CELEBRATION OF WASHINGTON'S BIRTH DAY.—Our readers will remember that the members of the Central Association of the Friends of Hungary intend celebrating Washington's Birth Day this evening, at the Rev. Dr. West's Church, on Fifth street, on which occasion John A Wills, Esq., will deliver an oration, the "Farewell Address" will be read, &c. All friends of Hungary are earnestly invited to attend.

THE LATE DISASTROUS FIRE.—We regret to say that the losses by the disastrous fire of last Friday night will be much greater than at first supposed. We give below a list of the various insurances, &c., which will be found as complete and accurate as we could possibly obtain. Had the buildings been, as they were supposed, fire proof, the flames could readily have been confined to the house in which they first originated; but it is said that the partition walls were so thin that the fire was communicated from building to building by means of the joists. The firemen also experienced great difficulty, we understand, in getting water, owing to the fact that the screws with which they are provided in order to fit on the fire plugs and attach their hose to them, did not fit the new plugs—a difficulty which should never have existed, and which ought to be at once remedied.

The length of the rooms which reached from Water to Front streets, rendered a gallery stream almost useless, the water striking the joists without penetrating more than a few feet into the upper stories, while the dense smoke which filled them made it almost impossible to use a side stream. The members of the Neptune and Eagle, however, introduced side streams into the Custom House and the building occupied by T. Woods & Son, to which their preservation from the devouring element is in a great measure attributable. The firemen of every company labored with equal assiduity to preserve the property endangered, and did all that men could do to extinguish the flames in the houses which were burned. This was the first appearance of the Eagle Company for a long time, their apparatus having been out of service since their engine house was burned, but when it was ascertained that the fire was likely to be a serious one, her members took the engine out of the building in which it was stored, and did gallant service.

The Vigilant had just commenced throwing water when one of her axles broke, but the energetic members immediately took measures to have it temporarily propped up, and were in a few moments laboring as efficiently as ever.

LOSSES AND INSURANCES.

The three buildings which were burned, belonged to Messrs. Irwin & Sons, rope manufacturers. The value of each was $5000. The value of the stock in their warehouse was $20,000, $17,000 of which was destroyed. Total insurance $24,000—$16,000 in the North American, and $8000 in the Delaware Mutual Insurance Company. The total loss of these gentlemen will be about $5000.

The value of the stock of Edwards, Morris, & Co., of the Excelsior Novelty Works, who together with Messrs. Campbell & Chess, occupied the building where the fire originated, was $24,000. It was almost a total loss, and was insured for $7,000 in the North American Office, and $7,000 in the Western. Loss $10,000.

Value of stock belonging to Messrs. Campbell & Chess, which was destroyed. $17,000—No insurance.

$4000 worth of tobacco, belonging to Messrs. Hardy, Jones & Co., which was we believe, stowed in the warehouse of Jacob Forsyth, Jr., was destroyed. Insured for $2000 in the Citizens, and $2,000 in the North American.

The stock of Messrs. Armstrong & Crozier, was injured by water, and by removal, to the extent of $1,200—fully insured in the Franklin Company.

Jacob Forsyth, Junior, lost about $1,000 of his stock, on which there was no insurance.

The building owned by Mr. George Ledlie, and occupied as the United States Custom House, was damaged to the extent of about $1,000. Insured in the Franklin Office.

The loss of Messrs. T. Woods & Co., next door to the Custom House, is very trifling.

The losses, as above, amount to $77,200
Insurance on same, 44,200

Total losses to individuals. $33,000

SHOOTING CONTEST.—A purse of $100 was shot for on Saturday last, at Seaburn's tavern, by five marksmen from Washington County, and five from Allegheny County. Each marksman had five shots, 60 yards off hand, in the aggregate, by the Washingtonians 53 inches string; and by the Alleghenians, 69½ inches string.

FIRE.—A frame house in Hayti some distance above Crawford Street, belonging to a widow lady, whose name we did not learn, was burned down last night.

INCENDIARISM.

When the firemen were returning after the flames had been extinguished, it was found that the Clothing Store of Mr. John Ramsley, No. 212 Liberty Street, was on fire. The door was burst in and a plug stream introduced, by means of which the fire was soon put out.

It was then ascertained that some wretch had effected an entrance by the back door, and set the store *on fire in three places*. A pile of cotton batting was ranged upon the floor, on which a desk was set and the whole fired—the batting upon the shelves had also been fired. Mr. Ramsley's loss will be about five hundred dollars, which is covered by insurance in the Franklin Office.

A FREE COLORED BOY KIDNAPPED.—A correspondent of the Philadelphia Sun, writing from Louisville, mentions a case of kidnapping in which the colored boy is said to have been stolen from this City. We know nothing as regards the truth of the statement, but give it in substance as it was communicated to the Sun. Twenty-one kidnappers arrived in Louisville, on the steamer Fersia, from Pittsburgh, on the evening of the 12th, with a lad whom they attempted to sell to a negro trader, next morning. The men with their booty registered their names at the Galt House, where they locked up the boy, for safe keeping. The movements of the men excited suspicion, which led the officers to question the boy. The little fellow, not over anxious to be sold into captivity, pleaded that he was free, and told his story with such apparent truth, that the officers proceeded to arrest the suspicious characters, but they had got wind of the affair and fled the city.

ISMS GOOD PRESS.—We are indebted to Mr. George Stimpson juny. Teller of the Merchants bank of Boston for a very excellent gold pen of his own invention with which he has kindly presented us. It is constructed in such a manner as to contain a little reservoir of ink, which is filled when it is dipped into an inkstand, thus obviating the necessity which exists in common pens of constantly replenishing the ink. The pens of constantly replenishing the ink. The pen itself, possess the elasticity of a quill, and is adapted to all kinds of writing. The handle is provided with a silver case which can be drawn over the pen, thus preserving it from injury when not in use. Altogether it is the best and most convenient gold pen we have seen and we regret that none of our Pittsburgh Dealers have as yet, any for sale.

FYIND.—The Mayor's police on Saturday, took possession of seven drays which were drawn up in the Diamond Market square, contrary to the city ordinance. The owners were

YOUNG LADIES' BENEVOLENT SOCIETY.—The Young Ladies' Benevolent Society of Pittsburgh, would take this opportunity of acknowledging the receipt, from Mr. Hanna, of $500 of the money recently collected for the relief of the poor. During the past few weeks the applications to the society have been more than doubled, principally on account of the report which prevails that this organization has been the chief recipient of the above mentioned fund.—The members wish to correct this impression, and to state, that with the means at their disposal, it has been utterly impossible fully to relieve the hundreds that have applied, and that when their accounts are settled they will not probably be able any longer to continue their work. At the same time, they would tender their hearty thanks to the many benevolent friends, who, during the winter have assisted them by their liberal donations.

INTERESTING CASE.—The case of John Cannon vs the city of Pittsburgh, decided towards the close of last week in the Court of Common Pleas, is one of considerable importance, inasmuch as the same principle applies to a large number of suits brought against the city by the night watchmen, employed by Barker when he was Mayor. At that time our readers will remember, a quarrel existed between Barker and the Police Committee, and both put on watchmen: Cannon, the plaintiff, belonged to Barker's division, and the suit which he brought against the city to recover his wages, was decided against him, thus, the same principles being involved, none of the other watchmen who brought suit can recover, unless the Supreme Court reverse the decision of the Court below.

The following are the points made by T. J. Fox Alden, Esq., plaintiff's counsel, and overruled by Judge McClure:

The Court is requested to charge that if the jury believe that plaintiff was employed by the Mayor of the city of Pittsburgh, as one of the night watch of said city, and that the Mayor had actually exercised the appointing power, either with or without the co-operation of the police committee, and that the defendant served as watchman in pursuance of said appointment, he is entitled to recover wages for his services, as proved.

2d. That the appointment by a Mayor *de facto*, to such office, being for the benefit of the citizens, and binding upon them, at all events until notice of the usurpation is brought directly home to such ministerial officer, and the city receiving the benefit of such services, it is bound to pay what they are reasonably worth.

3d. That the law does not require such inferior officers as watchmen to enquire into the legality of the appointing power, more especially if the same has long been exercised, and only taken away by the enactment of a recent ordinance of Councils, unless the knowledge of that ordinance is brought directly to the notice of such watchmen by the proper authority.

4th. That it was the duty of the constituted authorities of the city, if they wished to discharge themselves from liability for the services of the watchmen appointed by the Mayor, Joseph Barker, to give personal notice to such watchmen that their appointment was suspended, and that by ordinance duly enacted and promulgated, the appointing power, as aforesaid, was taken from Barker and vested in the Police Committee

5th. That although there was a dispute between the Mayor and Police Committee as to the right to appoint watchmen for the city of Pittsburgh, the necessities of the city required an efficient night watch, as well during the precedency of that dispute or struggle for power, as at any time before or since, and therefore the plaintiff having been duly appointed, and having served as a watchman, by the Mayor for the time being, according to former usage of the corporation, he was not to enquire and determine the right to appoint, but if he served, the city received the benefit of such services, and is morally and legally bound to pay therefor.

CHILD LOST.—A little son of Mr. L. T. Upton, constable of the Eighth Ward, was lost on Saturday morning. The little fellow, who is about six years old, was last seen id a wagon going out the Fourth street road. His name is Charley, and he was dressed in a pair of yellow jean pantaloons, brown roundabout and black cloth cap. Any information given to his distressed parents at their residence, in Van Aman street, two doors from the Fourth street road, will be thankfully received.

ARREST.—Information was on Friday sent to the Mayor's Office by a contractor on the Central Railroad, stating that he had been robbed of a purse containing a considerable sum of money, and giving a description of the person whom he supposed to have taken it, and come on to Pittsburgh. The police were at once set to work, and they soon arrested a man named John Zimmerman in a German tavern, on Liberty street. On examination, it was found that he had in his possession a purse similar to the one which had been stolen. Zimmerman had likewise ridden in a sleigh with the Contractor, from Turtle Creek, along the railroad, at the time when the purse was lost. He was committed for further examination.

FIRE.—A fire broke out in a blacksmith's shop near Sligo on Saturday morning, and the building was consumed. Loss trifling.

☞ LIVER PILLS.—No medicine ever earned for itself a higher reputation in so short a time, as has the Liver Pill discovered and compounded by Dr. Mc Lane, of Virginia. Although but a short time comparatively before the public, it has already earned for itself a degree of popularity hitherto unsurpassed. The demand for them has become immense. Messrs. Kidd & Co., the proprietors of the medicine, who reside in Pittsburgh, corner of Fourth and Wood streets, are constantly receiving orders which they find it almost impossible to supply. The popularity of these Pills is not confined to any particular section of the country, the demand being general from the North, South, East and West. The truth is, no disease is more common, in all quarters of the United States than that of the liver. These Pills are the best remedy ever yet discovered for Hepatic derangement. None are genuine unless signed "C. McLane."

Petroleum!

COLUMBUS, Ohio, Jan. 23, 1852

S. M. Kier: Dear Sir—In answer to your inquiry, I am prepared to say, that I have used the Petroleum extensively in the treatment of Diarrhœa and Dysentery, and to greater success than the use of many of the principle remedies formerly used and recommended by the profession. So far as the various diseases of the lungs, for which the Coal Liver Oil has been so highly recommended, I must certify that the Petroleum in my hands has superseded it as a curative agent. In addition to those diseases above alluded to, scrofulous affections and enlargements of the spleen, with the most extraordinary success, have been disposed with.

With these few experimental facts of the Petroleum, I remain, yours truly,

To Contractors, Builders, and Others.

THE SUBSCRIBER is now prepared to take orders for SLATES delivered from his yard at Pittsburgh, or contracts for slating, finishing materials, &c., at work done or materials put on board.

These Slates are of the best quality, none or imperfect, being from the celebrated quarries of H. Fatty, Esq., Bangor, Northampton County, Pa., for whom I am agent. Having the best workmen employed, reference is strongly solicited from the public generally, that I can do my work in a neat and substantial manner, and on as reasonable terms as any other establishment in the country. All work warranted to give satisfaction, or the same will be taken off and removed, at my cost, and satisfactory performance of its work. The establishment, including the power and machinery, Steam Plate, Saws, &c., will be sold low, and on terms to suit purchasers. Enquire of J. S. MIDDLETON, Attorney at Law, Office—South st. Corner Wood.

BOOK CASE FOR SALE—A fine, large Book Case, that will hold about one thousand volumes, will be sold at a bargain, enquire of feb16 WILLIAM & ROBINSON, Third st next door to Bank of Pittsburgh

Seventh Semi-Annual Trade Sale of CARRIAGES.
