The Pittsburgh Gazette

BIRGE FOR A SOLDIER.

BY GEORGE H. BOKER.

Close his eyes; his work is done!
What to him is fraud or fomes,
Rise of moon, or set of sun,
Hand of man, or kiss of woman!
Lay him low, lay him low,
In the clover or the snow;
What cares he! he cannot know:
Lay him low!

As man may, he fought his fight,
Proved his truth by his endeavor;
Let him sleep in solemn night,
Sleep forever and forever:
Lay him low, lay him low,
In the clover or the snow!
What cares he! he cannot know:
Lay him low!

Fold him in his country's stars,
Roll the drum and fire the volley!
What to him are all our wars,
What but death bemocking folly!
Lay him low, lay him low,
In the clover or the snow!
What cares he! he cannot know:
Lay him low!

Leave him to God's watchful eye,
Trust him to the hand that made him
Mortal love weeps idly by:
God alone has power to aid him!
Lay him low, lay him low,
In the clover or the snow!
What cares he, he cannot know
Lay him low!

EPHEMERIS.

—Good coal costs one dollar per barrel in New Orleans.

—There are seven Field Marshalls in the British army; four of them are new.

—It is a significant fact that most old fashioned balls end with a jolly, informal reel.

—"Under the Gaslight" is creating a sensation in Cincinnati and a greater one in Louisville.

—A grand fancy dress ball at the Rink in St. Louis, seems to have set the fashionable world agog thereabouts.

—The same opera troupe which is to sing here on Wednesday night is to appear in Cincinnati on Thursday night.

—The trial of Oscar Burbridge for shooting A. J. Morey, the editor, last November, was commenced in Covington on Saturday.

—Hop poles are $100 a thousand in Wisconsin. We hope that skipping-ropes are proportionately dear, or else there is an injustice done.

—Serious anti-ministerial riots have occurred in Bohemia. We are not informed if v. Beust is the object of their rage, but we suppose it was not.

—Skaitists and Rinkists are two new words for which in part Mr. Artemus Ward is answerable. They are excellent words for those who like them.

—The Rev. Dr. Magoon says that he has not become a Catholic, and we think that under the circumstances, perhaps his testimony is as good as that of any one else.

—The Pacific Railroad has already begun its catalogue of accidents, by having a train of cars thrown from its rails sixty-three miles west of St. Louis, and two people injured.

—There are prospects of a bridge being erected between Newport and Cincinnati. The bill has passed the Kentucky Legislature, an I only awaits the signature of the Governor.

—A very remarkable statue is said, at length, to have been produced by an English sculptor. His name is Lough, and his work is the Lost Pleiad. It is said to be surpassingly lovely.

—Skeraddle, the famous horse owned by that great professor of the skedaddling art, John Morgan, the guerrilla, was sold the other day to W. C. Walker, of Logan county, Ky., for three thousand dollars.

—Harrisburg owes everything to the location of the capital of the State there. If it were not for that Harrisburg would be a mere station on the Pennsylvania Central Railroad, and now that road is stationed at Harrisburg.

—A Vicksburg newspaper has the Grant and Colfax ticket at its columns head. There is a change noticeable here from the time when the only Vicksburg ticket was Pemberton and Johnston, and yet five years have not passed since that time.

—General Viele says emphatically that West Point is not immoral. We think a jury of boys who have had intimate friends at the school would hardly decide in favor of the General. Boys tell each other things which they wouldn't tell General Viele.

—The Chicago *Tribune* has in large letters the statement that the bloody and inanimate body of a man was found in a doorway. The type are of that character that they look triumphant, just as if flags ought to be waved, and people feel good in consequence.

—On Monday Mr. Edwin Booth began a two weeks' engagement at McVicker's Theatre in Chicago. The *Republican* says that as Mr. Booth's engagement is so short, it supposes the houses will be well filled, which is an insinuation quite unworthy of that paper.

—An exchange informs us that everybody in Vicksburg has been enrolled as special police to look out for fires. We wonder who will be firemen when the fire has been looked out, or perhaps looking out is as good as putting out and firemen are unnecessary.

—We should think that bars ought to be a great business. We read recently that a first class bar makes 500 per cent. on the liquors sold; any other business paying so large a profit is unknown to us, but then there are so few first class bars that we can hardly believe they pay so well.

—A young German named Jacob Haselback was found dead in his bed, in St. Louis, on Friday. He died of an epileptic fit, to attacks of which he was subject. He had been but six months in this country, was a shoemaker by trade, and it is thought that he had friends somewhere in Pennsylvania.

—Paris does the New Year's calling nuisance up beautifully. Three millions of cartes de visite were mailed about the first of January in the Paris postoffice, thus making a card photograph de duty for ones self. An excellent idea, and one very easily carried out if Madame La Mode would only look kindly on it here.

—The customs confined to Leap Year traditionally in civilized countries seem to be confined to no time in the Gorrilla country, for Du Chaillu says that three hundred and eighty beauties of the African brunette style offered to marry him and all at once, too. M. Du Chaillu we opine refused these offers, but we are not sure.

—It seems strange when one reflects that Florida is in this country, and as it were part of us, to read that the people down there are eating tomatoes, peas and strawberries. Reconstruction should see to this. What right have unreconstructed rebels to revel in such luxuries at this time of year, when truly loyal people can't?

—Fanny Janauschek took the Cincinnatians by storm. No artist was ever so petted or so thoroughly appreciated by Porkopolis before. A constant dribblet of ovation was offered her. Bouquets in quantities, serenades every night, gold medals, and a silver laurel wreath, were all presented to her, and she has left them at last with a heavy pocket and a light heart.

—The proprietors of the Milwaukee Skating Rink have been compelled to enforce stringent rules to prevent accident. The dangerous game of tag had so gained on the small boys that the pleasure and limbs of the larger patrons of the Rink were alike in danger of destruction, and therefore tag is among the things that were, but are no more, on the Milwaukee Rink.

—Several papers have recently spoken of express companies as peculiar American institutions. They are hardly entitled to the term peculiar, as similar companies are in existence in Europe in both Northern and Southern Germany. The postoffices of those countries take much out of the hands of express forwarders, but still private express companies do exist, so that it should hardly be styled a peculiar American institution, even if nothing is said about the old joke on Eve and Adams Express Company.

MEDICAL.

A GREAT

CURE OF ASTHMA.

I feel myself under obligations to you, as well as duty I owe to others who have been like sufferers with myself, in order that they may know where they can get cured. I had been subject to violent, continued attacks of ASTHMA for more than six years, and had been to great expense and to various medical men of experience without obtaining any permanent relief, if relieved at all. I was so bad that I never knew when was to be free from the disease. I had to sit up in bed every night for weeks and weeks, without any prospect or hope of cure. My condition was such that I felt like a burthern, and when I got an attack I felt in danger of suffocating every moment. So terrible had been my suffering that my mother says that she has seen me so near suffocation that I was nearly black in the face from the desperate efforts made to get breath. In the cold winter nights, many a night, with the doors and windows of the house thrown wide open, in order to hinder the approach danger of strangulation. In this condition, on the 15th of October, 1866, I array heard of DR. KEYSER'S skill in curing this disease. I called on him, in company with my husband Joseph Meyers, but I must confess, with a great deal of doubt as to effecting a permanent cure. Dr. KEYSER examined me carefully, and my lungs all over, with his LUNG SOUND, and told me that with care I would get well. I persevered with his medicines for over a year, and am to-day in vigorous health, and TOTALLY FREE FROM THE ASTHMA, and its terribly disagreeable attendants. I have had, once in awhile, a slight attack of the disease, but I regard my health as entirely re-established, and if I do have any attack, a few doses of the Doctor's medicine immediately relieves it. I cannot feel too thankful for the exemption from a disease which cried to cost me whole weeks and months of loss of sleep, besides suffering which none but those who are subject to this disease can fully appreciate or describe.

NANCY MEYERS,
MARY MOUNT JOY, (her mother,)
GEORGIANA FISHER.

Birmingham, Dec. 9, 1867.

The 2 of Mrs. Myers, recited above, is one of more than ordinary importance, because of the violence of the attacks their confined lungs, and the great prostration of a fatal vital powers attending the disease. Any one who knew her during the time she was a sufferer from the disease of which she was cured, and will look at her now, the very picture of robust health, cannot but admit that the cure is one of more than ordinary character, inasmuch as we hear of Asthma every day of our lives, being a disease of an incurable nature. Let those who doubt investigate for themselves.

DEAFNESS, HARD HEARING,

Discharges from the Ear, Polypus of the Ear, Catarrh, Coses, Blind Eyes, Inflamed Eyes, Every Species of Sore Eyes and Ears, Successfully Treated by Dr. Keyser, 120 Penn Street.

SIGHT RESTORED.

The cure to which we alluded some weeks ago, of Christian Fisher, of Beaver county, is now entirely confirmed by the appearance of Miss Fisher herself, who to-day, called on DR. KEYSER in person, to thank him for his kindness and skill in restoring her to ENTIRE AND PERFECT SIGHT. Miss Fisher had been nearly blind for four months. She was so blind that she could not distinguish any object so as to make out what it was. The case is remarkable, in hundreds of cases like her's are due not to nerve-cutting diseases, on the direct point that there is no cure, and nothing can be done. She was under DR. KEYSER'S treatment for two months, and before she applied to him through her brother, SIMON P. FISHER, sight hopes were entertained of her ever getting her sight. Her case is well known in the neighborhood where she resides, and has been regarded as one of extraordinary recovery.

We, the undersigned, know of the cure of Miss Fisher, and bear willing testimony to the fact above stated.

DR. KEYSER—This is the list of names that have to your advertisement of the cure of my sister, Christina Fisher. They were all willing to put their names down, and were very much astonished to see that you brought her sight so soon. My mother sends her thanks to you and says "you are one of the greatest men in the world." She says if we had not come across you she believes her child would not be living at this time. We all bless you for what you have and respects to you.

PULMONARY CONSUMPTION, RESULTING FROM PLEURISY, CURED.

Statement of George Ford, carpenter, of No. 6 Sampson street, Allegheny City:

I took a violent attack of pleurisy, in May, which left me with a cough lasting all summer, wearing away my strength and gradually undermining my health. During the treatment of pleurisy I had several physicians of the highest reputation in the city. After I had partially recovered from the pleurisy, I was advised to go into the country, which I did, and when there called in a doctor, who told me my left lung was affected, and that if something were not done soon I would die of CONSUMPTION. I laboured on from this time until about the middle of June, my cough and lung disease gradually growing worse, and I weaker every day, and almost despairing of ever getting well. In this state of despondency, and knowing the general belief of the incurability of Consumption, and having heard of cures made by Dr. KEYSER, and seeing his advertisements in the newspapers, I was induced in October last to call on the Doctor at his office, 120 Penn street, and had him examine my lungs with his "LUNG SOUND." He did so, and the upper lobe of my left lung was very much diseased, but he thought with great care and the perseverance in the use of his medicines I would get well. At the time I called on Dr. Keyser my pulse was over one hundred and thirty beats in a minute, and I was generally prostrated, and had no cough night and day. I commenced the Doctor's treatment in October, with a feeble, broken constitution, and continued it faithfully until the present time. The Doctor's medicines helped me from the very start, and I can gradually feel myself getting stronger, and my cough and expectoration lessening. I am gained greatly in flesh, and considers myself well; all the rattling of my lung has ceased, and my general health is in every way good. All my relatives and friends know of the advanced stage of my disease and my extraordinary recovery. One of the medicines given me by Dr. Keyser was a medicine called LUNG CURE, which I took in connection with the other treatment.

ANOTHER CURE OF CONSUMPTION.

STATEMENT OF JOHN G. WIGHAM, OF TURTLE CREEK, ALLEGHENY COUNTY.

I was discharged from the United States army in January, 1866, on account of a wound in the head, from a shell, and a disease which the army physicians pronounced CONSUMPTION. I had a terrible cough and fell away in strength and flesh and was unable to do anything. Shortly after my return from the army, I made application to a physician of my neighborhood and, afterwards, to another in Pittsburgh of high reputation, whose remedies I used faithfully for five months, without any benefit whatever, but rather grew worse, and wasted in flesh and strength every day. In August, 1866, my mother took me to DOCTOR KEYSER, of 120 Penn street, whose skill in such cases like mine had been highly spoken of and put myself under his treatment. The Doctor examined my lungs very carefully with his LUNG SOUND, and told me that my left lung was badly diseased at the upper part, but if I was careful he thought he could cure me by following his directions closely, which I did from that day to this. I gradually improved under Dr. Keyser's medicines from the first week I commenced to take them, and my general health has improved and my chest, where it was shaken away, and where it pained me, has become full and strong and free from pain. I can now do a full day's work, and take great pleasure in giving my testimony in favor of Dr. Keyser's treatment and medicines.
