FINANCE AND TRADE.

THURSDAY, March 1, 1866.

Gold varies but slightly from day to day, the movement being light in the eastern markets. The Government has sold the last two weeks fifteen millions or over, which has sufficed to keep the rates below 138, though, depressing it less than it was anticipated when sales began. Rates current here to-day 135@135¼—in New York 136¼@136¾.

There is much less doing in Government, though rates are more firm than they were a few days since. Late advices from Europe report a slight improvement in United States Securities, and a steady market. Taking into consideration the decline in gold on this side, and current rates for foreign exchange, the advance is greater than appears by quotations. Gold-bearing bonds have ruled low during the week, and, by those who have any confidence in the present quotations being maintained, are considered the cheapest securities in the market. The rise of one-half per cent in New York to-day, we attributed to the pretty certain defeat of certain sections in the loan bills—the ones authorizing a foreign loan, and permitting the Secretary to sell bonds below par.

Seven Thirty notes are selling in this market at 99¾@99¾—New York rates 99@99¼. The home market is without material change. Bank shares continue to monopolize more attention than any others. A few days since buyers were the most numerous, and rates were stiff. Now, the market is more evenly divided between buyers and sellers, and a concession has to be made on most kinds offering.

The cheaper class of Railway shares are very inactive. We have not been able to report a sale of Allegheny Valley, or Steubenville for some weeks. The current bids for the former range from $6 to $8 per share, for the latter from $5 to $6. Connellsville dull at $40@41, Insurance shares begin to come on the market, but there are no buyers since the late disastrous fires. Oil shares are really without quotations, save Columbia and Bulzell, for the first named, the market stands at about 23 bid, 24@24½ asked. Bulzell, 1½ bid, 1¾ asked.

—The financial condition of the government is represented to be very satisfactory. It is the opinion of the controller of the currency that the government will hold, at the close of the close of the present fiscal year, a surplus over all expenditures of at least $200,000,000. The surplus on hand at this time, estimating the currency value of the gold on hand, with other funds on deposit in national banks and in the hands of the treasurer and assistant treasurers, must be at least $150,000,000. With this surplus, and that which will accumulate by the 15th of June next, the Secretary can pay off that portion of the temporary loan not deposited by banks under special arrangements for clearing-house purposes—say $50,000,000. He can also pay off all the certificates of indebtedness, which are reported on the 1st of February at $60,637,000, all of the one and two year five per cent legal-tender notes, amounting to $9,536,000, and can also redeem about $36,000,000 of the compound interest notes, which will leave about $100,000,000 of the compound interest notes that can be converted into Five Twenty bonds, and all of the Seven Thirty notes as they mature under the act of the 3d of March last. This disposition of all the public debt, with the exception of the legal tender notes and the fractional currency.

—A Washington dispatch says: The delegation of bank officers from this city have effected a compromise in regard to taxing their deposits.

"All checks on city banks deposited by dealers for collection, or with the understanding that the money is not to be drawn out from the banks till next day, if entered for convenience, at the end of each day are to be transferred to an account as 'uncollected checks, and not to be subjected to duty until they are paid."

Under this decision the banks will be released from the onerous tax upon the accounts of leading houses, and the Treasury secures a larger tax than banks have heretofore deemed legal.

—The Cincinnati *Gazette*, in speaking of the proposed consolidation of the Western Union and United States Telegraph Companies, says:

There was much indignation to-day among the stockholders of the United States Telegraph Company, in consequence of the proposition to consolidate with the Western Union Company, without consulting those who are generally presumed to have some rights in the premises. It was generally concluded that the New York managers, notwithstanding their high professions, are no better than tricksters, and they will sell out the interests of stockholders if by so doing they can put money in their own pockets. There are too many stockholders in the town, however, to suffer the proposed fraud to be consummated quietly. The amount of stock held in this city is $250,000, and the whole of this was subscribed for the purpose of securing competition which has been found essential in the important business of telegraphing.

—The New York *Tribune*, of Feb. 28, says:

"It is stated that the delay in the loan bill will result in the passage of an act satisfactory to the Secretary of the Treasury, with the exception, perhaps, of the foreign loan clause. Mr. McCulloch stands unflinchingly by his Fort Wayne speech, and thinks specie payment should be resumed at the earliest practicable moment, and if proper authority is given, will administer his department with "Resumption" as his motto. The Secretary is beset on all sides with speculators, manufacturers and traders who have overloaded themselves with contracts and commodities upon an inflated currency, who assert they will be ruined if their contracts are met and their good sold upon the basis of gold. This may be, and probably is true, but it is equally certain that all these speculators, manufacturers and traders made most of their present wealth at the cost of consumers and taxpayers, during the Rebellion, and what they may lose will be restored to those from whom it was taken. The sooner a sound basis is reached, the better it will be for the labor of the country, and for legitimate business in all departments, and in their interest Congress cannot act too soon. Paper fortunes, and speculators upon paper money and borrowed capital, under resumption will fare hard; but this they cannot escape in any event, and delay will only add to the disaster resumption is expected to produce."

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, March 1, 1866.

CRUDE—There was not a single transaction in Crude to-day that we could hear of, and the market is dull and weak and unsettled, buyers and sellers being apart in their views, both in regard to the present and future prospects of the trade. The whole thing hinges on the fact that the margin between Crude and Refined is too great, and the former will have to decline or the latter advance, before much life can be infused into the market. To-day we hear of 17 cents having been offered for Crude without finding sellers, and it was also reported that there were parties willing to sell at 17, without being able to find buyers. We may look for some arrivals of oil to-day, and the receipts during the next eight or ten days will doubtless be large.

REFINED—There was again a brisk demand for bonded oil to-day, principally for future delivery, but refiners are obstinate, and as a general thing, refuse to entertain the offers now being made. We can report a sale of one thousand barrels, for May delivery, in Philadelphia, at 47, and this was the only sale reported. For immediate delivery on the spot here, the inquiry is very light, and we give 36@37 cents, as the nominal quotations. Free Oil is dull and nominal at 56@56.

NAPTHA AND RESIDUUM—There is no improvement to note in the demand for either one of these articles, and in the absence of sales we omit quotations.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, March 1, 1866.

The produce markets are without life or animation, and there is next to nothing doing aside from the regular jobbing trade. The weather has been very pleasant, and all that could be possibly desired for out door operations for several days past, but, unfortunately, there is an entire want of confidence, and our people, to use a common phrase, are doing a "hand to mouth" business.

GRAIN—Wheat is dull and nominally unchanged. Oats dull with a simply considerably in excess of the demand—sale of 300 bu from store at 43. Rye is in demand at 75. Sale of 1000 bush spring Barley, to arrive, at 75. Corn is dull—quoted nominally at 60@65, for shelled and Ear, on track.

FLOUR—Is quiet but steady with a fair local demand, and we continue to quote good brands at $9@9½, for Spring; $9½@10, for half Winter and half Spring; and $10@$10½, for all Winter Wheat. Sale of 100 bbls "Magnolia," on private terms; and 100 bbls low grade Winter Wheat at $8½. Rye and Buckwheat unchanged.

PROVISIONS—Bacon is dull but unchanged—sales of 3000 lbs Shoulders at 14¾; 2000 lbs Ribbed Sides at 17¾; and 3000 lbs Sugar Cured Hams at 23¾. Lard firm at 16¼@19 for kettle rendered—sale of 10 tubs at 18¾. Mess Pork—sale of 20 bbls at $29 per bbl. Nothing doing in Bulk Meats.

SEEDS—Clover seed is in good supply and very dull—small sales from store at $7. Timothy is selling in a small way at $3¾@4. Flax seed is in demand at $2¾.

POTATOES—Sale of 5 cars Peach Blows at $1.00@1.15 per bush; also, sales from store at $1.15 to $1.20 per bush, and $3½@3¾ per bbl.

BUTTER—Is in good supply and dull, but unchanged—small sales of prime Roll at 26@27.

BEANS—Demand fair—regular sales from store at $2@2¼ per bush—Marrow Fats held at $3.

CHEESE—Sales of common Ohio at 20@21, and prime Goshen at 24@25.

CRANBERRIES—Dull but unchanged—sales of Common at $14@16, and Cultivated at $20@22 per bbl.

EGGS—Sales at 30@32 per doz.

HAY—Is selling from city scales at $16 to $20 per ton—the outside figure only for prime Timothy.

OIL—Sales of 25 barrels No. 1 Lard oil at $1.85.

SALT—Continues dull and neglected, with a supply considerably in excess of the demand, last prices are nominally unchanged.

CENTRAL LIVE-STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, March 1, 1866.

CATTLE—The arrivals of cattle continue light, although the supply seems to be ample up to the demand, the attendance of buyers being rather slim, and they are not buying very freely. The more favorable advices from New York imparted a little more tone to the market, and while holders generally were asking an advance, as compared with last week, buyers appear very timid, their experience during the past two months, warning them not to operate rashly, as an over supply is almost certain to depress the trade in the East next week. The transactions this week, so far, have been remarkably meagre, and as will be seen by reference to the sales, 60 gross, is the highest price reported. It should be borne in mind, however, that no prime or extra cattle changed hands, and we have no doubt good fat steers, averaging from 1200 to 1400 lbs, would have brought 6¼@6¾, gross, and we are cognizant of 6 cents having been offered and refused for a drove of extra Ohio cattle—it is said that 7 cents was offered for the same, delivered in Philadelphia, and refused. Common and inferior are in good supply, and dull as usual.

HOGS—The transactions in Hogs during the week which has just closed were remarkably light, and with a very limited demand, the market is dull and depressed, and prices are a shade lower, as compared with last week. We now quote fair to good averages at 9¼@9½, gross, with one or two bunches of extra at 9¾. Last week, shippers paid from 10 to 10¼, while this week, there is not much disposition to buy even at a decline.

SHEEP—The arrivals of sheep have been comparatively light this week, and with a fair shipping demand, the market is firmer and prices a shade higher, ranging from 5½ to 6½, gross, the outside quotation only for prime Cotswold Sheep. The firmness which characterized the market this week is owing entirely to the falling off in the arrivals and not to any increased demand.

New York Iron Market.

NEW YORK, Feb. 28.—There is little doing in Scotch pig, and we only notice small sales Glengarnock at $60, cash, delivery; and 100 tons to arrive, $54 gold. Of American, we notice one tons No. 1 at $46@50, at Elizabethport, 150 tons old rails sold at $66; and 250 do cast and wrought scrap, part about $40@42, and part $41 cash. A lot of 60 tons Belgian Refined bar sold from first hands on private terms. From store, prices are a little easier, and we reduce our quotations of bar, scroll and band, $5 per ton, though the decline can hardly be called general—other kinds are held firmly at our quotations, and there is a fair demand.

Cincinnati Seed Market.

CINCINNATI, Feb. 28.—The arrivals of clover are large, and with only a moderate demand, the market rules dull. Small sales are being made from store, and orders filled at $6.40@6.50 for prime samples, but there were some receipts at $6.25, and it is doubtful if sales could be effected to any extent at this price. Timothy is quiet at $3.50@3.60. The receipts of flax are light, with a good demand at $2.60.

MARKETS BY TELEGRAPH.

Finance and Trade in New York.

STOCKS.

NEW YORK, March 1.—Railway speculation this morning was firmer on New York Central and Erie, and steady on the balance of the list. There was a fair demand for stocks generally, but the market was devoid of any special feature. The market at the second and last boards was firmer on Erie and steady on other shares. At the close, Erie and old Southern were better.

The following were the closing prices at 4:30 P. M.: New York Central, 91½; Erie, 86¾; Hudson River, 103¾; Reading, 99¾; Michigan Southern, 79¼; Michigan Central, 102½; Illinois Central, 115¾; Pittsburgh, 77¾; Northwestern, 57¾; Northwestern, preferred, 84¼; Toledo, 108¼; Rock Island, 105¾; Fort Wayne, 92¾; Ohio and Mississippi Certificate, 25¾.

MONEY MARKET.

The supply of money continues to increase and the market is easy at unchanged rates. Sixes and sevens remain steady and rather better. In some instances, the miscellaneous list was generally firm with but few changes. The Government announces to-day to disburse the semi-annual interest on 10-40 bonds. Gold has been weak during the day, and fell to 135¾, at the last board.

DRY GOODS.

The following are the quotations from the Dry Goods Exchange:

The Dry Goods market was very unsettled. Foreign goods are largely in excess of the demand, and, importers say they are ready to sell without much sale. Buyers hold off, and buy a few things for immediate use only. Southern merchants have more goods than they can sell, and at many interior points dry goods can be purchased cheaper than in this city. Brown Sheetings—Pacific, A, 27¼; Pepperell, 40 inches, 40; 7-8 inch do, 36; Blanchard Shirtings—Masonville, 40; Lonsdale, 38; Bartlett, 36 inch, 35. STOCKS—Government stocks firm. Freights to Liverpool dull. Stocks firm. United States Sixes Five-Twenty coupons of '62, 103¾; United States Five-Twenty coupons of '64, 105¾; United States Five-Ten-Forty coupons, 99¾; Eleven-Thirties 1st Series, 99¾; Treasury Seven-Thirties 3d Series, 99¾; Treasury Sixes, 95; New York State United States Bounty Loan, 103¾; Missouri Sixes, 78; Ohio and Mississippi Certificates, 25¾; Cumberland, preferred, 45¾; Quicksilver, 69¾; Atlantic and Great Western, 42; Western Union Telegraph, 60; Pacific Mail, 237; Pacific Mail scrip, 165; New York Central, 91¾; Erie, 86; Hudson River, 103¾; Reading, 105¾; Michigan Southern and Northern Indiana, 79¾; Illinois Central, 116; Pittsburgh, 77¾; Northwestern, 57¾; Northwestern, preferred, 84¼; Toledo, 108¼; Quincy, 113¾; Fort Wayne, 92¾; Ferre Haute, 33; Terre Haute, preferred, 60¾.

New York Market.

NEW YORK, March 1.—COTTON—Firm, but not very active, 50c for Middling.

FLOUR—Less active, and 10@15c better, and the demand chiefly for home trade, but there is a fair inquiry for the British Provinces. $7.25@7.35 for Extra State; $7.35@7.45 for Extra Ohio, and $8.00@10.75 for Trade Brands; market closing firm.

WHEAT—Firm at $2.25@2.35 for Red Western, and $2.40@2.50 for Amber.

CORN—Wheat better and in fair demand, at $1.05 for Milwaukee bids, $1.12 for No 1 Milwaukee, and closing Very Choice, do. Corn less active and drooping, at 79@80c for unsound Mixed Western, in store and delivered; 80@82c afloat, do, in store, 80@82c; badly damaged, do, 75@77c; quiet at 80@85c for unsound Western, and 90@95c for sound.

OATS—Wheat better and in fair demand, at $1.05 for Milwaukee bids, $1.12, No 1 Milwaukee, and closing Very Choice, do. Corn less active and drooping, at 79@80c for unsound Mixed Western, in store and delivered; 80@82c afloat, do, in store, 80@82c; badly damaged, do, 75@77c; quiet at 80@85c for unsound Western, and 90@95c for sound.

Cut Meats active at 11@12c for Shoulders, and 14@15c for Hams. Bacon quiet at 15¾@16c for Long Clears and 17c for Short Ribbed. Dressed Hogs—City, 9¾@10c for Western, and 11@12c for Ohio. Lard heavy at 16@16½c and 16¾@17c for Western. Butter quiet at 26@45c for Ohio, and 30@55c for State. Cheese quiet at 17@20c.

Monetary Matters.

NEW YORK, March 1.—The Commercial says: The Stock Market is rather more active, but unsettled, prices are wholly at the mercy of clique operators, and show no decided tendency, either upwards or downwards. Investments are firmer upon the news of an advance in Five-Twenties at London. There is a steady improvement in the supply of money, but at the same time the applications, both for loans and discounts, are more active. There is more paper offering for discount. Gold is unsettled. The market is, upon the whole, weak, and the rate has ruled, during the day, at 1-16@¼ closing at 1-16. The condition of the market may be judged from the fact that a firm this morning offered, at the Gold room, either to sell or buy $250,000 at 1-16, without finding a taker. Foreign exchange is very dull.
