The Republicans and the Inaugural.

We presume nobody is astonished to hear that the Secessionists regard the Inaugural as a "declaration of war." It would have been very strange, indeed, if they had not done so. In fact, it was part of their programme that it should be so regarded, no matter what it might contain. It has been relied on by the Precipitators as a potent weapon for the accomplishment of their plans. The election of Lincoln did something toward plunging the South into rebellion—but it did not accomplish all. The border States refused to catch the contagion. They thought the future welfare of fifteen millions of people worth some little reflection, and refused to plunge them into the horrors of civil war, on the instant demand of the desperate adventurers who have planned this conspiracy. Their action gave pause to the secession movement, and threatens to ruin it altogether, by substituting the deliberate and calm action of the people for the hot-headed recklessness of demagogues and traitors.

The Secessionists in the border States, therefore, led by the Richmond "Enquirer," are determined to plunge the country into war, in order thus to coerce the hesitating sentiment of their own States into revolution. And the Inaugural of President Lincoln was to be the grand lever for the accomplishment of this object. The plot was carefully arranged in advance. Secessionists in Washington gave the cue to Secessionists in the South, who forthwith kindled the alarm. Wigfall telegraphed at 2½ o'clock to Montgomery, Alabama, that the Inaugural was 'war,' 'war,' 'war;' whereupon Hunter, Montgomery is telegraphed to the New York "Tribune" the startling information that the Inaugural is regarded by the South as a warlike document. So the play goes on. Before the Inaugural has been read in a single Southern State, it is denounced, through the telegraph from every Southern point, as a declaration of war.

All this is a simple matter of course. It is the working of a premeditated and prearranged machinery. It may deceive and mislead those whom it has intended to deceive; it may attain its object, and plunge them into rash and reckless acts that will involve them in ruin and the country in serious embarrassments. It will not be the first time that conspirators have succeeded in doing mischief. But the trick is not likely to deceive anybody else, nor ought it operate to excite any undue alarm. *N. Y. Times.*

General Scott.

There have been several incidents of the late agitation respecting the peace at Washington which will make the people forever honor and admire Gen. Scott. Whatever the degree of danger on the day of inauguration, it is not to be doubted that, while treason was rampant in the Cabinet, it was really intended to make a desperate effort for possession of the seat of the nation's power. It was at least quite as likely that this seizure should be attempted, as that any one of a dozen of the extraordinary and insane acts of the secessionists should have been committed. Through all that time of trial and of danger, Gen. Scott was the boldest and most decisive man in responsible place. His energy unquestionably saved very much that would otherwise have been lost, and he pursued his purpose with singular determination and success, down to the moment when he could say, "Thank God, we have a government!" Nothing more touching can be conceived than his bearing on the critical day which was to decide whether our institutions were to be obeyed, and our honor preserved, when the executive authority changed hands, or whether disgrace, disorder, and possible anarchy, were then to be installed.

The country will hereafter exalt Gen. Scott to its very highest place of honorable regard. He is a patriot even more than a soldier, though the first soldier of his country, if not of his age. He has crowned a long life of public service with acts which can never grow dim in the eyes of his fellow-citizens. If a competent Executive and a patriotic Cabinet had been in power, there would have been no special honor in what then would have been assigned him to do; but with incompetence in the Chief Executive chair, and treason to advise and mislead it, he was in a position of extreme difficulty, as regards even liberty of action. The malignant epithets constantly applied to him for weeks, by the secession press of the South, testify to the energy with which he resisted the disorganizing and traitorous influences by which he was surrounded, and which were then in what they deemed was the full tide of triumph.

It is almost incumbent on the people to proceed at once to bestow some signal mark of their regard on this honored head of the army, and this firm among living patriots. In the purpose of gratifying our wish to recognize those services without delay, and to stimulate others to the expression of what all right-minded men must feel, we have written what is here said.—*Phila. N. American.*

ANOTHER CURE BY DR. SCHENCK.—I called on Dr. Schenck some time ago in one of his visits to Pittsburgh, at the office of Dr. Keyser, No. 140 Wood st. He was examining patients with lung disease. One of my lungs and the bronchial tubes were found to be badly diseased. Oftentimes while I coughed I expectorated blood and matter in large quantities. I had night sweats and a great cough, and was greatly debilitated. Dr. Schenck prescribed for me his "PULMONIC SYRUP," "SEAWEED TONIC" and "MERCURIAL PILLS," and after taking them one month I have so far recovered that I do not spit any more blood or matter, and the cough has nearly left me. I live in Coal Hollow, county, Unity township, Ohio, where I am well known. You may publish this if you wish.

Pittsburgh, August 27, 1860. MARTIN KOCH.

N. B. Since the above was written, Mr. Koch has entirely recovered, and continues well, having regained his usual health.

I, WILLIAM W. ALEXANDER, residing on Ann street, Allegheny city, do hereby certify that I have been a sufferer from severe cough and pain in the breast for about eight years. During the whole of this time I have had general debility and depression of spirits. I tried every nostrum I could hear of, but nothing took hold of my disease. I heard of Doctor Schenck's "PULMONIC SYRUP," but knowing no one personally that it had cured, I had no confidence in it. In April, 1858, I took a severe cold, accompanied with a violent cough, difficulty of respiration, and night sweats, which so prostrated me that I was confined to my room for two months.

Several of my friends who called to see me, spoke in very high praise of the good what it had done. My prostrated condition discouraged me exceedingly, and I made up my mind to waste no more money for doctors or medicine, but would take the chances, live or die, as I had been so long sick that I felt completely discouraged. However, after reading several advertisements in the "Pittsburgh Dispatch" I felt induced to give Dr. Schenck's medicine a fair trial, and now, nearly two years afterwards, I am in good health, by taking less than two dollars' worth of Dr. Schenck's medicines. I can honestly state that it has made a perfect cure of me. I am a well man, and I attribute my good health and vigor of constitution entirely to Dr. Schenck's medicine. I enjoy better health to-day, Feb. 4th, 1861, than I have done for twenty years past. If persons knew the value of Dr. Schenck's inestimable medicines, they would not be slow to call on him in his visits to this place. I feel like advising every person to call on him, as I have the utmost confidence in his medicines. Any person wishing to know the facts as here stated can call on me at my place of business, at 97 St. Peter's, Machinist, in this city, or at my residence, Ann street, Allegheny city.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the blood, it pervades the whole body, and there may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must rejuvenate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitality. As a consequence of these properties, the system is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their power, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Loss of Appetite, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of this kind is then apparent to every observation, and where its virtues are known the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted that can never forget, and produced cures too numerous and too remarkable to be forgotten.
