PITTSBURGH GAZETTE.

NEVER DESPAIR.

The opal-hue and many perfumed Morn
From gloom is born;
From out the sullen depth of ebon Night
The stars shed light;
Gems in the rayless caverns of the earth
Have their slow birth;
From wonderous alchemy of winter hours
Come summer flowers;
The bitter waters of the restless main
Give gentle rain;
The fading bloom and dry seed bring once more
The year's fresh store;
Just sequence of clashing tones afford
The full accord;
Through weary ages, full of strife and ruth,
Thought reaches truth;
Through efforts long in vain, prophetic need
Begets the deed;
Nerve then thy soul with direst need to cope;
Life's brightest hope
Lies latent in Fate's deadliest fair—
Never despair.

[*Household Words.*

MATRIMONY VS. SINGLE BLESSEDNESS.—Some one who has evidently passed from darkness to light, enumerates the woes of single blessedness (?) and the joys of matrimony as follows:

Single Blessedness.—Sheet-iron quilts, blue noses, ice in the pitcher, unregenerated linen, sleeveless socks, coffee sweetened with icicles, gutta percha biscuit, flabby steak, dull razors, corns, coughs, and colds, rhubarb, aloes, misery, wretchedness, &c.

Matrimony.—Hot buckwheat cakes! warm beds! comfortable slippers! smoking coffee, round arms, red lips, (ahem!) chubby fat babies! etc., etc., shirt emulting in buttons! redeemed stockings! boot-jacks! happiness, &c., &c., felicity.

SOMETHING LIKE A MAN.—The following is a description of the young giant now in Charleston:

We had the curiosity to drop in at the room a few evenings since, and had an interview with the young Nova Scotia giant, Mr. Audrew McKaskell, now exhibiting here. We may now safely assert that we have seen a giant—a real downright and upright, giant worthy to have been a descendant of the great Goliah of Gath. We have heard of Harry O'Brien, who used to light his pipe at a street lamp, and talk in at second story windows, and we have seen many tall persons in our time, but we never had a true idea of a giant until we saw this youth, for he is but 19 years old. He is not only tall, his height being 7 feet 10½ inches, but his frame is immense, and conveys the idea of great strength. Think of a man measuring 2 feet 6 inches round the waist; 2 feet 8 inches round the thigh; 2 feet round the knee, &c. His shoe is 1 foot 4 inches long, and would make a cradle for a tolerable large sized baby.

It is impossible to conceive a more imposing and majestic form than he presents, dressed in the full Highland costume, and with the plume of his bonnet away up in the air. Tall men appear quite pigmies by his side; we measured arms with him and could just reach his elbow; and stretching upward, could only touch his cheek bone with the tip of our finger.

He really is a physical wonder. It is a remarkable fact, that until his fourteenth year he was quite a dwarf, but when he began to stretch out he made up for lost time, and has increased for the last seven years at the rate of two-thirds of an inch per month, and is still growing.

The American Colonization Society will send out on the 1st of May next a ship from Baltimore or Norfolk with emigrants to Liberia. Quite a number are making arrangements to go to her.

SIMPLICITY.—"How admirable," says Raleine, "is the simplicity of the Evangelists! They never speak injuriously of the enemies of Jesus Christ, of his Judges, nor of his executioners. They report the fact without a single reflection. They comment neither on their Master's mildness when he was smitten, nor on his consistency in the hour of his ignominious death, which they thus describe: 'And they crucified him.'"

Beautiful things are suggestive of a purer and higher life, and fill us with a mingled love and fear. They have a graciousness that wins us, and an excellence to which we involuntarily do reverence. If you are too poor, yet pure and honestly aspiring, keep a few of flowers on your table and they will maintain your dignity, and secure for you consideration and delicacy of behavior.

NEW YORK ADVERTISEMENTS.

HENRY WATERMAN'S PATENT HAMMERED SAWS.—The subscriber would call the attention of dealers, and others, to this superior article. By his patent process of hammering, the saw is more thoroughly tempered than it can be by any other method. It is well known to mechanics that these saws are temper according to the usual method and hammered by hand, it is necessary to polish them, thereby grinding of the most serviceable part of the saw. The saws are not polished, and only require a trial to be appreciated. They have already been put to the severest test in some of the largest Saw Mills in this vicinity, and pronounced unequalled. We are now prepared to execute orders for all sizes of Mill, Pit and Circular saws.
