The Copper Mines of Lake Superior.

The editor of the Lake Superior *Miner*, after having visited the great copper region of the Northwest, publishes in his paper of July 25 a very interesting account of the present condition and future prospects of the mines on Lake Superior, among which the following extract, with reference to the "Bohemian" mine, will be read with interest, more especially as the main portion of the stock of this company is held by Philadelphians. The private opinion of some of our shrewdest merchants is that the stock of this rich mine will be more than doubled in value within the next six months, and, from the statement here appended from the Lake Superior *Miner*, we must confess that the opinion is not without some plausibility:

At the Bohemian a large amount of surface expenditure, of a permanent character, are being made. The saw-mill and stamp-mill are both under way; the frame for the former will soon be raised. The excavation for the stamp-mill dam is made, and the piles and breast-work will soon be commenced. The earth for which will come from the side-hill excavations for the mill. The two mills will be so located as that the same road that runs the mine will accommodate both; distance from the western shaft about three-fourths of a mile. About 150 rods of this road, from the engine-house bridge to the openings on the south lode, is already constructed, and is a model clay pike, with a slight inclination towards the mills, and built on a uniform grade of one in 180 feet, the bed being twenty feet between the ditches.

Several new buildings have been erected during the summer—one, a large and very convenient boarding house, is just being finished. This will be furnished with a view to the comfort of the men, and probably for the economy of the company as well.

Clay of a superior quality for making bricks has been found on the property, and two brick machines, with a corps of men, are now engaged in moulding.

The mine openings are showing about the usual quantity of mineral. The X *fms.* level, between shafts two and three, is holding some mass mineral throughout than was found in the adit. The block of ground now ready for stoping over this level, judging by what is exposed in the openings, will yield well in barrel and stamp work, though the indications for mass copper are not generally as good as they are at No. 1 shaft. The adit level, driving east from No. 3 shaft, exhibits an excellent lead, furnishing a fine back of 100 to 150 feet in height, now open for stoping.

The south lode has been cut by bearing south from the course of the level, and some good paying vein take out; but they have not probably reached the main portion of the lode yet, as there is more trap than is usually found intermingled with the vein.

The shipments from the mine the present season cannot be large, owing to the stamp mill not being ready till near the close of the season.

EXCURSION TO ATLANTIC CITY.—The very naming of this is enough to awaken the most exquisite dreams of seaside delight, away from this seething, smothering, melting city. The public is largely indebted to the Young Men's Christian Association for many good things, and not among the least of these are their annual excursions to Atlantic City. Their great excursion of the present season will take place on the 18th instant, and we understand that large numbers of tickets are already being sold at the Rooms, Nos. 1009 and 1011 Chestnut street. This excursion will afford all the delights of a trip to the seaside without any of its objectionable features, and we have no doubt it will be popularly patronized by our most respectable citizens.

PHOTOGRAPHS AND PHOTOGRAPH FRAMES.—Messrs. Wenderoth & Taylor, (formerly Broadbent & Co.,) the celebrated Photographers, Nos. 912, 914, and 916 Chestnut street, have constantly on hand a splendid assortment of Frames of all sizes and styles, which they sell at lowest manufacturing prices. They are also executing to order, for Messrs. McAllister & Brother, a splendid set of card photographs of distinguished persons for the album.

PURE WINES FOR MEDICINAL PURPOSES.—The proprietors of the popular old grocery stand of the late C. H. Mattson, Arch and Tenth streets, have constantly on hand a full line of the purest Wines and liquors, imported by themselves, expressly for medicinal purposes.

HE who stems a stream with sand,
And fetters flame with flaxen band,
Has yet a harder task to prove,
When he undertakes to convince others that the largest stock of elegant Summer Clothing is not to be found at the palatial store of Granville Stokes, No. 609 Chestnut street.

NINETY-FIVE IN THE SHADE.—The dog-star rages and the thermometer is among the nineties. Dratts (serial) are popular and called for; but the market is barren of the article, and while the demand is brisk the supply is stagnant. In this dilemma our advice is to keep cool, and by way of accomplishing this desirable result we would suggest a visit to the Brown Stone Clothing Hall of Rockhill & Wilson, No. 603 and 605 Chestnut street, above Sixth. Their stock of summer clothing is equal to the emergency.

LAST WEEK, while the youth and beauty of Centreville, Illinois, were gathered at a social party, an old gentleman who was subject to spells of walking in his sleep, after going to bed, fell into a slumber (*in somnambula.*) He rose from his bed, attired in nothing but his shirt, and walked directly among those who were participating in the scene of festivity. The effect was quite the contrary from what it would have been had he been arrayed properly in clothing from Charles Stokes & Co.'s one-price clothing store, under the "Continental Hotel." In this latter case there would have been but general admiration.

$275 to $325 will get an elegant 7-octave rosewood over-strung Piano, warranted five years. J. E. Gould, Seventh and Chestnut. jy25-awtf

At a special meeting of the members of Co. F., 109th Regiment P. V., the following resolutions were submitted and unanimously adopted:

Resolved, That while we deplore the loss of our late comrade, DEBANY S. TEALE, who was killed in the battle of Gettysburg, July 3, 1863, we all unite in bearing evidence to his unwavering patriotism, his unblemishing courage, and his true devotion to the Union and the Constitution. The courage that sustained him at Antietam and Chancellorsville was not wanting at Gettysburg.

Resolved, That we deeply sympathize with the parents, friends, and relatives of the dec-ased, and that a copy of these resolutions be furnished to the same.

Resolved, That a copy of these resolutions be forwarded to *The Press*, and *Inquirer*, of Philadelphia.

MILITARY NOTICES.

THE INVALID CORPS.

BY GENERAL ORDERS No. 105, from the War Department, dated July 29, 1863, the Invalid Corps, a military organization, to be composed of such worthy officers and soldiers as may have become disabled by wounds received in service, or from disease contracted in the line of duty, and to be called the INVALID CORPS.

As it is to be composed of VETERANS who have become more or less crippled in the service of their country, and have performed duty in the field, it may be not inappropriately a CORPS OF HONOR, reckoning among its numbers many of the noblest and most gallant sons of America. Such are every day being drafted to it, and gathered under the fostering protection of a grateful Government.

It is to be NATIONAL in its character, having no reference to States; hence an applicant, furnishing the necessary proofs, whether he may be received in Boston or a serial appointed under the enrolment act, whether in his own or another State.

Its officers and men will be designated, as a mark of distinction, by a uniform peculiar to themselves, and their distinctive duties will be such that they will be capable of performing, thus relieving many thousands of able-bodied troops whose services are needed in the field.

One office has been open for a few weeks, for the enlistment of invalid discharged soldiers, at No. 826 Lombard street, Philadelphia. This is now closed, and another opened at No. 242 South THIRD Street, Philadelphia, adjoining the office of Captain LEHMAN, Provost Marshal of the First Congressional District.

A camp has been opened near Harrisburg for the reception of all recruits for this corps enlisted in this State, where comfortable quarters are provided, and the recruits uniformed, armed, and equipped. The following information, relative to concerning this corps is published by the War Department, viz:

"The term of enlistment in the Invalid Corps shall be three years, unless sooner discharged. It will further be announced that no officer or enlisted man shall be entitled to or receive any bounty, premium, or bounty of enlistment or re-enlistment, or service in the Invalid Corps. Claims for pensions or bounties, which may be due for prior service, will not be invalidated by enlistment in the Invalid Corps; but no pensions can be drawn, or accrue to the benefit of any man, during his service in said corps. The officers and men will be organized into companies of infantry, of the same strength as is now authorized by law for the United States infantry.

"The officers and enlisted men will receive the same pay and allowances now authorized by law for the United States infantry, and will be paid in the same manner.

"Men enlisted in, or transferred to, the Invalid Corps will be subject to the Articles of War, Army Regulations, &c., the same as other soldiers, and will be required to perform all duties within the limit of their physical capacity, as laid down in the Army Regulations for that corps; but for the convenience of service they will be selected for three grades of duty. Those who are most efficient and able bodied, and capable of using the musket and performing guard duty, light marches, &c., &c., will be assigned to companies of the 1st Battalion. Those of the next degree of physical efficiency, including all who have lost a hand or an arm, to the companies of the 2d Battalion. Those who are the least effective, and including all who have lost a foot or a leg, to the companies of the 3d Battalion.

"Companies of the 1st Battalion will be employed mainly as provost guards and garrisons for cities, but may be assigned to forts, field works, and railroads near the cities and other important points. They will be armed with muskets, and will not be liable to active campaigns with the field armies.

"Companies of the 2d Battalion will be armed with side-arms only, and will be employed as guards of buildings, hospitals, &c., and will have companies of the 1st Battalion on duty with them when the use of firearms may be necessary.

"The companies of the 3d Battalion will be armed with side-arms, like the 2d Battalion, and will be employed in hospitals as cooks, nurses, ward masters, clerks, orderlies, &c., &c.; the officers of these companies doing the duties of military assistants at the hospitals."

For further information, discharged soldiers are invited to call at 242 South THIRD Street, or at the office of any provost marshal acting under authority of the enrolment act. E. W. MATTHEWS,
Major 1st Penn's Artillery and
jy25-dtf Sup't R. S. Invalid Corps for Phila.
