NEW YORK HORTICULTURAL REVIEW:

A Journal of Suburban Art.—Superbly and Profusely Illustrated.—Devoted to the Advancement of the Rural Interests in America.

This is one of the largest and most elaborate works of the kind in the world.

Rural Architecture forms one of the principal features. Each number contains from two to four engravings of model cottages from designs by eminent and skillful architects. Space is also assigned to the tasteful art of Landscape Gardening; engraved plans of gardens in every style, and adapted to the peculiarities of different orders of architecture, beautify the work.

Engravings of new fruits, new flowers, new vegetables, &c., are illustrated and described as soon their respective qualities can be determined. Forming the most complete and elegant Manual of Rural Horticulture ever attempted.

An experienced corps of practical writers, seven in number, are engaged to fill its columns.

It contains seventy large pages, and is printed on the finest pearl-surfaced paper, manufactured expressly.

TERMS.—$2 per annum, payable invariably in advance. Fifty cents commission allowed each subscriber allowed to those who act as agents. $1,000 will be distributed at the end of the year among those who send us the twenty largest lists of subscribers. These premiums will be paid in cash. The first premium will be $300.

The following are selected from hundreds of similar notices, voluntary contributed by contemporaneous publications:—

The Horticultural Review deserves the most liberal patronage. It is not only eminently practical, but is written in a style that equals the best efforts of the late A. J. Dowing.—KNICKERBOCKER.

The most elegant and useful book of the kind that has ever come under our observation.—REGISTER.

Mr. Reagles, the Editor of the Horticultural Review, is a practical pomologist, and one of the finest scholars our country boasts of. He possesses the glowing descriptive powers of Dickens, the elegant gossip of Walpole, combined with a thorough knowledge of rural art.—STATE POLICE GAZETTE.

Farmers buy it for your sons—buy it for your daughters. It is a rich intellectual treat; a rare combination of the beautiful and the useful.—ALBANY, N. Y.

We had thought that in Downing's death, the eloquent advocate of rural adornment had bee me only a cherished remembrance; but in Mr. Reagles we discover an equally rich mine of mental wealth, that betokens the influence of the spirit that is gone.—MONITOR TRIBUNE.

Advertisers will find this an unsurpassed medium of publicity, as the Horticultural Review circulates extensively, in every State in the Union. Advertisements inserted at the rate of $10 per page.

WOOD ENGRAVING.

Those requiring Wood Engraving, can have their orders executed in an unrivalled manner. Special attention is given to views of ANIMALS; no experienced English Draughtsman is engaged for this express purpose. Persons living at distance can forward a daguerreotype of the object [by mail] they wish engraved, which will be a sufficient guide to obtain a perfect fac simile. Stock Breeders will be dealt with very liberal terms.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention:

DR. A. A. HAYES, Assayist and Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the

HON. EDWARD EVERETT, Senator of the U. S.

ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.

ABBOTT LAWRENCE, Minister Plen. to England.

† JOHN B. FITZPATRICK, Cath. Bishop of Boston.

Also, DR. J. R. CHILTON, Practical Chemist, of New York City, endorsed by

HON. W. L. MARCY, Secretary of State.

WM. B. ASTOR, the richest man in America.

S. LELAND & CO., Propr's of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to ensure the best results. This system of compounding for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulæ by which both my Pectoral and Pills are made, to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their conviction of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see wrapper on the Box.
