CONNECTICUT MINING COMPANY.—Office No. 136 WALNUT Street, Philadelphia.
At the Annual Meeting of the Stockholders of the CONNECTICUT MINING COMPANY, held May 2, 1864, the following-named persons were elected Directors for the ensuing year:
WILLIAM S. STEWART, Philadelphia.
JOSEPH S. FISHER, do.
JAMES L. CLAGHORN, do.
CARLTON P. MOORE, do.
WILLIAM H. CROSSMAN, Connecticut.
R. MEADE, do.
RUFUS SMITH, do.
H. S. SPENCER, do.
L. WHEELER, do.
And at a meeting of the Directors subsequently held, the following named officers were elected:
President—WILLIAM S. STEWART.
Secretary—RUFUS SMITH.
Assistant Secretary—CHARLES M. MORRIS.
Treasurer—CARLTON P. MOORE.
CHARLES M. MORRIS, Assistant Secretary.

Extract from Pamphlet recently published by the Executive Committee of the CONNECTICUT MINING COMPANY, copies of which may be had on application at the office of the Company, No. 136 WALNUT Street:
"The Executive Committee present, for the information of the Stockholders, the report presented at the annual meeting at Litchfield, May 2d, of Captain WILLIAM PETHERICK, consulting Mining Engineer, and Professor M. A. DUBOIS, analytical Chemist and Geologist, both of whom are well known as gentlemen of reliable character. The Committee also state that the Company is clear of debt, and it is not intended to create any; sufficient funds being in the Treasury for the recommencement at once of operations at the mines, the working of which has been suspended for some time, partly in consequence of the decease of your former president, and the disturbed state of affairs incident to the war. Arrangements for active business are in progress, which will be completed within the next two weeks. The Company possesses seventy acres of land, apparently inexhaustible in mineral wealth, with a very liberal charter from the State of Connecticut. The ore from the mines can be sold at remunerative prices.
"It is gratifying to observe that a large number of shares of stock have been purchased for investment, and to such stockholders the Committee would say that the measures which they contemplate carrying out with vigor, for the complete development of the resources of the Company, they confidently believe will result in producing such returns as will be satisfactory."

MILITARY.

HEADQUARTERS PROVOST MARSHAL'S OFFICE, SECOND DISTRICT OF PENNSYLVANIA, No. 256 South Twelfth Street.
Whereas, It is for the interest of the people of each ward to have stricken from the list all names improperly stricken, because an excess of names increases the quota; it is equally for the interest of each person enrolled to be given ward to be placed upon the list all persons liable to do military duty, because the greater the number to be drawn from, the less the chance of each individual to be drawn.
The Board of Enrolment will be in session daily, to strike from the list all persons not liable to military duty, and to enroll all persons whose names may have been omitted, all persons who shall have arrived at the age of Twenty (20) before the draft, all persons discharged from the military or naval service of the United States who have not been in service, two years during the present war, and all *Aliens* who shall have declared their intentions to become citizens of the United States or who have held office under the General Government.
It is hoped that the people will take such interest in this matter as will enable the Board to make a complete enrolment. EDWIN PALMER,
my25-tf Capt. and Provost Marshal Second Dist., Pa.

HEADQUARTERS, PROVOST MARSHAL, FIRST DISTRICT, PA.
PHILADELPHIA, May 30, 1864.
All OFFICERS and ENLISTED MEN who have been relieved from Recruiting Service in this District are required to return to the army without delay. A failure to comply with this order will subject the delinquent to arrest, and the officers will be reported forthwith to the War Department.

LILLIE'S SO-CALLED BURGLAR-PROOF SAFES EXPOSED, AND SHOWN TO BE INSECURE.
In the *Evening Telegraph* of April 16, 1864, Mr. C. C. Saddler, agent for Lewis Lillie, of Troy, New York, asserts that the burglar-proof safes of the said Lewis Lillie, with his dudecagon lock, with his anti-nitrometer attachment, are the only ones that afford any protection to bankers and others who have valuables which they wish to leave in them, and publishes a long list of safes which have been opened by burglars and his agents. Now I, David Evans, of the firm of Evans & Watson, of the city of Philadelphia, to correct the false impression made upon the mind of the public by the said publication, as well as the representation of the officers of some of our city banks, respectfully reason, are inclined to lend themselves to the said Saddler, and aid him in decrying the manufactures of their own city for the benefit of this New York firm, make the following statement. I offer to prove to any disinterested persons that the so-called burglar-proof safes can be opened by a skilful person in less time, with less noise or chance of detection, than any other burglar-proof safe now in the market, thus showing that so far from being the best, they are really the least reliable of any make of safes.
I now offer to open any safe sold by him as a bank or burglar-proof safe in the city of Philadelphia or State of Pennsylvania, depending upon his patent chilled iron and dudecagon lock, without making noise enough to disturb any person sleeping in the adjoining room, in from a half hour to six hours, according to the thickness or hardness of the door, and will give any bank or banker one hundred dollars for the privilege of operating upon a first-class Lillie's burglar-proof safe, sold prior to this time by the said C. C. Saddler or L. Lillie. And in case I do not succeed in opening said safe, I will repair the safe as good as it was before I commenced work upon it, the one hundred dollars to be paid before I commence operations, and in case of failure the said one hundred dollars to be forfeited.
To prevent any misconstruction, and prove the sincerity of my statements, I will now state the manner in which I propose to operate. I first saw off the top of the brass rim over the lock dial; I then drill a hole through the door, directly over the dial, as close as possible, and immediately over the centre. I then insert a piece of wire, about an eighth of an inch thick, through the hole so drilled, turning the knob of the lock dial to the right until the pin enters the first tumbler, when it will pass in about a quarter of an inch, then turn the knob to the left till the pin passes into the second tumbler, then to the right again till it passes through the next tumbler, and in case of a large bank safe, again to the left, until it passes into the last tumbler. I then throw the bolt, first pulling the pin out.
The public may see one of these burglar-proof safes drilled in various places, and the lock opened in this manner, by calling at the store of EVANS & WATSON, No. 16 South FOURTH Street, where the whole operation will be fully explained, and the insecurity of these safes demonstrated.

GRAY'S PATENT MOLDED COLLARS
Have now been before the public for nearly a year. They are universally pronounced the neatest and best-fitting collars extant.
The upper edge presents a perfect curve, free from the angles noticed in all other collars.
The cravat causes no puckers on the inside of the turn-down collar—they are AS SMOOTH INSIDE AS OUTSIDE—and therefore perfectly free and easy to the neck.
The Gentleman's Collar has a smooth and evenly-finished edge on BOTH SIDES.
These Collars are not simply flat pieces of paper cut in the form of a collar, but are MOULDED AND SHAPED TO FIT THE NECK.
They are made in "Novelty" (or turn-down style,) in every half size from 12 to 17 inches, and in "Eureka" (or Garotte,) from 13 to 17 inches, and packed in "solid sizes," in neat blue cartoons, containing 100 each; also, in smaller Gross of the latter, in a very handy package for Travellers, Army and Navy Officers.
EVERY COLLAR is stamped
"GRAY'S PATENT MOLDED COLLAR."
Sold by all dealers in Men's Furnishing Goods. The trade supplied by

FINANCIAL.

U. S. 10-40 BONDS.
These Bonds are issued under the Act of Congress of March 3th, 1864, which provides that all Bonds issued under this Act SHALL BE REDEEMED IN COIN, at the pleasure of the Government, at any period *not less than nor more than forty years* from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually, and on all other Bonds semi-annually. The interest is payable on the first days of March and September in each year.
As these Bonds, by Act of Congress, are
EXEMPT FROM MUNICIPAL OR STATE TAXATION,
their value is increased from one to three per cent. per annum, according to the rate of tax levies in various parts of the country.
At the present rate of premium on gold they pay
OVER EIGHT PER CENT. INTEREST
in currency, and are of equal convenience as a permanent or temporary investment.
It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies, or separate communities, only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin:
These Bonds may be subscribed for in sums from $50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.
The Funded Debt of the United States on which interest is payable in gold, on the 30th day of March, 1864, was $768,965,000. The interest on this debt for the coming fiscal year, will be $45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over $100,000,000 per annum.
It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations to $150,000,000 per annum.
The authorized amount of this loan is Two Hundred Million Dollars. Instructions to the National Banks acting as loan agents were not issued until March 28, but the amount of Bonds reported sold at the United States Treasury up to May 14th, was
$48,964,900.
Subscriptions will be received by the Treasurer of the United States at Washington, and the Assistant Treasurers at New York, Boston, and Philadelphia, and by the
