As a railway train was nearing Kent, Ct., a few days since, a man was discovered lying on the track, It was too late to stop the train before it reached him, but it was done as soon as possible. On going back, the man was found sitting up, about twenty feet from the track, swearing because his bottle was broken.

To Consumptives.

THE Advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption, is anxious to make known to his fellow sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge,) with the directions for preparing and using the same, which they will find a *sure Cure for Consumption, Asthma, Bronchitis*, &c.—The only object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable; and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription will please address

Agricultural College of Pennsylvania.

The next Term of this Institution will commence on MONDAY, the 15th of FEBRUARY, 1869, and continue 24 weeks: Students to report at the College on the Thursday preceding the first day of the Term.

Careful instruction, by Lecture, Examination and Practice, will be given in Agriculture in all its branches, and in the Mechanic Arts and Industrial Pursuits. The liberal Arts, Sciences and Literature usually studied in the Colleges will also be included: The object being to make sound general scholars, while imparting the Practice, and a knowledge of the Principles upon which the Practice depends, of the particular employments in view.

The studies and exercises of each Student shall be specially directed, as the parent may determine,—1. To Practical and Scientific Agriculture and Horticulture; 2. To Civil Engineering, Architecture and Mining; 3. To the principles of the Mechanic Arts and of Machinery; or 4. To the principles and practice of Commerce and Manufactures: The whole to be accompanied by the study of History and Government, Mental and Moral Philosophy, the exact and Natural Sciences and the other branches of a higher education, and also by such of the Ancient or Modern Languages as may be selected; and, on the part of all the Students, by practice on the Farm, in the Garden, Laboratory and Field.

At the proper time, a detailed account of the course of study and other particulars will be published. Till then, a general outline may be found in *The Pennsylvania School Journal* for January. 1869, page 185.

By the liberality of the National Government and the State Legislature, the Trustees have been enabled to dispense with the charge for Tuition—heretofore $60 a year; and to fix the price of Boarding, &c. at the lowest rate that will meet expenses, viz: $100 for the Spring Term of 24 weeks, and $70 for the Fall Term of 16 weeks;—in all $170 a year for everything, except Text-books, Light, and a small charge for the use of room furniture, when the student does not provide his own, which he has the option to do.

The buildings will comfortably accommodate, and the Farm of 400 Acres pleasantly and usefully employ, *Four Hundred Students.* Of these, each county and the city of Philadelphia will be entitled to one without regard to population; and the remainder will be divided amongst the counties and the city in proportion to population; all free of charge for Tuition.

To entitle to admission, the Applicant must be a son of an inhabitant of the State, not less than sixteen years of age, of good moral character and health, and well versed in Orthography, Reading, Writing, Arithmetic, English Grammar, Geography, and the History of the United States.

First applicants from the respective counties, coming up to the above requirements, will have the preference for admission; but it is not desirable that more than 100 be admitted in 1869 and the same number annually thereafter, in order that the College may fill only as the Students shall advance in their classes.

The undersigned is authorized to pledge the Board of Trustees and a full Faculty of Instruction, to which he would add his own promise, that every effort shall be made to render the Institution a benefit to the youth who may report to its halls, a much needed aid to the various Industrial Pursuits, and an honor to the State,

TO PHYSICIANS.

NEW YORK, August 15, 1867.

Allow me to call your attention to my PREPARATION OF COMPOUND EXTRACT BUCHU. The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo. Juniper Berries, by distillation, to form a gin. Cubebs extracted by displacement by liquor obtained from Juniper Berries, containing very little sugar, a small proportion of spirit, and more palatable than any now in use.—The active properties are by this mode extracted.

Buchu, as prepared by Druggists generally, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this, [its active principle], leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup—and therefore can be used in cases where fever or inflammation exists. In this, you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of confidence,
I am, very respectfully,
H. T. HELMBOLD,

Chemist and Druggist of 16 Year's Experience in Philadelphia, and now located at his Drug and Chemical Warehouse, 594 Broadway, New York.

[From the largest Manufacturing Chemists in the World.]

"I am acquainted with H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise.

WILLIAM WEIGHTMAN,

Firm of Powers & Weightman, Manufacturing Chemists, Ninth and Brown Streets, Philadelphia.

HELMBOLD'S FLUID EXTRACT BUCHU, for weakness arising from indiscretion. The exhausted powers of Nature which are accompanied by so many alarming symptoms, among which will be found, Indisposition to Exertion, Loss of Memory, Wakefulness, Horror of Disease, or Forebodings of Evil, in fact, Universal Lassitude, Prostration, and inability to enter into the enjoyments of society.

The Constitution, once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to Consumption or Insanity ensued.

HELMBOLD'S FLUID EXTRACT BUCHU, in affections peculiar to Females, is unequaled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, whether arising from habits of dissipation, imprudence in, or the decline or change of life.

HELMBOLD'S FLUID EXTRACT BUCHU AND IMPROVED ROSE WASH will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superseding those unpleasant and dangerous remedies, Copavia and Mercury, in all these diseases.

USE HELMBOLD'S FLUID EXTRACT BUCHU in all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delicate constitutions procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists and Dealers everywhere. Price $1.25 per bottle, or six bottles for $6.50. Delivered to any address.—Describe symptoms in all communications.

Address H. T. HELMBOLD, Drug and Chemical Warehouse, 594 Broadway, N. Y

FARMERS,

NOW IS THE TIME TO USE

Youatt's Condition Powder.

In the Fall and Winter when your cows give but little milk this powder is sure to increase the quantity and improve the quality. For horses, it increases the appetite, promotes digestion, exhilerates the spirits, renders the coat soft and shining. For Hogs one package in your swill barrel will hasten the fattening process at least 100 per cent. This powder has proved an excellent article for sheep. Be sure you get the

Ayer's
Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. It wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.
