the train of attempted secession, that a severe discipline may lead our infatuated brethren to retrace their steps before they shall have provoked a collision with the federal authorities.—*N. Y. World.*

AN IRREGULAR FEMALE.—The telegraph announces that South Carolina threatens to quit the Union bed and board. This means that South Carolina is taking her usual air and exercise. Poor old lady! She was never happy in the family. Somehow she always enjoyed miserable condition, as if her "vittles" did not agree with her. Nature evidently designed her to be unhappy in a state of single blessedness. She had a very bad spell in General Jackson's time. That was about the Tariff. She got over that when her time came round, and now she don't know of any other way of collecting revenue. She will come out of this tantrum if a little time is given her. It is not at all necessary to call in the neighbors. She has plenty of friends at home to bring her round. If the attack should be protracted, so as to require outside assistance, it will be sufficient to send a revenue cutter off the port of Charleston to collect duties on her imports, and see that she does not fool her money away for foreign goods and gimcracks.—*Cin. Press.*

HARRY LORREQUER IN DANGER.—Mr. Charles Lever and his daughter were upset in a heavy squall, on the 11th instant, in the Gulf of Spezzia. A heavy sea was running at the time, and the boat, filling, went down immediately. Being good swimmers, they succeeded in reaching some water barrels that had floated from the boat as she settled down, and, supported by these, they held on till they were picked up. The distance from the shore—about two miles—made swimming somewhat hazardous, particularly as the sea was so rough. Miss Lever's danger was increased by her successful efforts to save a favorite dog, which would have inevitably been drowned if [illegible]

MICHIGAN ALL ONE SIDE.—The Detroit *Advertiser* of Saturday gives the reported majorities in thirty-four counties of Michigan, which really look as if Honest Old Abe walked over the course all alone. But one county of the thirty-four gives Douglas a majority, and that is but thirty, in Chippewa. The Lincoln majorities foot up 22,068.

The victory in Michigan is complete and overwhelming, both State and National. The Republicans have elected every State Officer from Governor down, the four members of Congress, every State Senator but two, every Representative but eight, and nearly every County officer. The Legislature will stand, Republicans 30, Democrats 2; House, Republicans 72, Democrats 8. The *Advertiser* says "the Democracy won't have members enough in either House to demand the Yeas and Nays!"

FROM LAKE SUPERIOR.—The steamer Iron City, J. E. Turner master, from Lake Superior, arrived at 2 P. M. Sunday. She left Ontonagon Tuesday, November 6th, at 9 o'clock A. M. Eagle River at 2 o'clock A. M. Wednesday. The Iron City brought down 150 tons copper from the National mine, in which was one mass weighing six tons, and several weighing over four tons; five tons from the Adventure mine, 120 tons from the Cliff, and eight tons from the North American mine; 500 half barrels fish, and a quantity of miscellaneous freight. The weather on Lake Superior was rather stormy, the prevailing winds being West and Easterly with considerable snow, making it difficult to make the landing on Keweenaw Point.—*Detroit Adv.*

THE FIRST CONGRESSIONAL DISTRICT—MR. LEHMAN'S SEAT TO BE CONTESTED.—Charles Gilpin, Esq., counsel for Mr. John M. Butler, on Saturday evening notified Mr. Wm. E. Lehman of his intention to contest his seat as representative from the First Congressional District. Mr. Butler holds the certificate of election given him by the return Judges of the city; but Mr. Lehman is backed by the broad seal of the State. It is understood that Mr. Butler is willing to submit the ballot boxes to a recount, and to stand or fall by the result.—*Phila. Bull.*

SOME of the Fusion journals, which have been trying for three months to convince the South, that as soon as Lincoln is inaugurated he will cross Mason and Dixon's line with fire and sword and liberate all the slaves, are now beseeching him to come out with an address and assure the South that they have been lying. It doesn't appear, however, that he thinks it necessary to do anything so superfluous.—*N. Y. Tribune.*

HARK FROM THE TOOMBS.—The family of Senator Toombs, of Georgia, have returned to Washington for the winter, and resumed their residence on Fifteenth street, only two doors, by the way, from Gov. Seward. This doesn't look as if the belligerent Senator had much faith in his own fulminations against the Union.

THE funniest piece of fun yet is the resignation of the Federal office holders in South Carolina, "*to take effect on the 4th of March next.*"

Several, even in Maryland, are ready we hope for that much "Disunion."—*Balt. Patriot.*

Eruptions! Salt Rheum! Erysipelas!

It is now generally admitted that all eruptive diseases depend upon some internal or constitutional cause, and that to use washes or ointments for them is a sure way to injure the system, and only to drive in, not to cure the disease. But HUMPHREYS' SPECIFIC HOMEOPATHIC SALT RHEUM PILLS are a true specific for all such diseases. They cure Salt Rheum, Barber's Itch, Erysipelas, Pimples on the Face, Ringworm, and Nettle Rash, by curing the cause upon which they depend, and by restoring the skin to the state of health and purity. Thus, not only is the disease cured, but the softness and beauty of the complexion restored.

Price, 25 cents per box, with directions. Six boxes, $1.

N. B.—A full set of HUMPHREYS' HOMOEOPATHIC SPECIFICS, with Book of Directions, and twenty different Remedies, in large vials, morocco case, $5; ditto, in plain case, $4; case of fifteen boxes, and Book, $2. Single boxes, 25 cents and 50 cents.

These Remedies, by the single box or case, are sent by mail or express, free of charge, to any address, on receipt of the price. Address Dr. F. HUMPHREYS & CO., No. 562 Broadway, New York.

PROF. WOOD'S Restorative Cordial AND BLOOD RENOVATOR

IS PRECISELY WHAT ITS NAME INDICATES—for while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted to as to act *in perfect accordance with the laws of Nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: consumption, bronchitis, indigestion, dyspepsia, loss of appetite, faintness, nervous irritability, neuralgia, palpitation of the heart, melancholy, hypocondria, night sweats, languor, giddiness, and all that class of cases so fearfully fatal if unattended to in time, called female weaknesses or irregularities. Also, liver derangements or torpidity, and liver complaints, diseases of the kidneys, scalding or incontinence of the urine, or any general derangement of the urinary organs, pain in the back, side and between the shoulders, predisposition to slight colds, hacking and continued cough, emaciation, difficulty of breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following chills and fevers, but prevent all attacks arising from miasmatic influences, and cure the diseases at once, if already attacked. And as it acts directly and persistently upon the biliary system, arousing the liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; hence, all travelers should have a bottle with them, and all should take a table spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers, literary men. And all ladies not accustomed to much out door exercise should always use it. If they will, they will find an agreeable, pleasant and efficient remedy against those ills which rob them of their beauty—for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect mother's relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. There is no mistake about it, this Cordial is all we claim for it. Mothers, try it! And to you we appeal to detect the illness or decline not only of your daughters before it be too late, but also your sons and husbands, for while the former, from false delicacy, often go down to premature graves rather than let their condition be known in time, the latter are often so mixed up with the excitement of business, that if it were not for you, they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal, for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should be always on hand in time of need.

O. J. WOOD, Proprietor, 444 Broadway, New York; 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price One Dollar per bottle.

RICHARDSON'S IRISH LINENS, DAMASKS, DIAPERS, &C. CONSUMERS OF RICHARDSON'S LINENS, and those desirous of obtaining the GENUINE GOODS, should see that the articles they purchase are sealed with the full name of the firm, J. N. RICHARDSON, SONS & OWDEN, as a guarantee of the soundness and durability of the Goods. This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable, while purchasers can be imposed on with Goods of a worthless character. J. BULLOCK & J. R. LOCKE, au3:lyd Agents, 36 Church Street, New York.

VALUABLE IMPROVEMENT In Steam and Atmospheric Hammers.

LETTERS PATENT were granted on Sept. 4th, 1860, to Thomas Beach, for a very simple and efficient improvement in Steam and Atmospheric Hammers, whereby the full stroke of the hammer is obtained, no matter what be the thickness of the mass of iron to be hammered—thereby effecting a great increase of power where large pieces of metal are to be operated upon, and a corresponding saving of expense. The subscribers are owners of said patent, and are desirous of selling rights to use said improvement, as well as territory under said patent. A model of said improvement is left at the office of Messrs. Bakewell & Cushing, Attorneys at Law, corner of Grant and Diamond streets, where parties interested may call and see it, and learn also the terms of license, &c. P. R.
