PLANTATION BITTERS BY THE MILE.—Messrs. P. H. DRAKE & CO., last year, sold nearly two million bottles of PLANTATION BITTERS. Allowing twelve inches to the bottle, set in a continuous line, they would extend 372 miles. What a mistake invalids we are! Just think of a stream, three inches square, extending from New York to Buffalo, being swallowed by human stomachs in a single year! Yet, people appear to thrive under it, and repeat with pleasure. We are inclined to think Drake & Co. are addicted to the persimmons. *Vivat* is PLANTATION, S. T.—1860—X. ap7 6t

HELP FOR THE HEROES OF RICHMOND.—In the exultations and thanksgivings of this glorious day, let us not forget the brave men who have paid for our victory with their blood, and who now lie on the battle-field maimed and suffering. Over one hundred Delegates of the CHRISTIAN COMMISSION are now among the wounded, binding up their wounds, giving them cordials and drink, assisting in carrying them off the field, and when they have borne the weary, jolting ambulance ride, giving them coffee and refreshments as they are placed in the cars. Hundreds of precious lives have already been saved by these ministrations. Generals GRIFFIN and CHAMBERLAIN have formally thanked the Agents of the Commission in the 5th Corps for these succors. Other Delegates accompanied the 24th Corps with similar ministrations. Additional minute men are going forward by every train. Demands for stores are coming in hourly. The Commission needs ONE HUNDRED THOUSAND DOLLARS TO SAVE LIVES. Millions a week hence will not restore the lives which you may save to day by sending your Delegates to the bleeding and fainting heroes who have saved your country.

Send in your contributions promptly to Mr. JOSEPH PATTERSON, Treasurer of the Christian Commission, Philadelphia, or to the Chairman, Mr. GEORGE H. STUART, Christian Commission Rooms, No. 11 BANK street, Philadelphia: ap7-6t

STOCKHOLDERS' COAL AT COST.

PRICE FOR APRIL, $7 PER TON.

The high price to which Coal advanced last year, and which it still maintains, has induced a number of gentlemen to organize a mutual association for supplying themselves, and such of their fellow-citizens as may desire to join them, with good Coal at

THE LOWEST POSSIBLY PRICE.

In pursuance of this object they have organized a company with a capital of ONE MILLION DOLLARS, with a charter under the laws of this Commonwealth, passed with a view to develop the mineral resources of the State

They have secured a lease of three of the BEST TRACTS OF COAL LAND belonging to the GIRARD ESTATE IN SCHUYLKILL COUNTY, on which mines are now open, and a SUPERIOR COLLIERY ERECTED, known as the Shenandoah Colliery, which is in complete working order, producing large quantities of Coal, equal to any

VERY BEST SENT TO THIS MARKET.

It can now be furnished to stockholders at $7 PER TON,

while the regular price is at least $10 per ton.

If the cost of production is diminished, the price will be reduced in the same proportion.

The Company own all the rights to the mining privileges on Coal to 520 acres of land, on which there are three celebrated veins of superior Coal, including the well-known Mammoth Vein. A new colliery screen and breaker erected only last year, with saw mills, miners' houses, and everything necessary to a successful prosecution of the business.

The capital is divided into one hundred thousand shares at

$10 PER SHARE,

the holder of each share being entitled to one ton of Coal per annum at the

ACTUAL NET COST OF PRODUCTION,

making now certainly

A SAVING OF $3 PER TON.

And from all indications the saving will continue at least as much through the year; and comparing the condition of the Coal market now with what it was at this time last year, the saving will probably be still more during a larger portion of the present year.

Coal now selling in the Eastern cities at $15 per ton, and there is scarcely any on hand there, even at that high price. And the Government contract for the supply of the Navy Department was recently awarded at a higher rate than last year, so that it is obvious that it will be wise for consumers to act promptly if they desire to secure their fuel at a low price.

The mines of this Company are so favorably situated that no Coal can be sent to market from the Schuylkill region more cheaply, and they are in such capital working order that the Company is sure to pay to its Stockholders large dividends, which will be made quarterly.

Subscriptions for the Stock and orders for Coal, to be supplied at cost, will now be received at the

OFFICE OF THE COMPANY,
