The Sunbury American,

H. B. MASCHER, Editor & Proprietor.
E. WILVERT, Publisher.

SUNBURY, PA.

SATURDAY, JULY 15, 1865.

Local Affairs.

☞ NOTICE TO SUBSCRIBERS.—As the first year of the publication of the AMERICAN under the present terms will expire in September, it may be well to remind subscribers that fifty cents can be saved by paying within the year. Subscribers can forward the amount by mail at our risk.

☞ A HINT.—Refuse salt water thrown on the grass, growing up on pavements, will effectually destroy it.

☞ Passenger trains commenced running on Monday last on the new route between this place and Tyrone by way of Williamsport and Lock Haven. The distance from Sunbury to Tyrone (on the Pennsylvania Railroad) by this route, is 108 miles. From Tyrone to Pittsburg 131 miles, making the distance from Sunbury to Pittsburg 239 miles. From Harrisburg to Pittsburg is 249 miles. The trains on the Tyrone road, switch off to Bellefonte, 6 miles and back.

☞ BUDDING.—Apricots may be budded on the plum, and this is a good time to perform the operation.

☞ DROWNED.—On Saturday night about 11 o'clock our citizens were alarmed by the ringing of the Court House bell. We soon learned that a young lad, a son of Peter Schmeltzer, about 8 years old had been missing during the evening. A short time after, his fishing rod was discovered on Shiesler's wharf, and search being made in the water his body was discovered with the line around his hand. It was supposed he had fallen in while trying to loosen his line.

☞ NARROW ESCAPE.—A little boy about 5 years old, a son of John W. Bucher, while standing on the railroad track on Wednesday last, was knocked over by some cars that were backing down the road. He was sufficiently stunned to keep him quiet while the cars passed over him without any further injury. It is extremely difficult to keep children off the track, and the wonder is that accidents are not more frequent.

CATTERPILLARS.—Coal oil is a cheap, speedy and certain death to this destructive worm. A few drops dropped into their nest when the "swarm" is in will do the work. Farmers and fruit growers should know this; and they should also know that a fruit tree can no more bear fruit stripped of its leaves, than a man can breath without lungs.

☞ The surest remedy is to watch them and crush them as soon as they appear. A small colony gathered on a single leaf while small, will, if not destroyed, soon spread over, and destroy the foliage of a large tree.

☞ The Harrisburg *Telegraph* has been enlarged, and is printed on new type. Those desiring a paper from the seat government would do well to subscribe for the *Telegraph*.

☞ We stated last week that the body of a soldier, Wm. Gunther, of Lewisburg, had been found below the dam. It appears that the body of Mr. Hummel of Snyder county, also a young man and a soldier, who was with him, when trying to get over the ferry at Northumberland, was found in the river below Millersburg. His head and face bore the marks of some severe bruises, but whether they were received by falling over the dams, or otherwise, it was difficult to determine. What is singular, is, that one of Mr. H. Young's ferry boats had been taken, and that the caps belonging to the two drowned men were found on the shore opposite Northumberland.

☞ THE COURT HOUSE AT SELINSGROVE.—The Commissioners of Snyder county had a hearing before Judge Wood last week, on a *mandamus* for refusing to proceed in the erection of public buildings at Selinsgrove, in accordance with the act of assembly passed last session, removing the seat of justice from Middleburg to Selinsgrove. Judge Wood's decision we learn is against the two refractory Commissioners, and we presume they will now comply with the requisites of the law.

☞ OIL IN COLUMBIA COUNTY.—A writer in the *Republican* says the prospects are favorable. Thirty-seven years ago a company bored for salt on Pine Creek, Lycoming county. At a depth of 400 feet, a gas and strong smell, similar to crude petroleum came up and caused them to abandon the well. The specimens of oil found has no smell. This is said to be the case in many oil localities.

☞ The late rains have considerably cooled the atmosphere, and the weather the past week, has been quite comfortable.

For the American,

To the Lovers of Shad and Those Interested in the Shad Fisheries on the Susquehanna.

The legislature of last session, having, as an act of justice, passed an act requiring corporations and others, to alter the dams in the Susquehanna river so that shad can pass up the stream, it has now become the duty of those interested and this embraces all that are fond of eating as well as catching shad, to see that this law is properly executed. If these corporations do not obey the law and make the necessary alteration the people call on the Governor in person or by petition, asking him to see that this most just and reasonable law is properly and promptly enforced. Besides it would do well to hold meetings of the people all along the river in which resolutions should be passed urging the Governor to see that this law is fairly and speedily executed. If all these should fail, then it will be a question for those interested to take the matter in their own hands and abate the nuisance the best way they can and as speedily as possible.

Editors of Newspapers along the susquehanna, favorable to "freeshad and fishermans right" will copy the above, for the benefit of the public.

MANY CITIZENS OF NORTHUMBERLAND AND SNYDER COUNTIES.

THE DEAD ASSASSINS.

WASHINGTON, July 10.

Rev. Dr. Gillette, paster of the First Baptist Church, improved the solemnities of the past week by an appropriate discourse, especially to young men.

He had never been more impressed with the importance of his duty than during the sixteen hours which he passed with the convicts in the penitentiary between Thursday afternoon and that of Friday.

On Thursday Dr. G. was called upon by Assistant Secretary of War Eckert, who invited him to visit the cells of the doomed convicts for the purpose of administering to them such spiritual consolations as were needed. Stepping into the Secretary's carriage, he at once accompanied him thither. On their arrival, Mr. Eckert introduced him to other officers, and then to the convicts.

The first call was upon Payne, whose real name they soon ascertained to be Lewis Thornton Powell, his Middle name being after the Rev. Dr. Thornton, a Presbyterian clergyman of Charleston, South Carolina.

Powell welcomed him, and at once proceeded to relate his early history. His father was a Baptist minister. The convict had been from infancy brought up under religious influence. At twelve years of age he was by his own father consecrated to God in Baptism, and became a member of the church. In direct opposition to the wishes of his family, he entered the rebellion. For a time he endeavored to retain his religious character, but became connected with Gilmor. This was his second great step downward. This was followed by his getting into Mosby's gang, which was far worse. His next company was Booth.

Dr. Gillette found Powell to be a young man of cultivated mind ingenuous, frank, candid, and an earnest supplicant for Divine favor.

In conversation, he referred to his mother and wept bitterly—to his sisters—to the pleasant seasons once enjoyed by him in the church, the Sabath school and the social circles.

Powell frankly stated his conviction of the enormity of his crime. The moment he fled from the house of Secretary Seward and leaped into the saddle of his horse, his mind was quickened into a realizing sense of the horror of the damnable deed which he had perpetrated, and he became miserable, wretched—life itself became loathsome.

The doctor here corrected two points in the published statement. It was reported that he wore "a jaunty hat." That hat was placed upon his head by the advice and hands of Dr. G., when Powell's hands were pinioned behind him. Dr. G. suggested the hat on account of the intense heat of the sun.

Secondly. It was said on the morning of the execution he ate heartily, &c. On that morning he positively declined taking any food, and he was equally persistent in refusing stimulants of any kind.

His last prayer was, as suggested by his friend, the Doctor, "Lord Jesus, receive my spirit."

Dr. Gillette here addressed his audiance with deep feelings, referring to his own sons, to the sons of his congregation, to the young men of the city who habitually visit drinking houses, resturants, &c.

The preacher then visited Harold, and his description corresponded with those already published. With great eloquence he described the scene in which Harold's sisters were present. One of them read to him from her prayer book; and after Dr. G. had offered the prayer the same sister followed in an innocation to the Throne of Divine Grace on behalf of her brother, which affected all the present.

His next call was on Atzerott. He at once commenced remarks which criminated Mrs. Suratt, but was gently reminded that higher duties now devolved upon him—a preparation to meet his God. In this he acquiesced. For twenty-nine years he, as the victim of base passions, and the wiles of artful, designing men. His wonder was, if his soul *could be* saved! Rev. Mr. Butler, the Lutheran preacher, soon arrived, and attended him most faithfully. From the latter clergyman we learn that he professed to have found peace with Heaven.

The peculiarities of the Catholic Church prevented him from offering any assistance to Mrs. Suratt, for she was well attended by the Rev. Fathers Wiget and Walter. Dr. G. described the scene of the daughter's hasty return to her mother's cell—the anxious inquiries of that mother, "Is there any hope?" She replied, "hope is gone!" "Oh, Father Wiget and Walter prepare my mother for death!" In her agony, she fell against the speaker in the door way, and said "hope is fled."

The doctor stated that these remarks were made strictly in the religious point of view, that being the place for none other.

The congregation was very large and attentive.

Important from Panama.

NEW YORK, July 10.

The steamer, Costa Rica arrived at this port to-day, bringing Panama dates to the first inst.

Another feeble attempt is being made to get up a revolution on the Isthmus.

The ex-Queen of the Sanwich Islands had passed through Panama, en route for Europe. The rainy season was remarkably moderate and the Isthmus very healthy.

The steamer from Central America, just arrived, brought no news. Gen. Barrios had arrived off the port La Union Cut, and probably learning that his revolution had failed, did not land. Advices from Chili state that the Spanish question has been amicably settled.

Business was very dull in Valparaiso and the markets lower.

Buenos Ayres papers states that mutiny had occurred on the American bark Wilhelm Zel, in which the Captain and mate had been killed.

The Uruguayans had commenced a cruel war against Paraguay. There are immense forces in the field on both sides, and the hostilities are being carried on without mercy.

A third revolution is being carried on in Bolivia, the recently self elected President, Moligarejo, being driven out. The revolutionists were marching on the city of La Paz and it was thought they would sack the city.

The revolution in Peru seems to be gaining ground. Gen. Cruseba, the actual Vice President of Peru, has joined the rebels.

A revolution, headed by ex President Urbina, had broken out in Equador.

The war steamer Guayamas, was captured by a number of armed men on board the steamer Washington. The latter vessel floating down along side, under pretence that the currant carried her there. The commander of the Guayamas was killed. An attack on Guayaquil by Urbina was thought he would be refused.

BROWN'S BRONCHIAL TROCHES, or Cough Lozenges, cure Cough, Cold, Hoarseness and Influenza, or any Irritation or Soreness of the Throat.

"*Great service in subduing Hoarseness.*"
REV. DANIEL WISE, New York.

"*The Troches are a staff of life to me.*"
PROF. EDWARD NORTH,
Pres. Hamilton College, Clinton, N. Y.

"*A simple and elegant combination for Coughs, &c.*"
Dr. G. F. BIGELOW, Boston.

In the speech of the Duke of Somerset at the recent wedding in the Rothschild family, he observed that the Rothschilds had succeeded where politicians had failed, and proposed a "union of the nations."

Condition of Secretary Seward.

REMOVAL OF THE SPLINT.

WASHINGTON, July 11.

The Secretary of State continues his duties in almost perfect health. The novel and extraordinary splint was removed from his face by order of his surgeons, and proves to have been a marvellous success and very few traces are to be seen of the original accident and the subsequent assault of the baffled assassin, with the exception of a slight swelling on the side of his right cheek.

Delivery of the Bodies of Mrs. Surratt, &c., to Friends.

WASHINGTON, after due consideration, have concluded to deliver the bodies of the four executed convicts to their friends for burial. The disinterment will take place immediately.

Store-room in Ira T. Clement's building at the south-west corner of Market Square, near the Court House.

Sunbury, June 24, 1864.

BALTIMORE LOCK HOSPITAL.

ESTABLISHED AS A REFUGE FROM QUACKERY.

THE ONLY PLACE WHERE A CURE CAN BE OBTAINED.

DR. JOHNSTON has discovered the most Certain, Speedy and only Effectual Remedy in the World for all Private Diseases, Weakness of the Back, General Debility, Nervousness, Dyspepsy, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Tremblings, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose or skin, Affections of the Liver, Lungs, Stomach or Bowels—those Terrible Disorders arising from the Solitary Habits of Youth—those secret and solitary practices more fatal to their victims than the song of Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible.

YOUNG MEN

Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence or waked to ecstaty the living lyre, may call with full confidence.

MARRIAGE.

Married Persons, or Young Men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., speedily cured.

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a Physician.

ORGANIC WEAKNESS

Immediately Cured, and Full Vigor Restored.

This Distressing Affection—which renders Life miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent? Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes Deranged, the Physical and Mental Functions Weakened, Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility, a Wasting of the Frame, Cough, Consumption, Decay and Death.

Office, No. 7 South Frederick Street

Left hand side going from Baltimore street, a few doors from the corner. Fail not to observe name and number.

Letters must be paid and contain a stamp. The Doctor's Diplomas hang in his office.

A CURE WARRANTED IN TWO DAYS.

No Mercury or Nauseous Drugs.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or marriage.

THESE are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsy, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY—The fearful effects on the mind are much to be dreaded—Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil-Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, &c are some of the evils produced.

THOUSANDS of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of consumption.

YOUNG MEN

Who have injured themselves by a certain practice indulged in when alone, a habit frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons never, before contemplating

MARRIAGE,

reflect that a sound mind and body are the most necessary requisites to promote conjugal happiness. Indeed without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another hinges blighted with our own.

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of the horrid disease make their appearance, such as ulceration of the throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid spectacle of commiseration, till death puts a period to his dreadful sufferings—by coming him to "that Undiscovered Country from whence no traveller returns."

It is a *melancholy fact* that thousands fall victims to this terrible disease, owing to the unskillfulness of ignorant pretenders, who, by the use of that *Deadly Poison, Mercury*, ruin the constitution and make the residue of life miserable.

STRANGERS

Trust not your lives, or health, to the care of the many Unlearned and Worthless Pretenders, destitute of knowledge, name or character, who copy Dr. Johnston's advertisements, or style themselves, in the newspapers, regularly Educated Physicians, incapable of Curing, they keep you trifling month after month taking their filthy and poisonous compounds, or as long as the smallest fee can be obtained, and in despair, leave you with ruined health to sigh over your galling disappointment.

Dr Johnston is the only Physician advertising.

His credential or diplomas always hang in his office.

His remedies or treatement are unknown to all others, prepared from a life spent in the great hospitals of Europe, the first in the country and a more extensive *Private Practice* than any other Physician in the world.

INDORSEMENT OF THE PRESS.

The many thousands cured at this institution year after year, and the numerous important Surgical Operations performed by Dr. Johnston, witnessed by the reporters of the "Sun," "Clipper," and many other papers, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

SKIN DISEASES SPEEDILY CURED.

Persons writing should be particular in directing their letters to his Institution, in the following manner

JOHN M. JOHNSTON, M. D.
Of the Baltimore Lock Hospital, Baltimore, Md.

June 24 1865—1y.

THE PHŒNIX PECTORAL

Will Cure Your Cough

THE PHŒNIX PECTORAL

Or compound Syrup of Wild Cherry and Root, will cure the Diseases of the THROAT AND LUNGS. Such as Colds, Coughs, Croup, Asthma, Bronchitis, Catarrh, Sore Throat, Hoarseness, Whooping Cough, &c. Its timely use will prevent Pulmonary Consumption, and even where this fearful disease has taken hold it will afford greater relief than any other medicine.

This Pectoral is made from Wild Cherry Bark and Seneka Snake Root.

Its Composition is a sufficient guarantee of its value.

Dr. Geo. B. Wood, Professor of the Practice of Medicine in the University of Pennsylvania, Physician to the Pennsylvania Hospital and one of the authors of the United States Dispensatory, says of Wild Cherry Bark—"It is among the most valuable of our indigenous remedies, adapting with a tonic power the property of quieting irritation and diminishing nervous excitability."

The same distinguished physician and authors says in the same work, "Seneka Snake Root is a stimulating expectorant. Its action is especially directed to the lungs. It is peculiarly useful in chronic catarrh affections and the secondary stages of croup."

For want of space we cannot publish all the testimonials in our possession, but we give two:

PHŒNIXVILLE, Apr. 1st, 1864.

This is to certify that I have sold numbers of bottles of Dr. Oberholtzer's Phœnix Pectoral or Compound Syrup of Wild Cherry and Seneka Snake Root and I have yet to find a single individual who has used it, who does not bear testimony of its wonderful effects in curing coughs. Signed, JACOB POWERS.

HALL ST., PHŒNIXVILLE, Jan. 11, 1864.

I most cheerfully bear testimony to the value of the "Phœnix Pectoral or Compound Syrup of Wild Cherry and Seneka Snake Root. Before using it I had been suffering with a tickling in my throat and tight cough, for more than two years, and had taken various other medicines with no relief. As soon as I began to use Dr. Oberholtzer's medicine the irritation in my throat was allayed and I got rid of my cough, with the happiest effects.

Signed, JOSEPH LANDIS.

POTTSTOWN, Jan. 11, 1864.

This certifies that I have used the Phœnix Pectoral in my family, and I recommend it to the public as the very best remedy for Cough and Colds that I have ever tried. One of my children was taken with a cold accompanied with a Croupy cough; so bad indeed that it could not talk nor scarcely breathe. Having heard so much said about the Phœnix Pectoral I procured a bottle of it. The first dose relieved the difficulty of breathing and before the child had taken one-fourth of the bottle it was entirely well. Every family should have it in the house. Signed, [illegible]

The proprietor of the medicine has the same confidence in its curative powers, from the testimony of hundreds who have used it, that he will have it refunded to any purchaser who is dissatisfied with its effects.

It is so pleasant to take that children do not mind it.

It costs only Thirty-five Cents.

It is intended for only one class of diseases, namely those of the Throat and Lungs.

☞ Prepared only by

LEVI OBERHOLTZER, M. D.,
Phœnixville, Pa.

JOHNSTON, HOLLOWAY & COWDEN,
No 23, North Sixth street, Philadelphia, General Wholesale Agents.

SOLD by George Bright, and R. A. Fisher, Druggists, Sunbury; Wm. Cherrington, Druggist at Shamokin.

N. B.—If your nearest druggist or storekeeper does not keep this medicine do not let him put you off with some other medicine, because he makes more money on it, but send at once to one of the agents for it.

June 10, 1865—3m$

Estate of Philip Wertz, dec'd.

HEALTH

HELMBOLD'S

FLUID EXTRACT BUCHU

FOR Non-Retention or Incontinence of Urine Inflammation or Ulceration of the Bladder or Kidneys, Diseases of the Prostrate Gland, Gravel, Brick Dust Deposits, Dropsical Swellings, Organic Weakness, Debility, Female Complaints, &c.

HELMBOLD'S

FLUID EXTRACT BUCHU

AND

Improved Rose Wash

Will radically exterminate from the system Diseases arising from Habits of Dissipation, *at little expense, little or no change of diet, no inconvenience or exposure;* completely superseding those *unpleasant and dangerous remedies, Copaiba* and *Mercury*, in curing these diseases.

USE HELMBOLD'S

FLUID EXTRACT BUCHU

in all Diseases of the Urinary Organs, whether existing in MALE OR FEMALE, *from whatever cause originating, and no matter of how long standing.* It is pleasant in its taste and odor, IMMEDIATE in action, and more strengthening than any of the preparations of *Bark or Iron.*

Those suffering from *Broken Down or Delicate Constitutions, procure the Remedy at once.*

The Reader must be aware that however slight may be the attack of the above diseases, it is certain to affect his *Bodily Health, Mental Powers and Happiness.* If no treatment is submitted to, Consumption or Insanity may ensue.

All the above diseases require the aid of a diuretic.

HELMBOLD'S EXTRACT BUCHU

Is the Great Diuretic.

HELMBOLD'S

HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

For purifying the blood, removing all diseases arising from excess and imprudence in life, chronic constitutional diseases arising from an impure state of the blood, and the most reliable and effectual known remedy for the cure of Scrofula, Scald Head, Salt Rheum, Pains and Swelling of the Bones Ulcerations of the Throat and Legs, Blotches, Pimples on the Face, Tetter, Erysipelas, and all scaly eruptions of the skin, and beautifying the COMPLEXION.

AND HAPPINESS

NOT A FEW

Of the worst disorders that afflict mankind arise from the corruption that accumulates in the Blood. Of all the discoveries that have been made to purge it out, none can equal in effect *HELMBOLD'S COMPOUND EXTRACT OF SARSAPARILLA.* It cleanses and renovates the Blood, instills the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the Blood. Such a remedy, that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Our space here does not admit of certificates to show its effects, but the trial of a single bottle will show to the sick that it has virtues surpassing anything they have ever taken.

Two tablespoonsful of the Extract of Sarsaparilla, added to a pint of water, is equal to the Lisbon Diet Drink, and one bottle is equal to a gallon of the Syrup of Sarsaparilla, or the decoction as usually made.

The above Extracts are prepared on purely scientific principles—in Vacuo—and embody the full strength of the ingredients entering into their composition. A ready and conclusive test will be a comparison of their properties with those set forth in the U. S. Dispensatory.

HOW TO USE THE REMEDIES.

In Diseases of the Blood, Humors on the Skin, and every part of the body, use Extract Sarsaparilla, applying to Pimples and all external Humors or Eruptions. Use the Extract Buchu for all diseases requiring the use of a Diuretic, except those of the Urinary Organs, such as Gonorrhœa and Gleet; in these use the Extract Buchu and inject with the Improved Rose Wash.

☞ THESE EXTRACTS HAVE BEEN ADMITTED TO USE IN THE UNITED STATES ARMY, and also are in very general use in all the STATE HOSPITALS AND PUBLIC INSTITUTIONS throughout the land, as well as in private practice, and are considered as invaluable remedies.
