Photography! Daguerreotypes!!
A NEW ERA IN ART!
J. E. McCLEES,
(Successor to McClees & Gerwan,)

WOULD call the attention of the public, not only to the superiority of the Daguerreotypes, the Hyalograph, (by some called Ambrotype,) and the various styles of Photography on paper; but to the fact, that parties at a distance possessing a small daguerreotype, may, by sending it to No. 160 Chestnut st., have made from it by the means of Photography, and the talents of the best Artists, a portrait of ANY SIZE, from a small Locket to the full size of life.

A small book containing description, prices, &c., &c., will be sent gratis to any person making the request.

AYER'S PILLS,

A NEW and seemingly successful remedy for the cure of all Bilious diseases.—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Dysentery, Worms, Irritability, Inflammation, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c.&c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but efficient Cathartic were more freely used. No person can feel well while a costive habit of body prevails, besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the graveyards all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to avoid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention:

DR. A. S. HAYES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the

HON. RUFUS CHOATE, Senator of the U. S.
ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.
ABBOTT LAWRENCE, Minister Plen. to England.
JOHN B. FITZPATRICK, Cath. Bishop of Boston.

Also, DR. J. R. CHILTON, Practical Chemist, of New York City, endorsed by

HON. W. L. MARCY, Secretary of State.
WM. B. ASTOR, the richest man in America.

S. LELAND & Co., Prop'rs of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, and evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see wrapper on the Box.

DR. A. B. MADDOCK'S
CELEBRATED WORK ON INHALATION
In the Treatment and Cure of
Consumption, Asthma, Bronchitis, and other Diseases of the Respiratory Organs, by Medical Inhalation,
WITH NOTES AND ADDITIONS
BY DR. CHAS. GREENE.

First American edition, from 5th London edition, where it has had an unprecedented sale.

This is a valuable work and should be in the hands of all invalids. The Author's reputation is generally known; free of charge, by mail, on receipt of FIFTY CENTS, cash (gold—one dollar.)

C. W. VAN HORN & CO.
No. 32 North Ninth St., Philadelphia.

We extract a few from many commendatory notices and reviews from the English and American Medical and other journals:—

"The Medical Times for sale of the late Henry Maddock, Esq., M. P., the well known lecturer, and physician to the Brompton Hospital, from extreme indigestion, has perished. The written fragments composed on the subject of medical inhalation, are remarkably high and the written words cannot be thought, revised by medicine itself. We recommend our readers to purchase the work."—Weekly Chronicle, London, Feb. 10, 1843.

"We regard the Medical Times and Gazette as entitled to be fully matured, clearly written, and entirely divested of any quackery or pretending tendency. The Work well deserves perused, and the practice, so far as our knowledge and experience extends, will prove not only a sure, but a speedy cure, but a patent trial of its merits."—London Medical Journal, December 15, 1845.

"We think that no one can rise from its perusal, with all his faculties, and not be convinced that it is the work of a man learned and experienced, and that it ought, for the sake of those who suffer from consumption in whatever form, or bronchitis, to be brought to extensive circulation. It is, in the strictest sense, a practical work."—Oxford University Herald, November 2, 1844.

"A Treatise on the Lungs, Edinburgh Medical and Surgical Journal, Jan. 1844.

"A Treatise on the Lungs, Consumption, Bronchitis, Asthma, &c.; with Notes, &c., by Dr. Chas. Greene.—This work has found well the attention of our readers, for they may learn from it what can be expected from the mode of treating Consumption and other affections of the air-passages. Dr. M. is a strenuous advocate for inhalation, and whatever there is of good in inhalation of medicated vapors, he seems to have ability to extract, and, we gather, and say that we fear that the Professor's opinions are sufficiently strong in favor of the mode of alleviating the sufferings of those who may come under his care of disease."—New Jersey Medical Reporter, June 1843.

(From Professor Jas. Bryan, Editor of the "Philadelphia Medical and Surgical Journal.")

"Dr. Maddock's work on Inhalation is one of the few which have been issued from the Engish press on this subject. Its republication in this country with the judicious Notes of Dr. Greene, will add to the medical literature of the United States, and, we hopeful, excite some interest in the medical profession in the subject of inhalation, as a means of treating pulmonary affections. With the addition of a short discussion on Physiology, the mode of treating these diseases should have a fair trial and some atonement made for the long neglect which inhalation has suffered at the hands of medical men.

JAMES BRYAN, M. D.,
Prof. of Surgery in Philadelphia College of Medicine

A CARD.

DR. GREENE will treat DISEASES OF THE LUNGS and AIR-PASSAGES, agreeable to the mode so successfully adopted in the practice of Dr. A. B. Maddock, and other eminent physicians of Europe. By this mode of treatment the diseased surfaces of the Bronchi and Lungs are directly acted upon, the various medicated vapors being carried to the most minute ramifications of the Lungs, producing healthy action; where a complete diagnosis has had taken place the best results always attend that feature of Practice; in fact, with suitable patients, it is the only reliable form of treating diseases of the Respiratory Organs. He intends devoting his sole attention to this particular branch of his profession. Those desirous of consulting him can do so by letter addressed to

3. STROUD AND BRIGHTLY'S PURDON'S DIGEST.—1700 to 1855.

A Digest of the Laws of Pennsylvania, from the year One Thousand Seven Hundred, to the Eighth day of May, One Thousand Eight Hundred and Fifty-Five. The first four Editions by the late John Purdon, Esq. The Fifth, Sixth and Seventh, by the Hon. George M. Stroud. Eighth Edition, Revised, with Marginal References, Foot Notes to the Judicial Decisions; Analytical Abstracts; a Digested Synopsis of each Title, and a New, Copious, Explanatory Index. By Frederick C. Brightly, Esq., Author of "A Treatise on the Law of Costs," "Equity Jurisprudence," "Nisi Prius Reports," Editor of "Binn's Justice," &c. One thick Octavo volume. Price only $6.50.

☞ The exclusive and permanent value of Purdon's Digest are preserved by the publication annually of a Digest of the Laws enacted in each year. These annual Digests are arranged in precise conformity to the plan of Purdon's Digest. They are, each of them, republished annually; are connected together by a General Index, comprehending every such year; which enables the owners of Purdon's Digest to use the publications of each year as a supplement to Purdon's Digest, in one Alphabet; and are bound up with Purdon's Digest, and also all separately.

Thus the purchaser of Purdon's Digest will always be in possession of the entire body of the Statute Laws of Pennsylvania down to the very hour when he purchases it. To us who have already purchased Purdon's Digest may it prove a complete if not the last edition of Purdon's Digest, as the price of a volume containing all the annual Digests since the first publication of the present edition of Purdon's Digest, is beyond the reach of many.

SALAMANDER SAFES.
EVANS & WATSON,
No. 26 South Fourth St., Philadelphia.

GREAT FIRE, Chestnut & Fifth Streets, Friday morning, December 35th, 1854. Evans & Watson's Salamander Safes Triumphant, as they always are when put to the test.

PHILADELPHIA, Dec. 15, 1854.

MESSRS. EVANS & WATSON, No. 29 South Fourth St., Philadelphia.

Gentlemen:—We take much pleasure in recommending your Salamander Safes to Merchants and others in want of a secure means of preserving their books, papers, etc., from fire, as the one we purchased from you about seven months since has preserved our books, papers and cash in as good a condition as they were when put into it, before the great fire of this morning, which destroyed the entire block of buildings corner of Chestnut and Fifth streets. The above safe was in use in our office, on the second floor of our building, from which place it fell into the cellar, and remained there until the fire was out. The Safe was then removed and opened in the presence of at least 1000 persons, who witnessed the good condition of the contents. Will you please have the Safe and Locks repaired, as we intend to put it in use again, having perfect confidence in its fire-proof qualities.

Yours, Respectfully,
LACY & PHILIPS.

Evans & Watson take pleasure in referring to the following, among the many hundreds who have their Safes in use:—U. S. Mint Philada; Farmers' and Mechanics' Bank, Phila; Samuel Allen, Esq., High Sheriff, Phila; John H. Henderson, City Controller; Caleb Cope & Co., No. 183 Market St.; Richard Norris & Son, Locomotive builders, Philada; Bancroft & Sellers, Machinists, corner 16th and James Sts.; Franklin Fire Insurance Co., Phila; Pennsylvania Railroad Co., Phila; Lacey & Philips, corner 5th and Minor Sts; Sharpless Bros., No 32 South Second St.; James Kent & Santee, No. 147 North Third St; W. H. Horstman & Sons, No. 54 North Third St; Williams & Co., No. 87 Market St; J. & B. Orne, No. 184 Chestnut St.

A large assortment of the above Safes always on hand (warranted to stand at least 10 per cent more fire than any Herring's Safe now in use.) EVANS & WATSON, also manufacture and keep for sale, Iron Shutters, Iron Doors and Iron Bash, for making fire-proof Vaults for Banks stores, public and private buildings. Seal and Letter Copying Presses; Patent Slate Lined Refrigerators, etc. Please give us a call, at No. 26 South Fourth St., Philadelphia.
