DIRECTORS.

A. G. STEIN, THOS. J. BARGER, JOS. D. TRAUTWEIN, WM. G. LAWSON, JAS K. BISSEX, W. G. BEDFORD, CHARLES R. MERKLER.

The Keyser Oil and Mining Company has been chartered by the State of Pennsylvania, for the production of Oil, Salt, Iron and Coal, in the States of Pennsylvania and Western Virginia.

The lands of the Company in Western Virginia, consist of 7 tracts of Oil Lands in fee simple, located on the east bank of Monongahela river, about two miles northward from Morgantown, in Monongalia county, and have about ½ of a mile of river front, and about the same length on each side of Mill Run; thus making two miles in length of what is called bottom lands; they also contain two veins of Coal—the Bituminous and Cannell Coal—one being three and a half and the other supposed to be eleven feet thick.

In Pennsylvania we have a 26-year lease on the bottom lands of Ira H. Keyser's farm, on the west bank of the Cheat river, about one and three quarter miles from its mouth, in Fayette county. It is 40 rods on the river and 30 rods deep; thus affording room for at least 12 wells, located so with the right to mine all the Coal needed from the large Coal veins cropping out on other parts of this farm.

Advantages of the Company:

1 Our lease is only about ¾ of a mile distant from the Crow Well, which, by the *Daily Evening Gazette*, of Pittsburg, of December 23, 1864, is reported to be producing from 300 to 350 barrels of Oil per day, and immediately adjoining the celebrated nearby famous Wiley Well, which is said to be a 50 barrel well, and immediately opposite the Fayette Well.

2. The oil with this region is the Amber Oil, 20 per cent. purer than the Oil of Oil Creek.

3. The salt water of this country is very strong and flows abundantly, yielding 11 ounces of Salt to the gallon from one gallon of water, and this alone would make this a paying investment.

4. We have river navigation to the Pittsburg Market.

5. The immense beds of Coal thereon.

TAKE NOTICE!—IMPORTANT TO SUBSCRIBERS TO THE COTTER FARM OIL COMPANY.

NOTICE IS GIVEN, That the books of the Company will positively be closed MARCH 1st, 1865, and the stock will be sold at subscription price after that date, and all subscriptions not paid by that time will be cancelled.

The Company have on their property one of Bolles' patent drilling machines, manufactured at Morris, Tucker, & Co.'s, one of which can be seen in operation at Massey, Collins, & Co.'s brewery, Tenth and Filbert streets. The Company expect, by the aid of this machine, to put down at least two wells in successful operation within six weeks. Persons wishing the stock of the Company at subscription price must make immediate application, as there are but ten thousand shares to be sold at subscription price, $2 50 per share.

Maps, Prospectuses, and all information can be obtained at the Company's offices, Nos. 23 and 24 Washington Buildings, 432 South THIRD Street.

The present and prospective value of the stock of this Company may be inferred from the fact that it owns a fee simple interest in 273 (four hundred and seventy-three) acres of the richest-tested oil territory in Venango county, believed by the most experienced oil men in that region to be capable of producing a net annual income to the Company of one and a half million dollars, or three times the entire cost of the stock, which would be equivalent to twenty-five per cent a month on its subscription price, or *one hundred and fifty per cent. per annum on its par value.*

The following is a description of the Company's property:

One-fourth fee simple interest in the celebrated "Hoover" Farm, situate on the Allegheny river, about two and one-half miles below Franklin, containing 272 (two hundred and ninety-two) acres, with 852 rods (or over one mile) front on the Allegheny river, on which there are now twelve leases, each ten rods square, and from which the owners of the fee simple get one half the oil, free of all expense. Besides this, there are two wells owned by the owners of the fee, from which they get all the oil.

On this Farm there are now ten wells in operation, producing an average of ten barrels per day and several others are about being tubed. There are also on it 187 (eighty-seven) more lots surveyed, and more than fifty applications are now standing to lease the latter for one-half the oil to the owners.

Out of the twelve wells on this Farm *eleven* are now paying handsomely, a fact which is sufficiently demonstrate the great richness and reliability of the territory.

No. 2

Is the *entire fee simple* interest in 151 (one hundred and eighty-one) acres, situate on the Allegheny river, nearly opposite the "Hoover" Farm, and a little nearer Franklin, at the mouth of Mill Run, having a front of 90 rods on the Allegheny river, and one mile on both sides of Mill Run, with ample boring surface for *one hundred wells*, or Lots of ten rods square. This tract is known as the "Stewart Farm," and is clear of all leases or incumbrances of any kind.

There is now in operation a fifty-barrel well (beside several smaller ones) on the Cochran Farm, which adjoins this on the south. In fact, the "Stewart" Farm is *surrounded* with good-paying wells, and within a short time a single lease of 50 rods front, on the immediate opposite side of the river, sold for $155,000 (one hundred and sixty-five thousand dollars.) On this lease a good well has been struck within a few days.

In addition to the territory of the "Stewart" Farm, which is believed to be equally as good as the "Hoover," there are a valuable three-story Grist Mill, with water-power, a good farm-house, and other buildings, that will be of use to the company.

The *divisibility* of this immediate oil section is illustrated by the fact that some of the wells on the "Hoover" Farm have been pumping for over four years, without any material diminution in their yield, while the oil here produced, from its greater convenience for transportation and superior gravity, always commands from one-to-two dollars per barrel more than the oil at Oil Creek.

The officers of the Company feel justified in presenting the following estimate of what, with economical management, the above lands can be made to yield for the benefit of the stockholders in a comparatively short time:

THE "STEWART FARM."

There is room on this fee-hundred lots of ten rods square, all of which can be leased immediately for one-half the oil, *free of all expense to the Company.*

Estimating one well to each lot (one hundred wells, although there is room for three hundred) at the very moderate average of *ten barrels each*, would make a Daily product of.....1,000 bbls.
Out of this the Company's share would be.....500 bbls.
Value of daily yield to the Company, at ten dollars per bbl (it is now selling at $15.50).....$5,000 00.
Allowing three hundred working days to the year, this would make the Company's annual net receipts from the Stewart Farm alone.....1,500,000 00.
Allowing the same estimate for the "Hoover" Farm, in which the Company own one-fourth in fee of the land interest, the annual net receipts from the latter would be.....375,000 00.
Making the annual receipts from both Farms.....1,875,000 00.
Deducting from this amount the sum of $375,000 for contingencies, would leave the Net Annual Income of the Company.....$1,500,000 00.

ALL THESE LOTS CAN BE IMMEDIATELY LEASED. If it is deemed expedient, at a royalty of one-half the Oil, with covenants binding lessees to sink wells, with all possible diligence, to the depth of 500 or more feet.

A FEW PLAIN WORDS TO SUBSCRIBERS.

You are not asked to subscribe to this Stock with the expectation of *immediately receiving large dividends*, but the basis on which the Company rests, it is believed, will make your investment not only *safe*, but, prospectively, of *enormous value*.

Notwithstanding, at the present prices of oil, the Company's annual receipts (without any further development) would be forty thousand dollars, or eight per cent. on the cost of the stock.

The President, Mr. Stewart, is one of the most practical and experienced oil operators in the State, and his residence near the Company's property and general oversight of its management is the best guarantee that efforts will be spared to make the investment profitable.

Applications for a large proportion of the stock have already been made, but none will be received until the books of the Company are regularly opened for that purpose.

Only a limited amount of the stock will be sold at subscription price.

The stock will be issued full paid, without further assessments.

BOOKS OF SUBSCRIPTION will be open for a few days, on and after January 15, 1865, at the office of

E. G. JAMES, Treasurer,

Office of the Company, No. 311 WALNUT Street, back building, first floor, Philadelphia.

The Estates of this Company are advantageously situated in the very choicest Oil Territory of West Virginia, adjoining and surrounded by many of the celebrated Oil Wells in the Burning Spring and Great Kanawha Oil District of West Virginia, giving assurance that there must be a very satisfactory yield of oil when the property of the Company is fully developed.

They comprise—

1st. A tract of land containing 104 acres, in Wood county, West Virginia, on the left fork of Walker's Creek, three-fourths of a mile from Walker's Station, 15 miles east from Parkersburg. A great portion of this is splendid boring territory, as the indications are remarkably favorable and surrounded by lands on which there are many wells in progress of development. Lying so near the West Virginia Railroad, the expense of delivering the oil to market will be very light, and it will be very light in comparison with many other locations. This tract is represented in fee.

2d. A lease upon four acres on the Newstead Farm, on Goose Creek, in Wirt county, on which there is a well 400 feet deep, in which several strata of heavy oil have been struck. The lay of the land is exceedingly choice. There is room for at least ten more wells on this lease: desirable property. The lease has seventeen years to run; the terms are, half of oil obtained, the owners paying one-half of all expenses after the oil shall have been struck. This well will be put in working order as soon as possible.

3d. A lease on one half acre on the KANAWHA River, in the WELL-KNOWN BURNING SPRING DISTRICT, on the celebrated KANAWHA ESTATE, having a Well on it of 125 feet in depth, which contained 52 feet of oil in it when the rebel raid occurred. This lease is within a few hundred feet of the celebrated "LEWELLYN WELL," which produced before the rebel raid 1 400 barrels of oil per day, and which was sold recently for $150,000 cash, as reported in the money article of the Philadelphia *Press* of January 3, 1865. The Company has commenced operations on this tract; a new engine is upon the ground with working apparatus, and a satisfactory yield of oil is confidently expected, as the pumping apparatus is put in operation. This lease expires in 1880. The Company are interested in thirds of the oil. The location and surroundings of this property are so well known that it is not necessary to say anything further about it.

It will be perceived from this Prospectus that the SUBSCRIBERS are offering for sale a portion of the Company's Stock in fee simple 104 acres of well-established Oil territory, two leases of the best boring territory in that celebrated region, offering superior inducements for parties seeking investment in oil property. The management of this Company is entrusted to WM. H. SCHALL, of Schuylkill county, Penna., a gentleman of great energy and industry, who will reside on and give the personal attention and supervision to every department, with a view to the economical development of the property.

☞ Subscription Books are now open at the Company's Office for a limited number of Shares at one Dollar per share. fe4-6t*

PUBLIC NOTICE.—REPRESENTATIVE RECRUITS FOR HANCOCK'S NEW ARMY CORPS.—All loyal citizens who would aid in procuring men to fill the ranks of Hancock's New Army Corps, and particularly all those who are liable to be drafted, should pay particular attention to the following announcement of the undersigned:

Any citizen desirous of procuring a Representative Recruit must procure a certificate from the Provost Marshal of his district stating whether he is liable to be drafted, or whether he is exempt. If exempt, a Representative Recruit will be furnished for three years for $850, for two years for $175, and for one year for $50.

If liable to be drafted, a Recruit will be furnished for one year for $800, for two years for $975, and for three years for $1,175.

Recruits must be Veteran Soldiers, and must be credited to the district to which they belong.

Citizens should avail themselves of the foregoing opportunity without delay, for it is well understood that it is the duty of every man to put in a Representative Recruit in order to avoid the draft.

The undersigned assumes all responsibility, and will furnish certificates to citizens presenting recruits for the term they may have been called, directly after they have been mustered in.

A Recruiting Office for Hancock's Corps has been established at No. 106 South SIXTH Street.

All necessary information will be cheerfully given by making application to BENJAMIN FRANKLIN, Chief of Detective Police, Mayor's Office, Phila. PHILADELPHIA, Feb 5, 1865. fe9 6t
