HOME MATTERS.

TERRIBLE ACCIDENT—TWO MEN DROWNED.—Three men who were engaged in various iron works in Bayardstown, and who resided in Allegheny, attempted to cross the river, on Saturday morning, about 6 o'clock, in a skiff. They pushed into the river above where the upper bridge stood, and had nearly succeeded in crossing, when they were borne by the rapidity of the current against the pier nearest their destination, and their frail bark upset. Their cries attracted attention to their sad condition, but the spectators found it impossible to save them. Mr. William Leao, who worked in Coleman's rolling mill, struck out for a floating log, which he managed to grasp, and was borne down the river.

The Captain of the Steamer Clara Fisher, which was coming up, heard his cries, and he was rescued by him and his crew, from certain death. When brought on board, he was benumbed with cold, and could not possibly have clung to the log much longer. His companions in misfortune, supported themselves for a while, by the skiff, but are supposed to have been drowned, as it was afterwards picked up near Saw Mill Run, and no tidings have been heard of them.—Their names were Laughlin and Miller, and they worked in the Messrs. Shoenbergers' rolling mill. Mr. Leao was taken into the Perry House, where the usual restoratives were applied, and every attention paid to him by the landlord.

If the wretch who fired the upper bridge has not lost all feelings of humanity, he will feel deeply the effects of his crime, murderer as well as incendiary that he is. These men crossed the bridge daily, and when it was destroyed, were obliged, to save time, to go over by means of a skiff. Thus their death is clearly attributable to the burning of the bridge, and two families have been deprived of their protectors, to gratify the malice of a fiend! We trust he will not go unwhipt of justice.

DEMOCRATIC PRIMARY MEETINGS.—The Democrats assembled in the various Wards and Boroughs on Saturday, for the purpose of electing delegates to attend a County Convention, and select delegates to go on to a State Convention, to be held in Reading, next June, in order to nominate a candidate for Governor and Canal Commissioner. The persons elected are understood to be favorable to the nomination of Col. Black, for Governor.

BREAK IN THE CANAL.—A slight break occurred in the canal about four miles above Freeport, on Friday morning. The canal was half full of water when a small viaduct gave way. A large number of hands were at once set to work, and we learn that the repairs will be fully completed to-day, and that the water will probably be let in to-morrow.

NEW MARKET HOUSE.—A large number of citizens friendly to the erection of a new Central Market House, assembled in the Sixth Ward School House on last Saturday night.

Dr. Alexander Black took the Chair, and Messrs. Jared M. Brush, and M. W. Lewis acted as Secretaries.

The Committee appointed at the previous meeting, through their Chairman, John Harper, offered the following report, which was adopted:

The Committee appointed for the purpose of inquiring if a site for a Central Market House, can be obtained within the Third Ward, and east of Smithfield street, so situated as to afford a ready and easy access from the nine Wards of the city, beg leave to

REPORT

That they have performed the duties entrusted to them as far as practicable, and submit the information which they have obtained, together with their views, for your consideration.

The only property which your committee deemed to be within the scope of their instructions, and suitable for the purpose indicated, is,

1st. That strip of ground on the east side of the canal, bounded by Fountain street, and extending between Washington street and the junction of Fountain and Grant streets. It mostly belongs to the Hon. Harmar Denny, and is covered with buildings of but little value, some of which are subject to long leases; but a few of the lots in the range have been sold to persons from whom it might be difficult to obtain a purchase upon reasonable terms. Your Committee had an interview with Mr. Denny, and after some deliberation, that gentleman decided that, from the condition of his property, he would not offer it for sale.

Second, Your Committee took into consideration that piece of ground lying between Seventh and Liberty streets, along Grant street, and one hundred feet deep northwardly, and which is the property of Capt. E. W. H. Schenley. By widening Grant street so as to embrace this ground, a most excellent location for a Central Market Place could be secured, and of sufficient area to answer the wants of the public. A note was addressed to Capt. Schenley, asking the terms upon which he would be willing to dispose of this property, for the purpose of a market house.—That gentleman called upon the Chairman of the Committee, and manifested his willingness to sell the property in question for public purposes, either by a title in fee simple, or by perpetual lease. He consents to lease it in perpetuity for the annual rent of twenty five hundred dollars. The triangular lot on Liberty street brings now a clear rent of six hundred dollars per annum, and if that corner of the ground can be dispensed with, Capt. Schenley will deduct the sum of ten thousand dollars from the principal of the ground rent, but your Committee recommend, if the location be approved and accepted, that, for reasons obvious to every one, the city should obtain the entire square, and open immediately negociations for the purpose.

All of which is respectfully submitted.

John Shipton, John Harper,
M. W. Lewis, Samuel McKelvy,
Jared M. Brush, Alexander Black.

John Harper, Esq., then read the following memorial, intended to be sent to the City Councils, when it receives the signatures of those of our citizens who are favorable to the erection of a new central market house:

"To the Honorable the Select and Common Councils of the city of Pittsburgh:

The undersigned memorialists respectfully represent,

That at a large public meeting of the citizens, recently held, the subject of the inadequacy of the present Diamond market house to afford comfort and convenience to the vast number of people who are forced to it, was taken into consideration, and with an unanimity of sentiment it was agreed upon that another market house is necessary, and that the public prosperity will be promoted by its establishment. Though not precisely the point which would have gratified every sectional bias, yet by a compromise of interests, the Third Ward was selected as the most suitable location for a central market place, and a committee was appointed by the meeting to examine and report if a site could be obtained which would afford a ready and easy access from the other wards of the city.

That committee performed the duty entrusted to them, and have indicated a piece of ground belonging to Capt. E. W. H. Schenley, as combining in a high degree the advantages requisite for this purpose. This site is upon Grant street, and extends for one hundred feet in depth, between Seventh and Liberty streets, crossing Plum alley and Eighth street, and it is considered as near to the centre of population as it is practicable to approach, without subjecting the sellers to inconveniences which it is always politic to avoid.

Accompanying this memorial is a report which we submit for your consideration, as it states the situation of the property, together with the price which its owner has put upon it. While we pray for such action of Councils as will secure to the city so desirable a site for a market place, and the speedy erection thereon of such buildings as are necessary to the wants of a great and growing community.

We also beg leave to recommend the simultaneous improvement of the Diamond market ground, and in such a manner as will afford those facilities which are now denied to both buyers and sellers, and at the same time satisfy a laudable public taste which demands gratification."

On motion, it was

Resolved, That the memorial be accepted and approved, and that it be signed by the officers of this meeting, as embodying its views, and submitted to Councils at their next meeting.

Resolved, That printed copies of the memorial be circulated in the different wards, under the charge of the Committee by whom it was prepared: and that when the signatures of citizens be obtained, they shall be presented the Councils.

Resolved, That the members of Councils in the nine wards of the city are requested to support the project for which the meeting was called.

Resolved, That the proceedings of this meeting be published in the city papers.

PLANK ROAD.—The Allegheny and Manchester Plank Road will be completed through the borough limits this week, and the work on the remaining portions is progressing rapidly. It will be a great convenience for the inhabitants of Manchester, and save them many a muddy walk.

BRIDGE WATCHMAN.—Mr. Joseph Justice, formerly a member of the city night watch, is now engaged as watchman of the Old Allegheny Bridge.

FALSE ALARM.—The alarm of fire at an early hour, yesterday morning, was false.

We call attention to the announcement of a course of lectures on India, by the Rev. Mr. Jenkins—a Wesleyan Methodist minister from Canada—contained in another column.

We understand that Mr. J. was, for a number of years, a missionary in that interesting country, and is therefore prepared to speak from personal observation. He has lectured on this subject, to large audiences in England and in Canada, and greatly to their satisfaction. We are informed that he delivers these lectures by request, and that the proceeds will be devoted strictly to the promotion of a benevolent object.

By special request, Mr. Jenkins will deliver a lecture in the South Common, M. E. Church, this evening, on the religion of the Hindoos.—We hope that there will be a full house.

REIMERSBURGH CONVENTION.—A delegate, just returned from an attempt to reach the Reimersburgh Convention, informs us that the Pittsburgh delegation proceeded no farther than the Aqueduct above Freeport—that they were there stopped by the Steamer's (Allegheny Belle's) inabiltiy to pass under the Aqueduct, in consequence of the rise in the river.

The delegation organized on board the boat, on Saturday night, and passed, after discussion, (and speeches from the Hon. Charles Naylor and Gen. Larimer,) resolutions, reported by Mr. Wilmarth, strongly in favor of instantaneous organization for executing the proposed Railway.—The resolutions and proceedings, enclosed in a letter, signed by the whole delegation, (fifteen in number) were dispatched, by Mr. Guthrie, on horseback, to the Convention.

Gen. Larimer, Messrs. Wilmarth and Bryant, and Captain Naylor, returned on Saturday, in an open skiff on the river—unable to procure any other means of getting back, without being obliged to wait, probably, some days. Our informant reports Captain Wilmarth, a pilot of great skill, and is enthusiastic in his praises of the cheerful and hearty oarsmanship of Gen. Larimer—for these two, one as pilot and the other as oarsman, worked the craft down, safely, amidst whirling eddies and a floating wilderness of drift.

It is time that we had provided better and safer and more expeditious means of communication between our city and this most important Allegheny region—for, as yet, we have little more than poorly constructed roads over old Indian trails, and a resort, at certain seasons, to the river.

DISTRICT COURT.

Before Honorable Walter H. Lowrie.

The ejectment case of Cooper, et al, vs. Allison, et al, mentioned in our edition of Saturday, has not been concluded.

ANTIQUITIES.—A large number of antiquities were found last week, by some workmen, employed by Mr. S. M. Wickersham, to dig a saw pit on his premises near the point.

They were found in a basin shaped cavity, and the articles, most of which were of metal, were much oxydized. Among them were a lot of jackknives, a spade, a shovel, some metal buttons, a bayonet, a brass jewsharp, a boat hook, a buckle, some English pennies, one of which bore the date of 1737, together with some bones of animals—the beak of a hawk, &c.

Judging from the strange medley of articles, of but little intrinsic value to a white man, and the careful manner in which they were concealed, we would suppose that they had been deposited there by some Indian, the secret of whose treasure died with him.

MISCHIEF.—A young lad was arrested and taken to the Mayor's office on Saturday, charged, on information of the Superintendent of the Gas Works, with annoying the neighbors by throwing stones at their houses. He was dismissed on paying the costs, and we trust he has learned a lesson which he will not soon forget.

COMMITTED FOR FURTHER HEARING.—Young Armstrong, accused of committing an assault and battery with intent to kill on the person of Mr. Culbertson, at a late hour of the night, was committed to prison by the Mayor, on Saturday. We stated that he was accused of highway robbery, but find that Mr. Culbertson's information does not charge him with that offence. The defendant is said to have acted in concert with a number of other young men in making the attack, which was wholly unprovoked.

WASHINGTON'S BIRTH DAY.—The Jackson Blues paraded on Saturday, in honor of the illustrious Washington's birth day.

THE SLAVE CASE.

BOSTON, Feb. 22.

The eighth arrest for aiding in the late outrage was made this afternoon. The prisoner is one Louis Hayden, a second hand clothes dealer, who is one of the leading spirits among the negroes in the city. He said to a friend who remarked that "he was a smart man," that "it took a smart man to perform the rescue." Bail was given in $3000, by N. Buffen, of Lynn, a noted Abolitionist. The prisoner had frequently said that *he* was a runaway slave, and that he would shoot any man who would attempt to arrest him.

The examination of Davis is not yet concluded.

ARREST OF SENATOR STANLEY.

WASHINGTON, Feb. 21.

Mr. Stanley, of North Carolina, was arrested to day, upon a warrant issued on the oath of Walter Lenox, Mayor of the City, and taken before Justice Mosell—charged with challenging Mr. Inge, of Alabama, for alleged offensive words spoken a few days since in debate.

After a hearing, Mr. Stanley was dismissed for want of evidence.

Mr. Inge, and his friend Gov. Brown have not yet been arrested, although the Police have been searching for them all day. The general impression now is, that a challenge has been passed, and a duel agreed upon.

WASHINGTON, Feb. 22nd.

The Message of the President in reply to the resolution of the Senate of the 18th instant, was published this morning.

The President quotes the laws of the Massachusetts Legislature, passed expressly to prevent the execution of the laws of Congress with regard to fugitive slaves. He recommends the prompt execution of the laws, and repeats the assurance that they shall be faithfully enforced; and all forcible opposition to them suppressed; and that, to this end, he is prepared to exercise the power vested in him to the fullest extent.

The tone of the message is firm and decided, and was well received.

NEW YORK, Feb. 22.

SUDDEN DEATH OF A STRANGER.—We learn from Mr. Henry G. Davis, conductor on the Baltimore and Ohio Railroad, that yesterday, a few moments before his train reached Harper's Ferry, he observed one of the passengers sitting back in his seat, and asked him for his ticket.—He remarked that he was going to Philadelphia, and showed his ticket. The cars at that moment reached Harper's Ferry, when Mr. Davis passed into the hotel to take his dinner, and had not sit down before he was told that there was a dead man in one of his cars. He immediately returned, and found the gentleman he had but a moment before spoken to, still sitting back in his seat, perfectly insensible, and on calling a physician he pronounced him dead. He seemed to have died instantaneously, without a struggle.—He was immediately after recognized by a fellow passenger, as Mr. P. Delany, merchant tailor, of 190 Liberty street, Pittsburgh, and on examining his person, cards and bills in that name were found in his possession. A coroner's jury was summoned, and the investigation was progressing when the train left. He appeared to be a man about 40 years of age, of medium stature. The gentleman from Pittsburgh, who recognized the body, consented to remain at Harper's Ferry until the arrival of his friends, who had been immediately telegraphed for.—*Balt. Sun.*

SEVERAL PERSONS SERIOUSLY INJURED.—On Saturday morning last, while the steamboat Hindoo was fast on the rocks at Louisville, with a cable extended to shore to pull her off, the Pennsylvania came up, ran against the cable with great force, pulling the captain out of the boat, breaking off seventeen stancheons, &c. Seven of the passengers, three of them being women, were crushed up together with the splinters, boxes, &c., and swept along the deck twenty feet. None of them were killed, but badly mashed, and one or two will probably not recover. A Mrs. Costerman, of Cincinnati, was taken on the mail boat to be carried back to this city. The captain of the Pennsylvania, it is said, was requested not to go over the cable, but he persisted in doing it.—*Cin. Gaz.*

The great remedy for Consumption of the Lungs, Affections of the Liver, Asthma, Bronchitis, Pains or Weakness of the Breast or Lungs, and other affections of the Pulmonary Organs.

WE do not wish to trifle with the lives and health of the afflicted, but we sincerely pledge ourselves to make no assertion as to the virtues of this medicine, and to hold no hope to suffering humanity, which facts will not warrant.

The Moss of Iceland, and the Pine and Wild Cherry, are justly celebrated for the cure of all diseases of the Lungs and Liver, which are so fearfully prevalent in all Northern latitudes. From a combination of chemical extracts, procured from this Moss and those Trees, DR. WISTAR'S BALSAM OF WILD CHERRY is chiefly formed.

☞Wistar's Balsam of Wild Cherry is a fine HERBAL MEDICINE, composed entirely of Wild Cherry Bark and the genuine Iceland Moss, (the latter imported expressly for this purpose,) the rare medical virtues of which are also combined by a new chemical process, with the extract of Tar—thus rendering the whole compound the most certain and efficacious remedy ever discovered for the CONSUMPTION OF THE LUNGS.

HEREDITARY CONSUMPTION Cured by Wistar's Balsam of Wild Cherry.—The following case of Jeremiah Isgrigg, of Consumption, (five of his brothers and sisters having died of Consumption,) is truly wonderful:

PLEASANT RIDGE, Hamilton co., Sept. 27, '50.

J. D. PARK—Dear Sir: I take the liberty of advising you of the benefit I have derived from the use of Dr. Wistar's Balsam of Wild Cherry. I was prostrated by that terrible scourge, Consumption, in May last. The attack was truly horrifying to me, for five of our family, (my brothers and sisters) had died of Consumption. I was afflicted with nearly all the worst features of the disease, I had a distressing cough and expectorated a great deal of blood, hectic fever, severe pains in the side and chest, cold chills, alternating with flushes of heat.

I was under the care of a skilful physician, from the time I was taken sick until about six weeks since, being then about helpless, and my friends considered my case hopeless, or at least beyond our physician's skill; advised the use of Wistar's Balsam of Wild Cherry. Without my knowledge, my father procured it, and commenced administering it to me, and from the first day I commenced taking it my health improved, and in two weeks from the time I commenced using it, I was able to be out and over see my business, and labor, which I still continue to do. I have taken four bottles of the medicine, and now consider myself perfectly well. JEREMIAH ISGRIGG.

CROWN POINT, Lake Co., Ia., June 15, '46.

JOHN D. PARK—Dear Sir: In July, 1840, I was attacked with a fever of typhoid character, which left me in a very debilitated state, when, in the following winter, I was taken with a severe cold, which reduced me to such an extent as to give me the appearance of a confirmed consumptive. I labored under a severe cough—expectorated a great deal, and was troubled with cold feet and night sweats. I also frequently raised blood from my lungs. I continued in this state, gradually sinking under the disease, until January, 1847, when I was again attacked with fever. My friends despaired of my life, and my physicians thought I could survive but a short time. My extremities, especially my feet, were constantly cold, and almost lost their feeling. Under these circumstances it may be truly said I was a living skeleton. I finally determined to quit taking medicines prescribed by physicians, and try Dr. Wistar's Balsam of Wild Cherry, and from the first week that I commenced taking it, I can date a gradual recovery. I continued its use six months, at the end of which time I was cured, and enjoyed good health ever since, and cheerfully recommend the Balsam to all those afflicted with diseases of the lungs, and would say to those commencing its use not to be discouraged if two or three bottles do not effect a cure; but persevere, as I have done, and I have no doubt but nine cases out of ten, will be blessed with renewed health as I have been. Respectfully yours, JOSEPH JACKSON.

IMPORTANT TO THOSE AFFLICTED WITH DISEASES OF THE LUNGS AND BREAST.

From Dr Baker, Springfield, Washington County, Ky.

SPRINGFIELD, KY., May 14, '49.

Messrs. Stanford & Parke—I take this opportunity of informing you of a most remarkable cure performed upon me by the use of Dr. Wistar's Balsam of Wild Cherry.

In the year 1840, I was taken with an inflamation of the bowels, which I labored under for six weeks, when I gradually recovered. In the fall of 1841 I was attacked with a severe cold, which seated itself upon my lungs, and for the space of three years I was confined to my bed. I tried all kinds of medicine, and every variety of aid, without benefit, and thus I wearied along until the winter of 1845, when I heard of Dr. Wistar's Balsam of Wild Cherry. My friends persuaded me to give it a trial, though I had given up all hopes of recovery, and had prepared myself for the change of another world. Through their solicitations I was induced to make use of the genuine Wistar's Balsam of Wild Cherry. The effect was truly astonishing. After three years of affliction and suffering, and after having spent four or five hundred dollars to no purpose, and the best and most respectable physicians had proved unavailing, I was soon restored to entire health by the blessing of God and the use of Dr. Wistar's Balsam of Wild Cherry.

May the blessing of God rest upon the proprietors of so valuable a medicine as Wistar's Balsam of Wild Cherry.

Yours respectfully, W. H. BAKER.

Rare Chance for Capitalists and Manufacturers.

THE undersigned being agent for the owners, offers for sale a number of town lots in the town of Massillon, Stark county, Ohio, with out lots, and small parcels of land adjoining and near the town. Massillon, being situated on the Ohio Canal, and the Ohio and Pennsylvania Railroad, now nearly completed, passing through it, this real estate affords, perhaps, the best opportunity lately offered, to persons who may wish to engage in manufacturing of almost any description. The abundance and cheapness of all the means of living, the supply of coal for fuel for steam power, the great quantity of wool brought to this market, as well as the facilities for transportation of manufactured articles, all combine to make this one of the most desirable points for establishing manufactories of Iron, Wool, Cotton, indeed of all descriptions which is now afforded in the Western country.

Several improved farms, in the vicinity of the Canal and Railroad, are also offered—a tract of 375 acres of excellent timbered land, lying between the Canal and Railroad, and about half a mile from the latter; a lot of about seven acres, adjoining the Railroad Depot, along one side of which the tract passes, and on two sides, streets of the town. Hotel keepers and merchants will do well to look at this before they purchase elsewhere.

The position of Massillon, in the heart of an agricultural region, not surpassed by any in the country, is so well known that it is deemed unnecessary to do more than refer to it to induce all who wish to make good investments, to call and examine this property. Title indisputable and long credit given if desired. Hon. Andrew W. Loomis and Joshua Hanna, Esq., of Pittsburgh, will give information concerning it, and any enquiries will be answered by application to Thomas McCullough, Kent Jarvis or the undersigned at Massillon. DWIGHT JARVIS.

Murphy's Self-Sealing Advertising Envelopes.

NO. 263 MADISON ST., NEW YORK.—The subscriber, in soliciting the patronage of all who may see this advertisement, feels none of that hesitation with which a new article is brought before the public. The experience of years has established their superiority beyond all question, and the approbation of nearly every one who has used them, is the best guarantee of their merit and to its rapidly increasing sales, as proof of their excellence.

The following are a few of the reasons for their popularity:

1st. On the place occupied by the seal, a person may have his name, business, and address, conspicuously and beautifully embossed, or stamped, thus affording perfect security against fraud.

2d. The Envelopes cannot be opened without being destroyed.

3d. Neither wax nor wafers are required to seal them.

4th. Upon the miscarriage of a letter, the seal insures its immediate return to the sender, instead of being buried months in the Dead Letter Office.

5th. The Envelopes are furnished at almost the same price as plain ones.

6th. Each letter mailed is a most effective advertisement, sure to attract the attention of all through whose hands it may pass.

The following is a list of prices for DIES, engraved on brass, and which will last for years, and of ENVELOPES, of the usual size, either white or buff, of good paper, and made as above, with name, address, &c.:

Prices of Dies.		*Prices of Envelopes made as above.*	
20 letters or less	$4,00

Professor A. C. Barry's Tricopherous,

OR MEDICATED COMPOUND, infallible for renewing, invigorating, and beautifying the hair, removing the scurf, dandruff, and all affections of the scalp, and curing eruptions on the skin, diseases of the glands, muscles and integuments, and relieving stings, cuts, bruises, sprains, &c. With this preparation "there is no such word as fail." The first journals in America, medical men of the highest eminence, prominent citizens of all professions, and ladies who have used it for years in their dressing rooms and nurseries, admit it with one accord, that for imparting vigor, gloss, luxuriance, and curl to the hair, eradicating scurf and dandruff, healing wounds, curing contusions, sprains, stings, &c., and relieving diseases of the skin, the glands, and the muscles, it has no equal among the multitude of compounds advertised in the public prints, or used in private practice. In cheapness as well as efficiency, Barry's Tricopherous is unrivalled. The immense cash sales of the article, have enabled the inventor to supply it at 25 cents per bottle, which is from 50 to 100 per cent less than the price of any other preparation for the hair now in use. The scientific treatise on the hair and the skin embracing the valuable directions for the culture and preservation of nature's choicest ornament, in which each bottle is enclosed, is alone worth the money.

The affinity between the membranes which constitute the skin and the hair, which draws its sustenance from this triple envelope, is very close. All diseases of the hair originate in the skin of the head. If the pores of the scalp are clogged, or if the blood and outer fluids do not circulate freely through the small vessels which feed the root with moisture, and impart life to the fibres, the result is scurf, dandruff, shedding of the hair, grayness, dryness, and harshness of the ligaments, and entire baldness, as the case may be. Stimulate the skin to healthful action with the Tricopherous, and the torpid vessels, recovering their activity, will annihilate the disease. In all affections of the skin, and of the substrata of muscles and integuments, the process and the effect are the same. It is upon the skin, the muscular fibre, and the glands, that the Tricopherous has its specific action, and in all affections, and injury of those organs, it is a sovereign remedy.

Sold in large bottles, price 25 cents, at the principal office, 137 Broadway, New York, and by the principal merchants and druggists throughout the United States and Canada. dec24

Sellers' Cough Syrup in Illinois.

JUDGE PIERCE, of Middleport, Iroquois county, writes under date of January 17th, 1851, that he has been troubled more or less with a cough for several years, which last year confined him to his bed, and required medical treatment for three months. During the summer he got better, but still the cough continued to distress him by day and night, which was only relieved by the use of "Sellers' Cough Syrup," which a gentleman by the name of Chapin brought with him from the State of Ohio. Mr. Chapin had found the Syrup of great use in his family, and when moving from Ohio, took fifteen bottles with him, a portion of which Judge Pierce obtained and used with great benefit, when other means failed to afford relief.

AULT'S ENGLISH GARDEN SEEDS, &c.

THE undersigned Horticulturists and Seedsmen, from London, having established themselves in Baltimore, Md., take the liberty to inform the gentlemen of Pittsburgh and vicinity, that they would delight to supply them with the leading articles of the kitchen gardens, such as the various kinds of Cabbage, Cauliflower, Brocolli, Lettuce, Radish, Spinach, Peas, Beans, &c. A full assortment is raised for us by our friends near London. It is a fact well known to every gardener of experience, that first rate English Garden Seeds produce in quantity and flavor, incomparably better crops than can be obtained from the best seeds raised in this climate. This remark is particularly applicable to the kinds named above, and the price of our's will be about the same as that paid here for the most common trash. To enable gentlemen to see the difference in quality, without expense to themselves, we have enclosed samples of the principal kinds, which the editors of the Gazette will present to such of their friends (practical gardeners) as they know can and will do the Seeds justice, and at maturity drop us a line informing us of success, &c.

Orders for our Seeds, and remittance, will at all times receive our prompt and best attention. We will send by Adams Express, (or as ordered.) We will furnish them by the ounce, pound or cwt., or put them up to order.
