A Retired Physician

Whose sands of life have nearly run out, discovered while in the East Indies, a certain cure for Consumption, Asthma, *Bronchitis*, Coughs, Colds, and General Debility. The remedy was discovered by him when his only child, a daughter, was given up to die. Wishing to do as much good as possible, he will send to such of his afflicted fellow-being as request it, this recipe, with full and explicit directions for making it up and successfully using it. He requires each applicant to enclose him one shilling—three cents to be returned as postage on the recipe, and the remainder to be applied to the payment of this advertisement. Adress

BLACKWOOD'S MAGAZINE
—AND—
The British Quarterly Reviews.

Great inducements to Subscribe!

COST REDUCED 50 TO 75 PER CENT.

L. SCOTT & CO., New York, continue to publish the following leading British Periodical, viz:

1 THE LONDON QUARTERLY, Conservative.
2 THE EDINBURG REVIEW, Whig.
3 THE NORTH BRITISH REVIEW, Free Church.
4 THE WESTMINSTER REVIEW, Liberal.
5 BLACKWOOD'S EDINBURG MAGAZINE, Tory

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory and Radical—but politics forms only one feature of their character. As organs of the most profound writers on Science, Literature, Morality and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

FAIRLY COPIES.—The receipt of Advance Sheets from the British publishers gives additional value to these Reprints, in as much as they can now be placed in the hands of subscribers about as soon as the original editions.

HOVER'S LIQUID HAIR DYE.

This hair dye needs only a trial to satisfy all of its perfection as a Dye, add the following testimonial from that eminent Analytic Chemist, Professor Booth, of the U. S. Mint, will only confirm what thousands have previously borne testimony to

"LABORATORY FOR PRACTICAL CHEMISTRY, St. Stephen's Place, PHILADELPHIA, February 17th, 1857.

"Being well acquainted with the substances composing Hover's Liquid Hair Dye, I am satisfied that by following the simple directions given for its use, it will not injure the Hair or Skin, but will give a natural and durable color to the Hair.

JAMES C. BOOTH, Analytic Chemist."

HOOVER'S WRITING INKS, including Hoover's Fluid, and Hoover's Indelible Inks, are too well known and introduced to require any additional testimony of their character. The sales have been increasing since their first introduction, giving evidence that the articles truly possess that intrinsic merit claimed at first for them by the Manufacturer.

Orders addressed to the Manufactory, No. 416 RACE street above FOURTH, (old No. 144,) Philadelphia, will receive prompt attention by

JOSEPH F. HOOVER, Manufacturer.

WM. A BRUNER,

Sunbury, March 14, 1857.—

Consumption and all Diseases of the

Lungs and Throat are positively curable by inhalation, which conveys the remedies to the cavities in the lungs through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every twenty cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent, for the lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, inhalation affords extraordinary relief to the suffering attending this fearful scourge, which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's Grave.

Truly the quiver death has no arrow so fatal as consumption. In all ages it has been the great enemy of life for it spares neither age nor sex, but sweeps of alike the brave, the beautiful, the graceful, and the gifted. By the help of that Supreme Being, from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect, produced by their deposition in the lungs, is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rationally expected greater good from medicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy after inhaling remedies. True, inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air. Is not this positive evidence that proper remedies carefully prepared and judiciously administered through the lungs, should produce the most happy results? During eighteen years' practice, many thousands suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures even after the sufferers had been pronounced in the last stages, which fully satisfies me that consumption is no longer a fatal disease. My treatment of consumption is original, and founded on long experience and a thorough My perfect acquaintance with the nature of tubercles, &c enables me to distinguish, readily, the various forms of disease that simulate consumption and apply the proper remedies rately being mistaken even in a single case. This familiarity in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests; to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.
