MRS. W. HOWARD'S

SOLIDIFIED

DENTAL CREAM,

For Cleansing, Whitening and Preserving the TEETH!

This article is prepared with the greatest care upon scientific principles, and warranted not to contain anything to the slightest degree deleterious to the teeth or gums. Some of our most eminent Dental Surgeons have given their sanction to, and heartily do recommend it as a preparation of superior qualities for cleansing, whitening and preserving the TEETH. It cleans them readily, rendering them beautifully white and pearly, without the slightest injury to the enamel. It is healing to the gums where they are ulcerated and sore. It is also an excellent disinfectant for old decayed teeth, which are often exceedingly offensive. It gives a rich aromatic to the mouth, cleansing it thoroughly, and imparting a delightful fragrance to the breath.

PREPARED ONLY BY

A. HAWLEY & CO.,

N. W. Cor. 16th., & Lombard Sts., Philadelphia.

And sold by all Druggists. PRICE 25 CENTS.

TESTIMONIALS.

The following opinion of Dr. White, as to the high esteem in which he holds the Dental Cream, must be sufficient evidence of its value; to quote other testimonials in detail is needless, conferring ourselves by simply giving the names and addresses of persons who speak of its excellency for the teeth.

Philadelphia, April 15th, 1863.

Having carefully examined A. Hawley's "Solidified Dental Cream," I hereby cheerfully recommend it to the public generally. It is an excellent preparation for cleansing and preserving the teeth, and can be used by all persons with the utmost confidence, as its properties are perfectly harmless. Besides preserving the teeth, it promotes a healthy action to the gums, and imparts a pleasantness to the breath.

AN INTERESTING HISTORY

OF

DR. SCHENK'S OWN CASE,

WHILE LABORING UNDER CONSUMPTION

And how his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills set on the System in Curing that Disease, and the

Great Success Attending It!

The above is a correct likeness of Dr. Schenk taken many years ago, after he had recovered from Consumption; by a course of his "Schenk's Pulmonic Syrup." The likeness, although it does not represent him anything like as bad as he was at the worst, yet it is in strong contrast with the hale and vigorous looks of the Portrait below, which is the true likeness of him at present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons, in and around Philadelphia, who will recognise both portraits to be true representations. When the first was taken he weighed 107 pounds; at the present time his weight is 220 pounds.

New York, Wednesday, March 30, 1864.

TO THE PUBLIC.

Thirty years ago I was in the last stages of Pulmonary Consumption, and given up to die. I resided in Philadelphia, and Dr. Joseph Parrish, then of this city, ordered me to Moorestown, N. J., a distance of nine miles which took me two days to get there. On my arrival I was put to bed, and there laid for many weeks. This was my native place, where all my family lived and had died of Consumption. Dr. Thorston, who attended my father in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my family go that way, and thought I was to go too. When I heard of the time thus I rose office to the public, which cured me. It seemed to me that I could feel the consumption in my whole system.

They soon ripened the matter on my lungs, and I would spit off more than a pint of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain, night sweats—all began to leave me, and my appetite became so great that it was with difficulty I could keep from eating too much. I soon gained my strength and I have been growing in flesh ever since. For many years I have enjoyed uninterrupted good health, keeping the liver and stomach healthy with the Seaweed Tonic and Mandrake Pills, as I am of a bilious temperament. My weight is two hundred and twenty pounds. On my recovery people would send for me far and near, to see if their cases were like mine. For this purpose I pay professional visits in the large cities. The consumptives wish to see the one that makes these medicines, and who was cured of consumption by them. To make new lungs is impossible; but cavities in the lungs and chronic ulcerations of the bronchial tubes can be healed. Such cases are dying hourly under the ordinary treatment of physicians, and just such are cured by the proper use of Schenk's Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills.

I am now a healthy man, with a large cavity in the middle lobe of the right lung, the lower lobe very much hepatized and complete adhesion of the pleura. The left lungs is sound, and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicians do not cure consumption is they try to do too much; they give medicines to stop the cough, to stop chill, to stop night sweats, to stop fever, and, by so doing, they derange the whole digestive powers, locking up the excretions and eventually the patient sinks and dies. After I make a careful examination of the patient with the stethoscope, and find lungs enough left to cure, I direct the patient how to use the three remedies—Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—they do their work and they will stop of their own accord. No one can be cured of consumption, liver complaint, dyspepsia, catarrh, cancer, ulcerated throat, unless the liver and stomach are made healthy. In New England this cancer, chronic catarrh, ulcerated throat, changeling of weeks, is more prevalent than in any other section of the country. This is owing to their exposed to a foul stomach. You may keep the bowels with castile soap and water, and all they will get temporary relief. Correct the stomach and liver, and they will heal up themselves.

Consumption is not a disease. It is to have any disease in any part of the body it will remain there and do its work, and no human skill can cure the disease in the subject, so as to expect food and make new blood to take the place of diseased matter. This is the only way by which cavities in the lungs and ulcerations in bronchial tubes. Correct the stomach and liver and patients will do the healing. Many persons have up that their various complaints are great purifiers of the blood. When blood is once diseased it cannot be purified. It is diseased the same as the diseased matter in the sputum; but get the apparatus in order, the liver and stomach, and give it plenty of nourishing food, it will make new blood, which will take the place of that which is diseased.

Schenk's Pulmonic Syrup is one of the best preparations of iron in use, it is a powerful tonic of itself, and when the Seaweed Tonic disorders the stomach, and it is carried off by the aid of the Mandrake Pills, the Pulmonic Syrup is made into blood. This is the only way to cure consumption. If I cannot get a good appetite, and food does not digest, I cannot cure the patient. Never mind the cough; remove the cause and will stop of itself—This is the most trouble I have with my patients at my rooms. They say, "Doctor, I feel stronger; I can eat; my night sweats are better, and I feel better every way; but my cough is so bad yet;" and they are astonished to hear me say that does not matter; remove the cause and the cough will stop of itself. Schenk's Seaweed creates a good appetite in about nine days, when there is no lung disease, unless the liver is so congested that the Mandrake Pills cannot unlock the ducts of the gall bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stomach healthy and there is less danger of consumption or any other disease. It is hard to take cold when those organs are healthy. Those that are bilious, low-spirited, dreary, feeling stupid, coated tongue, poor appetite, nervous, stomach full of wind, everything that is eaten lies heavy, loss of memory, try one bottle of SCHENCK'S SEAWEED TONIC, and one box of SCHENK'S MANDRAKE PILLS. It is only a cost of one dollar and twenty-five cents, with full directions. This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that enjoys ordinary health, by using the Seaweed Tonic and Mandrake Pills occasionally, must get the digestive organs in such a healthy condition that they become healthy. I can produce a number of my old consumptives patients now enjoying good health, weighing nearly 200 pounds. I will conclude by relating three cures I have made in New York, and which are all different, and wish any one who feels an interest in the matter to visit them. First is Mrs. Farlow, residing then at No. 167 Houston street. Her husband called upon me at my rooms, 32 Bond street and wished me to call and see her. He said I could do no good; that he had had all the best medical attendance, and all said she was too far gone with Consumption to be cured; but she had heard of some great cures I had made, and he desired to gratify her wishes. I called, and found her lying confined to her bed in the last stage of bronchial consumption and without doubt must have died soon. I examined her lungs, found both bronchial tubes very much affected, but no cavities had formed, her cough was very severe, the sputum was half pint of thick pus. Pulse 140, her swellen very much; and worse than all, she had chronic diarrhoea. Her bowels had been moved eleven times that day. I told her that she had lungs enough to be cured, but that the diarrhoea had been of long standing, and her stomach was in such a ulcerated condition that I was afraid nothing could be done. She insisted I should try and do what I could for her, observing that she could not last long in the condition she was in, and I could not make her any worse. I gave her first a dose of my Mandrake Pills, and the tonic and Syrup freely.—That was on Tuesday, and by the next sunday the diarrhoea was carried off, her appetite had returned and she could sit up in bed and eat her dinner. She know well, and gave a long certificate, certified to by the Rev. Dr. Dowling.

Mrs. Bartholomew, 83 West Forty-fifth street, came to my rooms with a tumor on her liver. She was low-spirited, skin sallow, tongue coated, bowels costive, no appetite, and fast sinking into the grave. The said tumor had been running over fourteen years. I gave her Syrup, Tonic and Pills, and told her to take them just as the directions were printed. She came back to my rooms, 32 Bond street in two weeks, somewhat better; her tongue had begun to clean a little around the edges, her skin whiter and her eyes brighter and the tumor discharging very offensive matter, much faster than it had ever done before. She kept gradually improving, and in about two months she came to my rooms very much frightened, saying that the tumor had nearly stopped running, and was healing up, and that every doctor had told her that if it ever healed it would cause her death. I told her that the disease had all left her system, and nature would heal the ulcer up. They are now healed, and have been for about a year, and she is a hearty and robust a woman as you will find in a days walk. She is glad for any one to call on her, and takes great pains to visit any one that she hears has anything like her case, and tries to get them to come and see me. The next case is Miss Seofield, from Stamford, Conn. Mrs. Bartholomew got her down to see me, and she has been ever since at her house. When she first came to my rooms, she was much emaciated with a distressing cough, spitting large quantities of blood. I examined her lungs with the respirometer, and in all my practice never found one with one lung so far gone and the other lung so sound. I could not give much encouragement. I thought she would die; but to my astonishment the Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills all seemed to go right to work, the lung is all healed over, leaving a cavity as large as a goose egg; good appetite, fine spirits, and has gained some thirty-five pounds in weight. She has some cough yet, which I do not think will leave her before June. I should think it would be of great interest to some unprejudiced physician to visit these cases, particularly Miss Scofield, or any of those who have been cured by my medicines. They are numerous in New York; but the above three all differ from each other; and if my medicines are doing what I represent they are, they should have the credit and the afflicted know where and how they may be cured.

J. H. SCHENK, M. D.

Dr J. H. Schenk can be found at the principal office, No. 30 North 6th Street, Philadelphia, every Saturday, from 9 A. M. until 3 P. M., to give advice free of charge; but for a thorough examination he charges three dollars. Price of the Pulmonic Syrup and Seaweed Tonic each $1 25 per bottle, or $6 the half dozen. Mandrake Pills 25 cents per box, and is for sale by all Druggists and Dealers.

P. F. Cooper desires to call the attention of persons visiting Philadelphia to his new Ground Floor Gallery, where he has introduced newly-patented cameras, capable of taking, in a few seconds, one hundred Photographs, from the small stamp or autographic, to the Imperial and Life Size.

After many experiments he has succeeded in placing his sky-light at an improved angle, diffusing the light in equal proportions, and producing that soft gradation of tone which cannot be given by the side and sky-lights generally used, and which is so much importance to the beauty of a picture. It is made of French glass and is the largest in Philadelphia.

Mr. Cooper has been engaged more than twenty years in the study and practice of the Fine Arts.—His long experience as a Miniature and Portrait Painter is sufficient guarantee for the perfection of the pictures made at his establishment.

The street vocalizing is well understood; none but the most skillful artists are employed in the respective departments.

All Pictures Warranted;—the Ivorytypes will not change in any climate, and will stand the test of ages. Particular attention is paid to giving graceful and easy positions.

Daguerreotypes and all other kinds of pictures copied, from small medallion to life size, and finished in colors or Indian ink, to look equal to pictures taken from life.

The Gallery possesses rare facilities for taking Equestrian Pictures from life, in the rear building, where from one to fifty horses can be photographed at a time.
