It was nothing but an advertisement for Mr. Hall, and was of no value as news, political or other, of course the Gazette could not afford to lumber up its columns with such rubbish without pay, since space is of some value and neither devil nor compositors work for nothing. Hit 'em again. To Count d'Orsay, the noted dandy of the last generation, a London publisher once offered a large pile of guineas if he would write his memoirs and tell a part of what he have been to a spendthrift, always in wait of money, and who was just then particularly "hard up." "No." said the Count, after a moment's thought, "I will never botray the people with whom I have dined." Sainte- Beuve, who tells the aneodote, takes the occa- sion to give the origin of the phrase sub rosa With the ancients it was a principle, a religion, that whatever was said among table compan- ions was to remain secret and sacred : what- ever was said under the rose, sub rosa-in al- lusion to the ancient custom of the guests being	alone is their god. They are always sure something is going to " turn up " for their benefit, and therefore wait in idleness, with " folding of hands " while the industrious, with strong and sharp will, go manfully to work and " turn up " something from the most unpromising material. Luck sleeps on the hope of a legacy to-morrow, breakfasts on disappointment, and sits out the day in cold and hunger, still waiting for the fortune that labor achieves by sturdy blows and well-directed efforts. The ringing hammer and busy pen, are laying the foundation of compe- tence, while indolence tosters miser and clime. Luck is simply the bantling of the most prevery obstacle, and conquers the world in detail. Luck whines. Labor whistles. Luck relies on the turn of a card. Labor on sturdy blows and honesty of purpose. Luck slips downward to penury. Labor strides upward to independence. Luck makes the outcast and the climinal. Labor the man of substance and the Christian gentleman.	Special Notices TO CONSUMPTIVES.
