The dullness in general business has likewise extended to financial matters. Gold has been dull all day at 114¼, and looks now as if there was some chance of a decline.

Government bonds are dull but steady under a light demand and free offers to sell.

Stocks are heavy in some instances, but New York Central, Reading, Fort Wayne and Cleveland keep up to nearly the highest prices of the season.

Money from 6 @ 8 per cent.

PITTSBURGH MARKET.

OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, May 18, 1870.

Business, generally, continues quiet and rather dull; though not any more so than is usual at this season of the year. The country trade has fallen off very materially within the past two weeks, which is owing to the fact that the country people are now busily engaged on their farms, but the rush will soon be over, and then we may look for an improved country demand, as country merchants will want to lay in their summer supplies of groceries, provisions, &c., &c., before harvest.

ASHES—Firmer in the east but unchanged here. Common Soda, 4; refined, 4½; Pearls, 9¾; Pots, 7¾.

APPLES—Scarce and firm but unchanged, ranging from $5 to 6 per bbl for good to choice.

BUTTER—The market continues dull, and is likely to continue so for some time. We continue to quote at 45 to 20 for fair to prime. Sale of seven tons of grease butter at 15¾.

BEANS—Dull but nominally unchanged. $1.50@1.75 per bushel.

CARBON OIL—The demand is only moderate, but prices are maintained. 34@35½ cts for 25 or 50 bbl lots, and the usual advance for small lots.

CHEESE—Is dull and difficult to quote definitely, ranging from 13@17 cts, as to quality.

COTTON-YARN—Quiet and unchanged. 60@61 per bushel.

CEMENT—Sales of Louisville Hydraulic at $3@3.25 per bbl.

DRIED FRUIT—The demand, as might be expected, is improving but prices remain unchanged. Apples 6@7 cts; Peaches, 6@7 for quarters, and 9@9 for halves. Blackberries, 12@13 and pitted Cherries, 20@23.

EGGS—Market firmer, and while there is apparently no improvement in the demand, there is a falling off in the receipts. We now quote at 15 to 16.

FEATHERS—Live geese feathers quoted at 80 to 85c to the trade and 5 to 5c more for small lots.

FLOUR—Market steady with a regular local demand, though prices are unchanged. We continue to quote western flours, in store, at $5.50@5.75 for spring wheat; $5.75@6 for winter wheat, and $6@7½ for fancy brands. Rye flour, firm at $5.

GRAIN—The grain markets were rather weak to-day, under the influence of unfavorable advices from the east, and the demand is hardly as brisk, as buyers generally are apprehensive of a break. Wheat is quiet and unchanged; the mills continue to take all that offers at $1.05@1.20 for red, and $1.25@1.30 for white. Oats unchanged, though, if anything a little weak; we are reported sales to go east at 53@53¾ and 54, though from the tone of the market to-day, it is not likely that these figures will long be sustained. Corn is hardly as strong and the demand in this market is very light, unusually so; quotations can be fairly given at 85@87 for ear, and 90@92 for shelled. Rye is quiet and unchanged—sales at 90@91, cash and time. Barley is very dull as there is little or no demand, the malting season being almost over; good to prime spring cannot be quoted above 75@80.

GROCERIES—Nearly all the leading houses report trade dull, as compared with what it has been, and this is owing to a sharp falling off in the country demand. Sugars are dull and easier, in the east, and the same is true of coffees, but in this market there has been no change, as yet. New Orleans molasses scarce and firm, and some brands of syrups are quoted up slightly. In Teas, Spices, Soaps, Fish, etc., etc., there are no changes whatever. Following are the leading quotations:

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, WEDNESDAY, May 18, 1870.

The oil market continues very dull and weak, and while compared with yesterday, there is not much of a decline, the tendency, nevertheless, is downward. That the steadily increasing production is having its effect is as plain as anything can be, and it is this, more than all other causes combined, that is weakening and depressing the market. For a this feeling confined to this market. The advices from the oil regions report a decline within a very brief period of from 25 to 30 cts per bbl, and the telegrams from the east are of a similar character.

PITTSBURGH LUMBER MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, May 18, 1870.

The lumber business is reported as being more active, compared with last week, the demand having improved considerably, and while there is no change in prices, the feeling is stronger. The yard men who have, as a general thing, been holding off in anticipation of lower prices, have commenced to feel the market with a view of stocking up, and they find that stocks are not as large as generally supposed, and, in addition to to this, the western markets are reported as having stiffened up somewhat.

Timber, in River, is quoted at 12 to 16c, as to quality; sale of 300,000 feet at the outside quotation. Boards active, the demand having improved, though prices are unchanged, ranging from $18 to $22 for common; sales 200,000 feet at $18; 250,000 do at $19; and 80,000 feet two inch joist at $19.50. SPECIAL NOTICES.

CONSUMPTION.

DR. SCHENCK'S PULMONIC SYRUP for the cure of Coughs, Colds and Consumption.

DR. SCHENCK'S SEAWEED TONIC for the cure of Dyspepsia and all the Debilitated Conditions of the Stomach.

DR. SCHENCK'S MANDRAKE PILLS, for Diseases of the Liver or to act as a Gentle Purgative.

All of these three Medicines are often required in curing Consumption, though the Pulmonic Syrup alone has cured many desperate cases. The Seaweed Tonic and Mandrake Pills assist in invigorating the Stomach and Liver, and help the Pulmonic Syrup to digest and search through the blood vessels, by which means a cure is soon effected.

These Medicines are conscientiously offered to the Public as the only safe, certain and reliable remedy for Pulmonary Consumption, and for all those morbid conditions of the body which lead to that fatal disease. Liver Complaint and Dyspepsia are often forerunners of Consumption, and when they manifest themselves they require the most prompt attention.

The Pulmonic Syrup is a medicine which has had a long probation before the public. Its value has been proved by the thousand cures it has made through a period of more than thirty-five years, all of which time its reputation has increased, and the most obstinate skepticism can no longer doubt that it is a remedy which may be used with confidence in all cases which admit of a cure.

If the patient will persevere fingerily follow the directions which accompany each bottle, he will generally be cured, if his lungs are not too much wasted to make a cure possible. Even in cases supposed to be incurable, when friends and physicians have despaired, the use of this Medicine has saved the life of the patient and restored him to perfect health.

Dr. Schenck does not say that all cases of Pulmonary Consumption are within the reach of medicine, but he emphatically asserts that often when patients have the most alarming symptoms, such as a violent cough, sweating chills, night sweats, general debility, even to such a degree that they are obliged to lie in bed, and when they are given up by their physician, they may still be cured. No medicine can create new lungs, but when the lungs are very badly diseased and to some extent destroyed, a cure may be effected by Dr. Schenck's medicines.

Also, in Scrofulous Diseases, these medicines are equally efficient. Dr. Schenck has photographs of a number of persons who have been nearly covered with running sores and now all healed up. This shows its purifying properties, which must be able to heal cavities in the lungs.

In the treatment of Consumption it is of the utmost importance to give vigor and a healthy tone to the system. Hence it is necessary to strengthen the appetite of the patient and improve the digestion. Proper nourishment is required together with such means as will make the food easily digestible. The articles most suitable for the diet of Consumptive patients are fully explained in Dr. Schenck's Almanac, which is distributed gratuitously. In general, but the most highly nutritious articles are to be preferred, but the digestive organs must be strengthened in order to make either food or medicine serviceable. This treatment is met by the Seaweed Tonic, and for this purpose it was discovered.
