THE DAILY EAGLE.

READING, PA.

THURSDAY, MARCH 11, 1869.

CITY AND COUNTY.

FIRST EDITION—12 1-2 P. M.

COMMUNICATIONS intended for publication in the EAGLE must be accompanied by a responsible name, as a guarantee of sincerity on the part of the writer. The name will not be published unless so desired by the correspondent.

Correspondents should make their communications short and to the point. Our space is too limited for very long articles. Write only on one side of the paper, and as plainly as possible, without flourishes.

SUBSCRIBERS who fail to receive the EAGLE regularly, will confer a favor by leaving notice at this office, where all complaints of irregularity or lateness of delivery will be promptly attended to.

ADVERTISERS are requested to hand in their advertisements as early in the day as possible, as our rapidly increasing circulation compels us to go to press about 2 p. m.

THE REHRER MYSTERY, in Schuylkill county, is solved at last. See our special despatch from Pottsville in the EAGLE to-day.

BRIEF MENTIONS.

Dan Rice is soon to begin a fourth annual farewell tour with his big circus. This year he travels exclusively by rail.

Great rivalry exists for the location of the State Fair this year. The claims of different places are being pressed forward with the strongest inducements.

To live without work, is everybody's aim. Time was when the surest road to wealth and honor lay through the workshop.

Mary will receive attention in our next.—*Exchange.*

Glad to hear it. You ought to be ashamed for neglecting her so long.

We are *not* "*half angry*" with our friend of the Scranton *Register*. He may say what he pleases about Reading, and we shall "like *him* none the smaller."

The Truck of the Keystone Hook and Ladder Company is at present undergoing repairs.

The poor Rads hereabouts cannot comprehend the drift of the new Cabinet. They are like the boy who whistled while passing the grave yard, to keep his courage up.

The nail works, in the rolling mill of Messrs. Brook & Co., at Birdsboro, are idle. Repairs are being made.

There is a gentleman in this city so thoroughly polite that he apologizes to his nose while having a cold for giving it so frequent a blowing.

The moving season has already been inaugurated in the county; several teams loaded with furniture, passed through the city this morning.

Mr. Slow thinks the point of a joke should be sufficiently long to hang a hat upon. It would be a good one that included his neck.

Our "old inhabitant" says we may expect an old fashioned snow storm before many days. Whether he has received a letter or not we cannot say.

Now is a favorable time to plant trees.

A circus manager was in town yesterday and promised to bring his show this way in April.

The question of "water" or "no water" is to be submitted to the people of Lebanon borough on Tuesday, March 16th. If it is decided in favor of "water," the Borough Council is to take such measures for its speedy introduction as may be deemed most advisable.

Light yellow, cream or lavender colored kids are said to be superceding white gloves as "the thing" for dress occasions.

A horse ran off from Seventh and Penn streets last evening. He was caught at Sixth street without having done any damage.

A dog killed six rats yesterday in the market house.

Pennsylvania is the greatest iron State in the Union—and Berks county is the greatest iron county in the great iron State of Pennsylvania. A fact which we can prove if questioned.

He who sleeps without supper gets up without debt.—*Exchange.*

But would'nt he be inclined to steal his breakfast?

The Continental Old Folks appeared in Lock Haven, last evening.

St. Patrick's day is coming. What do our Irish fellow citizens intend to do about it?

What is the difference between butchers and gas men? The former deal in meat, the latter in metres.

The following advice, which we copy from an exchange paper, although perhaps somewhat ultra, is—at least some of it—worth remembering: Be content as long as your mouth is full and your body warm—remember the poor—kiss the pretty girls—don't rob your neighbor's hen roost, never pick an Editor's pocket, nor entertain the idea that he is going to treat for every "bit" of information—kick dull care to the douce—black your own boots—never marry if you have a prospect of making a woman miserable—and we will add sew on your own buttons when you burst them off.

The velocipede school at the Keystone Hall is in full operation, and attracts nightly a large number of spectators to witness the sport.

The new Lodge, (C. C. C.,) is rapidly increasing its number of members. Those desirous of becoming charter members should send in their applications at once. It is a beneficial Lodge.

A new Liquor Store has recently been opened at the corner of Eighth and Penn streets by Messrs. Hughes & Rhode. They have on hand an excellent stock of brandies, gins, wines, etc.

Councils will meet on Saturday evening. It is expected that the "Water Matter" will occupy the entire time, in both branches, of the session.

William McIlvain is putting in order the ground lately purchased by him of Aaron Bright, on North 6th street, on which he will put up an extensive coal, wood and lumber yard.

The Court House steeple will be painted as soon as the weather becomes settled, which we suppose will be after the Vernal Equinox.

William McIlvain sold to John Cassidy, Dispatcher of the Philadelphia and Reading Railroad Company, a lot of ground adjoining the signal station on Centre Turnpike, on which he will erect a residence.

Mr. I. Rambo, 630 Penn street, has just replenished his store with a fine stock of candy. Lovers of sweet things should bear this in mind.

By reference to our advertising columns it will be seen that Michael Hasson, 113 South Seventh street, is now carrying on the Plumbing business alone, and is prepared to do work satisfactorily to those who may patronize him.

A large poplar tree in Chestnut street below Third, blew down last night, fortunately without injuring any person.

A large number of boat teams are passing through the city on their way to Schuylkill county.

Farmers are beginning to move grain to market. This morning we counted five wagons crossing the Harrisburg bridge, loaded with grain.

The Leesport Furnace is in full operation.

Mr. Troup is completing a new wheelwright shop in Front street below Penn.

TO BE REVIVED.—The old "Allen Rifles," one of the first Companies to respond to President Lincoln's call for troops in 1861, is to be revived. The Ringgold Artillery should follow suit.

THE Allentown Daily News says that a "lady" in that highly virtuous town passed a bad $2 note on a blind man, in payment for two brooms. Don't talk about Reading meanness, Mr. News, after that! We have no such "ladies" here, thank Providence!

READING.—Perhaps no inland town in the United States possesses equal advantages with our beautiful city, in regard to agriculture, commerce, manufactures, and general prosperity. Situated within fifty miles of the great emporium of the State, upon the banks of one of the finest rivers in the country, and surrounded on every hand by a rich and flourishing neighborhood, with proper exertions on the part of our citizens, it cannot fail, ere long, to become one of the most flourishing inland cities in the Union. With the manifold advantages we possess in point of locality, and by the employment of the natural enterprise of our citizens, Reading is calculated to become the second city in the State. Already do we outnumber in point of population every city and town in the State, with the exception of Philadelphia and Pittsburg; and in a year or two we venture to predict that we will outstrip the latter in point of inhabitants, agriculture, commerce and manufactures. The prosperity of our city for the past few years has indeed been astonishing. It has not been a long while ago since some of the larger towns in the State sneered at us because they far exceeded us in point of enterprise and population, but now we can boast of wealth, enterprise and population, and our sister towns and cities have nothing more to say about the "Dutch little town." Reading, from its admirable situation for the profitable employment of water and steam power to an almost unlimited extent, is eminently qualified to become a great manufacturing centre. This advantage is just becoming developed, as we hear of a project to build a cotton factory near Kissinger's Bridge, which will be driven by water power. The Schuylkill river, after supplying the canals, would furnish water more than sufficient to drive manufactories as extensive as those at Lowell, Massachusetts. There is also as much idle capital here, as is employed in the city of Lowell, and that capital once invested in manufactures will yield more real profit than that of our eastern neighbors. We have everything that is conducive to health and comfort—fine fresh mountain air, pure and wholesome spring water—all that is necessary to meet the wants of a great and active population. All we want now is still more increased enterprise to make us prosper in the future in a ratio proportionate to our late advancement.

STREET PEDDLERS.—Peddlers are nuisances, and especially are those peddlers nuisances who go around the town ringing the door-bells of houses, and leaving their circulars marked "to be kept until called for." These circulars are not always of a kind to be seen by ladies and children, and their effect upon *some* men might not be beneficial. The only way to manage these fellows is not to return the paper. Give orders that it be destroyed as soon as received, or, better still, not received at all. Not all of these perambulating individuals are honest, and it is well in every case, never to allow them to pass the front door. They have no legitimate business in the house. Their goods are in the main worthless and if powders, soap, etc., are often poisonous. Have as little to do with them as possible.

HOUSEHOLD FURNITURE.—The Supreme Court of Pennsylvania has recently decided that a bequest of "household furniture" includes all the furniture of a boarding-school establishment conducted by the testatrix in the house in which she lived, but does not include the furniture of the school-rooms.

OUR JOBBING DEPARTMENT.—We desire to call special attention to the excellence and completeness of our Jobbing Department. Our facilities for turning out work are superior to those of any other office in this city. Five presses are kept constantly running, and anything, from the largest poster to the tiniest card, can be printed on the shortest notice. Our compositors are skilful and tasty, and we proudly point to our cards, bills, book work, &c., as the best specimens of the typographical art which are gotten up in this city.

POLICE AFFAIRS.—William Campbell became very drunk yesterday afternoon, and in his wanderings got upon the railroad at the Penn street crossing. The first evening passenger train for Philadelphia came along, and William was nigh being run over by it. Had this unfortunately been the case, his friends might have sung and the bag-pipers played the familiar old Scotch air, "The Campbells are coming," until doomsday before poor William would have put in an appearance. Officer Boone took him to the Station House, where he is retained on account of having no money.

There were 7 lodgers at the Station House last evening.

[Communicated.]

EDITOR EAGLE:—Why is it that some ministers of our various churches, and other public speakers, so far depart from good pronunciation as to continually *o-press* us with the *o-pression* of the *o-pressor*, and almost upon every *o-casion* that may *o-cur*, seem to be *possessed* with a spirit of incorrectness, that certainly produces an *e-fect*, but unquestionably a very bad one? Several other words could be mentioned as being often made subject to this mutilation, but these are perhaps the most frequently presented to the attention of the hearers; not forgetting the inconsistent pronunciation of *kind* for the frequently used word, kind. Much can also be said in regard to the indifferent observance of punctuation marks; for instance, in the Psalmist: "The Lord will come, and he will not." After that line, the next is: "Keep silence, but speak out." Each line is a contradiction of itself separately; but by a proper union, they become a truthful expression, thus:

"The Lord will come, and he will not
Keep silence, but speak out."

Now, most assuredly, we continually look up to "the senate, the pulpit, and the bar," as our standard of right and wrong in the matter of pronunciation. It behooves those who take up a position in either of these influences to keep that standard pure, and not, at least, to misguide the many who follow the lead of a few, for the evil will not be confined to themselves, but will gradually and surely pass into common use. The evil, such as it is, is decidedly a growing one, and to all who love the fullness and freedom of our beautiful and expressive language, it cannot be a matter of indifference that its force and vigor should be thus frittered away.

Mr. S. L. McCullough, who has been traveling in the West, is now at his home in Reading.

DECLINE IN SUGAR.—The shipments of sugar and molasses to the United States are very heavy from ports of Cuba, and in our large cities the wholesale prices of sugars have fallen two cents per pound. This will be good news to consumers and dealers of limited means who have not laid in a large supply.

For the Reading Daily Eagle.

MR. EDITOR:—The joke perpetrated by your correspondent, "M.," in last evening's EAGLE, is very severe. Indeed, I wonder how he survived the effort. He probably knows I am not a fighting man, or he would not have presumed to make such familiar use of my name. I say familiar, because he has no right in courtesy to name the grade of office to which I should be appointed without consulting my aspirations. I wish him to understand that dry goods men are looking up. Their political thermometer marks higher than mere "temperate;" that when they come out for office they want the big thing. Nothing less than the choice of a chair in the Cabinet, with assurances of advancement, will prove any temptation. Until we announce the position we are willing the dear people shall place us in, "let us have peace."

READING, Thursday, March 11th.

THE WORKING PEOPLE.—The Gas and Steam Fitters of New York have determined to strike on March 22d for the increase of their wages to $4 per day.

The Marble Polishers of Brooklyn have resolved to ask an increase of wages to $3 50 per day.

The beam hands in the Morocco manufactories of Newark have struck for higher wages, which the employers have refused. It is stated that the men demand a uniform advance of wages regardless of the ability of the workmen, every man to receive the same price, whether he had been at work at the "beam" six months or six years.

The stone cutters of Baltimore are on a strike to enforce the observance of certain resolutions passed by the association. These resolutions of the journeymen express a demand for $4 50 for nine hours' work after March 1st, 1869, and declare that they will cease work at four o'clock on Saturdays, and from the first of November to the first Monday of March they will go to work at half past seven o'clock in the morning, and stop work at sundown.

The ingrain carpet weavers of Philadelphia are about to form a union.

TWENTY of the Philadelphia policemen resigned on Thursday night, because the Mayor had issued orders forbidding them to "loaf" on the corners and in saloons. The Eighteenth district was left all night with but half the usual force, the men offering their resignation as they were about to go on duty for the night.

PENNSYLVANIA LEGISLATURE.

HARRISBURG, March 10.

In the Senate, a resolution was introduced by Mr. Lowry, providing for an evening session to be devoted to consideration of the amendment to the Constitution. Debate to be limited to half an hour and vote to be taken at 10½ o'clock this evening. The question was called and sustained by the Republican Senators, and the resolution passed by a strict party vote.

Resolutions postponing the consideration of the amendment and leaving the matter to a popular vote were offered by Messrs. Wallace and Davis, but were defeated by a party vote.

Mr. Davis read in his place and presented to the Chair, a bill relating to the Reading library company.

The whole evening session was spent in the discussion of the Fifteenth Amendment to the Constitution, providing for negro suffrage.

The Democrats of Pennsylvania were most ably represented by Messrs. Burnett, Scaright, M'Candless, Davis and Wallace.

The Republicans agreed in their caucus to say nothing to defend their position, but Senator Lowry becoming restive under the lashing of the Democratic Senators, made as able a defence of the fraud about being perpetrated upon the people as his feeble condition would admit. During the discussion Senator Errett made himself so obnoxious to the whole Senate that the Speaker was compelled to call him to order.

On the question, will the Senate ratify the amendment, the yeas and nays were required by Mr. Errett and Jackson and were as follows:

Yeas—Messrs. Billingfelt, Brown (Mercer), Coleman, Connell, Errett, Fisher, Graham, Henszey, Kerr, Lowry, Olmsted, Osterhout, Robinson, Stinson, Stutzman, Taylor, White and Worthington, Speaker—18.

Nays—Messrs. Beck, Brown, (Northampton), Burnett, Davis, Duncan, Jackson, Linderman, M'Candless, M'Intire, Miller, Nagle, Randall, Searight, Turner—15.

So the question was determined in the affirmative. The preamble and title were also agreed to.

In the House, the following bills passed finally:

No. 314, an act to enable the courts of common pleas of this Commonwealth to change the name, style and title of corporations.

No. 316, an act to authorize appeals to the Supreme Court in applications for, and changes of charters of incorporations.

No. 373, an act to repeal the last proviso to the thirty-ninth section of the act approved 29th April, 1844, in relation to State Board of revenue commissioners.

No. 375, an act making uniform the several courts of the State in counting time, in relation to the stay of executions.

No. 361, an act to settle, determine and locate the southern boundary line of this Commonwealth, was taken up, amended and passed.

No. 353, an act relative to actions of trespass and for mesne profits, was passed.

HOOFLAND'S
GERMAN BITTERS
AND
HOOFLAND'S GERMAN TONIC.
The Great Remedies for all Diseases of the
LIVER, STOMACH OR DIGESTIVE ORGANS,
HOOFLAND'S GERMAN BITTER'S
Is composed of the pure juices (or, as they are medically termed, Extracts) of Roots, Herbs and Barks, making a preparation, highly concentrated, and entirely *free from alcoholic admixture of any kind.*
HOOFLAND'S GERMAN TONIC,
Is a combination of all the ingredients of the Bitters, with the purest quality of *Santa Cruz Rum, Orange, &c.*, making one of the most pleasant and agreeable remedies ever offered to the public.
Those preferring a Medicine free from Alcoholic admixture, will use
HOOFLAND'S GERMAN BITTERS.
Those who have no objection to the combination of the Bitters, as stated, will use
HOOFLAND'S GERMAN TONIC.
They are both equally good, and contain the same medicinal virtues, the choice between the two being a mere matter of taste, the Tonic being be most palatable.
The stomach, from a variety of causes, such as Indigestion, Dyspepsia, Nervous Debility, etc., is very apt to have its functions deranged. The Liver, sympathizing as closely as it does with the Stomach, then becomes affected, the result of which is that the patient suffers from several or more of the following diseases:
Constipation, Flatulence, Inward Piles, Fulness of Blood to the Head, Acidity of the Stomach, Nausea, Heart-burn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant imaginings of Evil, and Depression of Spirits.
The sufferer from those diseases should exercise the greatest caution in the selection of a remedy for his case, purchasing only that which he is assured from his investigations and inquiries possesses true merit, is skilfully and fully compounded, is free from all injurious ingredients, and has established for itself a reputation for the cure of these diseases. In this connection we would submit those well-known remedies—
HOOFLAND'S GERMAN BITTERS
AND
HOOFLAND'S GERMAN TONIC,
PREPARED BY Dr. C. M. JACKSON, PHILADELPHIA, PA
Twenty-two years since they were first introduced into this country from Germany, during which time they have undoubtedly performed more cures, and benefited suffering humanity to a greater extent, than any other remedies known to the public.
These remedies will effectually cure Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, Chronic Diarrhœa, Diseases of the Kidneys, and all Diseases arising from a Disordered Liver, Stomach or Intestines.
DEBILITY,
Resulting from any Cause whatever; PROSTRATION OF THE SYSTEM, induced by Severe Labor, Hardships, Exposure, Fevers, &c.
There is no medicine extant equal to these remedies in such cases. A tone and vigor is imparted to the whole system, the appetite is strengthened, food is enjoyed, the stomach digests promptly, the blood is purified, the complexion becomes sound and healthy, the yellow tinge is eradicated from the eyes, a bloom is given to the cheeks, and the weak and nervous invalid becomes a strong and healthy being.
PERSONS ADVANCED IN LIFE,
And feeling the hand of time weighing heavily upon them, with all its attendant ills, will find in the use of the BITTERS, or the TONIC, an elixir that will instil new life into their veins, restore in a measure the energy and ardor of more youthful days, build up their shrunken forms and give health and happiness to their declining years.
NOTICE.
It is a well-established fact, that fully one-half of the female portion of our population are seldom in the enjoyment of good health, or, to express it, to use their own "never feel well." They are languid, devoid of all energy, extremely nervous, and have no appetite.
To this class of persons the BITTERS, or the TONIC, is especially recommended.
WEAK AND DELICATE CHILDREN
Are made strong by the use of either of these remedies. They will cure every case of MARASMUS, without fail.
Thousands of certificates have accumulated in the hands of the proprietor, but space will allow of the publication of but a few. Those, it will be observed, are men of note and of such standing that they must be believed.

From Rev. Joseph H. Kennard, D. D
Pastor of the Tenth Baptist Church, Phila.
Dr. Jackson—Dear Sir: I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear instance and particularly in my own family of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that, *for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation.* In some cases it may fail but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.
Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates street
From Rev. E. D. Fendall,

Yours, truly,
E. D. FENDALL.
