REMINGTON

FAMILY SEWING MACHINE!

THE subscriber announces to the public that he has the agency for the sale of the "Remington Family Sewing Machine" in Franklin county. Having tested its working qualities and capacity for several months he can safely recommend it as the very

BEST MACHINE IN USE.

Its construction is such that it can be run at a higher rate of speed than any shuttle machine now in use. In factories where the speed has been registered, over 1000 stitches per minute have been attained with ease. It is strong in all its parts, and free from the harsh and jarring movements, and friction, common in inferior machines. A simple change of the needle and thread and it will sew the finest cambric or the heaviest leather. The shuttle carries a large quantity of thread thus saving in a great measure the trouble of filling the bobbins.

The Remington has no rotary cams, cogwheels or lever arms to make a *noise*, run *hard*, or to *get out of order*.

Any girl of ordinary intelligence can keep it in order without the least difficulty.

The subscriber also informs his customers and the public that he has just opened out his new

FALL AND WINTER SUPPLY

of CLOTHS, CASSIMERES, VESTINGS, and all other goods for gentlemen's wear.—He solicits an inspection of his stock.
