ILLUMINATION OF BOSTON COMMON.—The Drummond light now exhibiting on the Common in Boston calls together vast crowds in the evening. The following interesting account of the effect of the light is communicated to a New York paper: As we neared the Common one night have thought it was the Fourth of July, or some grand gala day. The sidewalks and cars were crowded with people, whose destination was the Common. The gathering was quite as large as that we saw on the Fourth we spent here. A very respectable and orderly crowd we found it, too, composed mostly of people from the country. It seemed strange that so many people should come together to see so common a thing as a Drummond light; but I had no idea what beautiful effects could be produced by it. It was one of the finest exhibitions I ever saw—quite equalling the stereopticon. One of the lights was on the cupola on the State House; the other on an elevation of the frog pond. During the evening the lights were so placed as to reflect on the spray from the fountain, and formed the finest rainbow I ever witnessed. The pond light was thrown upon the trees and the people, producing the most beautiful effect. The fountain was thrown to an immense height, in a pyramidal form, and upon this the light was reflected; then glasses of all colors were placed in front of the light, causing the water to appear of the most beautiful scarlet, green, blue, purple, and yellow tints. The form of the fountain was then changed to that of a flower vase, which was used as a surface for reflecting pictures and mottoes. We had the heads of Washington, Lincoln, quite a number of generals, and appropriate sentiments. At one time the light was thrown upon the flag, which could just be seen, with the ball of the staff, high up above the tree—furnishing a beautiful illustration of "Our Banner in the Sky."

FINANCIAL AND COMMERCIAL.

THE MONEY MARKET.

PHILADELPHIA, August 12, 1863.

The market is still easy and money plenty, at 4@5 per cent. Nobody wants to borrow, all wish to lend, thus making it as a drug thrown on the market. This has a bad effect, for it prevents millions from being invested, and consequently it becomes as mere trash, bringing no interest whatever to the owner.

Gold has had another slight fall, though not a very alarming one to the speculative holders. It closed 262½@26¾.

We see by the following small statement, that though the South has allowed, or rather has not been able to prevent its currency from depreciating, that the inhabitants have not been idle in their cultivation of grain. Their wheat production this year will be 25 per cent. greater than last, and the corn crop 12 per cent.:

The amount of wheat raised in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North and South Carolina, Tennessee, Texas, and Virginia, in 1860, was 31,326,374 bushels. In 1861, it was 35,000,000; in 1862, it was 40,000,000; and in 1863, it is estimated that it will be 50,000,000 of bushels. The amount of corn raised in the same States was, in 1860, 280,000,000 bushels; in 1861, it was 300,000,000; in 1862, it was 340,000,000; and in 1863, it will be 380,000,000 bushels or upward.

The subscriptions to the national loan have not yet abated, but are flooding in astonishingly.

The stock market was dull, and prices generally weak. Government securities were weak, as were also City sixes and State fives. This is no doubt caused by the general dullness of the market, and cannot be attributed to any serious reason. Reading Railroad fell ⅝, closing 67¾. Camden and Amboy Railroad was firm at 105. Schuylkill Navigation and Little Schuylkill Railroad were firmer yesterday's prices, the former closing 24½ and the latter 47¾. Pennsylvania Railroad closed 64¾; no change since yesterday. There were sales of Philadelphia and Erie Railroad at 25, and Camden and Atlantic preferred at 19½.

In bank and passenger railway stocks there was nothing done, though the prices bid were unchanged from yesterday.

It was purchased by the Trustees of the bondholders and stockholders, in accordance with the terms of their agreement and plan for reorganization. The road, therefore, will be again in the hands and under the control of those who were its builders, and thus insure to their benefit under the excellent provision of the law of April 11, 1861. The property and the charter can now be made useful, and from present prospects valuable.

The New York *Post* of to-day says:

The chief topic in Wall street to-day is the coming strife between the five great competing lines to the West. We have received a number of communications relative to the coming struggle, of the misunderstanding and its probable duration. Without entering upon this disputed ground, however, there can be but one opinion as to the effect of such a contest.

The loan market is easy at 5 per cent. Every one seems to have money to lend, and but little apprehension exists as to this state of things continuing for some time to come; for the capital of the country is rapidly growing, notwithstanding the expense of the war, and there is consequently every increasing accumulation of capital flowing to this city seeking investment.

The stock market exhibits little animation, and a sudden disposition to sell has put down the prices of several descriptions of speculative securities.

Governments are dull, railroad bonds are firm, bank shares quiet, and railroad shares irregular.

Pacific Mail has advanced 4 per cent. on the declaration of the quarterly dividend. The Hartfords have advanced 1, and Marine do (then 3¾. Michigan Southern and Pittsburg are firm, at a small advance on last evening's latest prices. New York Central, Erie, Illinois Central, and Rock Island have declined from 1 to 2 per cent., and Fort Wayne has fallen 2¾.

CITY ITEMS.

CONCERT AT ATLANTIC CITY IN AID OF SICK AND WOUNDED SOLDIERS.—We have been requested to call attention to the fact that a Concert will be given at the United States Hotel, Atlantic City, on this (Thursday) evening, for the benefit of Sick and Wounded Soldiers. The Concert bids fair, from the character of the programme before us, to be a brilliant affair. It will be given under the auspices of the Ladies' Aid Society. Hasler's celebrated orchestra have kindly volunteered their services on the occasion, and Messrs. Brown & Woelper, the popular proprietors of the "States," the use of their grand dining saloon. The Concert, now that the Island is overflowing with fashionable visitors, will, no doubt, as it deserves to, be a great success.

SMOKED AND SPICED SALMON.—Messrs. Davis & Richards (successors to the late C. H. Mattson), dealers in fine Family Groceries, Arch and Tenth streets, have just received a splendid lot of new Smoked Salmon, very large and fine; also, Spiced Salmon in cans, of superior flavor.

POVERTY IS OFTEN DESPAIR.—A poor fellow went to hang himself, but, finding a pot of gold, went merrily home. But he who had hidden the pot went and hung himself. No man should, therefore, despair, but should at once invest in a new suit of summer garments, from the Palatial Clothing Establishment of Granville Stokes, 609 Chestnut street. By purchasing at once a saving of at least twenty five per cent. can be effected.

DYSENTERY, summer complaint, diarrhœa, cramps, colic, cholera, and all affections of the bowels, are cured promptly and effectually by Dr. Jayne's Carminative Balsam. Being pleasant to the taste, it is readily taken by children, and having maintained its popularity for over thirty years, it is confidently recommended as a standard household remedy.

Prepared only at 242 Chestnut street. au13-thsm3t

UPHOLSTERING.—Patten's West-End Upholstery Store, 1408 Chestnut street. Carpets, Matting, Oil Cloth, Bedding, and old Furniture upholstered by experienced hands. (Large jobs contracted for cheap.) au12-4t

SEWING MACHINES.—Grover & Baker, 730 Chestnut street, have now on hand, and are manufacturing to large demand, every description of these great economies, at prices remarkably reduced. The name of this liberal and enterprising firm have grown identical with the popularity, improvement, and increased cheapness of the great invention, and a Grover & Baker Sewing Machine is a synonym for accuracy, completeness, and elegance. The machines of their manufacture are equipped with every necessary article, and are warranted to keep in order. Every one, work-women and housekeeper, who desires to save time, trouble, and eyesight, and to secure a perfect article—the cheapest, simplest, most durable, best Sewing Machine ever made—will call on Grover & Baker. We have had one of these machines in constant use in our family for more than three years, and have not broken a needle for fifteen months.—*Philadelphia City Item.*

VERANDAH AWNINGS.—Those delightful outside summer shades made to order by W. Henry Patten, 1408 Chestnut street. au12-4t

CAUSES OF EXEMPTION.—One man was exempted yesterday, on account of "chronic liptitudio," and another of "chronic periostitis of tibia." It is to be hoped that the poor fellows haven't got it very bad. One man claimed exemption in the first district because a military uniform was not becoming to him. The Commissioner decided that excuse insufficient, as both military uniforms and civilian suits are got up in a style to become everybody by Rockhill & Wilson, at their Brown Stone Clothing Hall, Nos. 603 and 605 Chestnut street, above Sixth.

MOSQUITO NETS.—The only sure bar to mosquitoes are the nets made and put up by W. Henry Patten, 1408 Chestnut st. au12-4t

"WHERE IS YOUR HOUSE?" asked a traveller in the depths of one of the "old solemn wildernesses" of the great West. "House! I ain't got no house," "Well, where do you live?" "I live in the woods, sleep on the great Government purchase, eat raw bear and wild turkey, and drink out of the Mississippi." And he added: "I've got thing too thick with folks out here. You're the second man I've seen within the last month, and I hear there is a whole family come in about fifty miles down the river. I'm going to put out into the woods again." It may safely be said of this man that he don't buy his clothing at Charles Stokes & Co.'s "one price," under the Continental.

WINDOW SHADES.—Wm Henry Patten, the manufacturer, 1408 Chestnut street. jy12-4t
