CITY COUNCILS.

The regular stated meeting of both branches of the City Councils was held yesterday afternoon.

SELECT BRANCH.

President Lynd (U.) in the chair.

Mr. King (O.) presented a petition from the United States Hose Company, asking for a fire alarm telegraph box. Referred to the Committee on Police.

Also, one from the property holders and citizens on New Market and Noble streets, in reference to the building of a culvert there. Referred to the Committee on Surveys.

Several petitions were received in reference to the building of a bridge over the Schuylkill river at South Street. Referred to the Committee on Highways.

A communication was received from the Northern Liberties Gas Company, with a statement of the receipts and disbursements of that company during the past year. The annual report of the trustees of the Philadelphia Gas Works, and the Chief Engineer of the Water Works, were also received and referred.

A communication was received from the Board of Port Wardens, suggesting the propriety of extending the wharf line on the river, from the Point House to the southern portion of the city, and also on the northern limits. Referred to the Committee on Surveys.

Mr. McKenrot (O.) presented a resolution, authorizing the repaving of Spruce street, between Second and Third. Referred to Committee on Highways.

Mr. Davis (U.), from Committee on Water Works, presented a resolution, authorizing the laying of water pipe on Master street, between Ridge avenue and Twenty-fourth street. Agreed to.

The resolution authorizing the construction of a sewer in the Eighth ward, which was postponed from the last meeting, was taken up and passed.

The ordinance relative to purchasing sixteen acres of ground for the purpose of extending the Park above Fairmount, and which fell on third reading at the last meeting, was taken up.

Mr. Hopkins (U.) said he was opposed to the passage of this ordinance. He believed the location of the Park was originally an improper one. He thought ground should be selected between the two rivers. He did not think the City Fathers of the Councils of Philadelphia to appropriate such a large sum of money when the state of the city treasury is so low.

Mr. Uhler (U.) said, we are making ourselves absolutely ridiculous as a city on account of our meanness. Let us make our Park beautiful in order to make our property valuable. He would go in for every improvement that would embellish our city.

Mr. King (O.) said there is a great nuisance existing in that neighborhood, which would be done away with if this piece of ground was purchased. He could see no better opportunity for passing this bill than the present.

The bill passed by a vote of 17 yeas to 2 nays.

Mr. Oberlin (U.) presented a petition from the Assistance Steam Fire-engine Company, asking for the location of a fire alarm box in their house. Referred to the Committee on Trust and Fire.

The drawing of a committee to investigate the right of Mr. Omerly (U.) to a seat in Select Council was, on motion, postponed, and made the special order for next Thursday.

Bills from Common Council.

The ordinance from Common Council to pay certain claims against the Department of City Property was concurred in.

Also, the ordinance making an appropriation to the Board of Managers of Wills Hospital for the year 1864; also, the ordinance making an appropriation to the Superintendent of Trust, for purposes therein mentioned.

The ordinance proposing the positions of the Columbia, William Penn, Perseverance, and Warren Hose Companies as suitable places for the location of steam fire-engines, was, after a long debate, postponed for the present.

Mr. Davis (U.) presented an ordinance authorizing the construction of a culvert from Fairmount to South ward. Referred to the Committee of Surveys.

The ordinance from Common Council relative to a joint meeting of Councils for the purpose of electing three directors for the Philadelphia and Erie Railroad, and two directors for the North Pennsylvania Railroad, was taken up, but a quorum did not vote.

The roll of members was then called, and a quorum of members answered to their names.

Mr. King (O.) then made a motion to adjourn, which was not agreed to.

A vote was then taken on the resolution, but a quorum of members did not vote.

The call of the house was then ordered since more, but a quorum, as before, did not answer.

The Chamber then adjourned.

COMMON BRANCH

Mr. Harper, President, presented the annual report of the Consolidated Gas Company, which represents forth that the receipts for gas amounted to $101,722 50; and from other sources, $10,316 30. The expenditures amounted to $92,446 80.

Several petitions were presented for the construction of a bridge across the Schuylkill at South street.

A petition was presented asking for a change in the place of voting in the Sixth precinct of the Fourth ward.

Mr. Marcer (U.) presented a petition from the 3d battalion Sixth months State volunteers, asking for the bounty.

Mr. Gray (U.), of the Committee on Finance, reported an ordinance to appropriate $1,000, for the purpose of purchasing a testimonial sword for Major General Meade. Agreed to.

Mr. Gray also reported an ordinance appropriating $2,272, to pay claims against the Department of City Property. Adopted.

Mr. Briggs (U.) presented an ordinance appropriating $1,500, for repairing culverts. Adopted.

Also, a resolution authorizing the Market street Market Company to erect iron sheds on the premises, which was agreed to.

Mr. Storkley (U.), from the Committee on Trusts and Fire, presented an ordinance appropriating $6,606.36 to the Wills' Hospital, which was agreed to.

Also, an ordinance locating the following steam fire-engine companies: Columbia, Wm. Penn, Perseverance, and Warren Hose Companies.

Mr. Loughlin (D.) moved to postpone the ordinance, and argued that there were already too many steam fire-engine companies, and the cost of their maintenance was every year growing more burdensome.

Mr. Kerr (D.) stated that the records proved that although the expenses of the Fire Department had increased, the loss of property had proportionately decreased. A city containing so much valuable property, the providing of a large efficient fire department was not a useless expenditure.

The motion to postpone was not agreed to, and the bill passed finally.

Council proceeded to elect two trustees of the Philadelphia Gas Works. Messrs. Graeff and Hemerson, the Union candidates, were elected over Messrs. Adams and Keene, the Democratic candidates.

Mr. Loughlin (D) offered an ordinance appropriating $300 000 out of the proceeds of a loan, approved December, 1863, for the relief of the families of volunteers. Adopted.

Mr. Taylor (U.) offered an ordinance for the further extension of the water works, which was referred.

Mr. Taylor also offered a resolution, authorizing the opening of Hancock street, from Mill street to Shoemaker's lane. Agreed to.

Mr. Briggs (U.), from the committee to whom was referred the resolution inquiring into the legality of the right by which Mr. Leech held his seat as a member of Common Council, submitted a report. It was accompanied with the evidence of numerous witnesses, who testified to the case, from which the committee came to the conclusion that Mr. Leech was not entitled to membership in Common Council.

A resolution was attached to the report, declaring the seat of Mr. Leech in this Chamber vacant on account of resignation, and also one instructing the clerk to strike the name of Mr. Leech from the roll.

In support of the resolution, Mr. Lippincott (U.) made a speech, in which he reviewed the case of Mr. Leech in its various bearings, showing with what little justice he could claim a seat in Common Council, without having a certificate of election properly signed and authenticated.

Mr. Taylor (U.) detailed the whole evidence of the case read by the Clerk, so that Council might judge of the propriety of the committee's action in reporting the resolutions.

Mr. Kerr (D.) moved to dispense with the reading of the evidence. Not agreed to—yeas 13, nays 24.

Mr. Kerr then moved to postpone, which was not agreed to.

The resolutions were then adopted by the following vote, Mr. Adams (U.) declining to vote:

Yeas—Messrs. Aregood, Barrett, Billington, Brady, Briggs, Bumm, Cresswell, Eckstein, Evans, Everman, Gratz, Gray, Haines, Harrison, Hacker, Cram, Peele, Rainyder, Storkley, Sulger, Taylor, and Yeakel—22.

Nays—Messrs. Crawford, Dillon, Kerr, Lamb, Loughlin, McDonald, Mullin, Nickels, Shern, Telford, Vogelbach, and Wolbert—12.

Council then adjourned.

Rumfelt vs. Clement. C. P. Snyder county. Argued by George F. Miller, for plaintiff in error, and by Joseph C. Bucher, for defendant in error.

Supreme Court at Nisi Prius—Judge Thompson.

The Catawissa Railroad Company vs. The Philadelphia and Reading Railroad Company and the Pennsylvania Railroad Company, and Joseph D. Potts and Samuel A. Black. Motion to dissolve preliminary injunction.

This case came up for argument yesterday on a pending motion to dissolve an injunction granted last week, by which the defendant companies were restrained from interfering with, or preventing the running of the use, by complainants, of the sidings at Williamsport, and the road over the appurtenances from Milton to Williamsport, under the reasonable rules and regulations of the Philadelphia and Erie Railroad Company, in accordance with the contract of October 31, 1860. A pending motion for an attachment for contempt against the officers of the railroad companies, respondents, and Messrs. Black and Potts in disregarding the injunction, also came up for argument with the motion to dissolve.

The bill upon which the injunction was allowed, after reciting the terms of the contract of October 31st, 1860, by which the complainants were to be allowed the use of the track of the Sunbury and Erie Railroad Company between Milton and Williamsport, subject to the conditions and restrictions therein contained, goes on to say that "on the 4th day of January, 1864, the said defendants, the Pennsylvania and Erie Railroad Company, and the Pennsylvania Railroad Company, and Messrs. Black and Potts, professing to be agents of the said Pennsylvania Railroad Company, locked certain switches and siding at Williamsport, which are a part of the Philadelphia and Erie Railroad Company, hitherto enjoyed and used by complainants under the said contract, and kept them from that time continually kept the same locked, so as to prevent the use thereof by their freight cars over the said road from Williamsport to Milton, since that date, to the great injury of your orators, and, if continued, to the utter and entire destruction of their freight business on any part of their road from and to Williamsport. Their said defendants have locked the switches with new and unusual locks, and have placed men upon them armed with clubs and bludgeons, to intimidate complainants from any removal of said locks or interference with said switches, whereby it has become impossible for complainants to remove the same without personal violence," &c., &c.)

The extract from the bill contains the gist of the ground of complaint upon which the injunction was granted ex parte.

Yesterday an answer on behalf of the respondents was filed at bar. Also, affidavits of the nature of answers on behalf of Messrs. Black and Potts, and additional affidavits, to meet the motion for attachment for contempt, were filed.

The answer denies the equity of complainants' bill, but admit that they had locked the switches at Williamsport, as charged in the bill. Respondents then proceed to justify their action at a season, the fact that the complainants persistently keep in their employ an incompetent and negligent conductor to run trains over the road from Milton to Williamsport, after his negligence or incompetency or both had caused a serious collision (he not being on proper time), by which life was lost and the locomotives and cars much injured. A second collision, respondents say, was only escaped, the party in fault being the same conductor, and the complainants still refused, upon the demand of the respondents, to discharge the conductor, or transfer him to some other part of the road, although respondents offered to supply a conductor, or to furnish one gratuitously without charge to draw the trains of the complainants, if a satisfactory arrangement could be arrived at. Upon this, as the only means left to protect themselves and the lives and property of others entrusted to their care, they pursued the course complained of, but they claim that, under the contract before mentioned, they had a right to take such action.

The case was argued by St. George T. Campbell and Charles W. Gibbons for the motion, and by Dwight Lowrie and F. W. Hughes against.

Judge Thompson thought that, in regard to the motion for an attachment for contempt, the affidavits read showed sufficient to compel respondents of any intent to treat the order of the court with contempt. He also thought that, as the case had been presented to the court on bill, answer, and affidavits, the injunction should not stand, but should be dissolved. Ordered accordingly.

The Richmond and Schuylkill Passenger Railroad Company et al., vs. Starr and John Thompson, sheriff. In equity. This was a motion on behalf of certain trustees, under the mortgage given by the Richmond and Schuylkill Passenger Railway Company, for a preliminary injunction to restrain the defendant and the sheriff from proceeding to sell, under a judgment writ of fieri facias from the District Court, the equipments, horses, cars, &c., of the road. The injunction is asked for on the ground that the title to the same is now in the trustees, and that the equipments of a road are part of the road itself, and as such not liable to be levied upon and sold in such a manner. Argued by E. S. Miller for complainants.

District Court—Judge Sharswood.

Shook vs. King & Baird. Before reported. Verdict for plaintiff, $148.
