FISHER'S SELF-SEALING FRUIT CANS.
Every housekeeper in the city and country should use this excellent Can. It is the most convenient and reliable Can in use, and gives entire satisfaction wherever introduced. It is sealed in an instant, by hooking and spring. Thus clamping a tin cup over and around the opening, and pressing it upon a ring of cemented paper. The cement in the paper melts by the heat of the fruit, and as the process continues the fruit cools, and the sealing is perfect. The cap is untastened by unhooking the spring and running a thin knife around under the cemented paper.

TRADE LOCKWOOD'S
PAPER COLLARS.
CLOTH LINED
AND WITHOUT
CLOTH LINING.
MARK.
The Cloth Lined Collars made by the LOCKWOOD MFG. CO., at 286 Fulton street, New York, Philadelphia, have been in general use since 1858, and notwithstanding the fact that numerous imitations have been made, they are still the superior to any Collar in the market.
They are the only collars lined throughout with cloth, with a layer of paper on each side, and are made in all the styles even and uneven, so as to fit the shaped upon formers, or moulds, so as to fit the neck and allow a space for the cravat. The peculiar process used in their manufacture, makes them resemble linen collars, and gives to the wearer the air of the cloth give the appearance of linen to the paper. They are very strong, and do not tear at the buttonholes, and are the only collars made that can be turned and worn on both sides without the button-holes giving way and the linen showing.
Parties purchasing collars will be careful to see that each collar has our name stamped upon the inside: "Lockwood Mfg. Co., Cloth Lined, with the Trade Mark of the Co. and date of Patents. Do not be deceived by the backers of false representations, but ask for yourself. If the collar itself is not stamped upon the inside as above, it is not genuine.
The enormous demand for these goods (largely exceeding that of any collar made) has kept them sold ahead for years past, but will, in future, be kept at the new machinery, this Co. is now able to fill all orders promptly, either in Philadelphia or at any of the agencies.
In addition to these best standard goods, several lower grades of collars are constantly in stock.
The Lockwood Mfg. Co. are the sole licensees under Hunt's and Lockwood's Patents, (the first to make Paper Collars ever issued,) and by purchasing these goods parties avoid difficulties and lawsuits, which are now being prosecuted against dealers and others in other makes of paper collars, which infringe one or more of these Patents.
